Secretary Lane Is Chosen Permanent Chairman of Industrial Conference

DISAGREEMENT OVER RULES

Caused Adjournment of La-
bor Conference—Lane is
Chairman

To Meet Later in Day—All
Decisions by Unanimous
Vote of Three Groups

Meetings Open to Public and
Press—Rules Attacked by
John Spargo

WASHINGTON, Oct. 7.—Disagreement over rules proposed for governing the industrial conference called by President Wilson resulted in the conference adjourning suddenly today after Franklin K. Lane, secretary of the interior, had been elected permanent chairman. It planned to meet again at 2:30 o'clock this afternoon.

As proposed by committee, the rules provided that all conclusions and decisions must be arrived at by unanimous vote of the three groups representing capital, labor and the public, while the decision of each individual group would be by a majority of the members of that group. The rule was attacked by John Spargo of New York, a delegate representing the public.

Mr. Spargo declared the conference might as well adjourn if the provision of the rules was adopted whereby a majority vote of any group was necessary before a member of the group could introduce any subject for discussion. Such a rule, he asserted, hindered especially the public group, which was not composed of delegates representing a homogeneous interest like the labor group, but contained men and women of diverse activities. He objected particularly because, he said, there was no provision for minority expression.

Thomas L. Chadbourne of New York, replying for the committee, declared the provision was believed necessary to obtain effective action instead of debate.

On motion of Frederick P. Fish, of the employers' group, the conference adjourned to allow each group to consider the rules separately, the employers voting solidly on the motion and the public and organized labor groups dividing.

Other provisions of the rules reported by the committee were that the meetings be open to the public and the press and that there be two daily sessions, from 9:30 a. m. to 12:30 p. m. and from 2:30 p. m. to 5:30 p. m. It was expressly stated that there should be no meetings on Sundays.

Secretary Lane told the conference the news from the White House was that President Wilson might be able to address the delegates before they adjourned.

Last Call

The final appeal to the merchants and general public of the South End for subscriptions to the fund for the celebration to be given the service men is hereby announced. If you have not already subscribed and intend to do so, kindly send donations to the treasurer.

CHILD FATALLY INJURED TO EXTRADITE COUNT BISMARCK

Was Struck by Auto That
Mounted Sidewalk and
Smashed Store Window

Dorothy Lyon, aged 4 years, daughter of Mr. and Mrs. William Lyon of West Andover, died at St. John's hospital this afternoon as a result of injuries received in an automobile accident, which occurred in Bridge street, near Merrimack square, shortly before 1 o'clock. Mrs. Lyon, who was with the child at the time of the accident, received a sprained ankle and abrasions about the body, but her condition is not serious.

According to witnesses of the accident the little girl and her mother were struck by an automobile operated by Percy D. Smith of 41 Prospect street, Methuen. Mr. Smith, who was driving a Packard touring car, had just turned into Bridge street from Merrimack square and was proceeding at a fairly low rate of speed, when a Highland-bound electric car made its appearance. At that moment several persons, including Mrs. Lyon and her daughter, left the sidewalk to board the car and although Mr. Smith applied the brakes his car was not brought to a stop until the child was run over and the mother knocked down. The operator of the machine then became confused and the machine took the sidewalk and ran into the window of Fairbairn's market, smashing the large plate glass.

Traffic Officer Edward Connors rushed to the scene and after commanding Daniel Miller's automobile he rushed the unconscious child to St. John's hospital, where it was found that her chest was badly crushed. She passed away shortly after her arrival at the institution.

In the meantime the ambulance was called and Mrs. Lyon was taken to St. John's hospital, where it was stated later that her injuries were not of a serious nature. Mr. Smith, the driver of the car, was later taken to the police station by Officer Connors. A charge of manslaughter will be preferred against him. The child's father, Mr. William Lyon, is employed at Fairbairn's market and was selling fruit within two minutes' walk of the accident when his daughter was fatally injured.

POLICE APPLICANTS

CITY OF BOSTON POLICE FORCE NOTICE

The Civil Service Requirements have been changed. The Examining Board will sit daily at Kingsley Hall, Ford Building, Ashburton Place, Boston, from October 6 to October 11, inclusive, from 9:00 A. M. to 5 P. M. Applicants must be between the ages of 22 and 35 years, not less than 5 feet 7 inches in height and 135 pounds in weight. All citizens of Massachusetts are eligible, but Veterans must be given preference under the law.

Pay \$1400 for the first year. First uniform furnished free. Liberal pension system.

LADIES' NIGHT TONIGHT AT THE Y. M. C. I.

TO EXTRADITE COUNT BISMARCK

Lille Authorities Demand
Germany Give up Grand-
son of Famous Chancellor

Accused of Having 14 In-
habitants of Vicoigne Shot
as Example

PARIS, Oct. 7.—The extradition of Count Otto Bismarck, grandson of the famous German chancellor, has been demanded of the German government at the instance of court martial authorities at Lille, according to the correspondent of the Excelsior. Eight other Germans are also to be extradited, the writer states.

Count Bismarck is accused of having had fourteen inhabitants of the village of Vicoigne shot as an example, and of burning houses there. Similar charges are preferred against the others.

The newspapers announce that the lists of German officials and other persons to be delivered to the allies for trial are now practically ready for submission to Germany. The papers point out that the lists do not contain the name of the former emperor of Germany, who is to be dealt with separately.

Omission of the name of the former German monarch has no significance since the peace treaty makes a clear distinction between "William II, of Hohenzollern, formerly German emperor," whose indictment for "a supreme offense against international morality and the sanctity of treaties" is contained in one article, of the treaty and persons accused of having committed acts in violation of the laws and customs of war whose surrender and trial are provided for in another article. In the final protocol signed at the same time as the treaty, it was provided that the lists of individuals whom, according to the second article, Germany must surrender for trial, should be sent to Germany within a month after the treaty came into force by ratification of three great powers.

The surrender of the former emperor is, according to the treaty, to be demanded from the government of The Netherlands, not Germany, and his trial is to take place before a special international tribunal, not a court martial.

Maj. Gen. Wood in Com-
mand of 1100 Troops—
Reinforcements Coming

GARY, Ind., Oct. 7.—Gary, site of one of the United States Steel Corp's greatest plants, today was under control of 1100 federal soldiers, commanded by Maj. Gen. Leonard Wood. Five hundred more troops fresh from riot duty at Omaha, Neb., were on their way.

Governor Appeals for Troops
The call for federal troops was made by Gov. Goodrich of Indiana, when thousands of strikers paraded and held mass meetings, although forbidden by

MAY DISCONTINUE THE TYNGSBORO LINE

Unless the town of Tyngsboro provides sufficient money to make up the alleged deficit in operation expenses, the car line between that town and North Chelmsford will be discontinued on Nov. 1.

This ultimatum was delivered in letter form today to O. L. Wright, chairman of the board of trustees of the Eastern Massachusetts (Bay State) Street Railway Co. The letter states that the trustees have found that the line in question is steadily losing money and that its operation cannot be maintained unless the town finds ways and means of making up the deficit.

The amount of deficit is not named, nor does the letter intimate whether or not this will be a yearly occurrence. It simply states the case and postpones any final ruling until Nov. 1 unless the trustees "come across."

This line has been a regular rum on the Bay State division for some years, half hour time being the running schedule as a rule. Before automobiles came into most common use it was heavily patronized by Yepper Country Club members as well as Tyngsboro people.

PRES. WILSON CONTINUES TO IMPROVE

WASHINGTON, Oct. 7.—President Wilson continues to improve and he is eating and sleeping well, according to a bulletin issued at 11:25 a. m. today by Rear Admiral Grayson, Rear Admiral Ruff and Dr. Sterling Ruffin.

The bulletin follows:

"The president's improvement has continued. His appetite is decidedly better and he is sleeping well."

Rear Admiral Grayson will keep the president in bed for a time yet, despite his desire to attend to official duties.

Messages of sympathy continued to reach the White House today.

King's Sympathy

LONDON, Oct. 7.—King George today sent his private secretary, Col. Oliver Wigram, to the American embassy to seek the latest news regarding President Wilson's condition. Col. Wigram was instructed to express the king's sincere sympathy with President and Mrs. Wilson.

Cincinnati Reds Need But One More Victory to Win the World's Championship

CINCINNATI, Oct. 7.—Cincinnati today greeted her returning victorious baseball team and expected to complete the world's series of 1919 at Redland field this afternoon.

The victories of Moran's men at Chicago only added to the enthusiasm that was displayed here during last week and today's attendance was expected to be greater than ever, if possible. Indications were for fair weather, although the torrid days of last week hardly could be expected.

Announcement from Chicago that Moran would work Weather today led most of the fans here to believe that

REPORT ITALY RATIFIES TREATY

King Signs Royal Decrees
Ratifying German and
Austrian Treaties

Ratification Virtually Com-
pletes Steps to Put Treaty
Into Effect

PARIS, Oct. 7.—(Havas)—King Victor Emmanuel of Italy signed a royal decree ratifying the German and Austrian treaties yesterday, according to a Milan despatch to the Eclair.

Ratification of the German treaty by decree of the king of Italy virtually completes the steps necessary for putting it into effect. The British parliament has ratified it and it awaits ratification by the last of Great Britain's dominions to net upon it, the Australian commonwealth, before becoming binding upon Great Britain. Approval was given by the French chamber of deputies last week and the senate is expected to take similar action on Friday or Saturday. Italy is the first power to ratify the treaty with Austria.

No confirmation has been received of the report printed in the Eclair that the royal decree has been issued.

French Senate Acts

PARIS, Oct. 7.—The senate meets this afternoon to begin consideration of the German treaty.

Leon Bourgeois, chairman of the peace commission of the senate, delivered the report of the commission on the treaty to the senators this morning. The report called for immediate and unanimous ratification.

The National Union of General Workers, which is the A. F. of L. of England, reports a membership of 44,975, including 29,562 added in the last three months.

As the Twig is Bent

DIED AS RESULT OF GAS POISONING

Private Arthur Allen of Camp Devens, who was found unconscious in a room in Third street Sunday afternoon as a result of gas poisoning, died at St. John's hospital late yesterday afternoon and later after Medical Examiner T. H. Smith had viewed the body and reviewed the circumstances surrounding the case, he stated that the patient's death was accidental.

Allen, who was on a brief furlough in this city, called at 15 Third street Sunday evening and hired a room for the night, informing the keeper of the house that he did not wish to be disturbed in the morning as he was desirous of a rest. Sunday afternoon at about 3 o'clock Allen was found in an unconscious condition in his room. The windows of his room were open and gas was coming from the jet in the chamber. The police plumber was put in action and later the young man was removed to the hospital. The body was removed to the funeral parlors of Undertakers M. H. McDonough Sons.

READING MAN PLEADS GUILTY OF BIGAMY

Charged with bigamy, Floyd B. Richardson, formerly of Reading, but who for some time has been living on Third street, this city, pleaded guilty in police court today and was held in \$750 for disposition until Saturday.

According to the police Richardson

was married in Reading in October, 1912, and afterwards deserted his wife and came to Lowell. He is said to have married Dorinda H. Birchenough in Lowell in August, 1913. His first wife's maiden name is given as Alice M. Heselton.

City Finances in Spot Light

Continued

He didn't get it, but did succeed in having it put over until Thursday morning when the council will meet to approve bills.

Commissioner Murphy then introduced another order, to borrow the sum of \$20,000, to be payable in 10 years, for block and other permanent paving and gave the work at the Pawtucket bridge and Thorndike street as his reason. While Mayor Thompson declared himself unalterably opposed and wished to have it settled today once and for all, the other commissioners voted to also lay that order over until Thursday. Just previous to the introduction of that order, the city auditor had informed Commissioner Murphy that the city was \$36,624.45 away from the limit of its borrowing capacity.

Meeting In Detail

The council convened at 10.45 with Commissioner Marchand absent. He came in shortly afterward.

A hearing was granted McNabb Bros. on their petition for the erection of a garage and the keeping of gasoline at 164 Perry street. There were no remonstrants and the matter

ABOUT RHEUMATISM

What Thousands Have Found Gives Relief From This Painful Trouble.

Rheumatism is a constitutional disease, manifesting itself in local aches and pains, inflamed joints and stiff muscles. It cannot be cured by local or external applications. It must have constitutional treatment.

Take a course of the great blood-purifying and tonic medicine, Hood's Sarsaparilla, which corrects the acid condition of the blood on which rheumatism depends, and gives permanent relief. This medicine combines, with excellent alteratives and tonics, what is generally conceded to be the most effective agent in the treatment of this disease.

If a cathartic or laxative is needed take Hood's Pills. Purely vegetable.

was referred to the proper commissioner.

The petition of Bernhardt and Miller for garage and gasoline license at 548-550 Moody street was set for a hearing on October 23.

A petition for concrete sidewalk and edgework in front of the premises at 28 West Forest street was referred to the commissioner of streets and highways.

A claim against the city in the sum of \$260 for alleged damage to his automobile from Thomas Histon, 40 Valley street, Lawrence, was referred to the law department.

Heen Connelly was appointed a licensed weigher for Columbia Fuel Co. Hearings were set for October 11 on the petitions of the Lowell Electric Light Corp. for the erection of four poles in East Merrimack street and two poles in Pawtucket street.

A hearing was set for October 21 on the petition of the Lowell Electric Light Corp. for the erection of one pole in Varney street.

The Lowell Electric Light Corp. was granted permission to erect and maintain two poles in Riverby street and to lay and maintain underground conduits in Jackson street.

The council voted to release the Eastern Massachusetts Street Railway Co. from all obligations in connection with damage done to a city ambulance by an electric car, the amount of money involved in the bill presented being at hand.

Auditor's Communication

Mayor Thompson read the communication from City Auditor Hennessy and then Commissioner Marchand asked that the former be asked to appear before the council as there were two or three questions he wished to ask.

In a resume of the communication, Mr. Hennessy said:

"The city auditor after a careful study of all conditions would advise for the present at least that no sums in excess of \$50,000 be appropriated from the general treasury fund for any municipal purposes."

"The estimated revenues of 1919 are in a sound state. The \$30,000 suggested as the limit amount to be appropriated in any cause represents the approximate total of excess unappropriated, unestimated revenues paid and to be paid into the general treasury fund of the city."

"There is a 'bank deficit' of \$43,937.02 caused by the expenditure of such an amount by the water department for 1918. In excess of the amount appropriated for the department. This amount already has been paid from the cash of the city. However, it is not

CEDAR CHESTS

We have just received a shipment of a car load of Cedar Chests. These are now on sale.

Since the factories manufacturing good Cedar Chests have oversold, way beyond their power of production, this will probably be the last opportunity, this year, to obtain a really genuine Cedar Chest at 25 per cent. below the market value.

The Store of Values 82 Prescott Street

possible to make good this deficit by 1919 revenues.

"There can be only meagre expenditures of unappropriated, unestimated revenues of the city by the municipal council until the water department can pay back to the general treasury this sum of \$43,937.02."

Commissioner Marchand asked Mr. Hennessy if it would have made any difference if the money at the first of the year had been borrowed all in one lump sum.

"That is simply a matter of financial expediency," replied the auditor. A long term note may be more efficacious and might save a little in the long run, both in money and time and other."

The auditor also said that up to the present time this year \$2,200,000 worth of loans has been discounted against \$1,200,000 last year and that the city this year prior to July 1 borrowed \$150,000, six months interest on which must be paid this year.

Mr. Murphy asked if it would be permissible for the council to authorize the public auditorium commission to pay their own interest on the loan of \$149,000 out of money obtained by selling property in East Merrimack street.

"You are confronted by the law of 1916," said the auditor, "which says that all moneys, no matter from what source they come, shall be turned into the city treasury. In my opinion the council acted contrary to this law when it authorized the auditorium commission to retain all revenues."

The mayor reminded the city auditor that the council acted on that matter at the advice of the city solicitor and Mr. Hennessy replied that it was his personal opinion against that of another man.

Asked Reconsideration

Commissioner Murphy then asked the council to reconsider his order for the appropriation of \$56,000 for street maintenance, saying again that it was vitally necessary for his department to have this money to exist.

"I would like to ask the commissioner," said the mayor, "where he expects to get \$56,000 when the city auditor has just told us that the limit appropriation must by necessity be limited to \$30,000."

"I realize that I cannot get blood from a stone," replied the commissioner, "and I regret very much that there is only \$30,000 left. I have every respect for the auditor's statement, but it is impossible for me to do the work necessary this year with the amount of moneys I have had at my disposal. It is not a question of politics or giving work to men when there is no need. The work is there to be done and the money is lacking, that's the whole situation. I would move that the order before you be changed to read \$30,000 instead of \$56,000."

"I cannot bring myself to believe," said the mayor, "that any one department should be given the whole of what may be left. In all fairness to the other commissioners and myself, other needs are just as urgent as yours, Mr. Murphy, and if this \$30,000 is to be appropriated it should be evenly divided among us. Mr. Morse says he must either buy horses for the fire department or a new piece of motor apparatus. The floor at the police station must be fixed, school boilers have had to be repaired and the department of dependent mothers, which comes under my jurisdiction, may call for more money. All these things

Would Borrow \$20,000

Just as Mayor Thompson asked for an adjournment motion, Mr. Murphy announced that he had another interesting order to submit.

It was an order to borrow the principal sum of \$20,000 for block and other permanent paving and he gave as his reason that he wished to complete the Pawtucket bridge job and do some work in Thorndike street.

Mayor Thompson said that if those were the only reasons he could give, he, the mayor, was unalterably opposed to a consideration of the order as its passage meant the city would be only \$16,000 from the borrowing limit, which in his mind was altogether too close for comfort.

Commissioner Donnelly moved that the order be laid over until Thursday

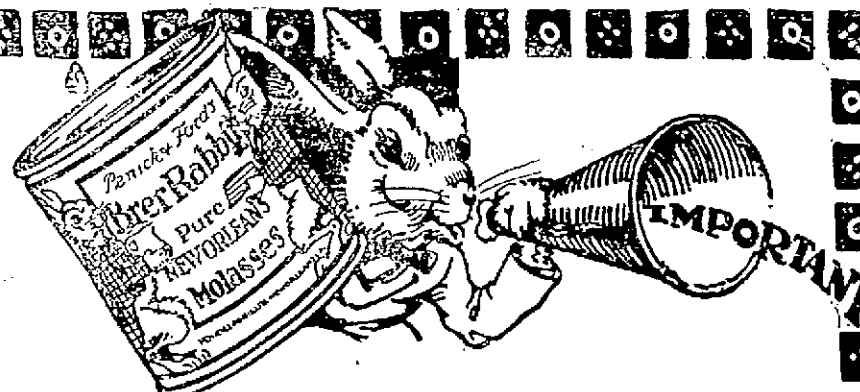

to be considered then, but Mayor Thompson expressed a wish to settle it now. "I will not be any more ready to sanction sue than order on Thursday than I am today," he said "and I believe the matter should be settled now."

It was put to a roll call vote, however, and the four commissioners voted to hold it over, the mayor voting in the negative.

The meeting adjourned at 12 o'clock to Thursday morning at 9 a. m.

WOMEN'S CLUB OPENS WINTER SEASON

The Middlesex Women's club commenced its season yesterday afternoon in a manner which forecasts a year of mutual profit and splendid sociability. The new club president, Mrs. Walter C. Perham, presented her opening address which was enthusiastically received by the members. Colonial hall was attractively decorated in autumn colorings and foliage made an appropriate background for the receiving party. An interesting report of the state federation meeting was made by Mrs. C. F. Harris.

At the reception and luncheon which followed the meeting, the following women received with Mrs. Perham: Miss Olive S. Parsons, Mrs. C. F. Harris, Miss Jessie Hadley, Miss Julia Pevey, Miss Bertha M. Abbott, Mrs. Moses Marks, Mrs. Boyden Pillsbury and Miss Esther Elliott.

Mrs. Perham's address contained a prophecy of a year of great activity and included the following outline of the season's program:

"October 20, Hon. Maurice Francis Egan will lecture on the subject, 'Embarrassing Moments in the Life of a Diplomat.' Dr. Egan served as minister to Denmark under Presidents Roosevelt, Taft and Wilson. (1907-1913). He was finally obliged to retire on account of ill health. With Denmark 'the whispering gallery of Eu-

rope' he was able to know more international intrigues than most diplomats. He is also known as poet, critic and novelist. His recently published book, 'Ten Years Near the German Frontier' is being widely read.

"October 24, we are to have the honor of entertaining the presidents' conference. The meeting will begin at 1.45. Each club in the Federation is entitled to be represented by its president, one member of its executive board and one club member. The plans of work, laid out by the chairmen of the various departments, will be presented. As this will be the first conference with Mrs. George Minot Baker as president, an informal reception has been arranged, in order that all may have an opportunity to meet the president of the federation. The members of the hostess club will have the privilege of attending this conference after provision has been made for the

CATARRHAL DEAFNESS MAY BE OVERCOME

If you have Catarrhal Deafness or head and ear noises or are growing hard of hearing go to your druggist and get 1 ounce of Poslam (double strength), and add to it 4 pint of hot water and a little granulated sugar. Take 1 tablespoonful four times a day. This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucus stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Anyone who has Catarrhal Deafness or head noises should give this prescription a trial.—Adv.

visiting delegates. All members of the council, chairmen of departments and members of committees are especially urged to be present.

"The Educational Department, Mrs. Charles H. Hobson, chairman, is planning for a course of lectures on 'Citizenship.' The first lecture will be on October 27, by Mrs. Herbert J. Gurney, on 'Women and Government—Preparation.'

"November 3, Christopher Morley of the editorial staff of the Philadelphia Public Ledger will speak on the 'Domestic Muse.' Mr. Morley is the author of 'The Haunted Bookshop,' 'Parasus on Wheels,' 'Shandygoff,' and was a Rhodes scholar at Oxford. Incidentally Mr. Philip Gibbs in his article 'Some People I Met in America' in the September Harper's undoubtedly refers to Mr. Morley when he says: 'One young man, once a Rhodes scholar at Oxford, boarded the train at New York, bought me a drawing room for private conversation and by the time we reached Philadelphia made it entirely futile for me to give a lecture, because he had all in his memory, and wrote the entire history of everything I had seen and thought through years of war, in the next day's paper.'

"On Nov. 10 the novelist, Hugh Walpole of London, author of 'The Secret City,' 'The Dark Forest,' 'The Duchess of Wrex,' will lecture on 'Modern Novelists and the Present School of English Fiction.'

"Nov. 17, there will be a concert of chamber music by the American

string quartet, called the Flonzaleys among women artists.

"Nov. 23, occurs the centenary of the birth of George Eliot. The literature department, Miss Esther Elliott, chairman, is planning to observe this event by a resume of her life and works. Interesting papers will be prepared also a review of some of her most noted books. Also under this department, Rev. Alfred Rodman Hussey is

Sciatic Pains Quickly Relieved

Keep Sloan's, the World's Liniment, Handy to Alleviate Aches.

Thousands of men and women, when the least little rheumatic "crick" assaults them, have Sloan's Liniment handy to knock it out. Popular a third of a century ago—far more popular today.

That's because it is so wonderfully helpful in relieving all external aches and pains—sciatica, lumbago, neuralgia, overstrained muscles, stiff joints, weather exposure results. A little is all that is necessary, for it soon penetrates without rubbing to the sore spot. Leaves no muss, stained skin, clogged pores. A bottle today is a wise precaution. Keep it handy. All druggists—35c, 50c, \$1.00.

Sloan's
Liniment
Keep it handy

to give us a lecture on 'The Drama.'

"Dec. 5, second lecture on Citizenship, by Mrs. Herbert J. Gurney.

"Dec. 15, Jane Manner of New York will give dramatic reading of three one-act plays, viz: 'The Will' by James Barrie; 'Tollers Wife' by Cosmos Hamilton; and 'Kitty Clive' by P. Frankfort Moore.

"Dec. 23, Charles Theodore Carruth will give an illustrated lecture on 'Framing.'

"January 5, Mid-year reception.

"Jan. 12, John Livingston Lowe, professor of English in Harvard university, will lecture on 'The Fine Frezy and the Quiet Eye—a Study in Poetic Inspiration.'

"March 15, Percival Chubb, educator, author, critic and leader of the Ethical society of St. Louis, will lecture on 'The Drama and the Theatre in Relation to the Community.'

"John Finley, formerly of the College City of New York and now head of the commission of education, state of New York has agreed to lecture some time during the season, as has also Dr. William Norman Guthrie, poet, essayist, university lecturer and rector of St. Michael's church in the Bowery, New York.

"There is also promised a demonstration in cooking by Miss Alice Bradley, principal of Miss Farmer's school in Boston.

"We hope to have more Lenon organ recitals and one club talent musical, besides two concerts in the late winter and early spring."

LOWELL POST OF THE AMERICAN LEGION

Great preparations are being made for the special meeting of the Lowell Post, American Legion, to be held in the state armory on Thursday evening of this week for the express purpose of electing delegates to the state convention. At a meeting of the post last night at the Community Service club several important matters of business were taken up, but the most important by far was the preparation for Thursday's meeting.

A motion was passed which will regulate the manner of voting for a choice of delegates. Nominations will be made from the floor and ballots with spaces for 25 names will be distributed. The votes will be counted by a committee of 15, appointed by the chair. The nominee with the largest number of votes will be the first delegate, the nominee with the second largest number the second delegate and so on to the 15th in size of vote, who shall be the first alternate. The remaining nine will rank as alternates according to their position in the list. The local post is allowed one delegate and one alternate for every 100 members.

The meeting voted to pay the expenses of delegates to the Worcester convention at a rate of not exceeding \$5 a day, exclusive of railroad fares. Whether Lowell Post will send 20 men or just the 10 delegates will be decided at Thursday night's meeting.

The entertainment committee reported on its attempt to secure Associate

hall for a ball on the evening of Armistice day, Nov. 11 and recommended that the date be changed to Nov. 13, the evening before. The question of parading in the South End celebration also will be considered Thursday evening.

In Chicago a certain saloon displayed for years a large sign reading "Free beer tomorrow." Those who read the sign Monday and asked for a free drink Tuesday were requested to read the sign again.

ALL VICTIMS OF ECZEMA'S ITCH NEED POSLAM

It is Poslam's mission to relieve itching eczema's cruel distress and to restore disordered skin of slightness and health. Comfort comes as soon as it is applied to the sore places. Its concentrated healing power quickly shows. Each day should mark distinct improvement. So effective is Poslam for eczema, rashes, pimples, scalp-ache that just a little of it goes far, does much and lasts long. It's quality that counts.

Sold everywhere. For free sample write to Emergency Laboratories, 243 West 45th St., New York City. Urge your skin to become fresher, clearer, better, by the daily use of Poslam Soap, medicated with Poslam.—Adv.

STEAMER RAMMED BY SUB—300 SAFE

NEW YORK, Oct. 7.—Quick action by the crew in closing the watertight "collision bulkhead" of the steamer Lexington last night prevented a possible loss of life when the craft was rammed by the United States submarine O-7 in the treacherous waters of Hell Gate Channel, in the Upper East river.

The Lexington, a Colonial Line steamer, was bound for Providence with 300 passengers, when, according to passengers, the submarine, which had been maneuvering on the surface, suddenly headed across her bow.

There was a crash, the steamer quivered, and there was a sensation of "sliding backward." Many of the passengers were thrown off their feet. Women screamed and men cried for help.

There was a general rush for life preservers as the submarine backed away. The crew were standing by the lifeboats, but Capt. Gray and his officers, after a quick inspection of the jagged semi-circular hole of 15-foot radius, said three of her plates above the water line had been stove in.

On board the submarine there were about 30 men under command of Lieut. Commander Juckin. Ensign James Boyce was the only man injured. His arm was crushed so badly that it was necessary to take him to the hospital on Blackwell's Island. The submarine was uninjured and was taken to the Navy Yard by a navy tug.

Lieut. Commander Juckin in describing the accident said:

"We were proceeding down the East river, bound for New York from New London. Something went wrong with the steering apparatus of the O-7 a minute or so before the collision occurred and we were powerless to control her. We tried to prevent the accident by reversing the engines, but

DANGER AHEAD! LOOK OUT!

Colds and Grippe frequently leave you with weak kidneys, and aching back. The kidneys get overworked fighting off a cold or a contagious disease. When they slow up, and don't perform their duties, look out, there is trouble brewing.

Kidney and bladder troubles are dangerous, and should not be neglected; if you are compelled to arise from your slumber once or twice during the night, it proves that your kidneys are affected and bladder irritated, and if you will take from 10 to 20 drops of SEVEN BARKS in a little water after meals, you will correct the alkalinity of your secretions, thus giving you undisturbed sleep and peaceful rest, preparing you for your next day's duties.

If you feel dull, irritable and nervous, have headaches, sore or enlarged joints, irregular kidney actions, you should give the kidneys quick relief by taking SEVEN BARKS, which will not only relieve the kidney trouble, but keep your stomach in good condition and your liver active.

Don't neglect your kidneys trouble with first symptoms. You will be sorry if you do—it's too serious a matter. Get SEVEN BARKS of your druggist. Price, 50 cents.—Adv.

the strong tide carried us on and sent us into the bow of the Lexington."

Capt. Gray's version was that he was proceeding up the East river, when he sighted a railroad float between Ward's Island and the Astoria shore, about opposite 89th street, Manhattan. He slowed down to permit the float to cross his bow and was about to proceed when the O-7 appeared directly ahead, coming bow on. She was riding on the surface at the time, but with her steering gear useless she was at the mercy of the strong tide.

The Lexington proceeded under her own steam to a wharf on the Astoria side of the river, near the 92nd street ferry. There most of the passengers were landed. The captain decided not to try to make Manhattan last night, but said he would wait until daylight, when, with the aid of tugs, he would return to the ship's usual pier.

Ensign Joyce and three other sailors on the deck of the submarine were thrown overboard as a result of the impact. They were picked up by two tugs which, with a score of smaller craft, had put out to the Lexington.

AMUSEMENT NOTES.

KEITH'S THEATRE

With a stage setting of more or less elegance, in fact, much too pretentious for an ordinary shoe store, Kayenne Whipple and Walter Huston present "Shoes" as the top-line offering at Keith's Theatre this week. We venture to say that such a stunning shoe store should rightly be termed a hootery, the latter being symbolic of the ultra-fashionable. The act itself is most disconcerting, inasmuch as it concerns with little else, apparently, and then turns about and travels along an entirely different path. At the outset it looks like comedy, especially when Mr. Huston takes the stage to himself and a stuttering clerk, but later in comes Miss Whipple, not hard on the eyes and she completely changes the complexion of things. Lowell people will remember Huston, he smokes a cigar. Not that that is his only distinguishing adjunct. He will be remembered as the singer of "I Haven't Got the Do, He, He, He" and again on this visit he sings a similar tune about "I've Got a Good Job Now," letting his voice into the theatre at the end of each line. This new job he sings of is selling women's shoes, measuring, fitting, and so forth. Tozer, Mr. Huston and Miss Whipple switch the theme of the vehicle over to another track, one which runs through every day life and is traversed by folks wearing the shoes of wealth, success, happiness and sorrow. It is all to one end, entertainment.

No more versatile act has been seen in the city for some time than that of the Four Meyocks, three Japanese children and their father, who simply introduces them and arranges the act. The girls, there are two of them, are splendid acrobats, doing all of their stunts on their hands. They move in perfect unison and really accomplish several things far removed from the usual run. From acrobatics they turn to string music and are joined by their brother, a plump fellow who has a delightful lisp in his struggle with the English language. Also, they sing and dance particularly well, the girls appearing at least 10 per cent. American.

J. Keith Brennan and Bert Kule, familiar to music lovers as popular song writers sing some of their own tunes in their own way and it is a way which hardly may be improved upon. If they wrote the songs themselves, then they ought to sing them well, you say. Granted, but they, even a step beyond and sing them very well, particularly the one which tells of a trip down the Mississippi from its source to New Orleans. They will be

THE LLOYD GEORGES ARE COMING

LONDON.—It isn't royalty alone that is coming to America, for here is the chief of British democracy, David Lloyd George, who is planning to visit the United States with his wife as soon as things quiet down in England.

heartily received during their week's visit.

Music from all sorts of oddities is furnished by Charlie Semon. He plays a hat rack, a calabash pipe, swiveling ukuleles and a bazo. The last named is a funny looking bird and gives forth wheezes and coughs much similar to a disgusted motor. Charles is slender and tall and adds a makeup to accentuate his flat-like appearance. He has been with us before and probably will be again.

Cousins Verona stars the program in motion. It's a good start, too, much better than the usual shove given by those picked to first bask in the spotlight's rays. The countess, who carries a gypsyish look, plays a cymbal. The instrument at first glance might well be something else, but she has named it cymbal and so it stands. It is played with strikers as a xylophone and produces pleasant, even though quaint, harmony.

Two Johnsons and a Baker scale hats about the stage and juggle. Indian clubs with rare skill. The "hoob" of the act turns out to be the star performer as is often the case. They are extremely clever. Maude and Marian Dunn sing and dance and one portrays stage celebrities, past and present. They were handicapped somewhat yesterday by the absence of some costumes, due to tardy arrival of trunks, but were cordially received nevertheless.

A Bruce Scenic picture is shown as

well as Keith's News Weekly showing current happenings. The Tooles of Day, as usual, reprint a lot of the best clippings from prominent periodicals.

THE STRAND THEATRE

Patrons of the Strand theatre who attended yesterday's performances were elated with the two new productions, which head the bill at this popular house for the first three days of the week. They are "The Wolf," featuring Earle Williams in the title role, and "The Splendid Sin," with Madeline Travers in the leading part. In addition to these two splendid plays there is a first class comedy as well as a very interesting and instructive series of scenes of current events. All in all the bill is most enjoyable and reflects great credit upon the management.

"The Wolf" is a story of the Canadian northwest depicting Jules Beau-bien, a man peculiar in his manners, but a man who is a clean and vigorous and superb in his environment. When he learns that the half-breed girl, fiancée of his friend Baptiste, has sought death as a relief from the tangled love of the Wolf, he sets himself on the trail of vengeance and follows the Wolf to a lonely spot in the mountains and in the face of night engages in a life and death struggle.

"The Splendid Sin" deals with the story based on Lord and Lady Chatham's desire for a child and in finding an heir by Lady Chatham, in the illegitimate baby of Lord Chatham's sister, who is taken by Lady Chatham as her own after the death of the child's mother. This action on the part of Lady Chatham is mostly to protect the name of the mother of the baby and shield the child of a stigma. The scheme is so well worked out that even the absent husband, Lord Chatham, is deceived when he returns to his home. The story is very interesting.

An announcement of great interest was made yesterday when it was stated that Wednesday, Thursday and Friday a Fur Revue, Thursday and Friday a Fur Revue, local furrier, Miss Rose G. Galsie, local furrier. This promises to be a real novelty. The fur will be furnished by Miss Galsie, while the Galsie company will furnish the suits. Miss Susie Thorpe will look after the millinery. A real treat is in store for the women folks of this city.

SOUTH END NIGHT AT LOWELL OPERA HOUSE

With a brief address by His Honor, Mayor Percy D. Thompson, in which he outlined the program of the forthcoming South End celebration, followed by Daniel Cosgrove, chairman of the committee on arrangements; three entertainment numbers by Lowell players, and a closing song, remarks by Uncle Sam called; and a splendid presentation of William Vaughn Moody's great drama of the west, "The Great Divide," by the popular Lowell players. "South End" Night at the Opera House proved a most enjoyable event for the large audience who filled this spacious playhouse to capacity last evening. Incidentally it helped in a large measure to swell the fund for the coming celebration, as the management turned over one half of the gross receipts of the day's business to the committee at the close of the evening performance.

"The Great Divide," in which Henry Miller appeared in this city several years ago, needs no introduction to local theatre-goers. Thrilling with emotion, pregnant with dramatic moments, and with an absorbing love story running through it, it depicts a picture of the mountains and valleys of the far away Rockies is one which, once seen, can never be forgotten. It was a real treat to witness it. If one should attempt to rehearse the story here, suffice it to say it is a thrilling picture of life in the far west, where the runs hot, and men count no cost too

Your Children Need Laxative!

The children need your closest attention, especially after "stuffing" themselves with sweets, etc., at a party or the like!

They are liable to get up in the morning complaining of cramps, bad tasting mouth, liable to have puffed eyes, from restless sleep, feverish and cranky; distempored and whimpering. Act promptly. Give them a dose of Dr. True's Elixir, the Family Laxative. Only the purest of herbs are used—no harmful drugs—and will relieve pleasantly the ordinary cases of children's illness, constipation, worms, etc.

Symptoms of Worms: Constipation, deranged stomach, swollen upper lip, sour stomach, offensive breath, hard and full belly, with occasional gripings and pains about the navel, pale face of leaden tint, eyes heavy and dull, twitching eyelids, itching of the nose, itching of the rectum, short dry cough, grinding of the teeth, little red spots sticking out on the tongue, starting during sleep, slow fever.

Mrs. Wm. B. Fowler of Caddo, Oklahoma, wrote regarding Dr. True's Elixir: "We have used it for our children for the last 12 years, and certainly know the value of it."

Three times. AT YOUR DEALERS.

Too Ill to Work

Scores of Women

in homes, stores, offices and factories are not fit to be at work. They toil on day after day and year after year suffering with distressing weaknesses and derangements, hoping against hope that they will soon feel better, but how can they hope to do good work or escape permanent invalidism?

Such women are in danger of derangement of women's functions. They owe it to themselves to try that good old fashioned root and herb remedy Lydia E. Pinkham's Vegetable Compound, which for more than forty years has been restoring American Women to health and strength.

Here is a Notable Example

Joplin, Missouri.—"I took Lydia E. Pinkham's Vegetable Compound to see if it really would do as it was advertised and it sure did, and more. I was weak and could not do much work, had bearing down pains and had to go to bed. I learned about the Vegetable Compound from my mother and my husband told me to get it. After taking one bottle I was able to be on my feet most of the time and do my work again. I have a baby eleven months old and I have done all my own work, even the washing and ironing since she was three weeks old. I certainly recommend your great medicine to everyone who complains of female trouble and I am more than willing for you to use my testimonial."

—Mrs. TIMOTHY GRANEY,
426 Connor Ave., Joplin, Mo.

And Another

Chicago, Illinois.—"I suffered for four years with pains in my sides, hips and legs and a terrible backache. I could not do any work at all. I was treated by many physicians but they did not help me. I read in one of your books where other women have been helped by Lydia E. Pinkham's Vegetable Compound, so I tried it and it helped me very much so that now I can do everything in the house. I have told my friends about Vegetable Compound and you have my permission to use this letter."—Mrs. I. OVENSTEIN, 902 S. Marshfield Avenue, Chicago, Ill.

PLACES FAILURE AT CHRISTIANS' DOOR

N.E.A. Special to The Sun.

CLEVELAND, Oct. 7.—Woon Hong Lyuh, representing the Korean Christian union in America, said today the Japanese are still dominant in Korea due to the insistence of the council of Christians there on passive resistance in proclaiming independence last March. Lyuh is a graduate of Wooster college and is here as guest of Mrs. S. F. Moore who was a missionary in Korea.

"All faiths in Korea," he said, "including the 500,000 Christians united with the 20,000,000 inhabitants to de-

pose Japanese rule. Force of arms

was demanded but the Christians insisted on a fight on principles only and the republic was declared by peaceful demonstrations.

"Japan at once instituted a reign of terror that drove the republican officers to China and resulted in the death of 10,000 and imprisonment of 20,000."

The French ministry of agriculture after a careful survey of the devastated regions in the northern part of the country, estimates that all but a very small percentage of the land that was formerly devoted to cultivation can be brought back to a productive state within a period of perhaps four years.

SPEEDY ACTION URGED AT OPENING SESSION

WASHINGTON, Oct. 7.—Representatives of the public evinced a spirited desire for action, rather than oratory, at the opening session yesterday of the industrial conference called by President Wilson.

Apparently with the determination of differentiating this conference from many similar gatherings held at Washington, the public delegates demanded that sessions be held night and day, if necessary, to establish a basis for harmonious relations between capital and labor during the present abnormal economic conditions. Bernard M. Baruch, of New York, one of the delegates, was active in directing the affairs of the conference, which was considered significant in view of his close friendship with President Wilson and his frequent visits to the White House.

After the appointment of committees on nominations and rules, the conference adjourned to meet this morning. Gavik McNab of San Francisco, a representative of the public, was mentioned prominently for permanent chairman, but members of both committees declined to indicate what their recommendations would be.

A motion to adjourn by W. D. Mahon, one of the delegates of the American Federation of Labor, brought the first indication that the men named to represent the public were prepared to force results. Thomas L. Chadbourne, New York, who sat with Mr. Baruch, took the floor immediately.

"All the men on both sides and in the middle of this hall," he said, referring to the seating arrangements whereby the delegates of capital and labor were on either hand of the public representatives' seats, "are here to work as rapidly as possible and to adjourn as little as possible and I know that the men in the middle of this situation want to carry on these conferences day and night. If necessary, to get through. I would like very much to see the motion changed so we can meet again this afternoon or evening."

Mr. Mahon explained that a meeting of the executive council of the federation had been called some time previously which it was impossible to

postpone and Mr. Chadbourne withdrew his suggestion. Later on, however, Mr. McNab took the floor with the same thought as that expressed by Mr. Chadbourne.

"In view of the fact that this conference is in the interest of harmony," said Mr. McNab, "suppose we set the example of working harmoniously and not making the principal and first feature of it a desire to adjourn." He declared that the conference should show the people of the country how to work, but he did not press the point and the motion to adjourn was carried.

Virtually every delegate was in his seat when Secretary Wilson called the meeting to order in the Pan-American Union building's beautiful Hall of the Americas. John Barrett, director general of the union, in welcoming the delegates to the use of the building erected through the generosity of the late Andrew Carnegie, called attention to the fact that this conference was meeting in a structure devoted to maintaining the peace of the western hemisphere. The very decorations of the hall, he pointed out, bore the word, "Peace."

"May I emphasize," Mr. Barrett said, "that the Pan-American union is a great, practical, working league of nations in the world that has long been and is a going concern. Its governing board, its staff, its equipment and this building form also an actual industrial plant that manufactures and distributes products of good will and information that make for permanent peace and welfare of all the world."

"During the last 13 years the supreme council, composed of Latin-American diplomatic representatives in Washington and the secretary of state of the United States, which gathers every month, has prevented through its moral influence six wars between American governments and the peoples."

Secretary Wilson told the delegates that they had been given opportunity for splendid achievement, and wished them godspeed on behalf of the president.

The only discordant element affecting the conference was the absence of John L. Lewis of the United Mine Workers, who is engaged in wage negotiations that threaten a strike, and Frank Duffy of the carpenters, who was said to have declined to attend the conference. Officials of the American Federation of Labor, however, said that, as representation in the conference was not on the basis of trades, both miners and carpenters might be said to have spokesmen in the other labor delegates. All the railroad unions sent delegates.

The following statement was issued by Magnus W. Alexander, managing director of the national industrial conference board at the conclusion of the session.

"Secretary of Labor Wilson voiced the sentiments of the employers when he declared in his opening address that the more productive we are the sooner we will replace the wastage of war, return to normal price levels and abolish the opportunity for undue profiteering and in his further declara-

tion that the conference has before it the opportunity for promoting the welfare of the country and of all mankind."

"The spirit in which the conference begins justifies the expectation that real progress may be made in settling several great questions."

"The employers are gratified that the four railway brotherhoods decided to participate, feeling that this makes for the harmonious unity which must be the keynote of constructive accomplishment."

SENT BOMB TO MRS. WANAMAKER

NEW YORK, Oct. 7.—Charged with having sent a bomb to the home of Mrs. Rodman Wanamaker at Tuxedo Park, N. J., Sept. 27, Albert G. Kurth, a butler, was committed to Bellevue hospital for observation yesterday. The prisoner, the police say, asserted he sent the bomb, which was loaded with black powder and red pepper, to frighten Mary O'Brien, a maid, who he believed would open the package. The package was opened by Mrs. Wanamaker, but the bomb did not explode.

Kurth made his confession while awaiting trial for grand larceny, for which he was held in \$5000 bail last Friday.

Kurth told the detectives, they said, that Miss O'Brien was instrumental in obtaining his discharge from the Wanamaker home where he had been employed two years. At the time of his arrest he was superintendent of an apartment house.

Mrs. Wanamaker's suspicions were aroused by the unusual weight of the package and the manner in which it was wrapped. She cautiously unwrapped it and, in lifting up the corner of the lavender perfume box in which the bomb was placed, she noticed the powder. She sent the box to police headquarters where examination showed that sandpaper had been pasted on the inside and a fuse made of four matches so arranged that if the lid was forcibly pulled off they would ignite the sandpaper and set fire to the powder.

It was theft of whiskey and wine that Kurth was technically charged with when arrested. Detectives said they found \$200 worth of it in his cellar.

The police said that the man, although he has lived in this country 30 years, is a native of Germany. He is 53 years old.

O. M. I. CADETS MAY FORM AN ALUMNI

Plans for fall and winter activities will be discussed by the O.M.I. Cadets at a special meeting to be held this evening in the organization's armory at 7.30 o'clock. The creation of an alumni body, to include all former members has been under informal consideration for some time and will come up for serious discussion tonight.

The cadets will observe their 17th anniversary next month and the members are anticipating the event with a great deal of interest. No plans for the occasion have been advanced as yet but it is believed that a start will be

THE LONDON & NEW YORK DISPENSARY
DOWS' TWO DRUG STORES

Every step a hammer blow

EVERY step you take with hard leather heels on modern, hard pavements acts as a hammer blow to your nervous system.

The average person, even though his work is indoors, takes 8,000 steps a day—gives his system 8,000 daily jolts and jars. The constant repetition of these shocks exhausts your energies, contributes largely to the state of over-fatigue.

You can eliminate this great cause of fatigue. You cannot change the hard pavements, but you can change your heels. O'Sullivan's Heels absorb the shocks that tire you out. They relieve the jolts and jars that make a burden of walking.

To secure the great resiliency and durability of O'Sullivan's

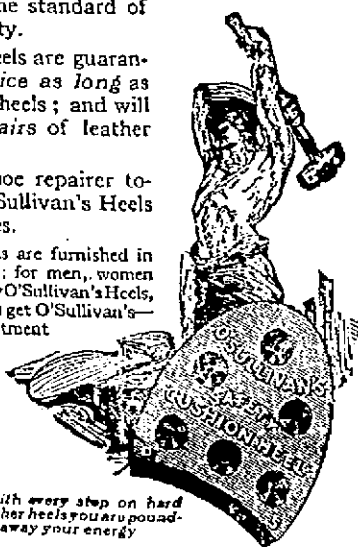

Heels, the highest grades of rubber are "compounded" with the best toughening agents known. The "compound" is then "cured" or baked under high pressure.

It is this special process that has, since the making of the first rubber heel, established O'Sullivan's Heels as the standard of rubber heel quality.

O'Sullivan's Heels are guaranteed to wear twice as long as ordinary rubber heels; and will outlast three pairs of leather heels.

Go to your shoe repairer today and have O'Sullivan's Heels put on your shoes.

O'Sullivan's Heels are furnished in black, white or tan; for men, women and children. Specify O'Sullivan's Heels, and be sure that you get O'Sullivan's, and avoid the disappointment of substitutes.

O'Sullivan's Heels

Absorb the shocks that tire you out

With every step on hard leather heels you are pounding away your energy

made this evening and at least a tentative program adopted. The annual officers' ball will come in December and as in former years will be the leading social event of the season in cadet circles.

Athletics have not been overlooked and the football season will be officially ushered in tonight when Manager Gargan announces the schedule of games. As all of last year's players are again available, a strong eleven seems assured.

TALK ON "THRIFT IN COLONIAL TIMES"

At the meeting of the Lowell Historical society tomorrow evening in Memorial hall, Hon. Albert P. Langtry, secretary of the commonwealth of Massachusetts, will deliver an address on "Thrift in Colonial Times." As Mr. Langtry in his official capacity is the custodian of the state archives and records, he has full access to all matters relating to his interesting subject from the earliest days of the Pilgrims and Puritans in this colony. He is an eloquent speaker, and his address on a subject which is beginning to occupy so much of public attention will be extremely interesting not only in its historical aspect but as a study of our times. The society has in its collections some old account books covering the periods following the war the American Revolution, the war of 1812 and the Civil war, which fur-

nish information and possibly some consolation in these days of high prices. The Lowell Historical society is fortunate in securing Mr. Langtry to address the citizens of Lowell at this time. The meeting is open to all without charge, and everyone is cordially invited to attend.

WOULD EXTEND WAR TIME BAN ON PASSPORTS

WASHINGTON, Oct. 7.—Extension for a year of the war time restrictions on the issuance of passports will be urged before the house foreign affairs committee by Representative Johnson of Washington, chairman of the immigration committee. Secretary Lansing will present the state department's attitude in the matter.

Representative Johnson who has introduced a bill to continue the control, contents his measure would stop any influx of undesirable aliens such as Russian radicals awaiting opportunity to come to America.

"Certain European countries are trying to unload these undesirable on us," he said. "Unless we can check the incoming of these revolutionaries, the United States will become, instead of the peaceful melting pot, it has been, a veritable hotbed."

PROHIBITION HAS NOT INCREASED CONSUMPTION OF ICE CREAM—

RAISE COMING
CHICAGO, Oct. 7.—Delegates attending the meeting of the National Association of Ice Cream Manufacturers, decided today that prohibition had caused an increase in the consumption of ice cream. Instead, it was asserted, consumption had decreased. The dealers predicted early increases in ice cream prices as a result of the sugar shortage and higher labor costs.

Salary and expense allowance of President Ebert of Germany has been cut from 740,000 marks to 100,000 marks.

MINER BECOMES EARL

Leaves for Europe to Claim Heritage, Wearing Hobnailed Boots.

DAWSON, Y. T., Oct. 7.—Robert Leeson, a Yukon miner, recently received a letter stating he had become heir to the title and estate of the Earl of Miltown. Today, carrying his baggage and wearing a flannel shirt and hobnailed boots, he started for Ireland to claim his heritage.

LARGE ATTENDANCE AT EVENING SCHOOLS

Increased attendance over other years marked the opening of the city's evening high and elementary schools last night. The large registration gave convincing evidence of a realization of the splendid opportunities offered in the many courses to those young people who have to spend their days in manual labor and have only the evening hours for study and further advancement of their chosen vocations.

Registration for Americanization classes also was held at several of the elementary schools. The exact numbers, however, will not be available until later in the week.

Henry H. Harris, principal of the evening high school, was particularly gratified with the enrollment there and looks forward to the most profitable and busiest year in the history of the school.

WHAT OF THE STRIKE?

After the United States senate shall have ended the investigation of the great steel strike, what will it do about the matter? That is what arouses the curiosity of the nation today.

It seems that both sides in the strike have given their version of the situation to the senate committee. Some of the testimony is highly illuminating.

Judge Gary as head of the steel corporation left no doubt as to his position in standing for the open shop and against the possibility of unionization that would enable outside leaders at any time to close down the steel plants by ordering the men on strike. On this ground he stands with great firmness, refusing to yield an iota toward the now popular method of collective bargaining. He asserts that if the employees of the steel plants were unionized the closed shop would follow as a natural consequence and in this he is probably correct.

The side of the strikers has been well represented by President Fitzpatrick and Samuel Gompers. They presented the conservative demands for recognition of the unions and collective bargaining. Their claims in this respect seem to have met very general approval, although diametrically opposed to the stand taken by Judge Gary.

The one man, however, who has injured the cause of the strikers is W. Z. Foster, syndicalist and erstwhile revolutionist. When confronted with statements made in a book written by him some years ago, he said he had changed his opinions, but he would not dare to state what his present views are in regard to government or the rights of labor and capital. He would probably assert that capital has no rights as the policy he has been preaching through his book and otherwise is, that labor organizations shall keep harassing capital and moving closer and closer upon its institutions until they finally are taken over by labor, from which, in the opinion of Mr. Foster, all capital was originally wrong by dishonest means.

Foster is still a syndicalist and perhaps also an anarchist. If he were not, he would not hesitate to state his views of government openly before the investigating committee of the senate. He offered to do this if the reporters were withdrawn, giving as an excuse for this proposition that he had been grossly misrepresented in the newspapers.

With such a statement made in the presence of Mr. Gompers, it was not surprising that the latter jumped to his feet and told Foster that the papers had already made statements as bad as they could about him so that he might not dread anything of the kind in the future.

Foster gave every evidence of unwillingness to express his views. His charge against the newspapers was a mere subterfuge. When he made that charge he knew he lied. The papers have not painted him as black as he is. His exhibition before the senate committee practically justifies everything said about him. He is not a fit man to lead the labor forces and nothing is more damaging to the cause of the strikers than the fact that the movement has been planned and directed by such a man as Foster, who is using the American Federation of Labor as a cloak for advancing his revolutionary aims.

The senate hearing will prove a mere farce unless some action is taken to hasten the end of the struggle and provide against such troubles in the future.

RATIFICATION PROSPECTS

There is little doubt that the League of Nations will be ratified without amendments but with reservations which convey our objections to any wrong application of it to the United States. The senators are now planning to finish the treaty fight about Nov. 1. There is great need of something in the nature of the ideal conveyed by the covenant of the League of Nations. It is needed not only among the powers but among the states of our own and other countries. We all need some influence not now operative to enforce peace and good will among men.

"What nonsense!" some will say. "You cannot change the passions or ambitions of men, nor the greed and jealousy of nations." Perhaps not, but we can restrain them within

proper bounds. Oh! the Holy Alliance and the Hague tribunal are thrown in your face as proofs from history; but failures in the past do not prove that the things attempted cannot be accomplished by more enlightened means. How many thousand inventors have failed in trying to evolve some of the great inventions now perfected and in use today? So it is with questions of international restraint. It is entirely possible to hold nations in check when otherwise they would embroil the world in war, if only the proper methods be adopted and the proper legal machinery provided. Here in the United States we have examples of what has been accomplished in harmonizing widely different elements. Something similar may be accomplished in bringing all the world powers into a real peace pact that will not affect their individual sovereignty but from which all will derive real benefits and greater security. Unless some such plan be adopted, the great powers must continue to train military machines in readiness for immediate action. That would necessitate universal military training and a continuation of the world wars, just as soon as one combination of powers thinks it can overcome a rival combination.

PARTY PLATFORMS

So far as Massachusetts is concerned, the political parties have taken their stand on the great issues of the hour and although in the past, it has been said that platforms are adopted only for campaign purposes, yet it would seem that certain parts of the declarations made on Saturday were designed to bring about party defeat rather than victory.

The republicans paid little attention to anything except the peace treaty and the Boston police strike. On the treaty, their platform repudiates Senator Lodge's opposition and demands ratification without amendment. That stand was favored by ex-Senator Crane who in the councils of the party is still more of a power than Senator Lodge, the recognized leader. It was certainly a bitter pill for Mr. Lodge who said he would accept the platform, but could not reverse the position he had taken with such vehemence.

Had Lodge strayed into the democratic convention instead of the republican, he would have found himself among friends who would have given him a platform endorsement of the most radical action against the League of Nations. Such are the tergiversations of political parties on the questions of the hour. It does not seem that the police strike in Boston is to be an issue in this campaign as both parties condemn the strike, and none condones the action of the police in joining a labor union.

All parties must uphold the supremacy of law or be relegated to the rear.

SHALL AND WILL

If the president, who used to be president of a college cannot learn to use "will" and when to use "shall," what can you expect of the third business man? I got yesterday in the same mail two instances, showing how utterly misunderstood these auxiliaries are. One was an enclosed postal card which I was invited to fill out in order to show whether or not I should attend a certain function about to be held. It invited me to check either "I will be present" or "I will be present." "Shall," of course, was meant. Then I opened a letter from the administrative offices of a prominent New England college, in which a gentleman, supposedly possessed of an A.B. at the very least, informed me that "When you are ready to go into the matter in more detail I will be glad," etc. If the right ones shall hardly be saved, what will be ungodly come to—*Courier-Citizen Catchall.*

And if this writer of the *Courier-Citizen* cannot learn the proper use of these auxiliary verbs as taught by the highest grammatical authorities, he should not undertake to instruct others in the niceties of their usage. Whoever heard anybody who speaks correct English use the word "shall" in making a promise? "I will be present" is the correct form. In the other case, "I will be glad," "shall" should be used as expressing simple futurity. In this, apparently by chance, our neighbor struck it right. This is the writer who has been twitting President Wilson upon the use of these two words, sometimes as in this case calling right wrong and wrong right.

RACE RIOTS

Race riots and lynchings are still prevalent in some of the westerly states. It is unfortunate that racial hatreds are being incited from one cause or another. The negroes complain that the newspapers of the country give undue prominence to any crime committed by a negro, taking particular care to say that the criminal is a negro. They also claim that when a white person commits some crime it receives less prominence in the press and there is no intimation as to the race to which the criminal belongs.

The plea is a very just one, and it would be well if the newspapers would change their policy in this respect and no longer stigmatize a member of the colored race through hatred or prejudice. The press can do much in restraining the race feeling whether on one side or the other by appealing for fair play and respect for the law which in the race conflict is lacking to a greater extent among the whites than among the negroes.

OUR EVENING SCHOOLS

In the evening schools, now open, there are offered many opportunities for self improvement along educational lines. Many young people who work in mills during the day will doubtless take advantage of these classes and thereby acquire the means of attaining greater success in their chosen occupations. The Vocational schools together with the classes conducted at the Textile school offer a wide variety of subjects and must, therefore, benefit a great number of those employed in our varied industries.

We know men prominent in business today as employers or foremen in factory and workshop who did not have educational opportunities in their early days equal to those now offered in our evening schools without cost to all who wish to avail of them. Those who have any ambition to improve their condition in life and who can benefit by attending the evening schools, will make a serious mistake by remaining absent.

THE PRESIDENT

The job of being president of the United States even in normal times is the most terrific job in the world. And the times have not been normal. President Wilson is the kind of man who will not and cannot spare himself. Guarding his responsibility with an almost religious zeal, he has shouldered a load in excess of his physical strength.

Typical of his attitude toward gigantic tasks was his going to Europe personally to conduct peace negotiations. All major state papers have been from his pen. He has patiently added each new problem to his burden. The effect of such overwork on his highly organized mind and body was inevitable.

His tour in behalf of the League of Nations, topping a long series of crises and responsibilities, brought on a nervous collapse. The country appreciates that the overwork was in its behalf. It sympathizes with the president and prays for his early and complete recovery.

POLICE AT THEATRES

The people of Lowell will appreciate the action of Mayor Thompson in deciding to assign a police officer to the afternoon performance at each of the local theatres. Judging from current reports, privately circulated, there is good reason for this action. It appears that some of the handlums become unruly at the motion picture shows when the lights are turned down. Some of them make it an occasion for insulting women, who happen to sit near them and who have no means of reporting them until the performance is over, without making a scene. These offenders knowing the danger of being complained of usually make a hasty exit after the show. With an officer at call, things will be different and the managers are determined to keep close watch for such offenders so that ladies may sit wherever they please in any theatre in the city, without danger of annoyance.

SEEN AND HEARD

A Pittsfield little boy was given a penny to give the Lord at church. He returned home to report that not seeing God around, he gave his penny to a man with a plate.

Family Devotion

We have a neighbor whom we knew to be greatly devoted to her own family, but until we had our first California thunderstorm, we did not know that she was entirely lacking in a proper sense of humor.

I heard her railing in the midst of the storm, and opened my window. "Is Mr. Thunder at home?" she said. "I had a dreadful shock when I took down the telephone re-

ceiver and I want him to come over and put it back on the hook." "Isn't Mr. Roberts at home?" I suggested. "O, yes. He is in the garage with the boys, but you know I think it is very dangerous to handle the thing, so I don't want to call them."—Youth's Companion.

He Was Not the Same Jones

First—Very glad to meet you, Mr. Jones. Pardon me never met before up here. You're the Jones that sang on the Glee club, I presume.

Second—No, I'm not gifted musically; don't like it, in fact.

First—Let's see; there are so many Joneses; maybe I can place you. Hickey?

Second—No; I'm not an athlete.

First—Debating?

Second—No.

First—Were you the Jones on the honor roll?

Second—Not on your life.

First—Say, do you do anything at all?

Second—Nothing.

First—Marvelous. Let's room together next year.—Yale Record.

Using Soap Internally

One morning, a woman walked into a village grocery store with a majestic stride. It was easy to see by the sternness of her expression that she was somewhat disturbed.

"This," she sarcastically explained, throwing a package on the counter, "is the washing itself. It's the soap that makes washing a pleasure. It's the soap—"

"That isn't soap, madam," interrupted the groceryman, examining the package. "Your little girl was in here yesterday for a half pound of cheese and a half pound of soap. This is the cheese."

"U-m, that accounts for it," said the woman, as the light of understanding began to glow. "I wondered all night what made the Welsh rabbit we had for supper taste so queer."—San Francisco Argonaut.

Then the Fun Started

Two negro soldiers of the 24th (Buffalo Division) were discussing life in the United States before the war as they waited for the mess bugle.

"Now, when I was a lion tamer in a circus," began one.

"A lion tamer?" demanded the other incredulously.

"I sure was!"

"What is a lion tamer?" I never heard of that trade before."

"A lion tamer is a guy who goes into a lion's cage. He looks the door after him and puts the key in his pocket. Then he goes over to the lion and opens his mouth. Then he takes hold of the lion's tongue and wags it. Then he goes to the door of the cage, unlocks it and walks out."

"Well, man," ejaculated the other, "you never was a lion tamer, you're just a 'yin' fool, dat what you is."—Los Angeles Times.

Friendship

Copyright, 1919, N.E.A.

I had a flower, I set it in the mold And left it there alone.

I neither watered it, nor tended, Nor guarded it from cold.

The little flower, as the offended Withdrew its fresh perfume

And blighted all its bloom.

Alas! I thought I heard it moan "You prize me not, so I take back my own."

(Flowers know themselves appreciated, Only as they are cultivated.)

I had a friend, I held him in my heart, But never told him so.

I seldom saw and seldom sought him; Our pathways led apart.

He, deeming I had quite forgot him, Had blighted all his bloom.

He shunned my road and roof. Or, if we met, it was as though We were two strangers, neither cared To know.

(Friendship and flowers alike are faded, Except as they are cultivated.)

—EDMUND VANCE COOKE.

MY MASTER'S HOUSE

"My Master's House" is the title of a most delightful and instructive address by David S. Lawlor of the Julius Mathews advertising agency of Boston, before the "Oral club," an organization of salesmen in that city. So effective was this address that by request it is now printed in pamphlet form for sale and distribution.

It deals with the "inner man," so to speak, the mind, the heart and the soul, discussing their attributes with an insight worthy of a learned psychologist, yet showing in plain and simple language how readily bad habits may grow and how they may be overcome by mental discipline, firmness and power of will. But the will must itself be trained, drilled and disciplined in order that it may become an effective directing force in following the lights of conscience and intelligence.

The mind may be drilled in much the same way as the body, but there must be the will to do it; and that will must come from within. An internal influence must stir it into life. We must keep it awakened by constant exercise by which it attains health and vigor.

When we have done this, says Mr. Lawlor, we shall recognize a new force within us capable of achieving much. From this the speaker turned to the formation of character which he holds to be influenced more by environment than by heredity. Here, he shows that will power is effective in enabling us to select only the influences that are clean, inspiring and healthful and to resist those of a different kind. Thus by drill and vigilance in the matter of self-control, an approach to perfection may be made and character built up.

In the spiritual domain, the value of periodical stock-taking and introspection is forcibly shown, and rules are laid down for attaining self-mastery together with force of character and gathering the fragrant flowers of virtue, happiness and good will within the inner temple of the soul.

The address is one that will well repay reading and study. It shows deep thought and an intimate knowledge of those faculties that rule the lives of men. Truly the author says: The garden of life it beareth well, And it will repay our care, But the blossom must always and ever be.

Like the seed we've planted there.

BETTER THAN TWO DOCTORS

MRS. ROSE LAMARCHE

Two years ago I became acquainted with RED PILLS for pale and weak women. I started to take them as directed, and I owe my good health of today to their beneficial qualities. I have had eight children and four premature confinements. After the first years of married life, I became so weakened and in such poor health that I was unable to do my own work, as I had always done in the past. I went to see two doctors, followed their advice, but without results, my health was always the same. I then stopped taking their medicine and put myself solely under the influence of RED PILLS for pale and weak women; fifteen boxes did the work and restored me to good health, which is saying that I owe them more than I can ever repay. My little girl now takes RED PILLS and whenever needed, I will be sure to take them again also.

MRS. ROSE LAMARCHE,
5 Laval Place,
Lowell, Mass.

RED PILLS are for women only. They are always sold in boxes of fifty pills, 50 cents a box, 6 boxes for \$2.50. See that the name of the "Franco American Chemical Company Limited" is on every box.

THRIFT IN THE PUBLIC SCHOOLS

It will probably be news to a good many people that the theory and practice of personal thrift as a subject of formal instruction, has been given a place, during the past year, in the curriculum of the public schools in a hundred or more American cities, also in the work of several hundreds of business colleges, private academies, Y.M.C.A. organizations, etc.

Practical teachers of thrift generally recognize the following content of the subject:

1. The teaching of simple but systematic records of all money receipts and expenditures.
2. A detailed study of the every-day personal money affairs of individuals, and the application of the record-keeping system to these affairs.

3. Budget systems adapted both to the individual and to the home.

4. The safe disposal of reserves or savings in the form of thrift stamps, bank deposits, stocks, bonds, building and loan investments, and so on.

5. The immediate and practical application of the foregoing instruction to the learner's own money affairs, no matter how small his allowance or pocket money be.

The foregoing outline, of course, is mainly for the affairs of individuals who are not directly concerned in the economics of the home. Home thrift is usually offered as a separate course, and most often to classes in domestic science.

In most schools, the Thrift course is given in classes that meet weekly and, usually, in connection with arithmetic, bookkeeping, penmanship, or the

MAN'S BEST AGE

A man is as old as his organs; he can be as vigorous and healthy at 70 as at 35 if he aids his organs in performing their functions. Keep your vital organs healthy with

like. In a number of schools the work has been given to the classes in community civics. Under this plan about 20 lessons are given during each school semester.—Carl Marshall in Thrift Magazine.

OBSERVED THEIR GOLDEN WEDDING

Mr. and Mrs. Frank Coburn of 571 School street observed their golden wedding yesterday, the observance being in the form of a family dinner at the home of the couple at noon and a reception in the afternoon and evening. During the day and evening numerous friends called to congratulate the venerable couple, and shower them with best wishes and appropriate gifts.

Mr. and Mrs. Coburn were married at Nahant, October 6, 1869, she being a daughter of the late Albert Whitney and an adopted daughter of the late Washington H. Johnson, both of that town. Mr. Coburn was a son of George W. Coburn, for many years a foremost citizen of Braintree, and in his later years a resident of Pawtucketville. They settled at first in Nashua, N. H., removing to this city in 1872, where Mr. Coburn has since been in business.

Among those who attended the reception were the following:

Dr. and Mrs. Leonard Huntress, Mr. and Mrs. Frank W. Hurd, Charles P. Conant, Abbie R. Whipple, A. Madeline Small, Mrs. C. W. Sweet, Mrs. R. W. Hollingsworth, Adelaide Ward, Mrs. Emma J. Richardson, Mrs. C. W. Hoyt, Helen M. Thompson, Edward M. Tucke, Jennie H. McEvoy, George E. King, Marcus T. Pierce, Isabel McCall, Mrs. C. W. Burbank, Joseph Peabody, Mrs. Mary MacBryne, Florence D. Marshall, Josephine L. Flisk, Meta F. Cameron, Don Cameron, S. Foster Whipple, Mr. and Mrs. Frank B. Wright, Louise J. Smith, Florence I. Smith, Mr. and Mrs. George B.

NO CHANGE HERE IN PRICE OF MILK

At a meeting of the Lowell Milk Dealers' association held in Odd Fellows hall, Bridge street, last evening and at which was present Mr. Davis, a representative of the New England Milk Producers' association, it was decided that for the present at least the price of milk in Lowell would not be increased, but will remain at 16 cents a quart.

The meeting was called for the purpose of discussing the advisability of increasing the price of milk a half cent a quart in order to make Boston and Lowell prices standard, but most of the milk dealers present were opposed to the project. Some of them went so far as to declare that if the producers insisted on an increase, they would suffer the loss rather than to ask the public for an increase. It was finally decided not to make any change in the price of milk at present.

MANY HONORS FOR MERCIER

Belgian Primate Given Wonderful Reception at Faneuil Hall, Boston

Given Degree by Harvard—Honored by B. C.—Leaves for New York

BOSTON, Oct. 7.—Cardinal Mercier received Boston's and Massachusetts' official welcome in Faneuil hall yesterday afternoon. Lieut. Gov. Cox represented the state and Mayor Peters the city. Both officials gave the venerable churchman and world figure the tribute of the citizens of the Commonwealth and of the city.

In the morning Cardinal Mercier visited Boston college and was given a cordial reception.

At 1.30 he was given a luncheon and reception at St. John's seminary, Brighton, following which he received the clergy of the seminary.

At 4 in the afternoon he received the degree of Doctor of Laws at Harvard and at midnight he left for New York.

Crowds Line the Streets

Cardinal O'Connell and James J. Phelan paid tribute to the Belgian cardinal at the official reception. The citizens who filled the old hall and thronged the streets from the Hotel Somerset all the way downtown added their tributes and respectful salutations as his car passed. So impressed was Cardinal Mercier with his welcome that he said late in the afternoon that he felt like getting out of his car and shaking hands with everyone he passed.

The cardinal entered Faneuil hall at 12.15. His appearance was the signal for a burst of applause and cheers that lasted for more than five minutes. He ascended the platform and bowed his thanks. Mr. Spaine offered prayer. Mr. Phelan, representing the citizens committee, offered his tribute. He presented Mayor Peters as the presiding officer. The mayor said:

"Two great figures have emerged from the clouds of war that lately overhung Belgium. One of them is the gallant king; the other is the distinguished bishop who honors Boston with his presence today. What a privilege it is to welcome such a man, to meet him face to face, to speak to him out of the fullness of our hearts, and, even at the risk of embarrassing his modesty, to recall the tragic drama in which he played so eminent a part."

He then reviewed the grand part played by the great cardinal in the war, and concluded:

"We congratulate the country that has found in you a living monument to replace the edifices of brick and stone destroyed by the invaders. I am proud to be the spokesman of Boston in offering to Belgium and its illus-

trious champion our fullest measure of love and honor and admiration."

Cardinal O'Connell's Address

Cardinal O'Connell followed Lieut. Gov. Cox, whose speech was a fine tribute to the guest. The Boston cardinal said in part:

"Amid the many welcomes offered to Your Eminence during your visit to America, none is more genuine than the welcome which is offered to you by all the citizens of Boston. The whole population of this metropolis of New England rejoices at your presence here today in this historic hall."

"Time upon time since its walls were erected they have rung to the noble and sacred sentiment of liberty. Here the oppressor and tyrant have been denounced by a freedom-loving people and the inviolable cause of right for the oppressed of every land has been here upheld and consecrated."

"This hall is a hallowed shrine to us of Boston, and we rejoice that here Boston bids you its heartiest welcome."

"All the world admires those two noblest qualities of man, nobility of principle and the courage to stand for it."

He then outlined the great work of his brother cardinal in saving Belgium by his steadfast antagonism to the aims of the Germans, told of the renewed hope given to the world by these acts, and continued:

"Just when it appeared that all was over with Belgium a mighty voice was heard, a voice far more powerful than that of kings of arms; it is the voice of Belgium's primate, lifted in God's own name against injustice and unlawful oppression of a small nation."

"Like a true shepherd of his flock, he stood in their midst and, fearless of whatever might befall him, defended his own people. He had neither arms, nor cannon, nor cavalry, but he had an unconquerable soul, and with apostolic fortitude he defied the brute force of might, and finally defeated that which force of arms had failed to conquer."

Ovation to Belgian Primate

As the venerable churchman rose a tremendous ovation greeted him. As soon as he could restore quiet he thanked the citizens of Boston and Massachusetts for their welcome and expressed the hope that Gov. Coolidge would soon be well. He continued:

"I will go home fortified by your sympathy, and when I tell my people what I have seen they will be reconciled. America became in Belgium in five years, a sacred name. Before the armistice—I knew so well the war would soon end—I gave instructions to the clergy of my diocese to have one stone in every church singled out and inscribed: 'To America: What She Did for Belgium.'"

"In a short time there will be a chapel dedicated to the United States of America."

He then outlined the huge task set upon the shoulders of little Belgium when the German machine started across her territory, and how her valiant army died to save civilization. He continued:

"We will never forget how America became our savior, how your splendid navy brought your soldiers to France, 10,000 every day at first, and later going to the battlefields, your men gave our allies new hope."

"Under the leadership of General Pershing, at St. Mihiel, in Flanders and on the Italian front, you gave us fresh hope and the self-abnegation of your General Pershing was one of the most impressive bits of history in the war. By giving the command to Gen. Joffre and Foch, I think the generals present here will admit that the unity of command contributed to the success of our arms."

"Another debt we owe to America, which saved us from starvation, and we owe it particularly to Food Commissioner Hoover, who was a leader by action rather than words."

"We know and appreciate what you sacrificed in denying yourself meats and food in order to give to us. We know about those sacrifices, and so we all agree that America was our savior and an example. So when I go back to my people I will tell them of your

Ward's ORANGE-CRUSH

WHEN your parched throat calls for coldness—say **Orange-Crush**.

When your palate seeks a new sensation—say **Orange-Crush**

Orange-Crush is a sparkling, icy cold drink—delicious, refreshing. You can be sure of its purity because it is made from the fruit oil pressed from fresh, ripe oranges and such other wholesome ingredients as pure granulated sugar, carbonated water and citric acid, which is a natural acid found in oranges, lemons and grapefruit.

Orange-Crush makes a delightful flavor for ice cream sodas, sundaes and malted milk. Always order it by the full name—**Orange-Crush**.

Kellogg's

WON ITS FLAVOR THROUGH ITS FLAVOR

The sweetheart of the corn

MORE Kellogg's is eaten today than ever before. Why? Millions of people won't have any other than Kellogg's Toasted Corn Flakes, because they know its unvarying quality and they are delighted with its inimitable flavor—oven-fresh in our waxtite package.

Every grocer everywhere sells Kellogg's everyday.

additional goodness, and in my prayers I shall never forget your kindness. And I also would ask you not to forget us in your prayers and your charities."

Sec. Charles Rackemann of the Belgian food committee presented the cardinal with a memorial from the New England Belgian relief committee, which told of the great inspiration derived from him.

The playing of "The Star Spangled Banner" and the Belgian National hymn concluded the exercises.

Reception at Boston College
The cardinal's reception at Boston college outlasted anything that has been seen there in many years. The student body of 600, 117 of whom, the se-

niors, were in cap and gown, cheered for several minutes as he entered the assembly hall accompanied by Cardinal O'Connell and Pres. Devlin. Richard S. McShane delivered the welcome for the students. He told of the honor done the institution by the cardinal's visit and the impetus which his great example has given to the Catholic faith. Pres. Devlin also greeted the cardinal.

Cardinal O'Connell drew a comparison between Cardinal Mercier's love for the University of Louvain and his own for Boston college. He expressed his appreciation of the great sorrow felt by the Belgian primate when he heard that Louvain was being destroyed by the Germans.

In addressing the assemblage Cardinal Mercier expressed great pleasure with his reception and thanked all heartily, saying that he never will be able to forget Cardinal O'Connell for taking him to the college and for his numerous other kindnesses.

"Through all our troubles," he said, "we were expecting the justice of God to triumph. And now Belgium will be more prosperous than ever."

Gifts of \$500 from J. J. Johnson, a neighbor of the college, \$100 from Mrs. John McNamara of College road, Newton, and \$100 on behalf of the students were presented to Cardinal Mercier by Rev. Pres. Devlin, for the work of reconstruction of Belgium.

Cardinal Mercier, accompanied by Cardinal O'Connell, visited St. John's Seminary, Brighton, yesterday afternoon. About 300 visiting priests were

in attendance at the seminary chapel. The exercises opened at 3 p. m. and concluded at 4, during which time many persons waited in the rain to see the departure of the great Belgian.

Cardinal O'Connell told the visiting prelate of the work being done in the diocese, and all the clergy of the district welcomed Cardinal Mercier.

The work and treatment of the pastors of Belgium during the war were described by Cardinal Mercier.

Monsignor Peterson, president of the seminary, Rev. Pres. William Devlin, S. J., of Boston college, Monsignor Spaine of Roxbury, Monsignor Moriarty of Jamaica Plain, Bishop de Wachter of Belgium, Bishop Anderson,

Rev. John Geaghan, S. J., rector of the Immaculate Conception church, and a number of other dignitaries were present.

RECRUITERS FROM COAST ARTILLERY

A recruiting mission from the Coast Artillery corps, 30 strong, pitched their tents on the South common late yesterday, and will remain here for several days, during which time they will endeavor to sign up Lowell young men for all branches of the army, particularly for duty around the forts of Greater Boston. The party is commanded by Capt. E. Aymard, who has offered to loan several pieces of artillery to the recreation committee of the coming South Ends celebration, to be used in the big parade next Monday.

The party brings with it a 20-piece band, which will give a concert on the common every evening, this week commencing at 7.30, and possibly at some public square during their stay.

Recruits to the number of 2-300,000 were made for the United States army between August, 1917, and the end of the war.

There're some musicians, too, with a repertoire including everything from the latest numbers from jazzland to operatic selections.

It is announced that commencing today the army recruiting station on Merrimack street will be open from 9 a. m. to 5 p. m. Orders received from headquarters state that the station must secure new quarters in Lowell in the next few weeks, and a search for new offices is now underway.

Recruits to the number of 2-300,000 were made for the United States army between August, 1917, and the end of the war.

Cadum Ointment for Pimples

Cadum Ointment makes pimples dry up and fall off, leaving the skin soft and smooth. Its soothing, antiseptic and healing powers stop the itching at once. Cadum Ointment is also good for rash, blotches, scaly skin, eruptions, sores, burns, chafing, ringworm, scabs, itch, insect bites, etc. [Cadum Ointment is a French preparation. Made in America from the original formula.]

FINE BOXING CARD FOR KID GLEASON OF WHITE
OPENING SHOW SOX "SICK AT HEART"

The card announced for the opening show under the new management at the Crescent A.A., on next Thursday night is a very attractive one and should furnish abundant action. Kid Gleason, of Boston, one of the leading men of his weight in this section, and being in the best of his health, will be the main bout against Paul Dixon, of Brooklyn, who is said to be a top notcher. Both men are trouble makers for the manager as the winner has been promised several attractive engagements. They are scheduled to fight twelve rounds. There is great interest in the semi-final bout of Kid Gleason of Lawrence and Young Leona of Chelsea. The pair met here at the South End benefit show and put on a whole of a bout. It was called a draw. Young Leona of the Helio Club and Kid Gleason of the A.A. are car shops will meet in one preliminary while Dinky Welch and Young Leona will perform in the other six round number. Matty Conroy will act as third man in the ring.

WILL RESUME
SERIES SATURDAY

According to present plans the Knights of Columbus and Bellevues will play the second game of their series at Spalding park next Saturday afternoon. The uncertainty of the weather kept down the crowd last week, but a large turn-out is expected at the coming game. If the Knights win the series will be over, but if the Bellevues turn the tables, a third game will be necessary, probably to be played on the Saturday following.

JOE EAGAN WIN

FRAMINGHAM, Oct. 7.—Joe Eagan of Boston won the decision over Johnny Alacks of Philadelphia in the main bout at the Framingham Athletic club last night before a crowd of more than 1000 persons. It was a 12-round affair. Eagan led in six of the rounds and two were even.

In the semi-final, Bert Jones of Haver was awarded the decision over Battling O'Neil of Lynn in eight rounds. In the preliminary, Young Fink of Milford won over Tony Powers of Milford in the fifth round, and Young Bryson of Waltham defeated Johnny Dundee of Milford in six rounds.

Walvis, on the coast of southwest Africa, is said to be the sandiest place in the world.

JACKSON K. O.'S

EDDIE MORGAN

PHILADELPHIA, Oct. 6.—A whirlwind attack to the face and body sent Eddie Morgan, the English featherweight, down and out in the fourth round at the Olympic A. C. last night. Willie Jackson of New York dropped Morgan with a terrific right to the jaw in the third round.

He came up for the fourth round weak that he succumbed to a combination of head and stomach blows. The referee stopped the bout between Young Sisco of Boston and Louie Jones of the six round. The two boxers came into collision in the fifth round, and a gash was opened over Sisco's left eye. It bled so profusely the referee stopped the contest. Louisiana had the better of the bout.

BOXING
Pal Reed vs. Paul Dixon and three other high class bouts.

(New management)

STRIKES THREATEN

Big Doings for Bowlers Who
Can "Spare" The Time

That there will be a great number of strikes in the United States and Canada within the next few months is a certainty, judging by the way the pin tappers in the industrial concerns are warning up for their first big international telegraphable bowling tournament. Employees of concerns containing the recreational side of life with the business end of it also are too busy setting in shape for the last meet to give a thought to labor troubles, and as a consequence are having their "strikes" on the good old maple way in friendly competition.

That no little amount of interest is being shown in the tournament recently suggested is proven by the way entries are pouring in from all parts of the country, over one hundred teams have already signified their intention of entering, and the following week should easily see the number of entrants reach the 200 mark. One of the provisions in the rules makes it imperative that every player compete, must have been an employee of the concern which he is to represent, at least two months prior to the date of entry. This ruling will prevent the sudden strengthening of teams for the tournament. The five securing the largest total in the three games rolled will not only become winners of the trophy donated, but will be added as the international champions of the industrial bowling world, as this is the first tournament ever held open to all industrial concerns.

Further particulars regarding the big event may be secured by communication with W. V. Thompson, 623 South Wabash avenue, Chicago.

WORLD SERIES

Winners Will Receive Over
\$5000 Each

CHICAGO, Oct. 7.—Yesterday's game was the last in which players on the Americans shared receipts, and, according to unofficial figures based on a total player's share of \$260,349.66, the winning team will divide among its members \$117,167.35. The losing team will take down \$78,104.90 to be shared by its members.

Based on a division of the team shares among 23 members, the winners of the championship each will receive \$5093.79 and the members of the defeated club each will get \$3395.86.

STEAMER WHICH ASKED
FOR HELP ARRIVES

BOSTON, Oct. 7.—The steamer Lake Gravett which sent out a call for assistance last Saturday because of coal shortage, reached St. John's, N. F., last night, according to a despatch received here today by her agents, J. S. Emery & Co. The Lake Gravett is bound from Fowey, England, for Portland. She was about 900 miles east of Cape Sable when she sent out for aid. The message received by her owners today said that the heavy sea that followed the recent mid-ocean storm had moderated so that she had been able to make port with her limited coal supply.

STRUGGLE BETWEEN N. B.
MILLS AND EMPLOYES

NEW BEDFORD, Oct. 7.—With the textile council of New Bedford endorsing the strike of the loomfixers at the Beacon mill of this city, and the Cotton Manufacturers' Association pledging its moral and financial support to the firm on the claim that the strike was called without cause, the issue is resolving itself into a struggle between the mill men and the employees. Last week the loomfixers left their positions, and when the mill sought to fill the vacancies this week, weavers to the number of 300 walked out in sympathy with the striking fixers.

The various unions of the city will hold meetings this week to decide how far they will support the loomfixers in their demands. In the meantime a committee has been appointed by the textile council to seek a conference with the manufacturers' association. The situation at the mill today was reported to be unchanged from yesterday.

The weavers have expressed their determination to remain away from work until the mill reinstates the striking loomfixers and will not return until the grievances have been adjusted.

HEAD OF "FERNCROFT
INN" FINED \$500

BOSTON, Oct. 7.—George Faulkner, president of the Middleton Automobile club, formerly Ferncroft inn, pleaded guilty in the federal court today to a charge of violating the war-time prohibition act. Federal officers who raided the club last Sunday found liquor being served to members. Faulkner was fined \$500 and notified that any continued violation of the law would expose officials of the club to jail sentences.

MINES CLOSED BY
ONE DAY STRIKE

BRIDGEPORT, Ohio, Oct. 7.—The mines of the Warding & Lake Erie, Virginia, Hill and Occo Coal companies at Pannock, Lafferty and Black Oak were closed yesterday by a one-day strike of several hundred miners in protest against imprisonment of their leader, J. Mooney.

PLATFORMS
ASSAILED

Senator Hitchcock Scouts Action of Mass. Democratic Convention

(Special to The Sun)
WASHINGTON, D. C., Oct. 7.—The democratic party of Massachusetts has on so few occasions been of any service to the national democratic party that I am not much interested in their attitude," shouted Senator Hitchcock holly as he sprang to his feet to refute the statement of Senator Borah that the action of the state committee showed the sentiment of many of that political party a favor amendments and self-determination. Peppery debate followed in which the democratic and republican platforms of Massachusetts came in for side-swipes. During the cross fire Senator Walsh smiled broadly, but refused to be talked out of his silence. Walsh has announced that he will address the senate on the league late this week.

BILLERICA MAN
DIES ON CAR

WOBURN, Oct. 7.—Fred R. Gray, who for a number of years was engaged in the manufacture of door and window screens in Boston died from heart failure about 5.30 yesterday afternoon on an electric car near Woburn Centre. He was 51 years of age and lived in the Riverdale section of Billerica. The body was viewed by Dr. Charles F. McCarthy, assistant medical examiner. He is survived by his wife and three sons.

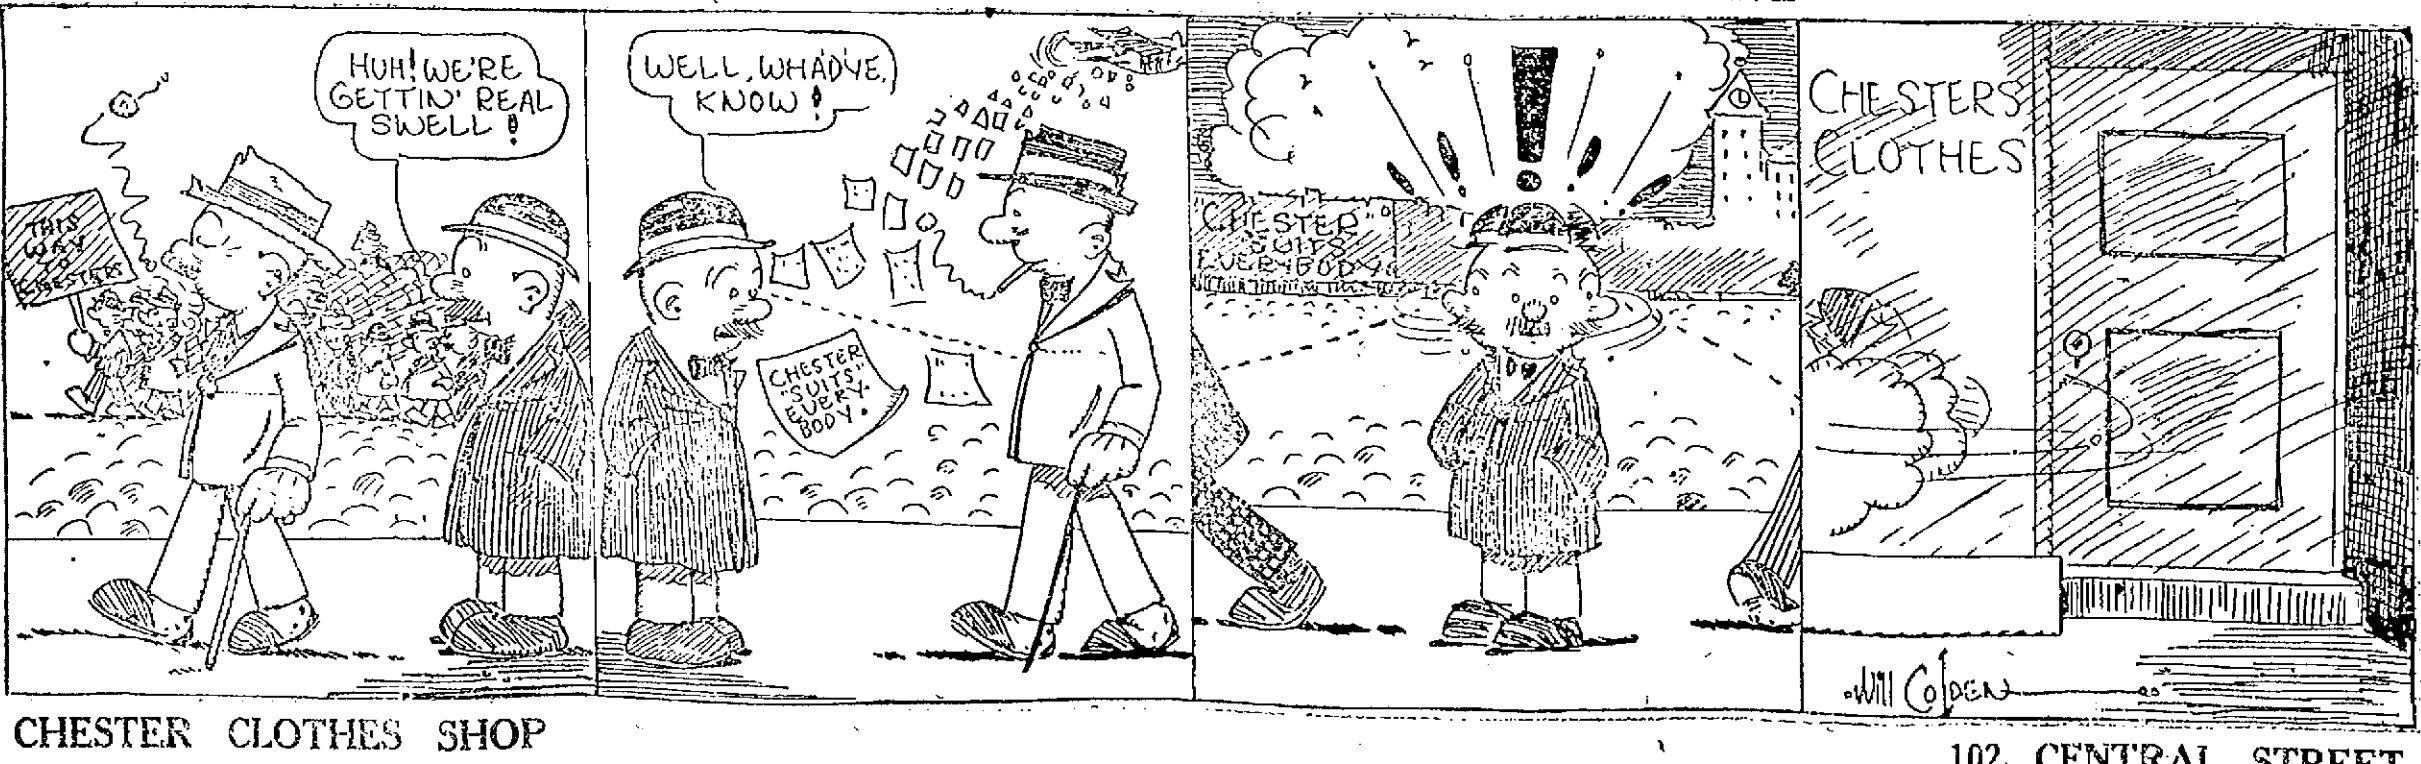

LOWELL TEXTILE SCHOOL

The evening classes of the Lowell Textile school commenced their fall term last night with a registration which will tax the instruction force and machinery to the limit. All textile departments will be operated four evenings a week to capacity and also more students than usual have registered in the free hand and mechanical drawing courses. A number of students from Lawrence and nearby towns are among the registrants.

Handkerchiefs were unknown before the early part of the 16th century.

Nation Faces Dangerous
Radicalism Unless Teach-
ers Get Better Pay

SAN FRANCISCO, Oct. 7.—Warning that unless better pay is forthcoming for teachers in American colleges, the nation will face dangerous radicalism from centers of higher education was voiced by Herbert Hoover in an address before the Harvard club of California last night.

"Out of the war and misery of the war has arisen a silhouette of class distinction and class hatred that is not to be obliterated with a few words," he said. "The development of radicalism in Europe during the last 12 months, is beyond anything in history. America is a fertile field and responds quickly to any wind that may blow. This European wind of radicalism is sweeping our way and it is affecting us."

"In our great universities the instructing and faculty staffs are hard hit by the present economic situation which in the face of enormous prosperity returns something like \$7 a day to the educator, while the craftsman who repairs his kitchen sink makes more in fewer hours of work."

"America cannot permit this growing sense of injustice to remain with the nation's educators. There is a menace to the nation's safety in discontent in the background of the university faculty work and every right thinking citizen must see it."

Mr. Hoover declared other independent universities of the nation should follow Harvard's example in seeking to raise an endowment for increasing teachers' salaries 50 to 100 per cent, and that legislatures should take like steps for state institutions.

LEARNING WHAT THE
WORLD IS MADE OF

Early in October a scientific expedition will arrive in Seattle from Alaska, which will bring back information tending to throw additional light on the dark spot of modern science—what composes the inside of the earth.

Announcement is made by the National Geographical Society from its headquarters at Washington, that the sixth Mt. Katmai expedition of the society is preparing to sail from Kodiak Island after many months spent in fruitful scientific study of the unique and spectacular natural phenomenon known as "The Valley of the Thousand Smokes." At the foot of the gigantic Mt. Katmai volcano.

Not only has the expedition headed by Dr. Robert F. Griggs, accumulated an amount of scientific data beyond happiest anticipation, but according to a telegraphic report to the society, a fine harbor, not previously known, has been found which affords a feasible route to this region of the innumerable vents of various kind, which spurt steam and vapors of almost unbelievable temperatures.

The discovery of this harbor is considered of marked interest because President Wilson has proclaimed the region of "Ten Thousand Smokes" a national monument, and it will not be long before this new federal reservation will be visited by tourists who wish to view a spectacle no less awe-inspiring than the spouting geysers and other natural wonders of our own national parks.

Hidden Secrets of the World
"But the primary interest of this region to the civilized world will be the unequalled opportunity it affords for penetrating some of the hidden

secrets beneath the surface of the globe on which we dwell," says a bulletin from the National Geographical Society.

"We laugh at the child who says the moon is made of green cheese; but the child might smile at us if he would only ask, 'What is the earth made of?'"

"Though science has penetrated to the infinitesimal secrets of the invisible atom, and it has reached to other solar systems so far out in the universe that we know about stars from which it takes the light 5000 years to travel to this earth, its penetration of the inner earth is no deeper, comparatively, than a pin scratch on the cover of a mammoth balloon."

"The ancients thought the way to learn the mysteries of what lies under our feet was to dig deeper, and even

deeper, but we know now that even modern engineering, which can pierce the mountains and burrows under rivers, cannot penetrate deeply enough to tell much of Mother Earth."

"In such phenomena as volcanic eruptions, earthquakes and geysers lie the key to the hitherto hidden secrets of the globe. It has been established that the hissing, steaming, exploding acres that seem like a multi-magnified depot yard of Mogul engines, is a modern example of what the geysers of Yellowstone National Park once were."

Terrific Heat Inside
"The vastness and intensity of the molten mass which spits the vapors of this terrifying valley is indicated by the discovery of new high temperatures among the fumaroles. Early parties were not equipped to measure

the unexpected heat of some of the fumaroles. Dr. Griggs wires that the hottest ones have just been found, where the highest temperature was 1191.2 Fahrenheit, and that many of the escaping vapors kindle wood into a blaze as readily as a match burns when struck."

"Besides chemists, petrographers, zoologists and botanists, the expedition this summer marked a departure in scientific explorations of this kind by having along motion-picture photographers. Ten thousand filmed feet of the spectacle, which words cannot picture, are being brought back, to be shown to members of the society."

"Another finding of popular interest was the discovery of a region north of the National Monument reservation which not only is one of great natural beauty, but abounds in fish and game. "The study of the economic side of this hitherto unknown region was not neglected. Dr. Griggs is shipping to Washington botanical and zoological material as well as specimens of plants and animals found about Mt. Katmai."

MATRIMONIAL

Mr. Robert H. Dawson and Miss Rose B. Rogers were married yesterday afternoon at 3 o'clock at the parochial residence of St. Michael's church by the pastor, Rev. John J. Shaw. The groom's father, John J. Dawson, was best man and the bride was attended by her sister, Miss Marie Rogers. The ceremony was followed by a reception at the Richardson hotel and the bridal party left later for New York. They will return by way of the Mohawk trail. A rather unusual coincidence in connection with the marriage was contained in the fact that it was Father Shaw who married the groom's father, who was best man yesterday.

McCarthy-Gookin

Mr. Dennis J. McCarthy of Cambridge and Miss Ellen J. Gookin of this city were married yesterday at the Sacred Heart rectory, the ceremony being performed by Rev. T. Franklin Wood. O.M.T. Miss Lena Gookin, a sister of the bride, acted as bridesmaid, while the best man was Mr. William L. Lynch of Cambridge. At the close of the ceremony a reception was held at

COUNTRY FLOODED WITH WILD CAT STOCKS

New and clever schemes for inducing the investing public to part with its savings, its Liberty bonds and war savings stamps in exchange for stocks of worthless stocks or those of speculative or doubtful value constantly are being developed. One of the latest of these was disclosed recently in the trial of Ellsworth J. Green and his son, E. L. Green of Oklahoma City.

This particular scheme was the means of landing the Greens in Leavenworth prison for five year terms but not until many hundreds of investors lost their savings.

The Greens through the Great Western Investment Co. of Oklahoma City, promoted five oil companies. The original sales price of the stock in these companies was \$1 a share, but by a clever re-sale agreement purchasers were guaranteed that the Great Western company as fiscal agent would re-sell the stock if desired at the end of six months to net the investor \$2 a share or a profit of 100 per cent.

As the date to fulfill this agreement drew near, stockholders were advised that the price of the stock had reached \$3 a share. Naturally if they came to believe the stock was worth \$3 they declined to accept the opportunity to sell for \$2.

For a time, stock salesmen reaped rich commissions, but finally rumors that the reports were misleading began to spread and at a company banquet at Oklahoma City, it is charged that the Greens attempted to sell out to the salesmen. At this point the government stepped in, arrested the promoters and began to unravel evidence which finally landed the Greens in prison on the charge of using the mails to defraud. Now the stockholders are attempting to save what is left of the assets of the companies.

Promises of profits of 100 to 500 per cent, from stock promoters seldom become realities. The country is being flooded with wild cat stocks by unscrupulous investors. The result plan of the Greens is only one of the many varieties of bait used. Any of these promoters are willing and anxious to take Liberty bonds or war savings stamps and treasury savings certificates in exchange for their bits of paper. They are perfectly willing to give a promise of profits for the sure payment guaranteed by the federal government.

Investment in government savings securities and Liberty bonds are safe, sure and profitable. The investor not only is guaranteed against loss, but he is assured that money so invested will go toward solving the economic problems with which all are faced and in making the country greater and more prosperous instead of seeing his savings go to provide luxuries and an easy living for dishonest promoters.

INTERNAL REVENUE OFFICE POINTERS

Instructions have been issued from the Internal revenue office regarding the law authorizing debtor corporations and withholding agents to accept old forms of ownership certificates with respect to interest due on and prior to Nov. 1, 1915, when received from continental United States, and with respect to interest due on and prior to Dec. 1, 1915, when received from abroad.

In explanation of this decision of the United States treasury department, Acting Collector Andrew J. Casey of the Massachusetts district said today: "In view of the fact that the revised forms of ownership certificates were placed at the disposal of the public over three months ago, this office is of the opinion that a reasonable period of time has elapsed in which to permit the public to have become familiar with them. In order, however, to prevent inconvenience to individuals and organizations required to use such forms, old forms of ownership

certificates will be accepted with respect to interest due on and prior to Nov. 1, 1915, when received from continental United States, and with respect to interest due on and prior to December 1, 1915, when received from abroad.

"Banks and collecting agents, debtor corporations, and withholding agents shall refuse to accept the old forms, in connection with interest due, after the respective dates named herein, and collectors of internal revenue receiving monthly returns accompanied by certificates on the old forms, when it shall appear that such certificates were filed with debtor corporations or withholding agents, with respect to interest due subsequent to such dates, shall require the debtor corporation or withholding agent concerned to secure certificates on the revised forms."

It was in warfare that the idea was evolved of soldiers having their rifles clean shaven to enhance their fighting power. In other times, when soldiers' beards offered a very ready means of seizing one another,

ONLY MEDICINE MADE FROM FRUIT

Extraordinary Success which "Fruit-a-tives" Has Achieved

One reason why "Fruit-a-tives" is so extraordinarily successful in giving relief to those suffering with Constipation, Torpid Liver, Indigestion, Chronic Headaches, Neuralgia, Kidney and Bladder Troubles, Rheumatism, Pain in the Back, Eczema and other Skin Affections, is, because it is the only medicine in the world made from fruit juices.

These "Fruit Liver Tablets" are composed of the medicinal principles found in apples, oranges, figs and prunes, together with the nerve tonics and antiseptics.

PROFITEERING ON DINING CARS

BY RICHARD SPILLANE

America's foremost writer on finance, business and economics, and special contributor to the Newspaper Enterprise Association.

The railroads are run by the government, as you know. Incidental to transporting you over the land Uncle Sam feeds you if you pay his price.

But what a price!

For 25 cents he will furnish a few slices of sweet potatoes. He will tell you they are braised, whatever that may mean. There is no such word known to American lexicographers. Whatever braised may mean the slices of potatoes come to you with evidence of having been toasted, as it were, and nothing more.

The government paid perhaps 2 cents for the stuff it charges 25 cents when served to you. The difference—23 cents—is too much for peeling a sweet potato, slicing it and toasting a few particles.

For 35 cents the government serves a slice of honey dew melon. A whole melon costs 75 cents retail. The government probably pays 50 cents, buying in quantity. The melon is cut in 15 segments. There is no cooking, nothing but the slicing and the serving. For what Uncle Sam pays probably 50 cents he charges \$3.00.

For as much white potato as represents 1 cent in the raw state Uncle Sam charges 25 cents in the cooked state.

For meat that he pays 17 cents in uncooked form he charges 85 cents when cooked and served.

And, after Uncle Sam robs you, it is your duty to fee the colored gentleman who assisted him in the operation.

If the government wishes to reduce the high cost of living it might begin in the dining car. Prices there have

\$5,800,000 HIGH BID FOR POWDER CITY

N.E.A. Special to The Sun

WASHINGTON, Oct. 7.—The powder town of Nitro, W. Va., which the government built and used for war purposes, may go to the highest of only three bidders for \$5,800,000. The other two bids were much lower, although

been advanced from 50 to 100 per cent in the last year. And they were high enough then to curl your hair.

It is idle for Washington to preach against profiteering or proceed against profiteers when the government is a gross offender itself.

The high bidders were Harris Bros. & Co., chemical manufacturers of New York city. Next came the New Jersey Machinery Exchange with an offer of \$4,312,600. The duPont Chemical company was third with the bid of \$3,508,750. All three of the firms bidding propose to use the property for the foundation of an industrial town.

TWO MONTHS LATER

Horatio Higbee, to his boss—"Yes, sir, I understand, sir, that corporations have their own ideas about the way their employees should dress. Yes, sir, I'll remold my college clothes into more dignified clothes at once, as you request."

Matt Moneybags—"On the level, ain't it the limit of Dad making me wheel a barrow in his biggest mill like a day laborer, to start in?"

William Wind—"Gee, after tramping the streets looking for a job for weeks I was mighty glad to land this job running this elevator!"

Sam Sensible—"Yes, I just bought this little restaurant. I know the restaurant business pretty well, you know. I learned about it while in college. I'm going to open a couple more places soon. Yes, I am getting along pretty well for being only two months out of college."

MRS. PANKHURST ASKS NEW TRIPLE ALLIANCE

NEW YORK—Mrs. Emmeline Pankhurst, who battled violently for the ballot in Britain till 'twas won, is now bearing a message of peace. And this is her suggestion upon landing in New York: An immediate open alliance of England, France and the United States for the preservation of the peace of the world. This picture was snapped as Mrs. Pankhurst landed in New York.

RHEUMATISM LEAVES YOU FOREVER

Deep Seated Uric Acid Deposits Are Dissolved and the Rheumatic Poison Starts to Leave the System Within Twenty-four Hours

Every citizen in this country is authorized to say to every rheumatic sufferer in this country that if two bottles of Allenburys, the sure conqueror of rheumatism, be taken at once, reduce swollen joints and go away with even the fiercest twinges of rheumatic pain. He will gladly return your money without comment.

Allenbury has been tried and tested for years and really marvelous results have been accomplished in the most severe cases where the suffering and agony were intense and chronic, and where the patient was helpless.

Allenbury relieves at once immediately after you start to take it the good work begins. It searches out the uric acid deposits, dissolves the secretions and drives rheumatic poison out of the body through the kidneys and bowels.

It's marvelous how quickly it acts. Pleased relief often comes in two days, and even in cases where the suffering is most painful all traces disappear in a few days.

Mr. James H. Allen, the discoverer of Allenbury, who for many years suffered the tortures of acute rheumatism, desires all sufferers to know that he does not want a cent of anyone's money unless Allenbury delivers complete relief from all distress and he has instructed A. W. Downs & Co. to guarantee it in every instance.—Adv.

TURKISH THRONE IS THREATENED

Crisis in Asia Minor Similar to That Caused by Seizure of Fiume

Turkish Nationalist Troops Capture Great R. R. Center—Allies Helpless

PARIS, Oct. 7.—Turkish Nationalist troops said to number upwards of 300,000 men and commanded by Mustafa Kemal seem to have precipitated in Asia Minor on a major scale, a crisis similar to that which arose in Dalmatia when Captain Gabriele d'Annunzio seized the city of Fiume.

There is a feeling that the situation in Asia Minor has gone beyond the control of the Turkish government and that the allied powers are helpless, at present, to bring military pressure to bear and afford any appreciable relief.

General Ali Riza Pasha, the new grand vizier, has opened negotiations with Mustafa Kemal, according to a Constantinople despatch.

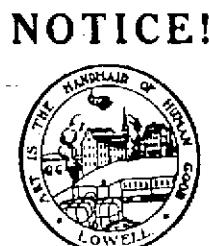

Konieh, a railroad center, is in the hands of the Turkish Nationalist troops. This city, which in the days of Roman power was known as Iconium and was the capital of the province of Lycaonia, stands in a position which virtually dominates southern Asia Minor.

Its capture appears to indicate that Mustafa Kemal is in control of a vast region stretching from Konieh, on the southwest, to Erzerum, the principal city of Turkish Armenia, a distance of about 425 miles. It is said the fall of the Turkish cabinet was caused by the capture of Konieh, and there seems to be some apprehension in some quarters that the Turkish throne may be in danger.

On the other hand, French circles point out that Djemal Pasha, the newly appointed Turkish minister of war, is a political ally of Mustafa Kemal.

The task of working out the future of Turkey has not progressed far in the peace conference so far as shown by actual results. Turkish delegates were invited to come to Paris in an advisory capacity some time ago, but they have since returned to Constantinople at the request of the conference. It has been reported.

"It is the news, the truth and fit to print." This is the standard The Sun follows in printing city, state and national news.

On and after Wednesday, October 8, 1919, the bridge on Broadway over Pawtucket Canal, will be closed to through passage until such time as the necessary repairs upon bridge are completed. There will be a path for pedestrians maintained while the work is being done.

Conductors' Hearing

change, but did not deposit any fare in the box. Chicoline also held out fares in another instance on this trip, he said.

He also rode on Chicoline's car, leaving the square at 8 p. m. that evening, and said that he gave Chicoline 50 cents, paying for two. Only one fare was deposited, he said. A woman and man boarded the car later, he said, and Chicoline deposited but one fare.

Cross-Examination

He said, when cross-examined by Mr. Tierney, that he had conferred with his chief, Mr. Lahan, shortly after his arrival in Lowell early in September. The conference had been held at the Harrisonia hotel, and Mr. Lahan had given him the number of a conductor to investigate. The number given him to investigate was called No. 2901.

"Did you discuss conductor No. 2901 with Mr. Lahan on any day before you commenced to investigate on Sept. 15?" asked Mr. Tierney.

"No," replied witness.

He afterwards said that he couldn't recall whether he had discussed conductor 2901 before Sept. 15 or not.

Mr. Tierney asked him to tell him without referring to his notes what the weather conditions were on the trip he made on Sept. 15, also where the cars were bound, how many passengers were on, etc.

Witness was unable to recall the answers without referring to his notes.

"How far were you from the conductor when you took your seat in the car?"

"I can't recall."

"Where did you sit?"

"I can't recall."

"Do you recall what observations you made on that trip at 4.40 on Sept. 15?"

"Not without referring to my notes."

"On the evening trip how many people got on the car with you at Merrimack square?"

"I can't say."

"Was it raining or pleasant?"

"I can't recall."

"Do you remember where the first person got on after you boarded the car?"

"No, sir."

"Who paid the fare on that trip?"

"I did."

"What did you say?"

"I told the conductor I was paying for two."

Witness corrected himself and said it was on the afternoon trip that he had paid the fares; on the evening trip, his fellow-investigator, Spayde, had paid the fares.

He said that he and his fellow investigator paid no attention to the fares that were put in the fare box. It was the money held back by the conductor which they recorded on their notes.

William E. Barcus

William E. Barcus, another investigator, who gave his address as Philadelphia, Pa., was the next witness called. He said that he boarded a car at the square for Westford street on Sept. 15 at 5.22 p. m., on which Chicoline was conductor. An investigator named Webster accompanied him.

A man gave Chicoline a dollar bill when boarding the car at the square, but no fare was deposited, he said. He gave Chicoline 50 cents, paying for himself and Webster, whom he referred to as "Operator No. 1," but only one fare was deposited by Chicoline, who returned 30 cents in change.

Two women boarded the car at the square at this time and one paid 25 cents for the two. Only 10 cents was deposited, he said. Later a woman gave Chicoline a \$5 bill. He told her he would make change for her later when he was not so rushed, testified Barcus, and later he brought the change to the woman, but only deposited a nickel.

He made the return trip to Merrimack Square, leaving the armory on Westford street at 5.43 and his fellow-investigator, Webster handed Chicoline a quarter to change. No fares were deposited, he said.

On Sept. 16 he rode on Chicoline's car from the square to Walker street at 6.23 p. m. he said, and Chicoline held out several fares at the square. At the postoffice he held out 5 cents

for two.

He said he couldn't give the details of the transactions on that trip without referring to his notes for fear of mixing up Chicoline with some of the other transactions he was carrying in his mind. He had investigated several hundred cases in the past, he said.

Adjourned at 12.30 p. m. until tomorrow at 10 a. m.

of a woman's fare, after making change.

He said he was a former soldier, and had worn an army uniform while making investigations because it was his belief that dishonest conductors would take advantage of a soldier quicker than a civilian.

He had been four years with the investigating company in Philadelphia, he said.

He had also been engaged in shadowing various persons, besides the street car detective work.

Doreus Cross Examined

"What do you mean, shadowing?" asked Mr. Tierney.

"Don't you know what shadowing a man means?" continued the investigator.

"Does it mean following a man and finding out whether he stays up late nights, and other personal habits?"

"Exactly," replied Barcus.

"Who did you work under in Lowell?" asked Mr. Tierney.

"Mr. Whitmarsh and Mr. Lahan."

"Who directed you to get on the car Sept. 15?"

"Mr. Whitmarsh."

Mr. Tierney then asked witness to close his note book and answer his questions from memory.

"What time in the day did you take a car from the square on Sept. 15?"

"In the afternoon."

"What time exactly?"

"I don't know."

"It was at 5.22, wasn't it?"

"Yes."

"You say that about 15 people boarded the car with you?"

"Yes."

"What that conductor's financial standing with the cash box was before you paid your fare, you don't know, do you?"

"Yes."

"Where were you?"

"We (the other investigator and himself) were second and third in the line of passengers."

He then said he couldn't give the details of the transactions on that trip without referring to his notes for fear of mixing up Chicoline with some of the other transactions he was carrying in his mind. He had investigated several hundred cases in the past, he said.

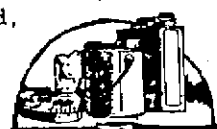

Adjourned at 12.30 p. m. until tomorrow at 10 a. m.

LEGAL NOTICES

Commonwealth of Massachusetts. Middlesex ss. Probate Court. To the heirs-at-law, next of kin and all other persons interested in the estate of Charles M. Young, late of Lowell, in said County, deceased.

Whereas, a certain instrument purporting to be the last will and testament of said deceased has been presented to said Court, for Probate, by William T. Sheppard, who prays that letters testamentary may be issued to him, the executor therein named, with- out giving a surety on his official bond.

You are hereby cited to appear at a Probate Court, to be held at Cambridge, in said County of Middlesex, on the fourteenth day of October, A. D. 1919, at nine o'clock in the forenoon, to show cause, if any you have, why the same should not be granted.

And said petitioner is hereby directed to give public notice thereof, by publishing this citation once in each week, for the next three weeks, in The Lowell Sun, a newspaper published in Lowell, the last publication to be one day, at least, before said Court, and by mailing postpaid, or delivering a copy of this citation to all known persons interested in the estate, seven days at least before said Court.

Witness, Charles J. McIntire, Esquire, First Judge of said Court, this twenty-sixth day of September, in the year one thousand nine hundred and nineteen.

P. M. ESTY, Register.

SOUTH END WELCOME HOME CELEBRATION

Beginning tonight and continuing every night this week until Friday the general committee in charge of the South End welcome-home celebration will meet to pick up odds and ends of preparations now dangling in the well of uncertainty. There is much left to do, but the members are sure that Friday morning will dawn upon a stage all set for the most pretentious event the city ever has planned.

As is generally known the celebration continues over four days. Friday, Saturday, Sunday and Monday, the 10th, 11th, 12th and 13th and the programs for each day contain features beyond number. Every form of amusement, to appeal to old and young alike, will be on tap, all culminating in the huge parade of military, civil, fraternal and semi-military organizations on the holiday.

The committee is on the last lap and desires to swing into the home stretch considerable in advance of the plans that is, everything must be cleaned up and in readiness for Friday's opening. Co-operation still is needed, merchants may donate more to the general fund if they wish and all suggestions will reach receptive minds. It is only by pulling together that the committee will feel sure of complete success.

A substantial check was forwarded to the treasurer of the committee to help defray the expenses of the celebration by the executive committee of the 101st Ladies' auxiliary, who held a meeting at the board of trade rooms last evening. Final reports were made of the recent whist party and entertainment in the K. of C. hall. Chairman Mrs. William H. Merritt presided.

DEATHS

ELIAS—Mrs. Shaly Ossad Elias, wife of George Elias, died Saturday at the Chelmsford Street hospital, aged 29 years. The funeral took place Sunday afternoon from the rooms of Undertaker Joseph Albert in Aiken Street. A Libera was sung at St. Patrick's church and burial was in St. Patrick's cemetery.

LEDoux—Mrs. Rose Ledoux died yesterday at her home, 39 Clark Street, aged 36 years. She leaves her husband, Maurice Ledoux; two daughters, Marie Rose and Alice; two sons, Daniel and Vital Ledoux; her father, Zephyr Moreau of Canada and five brothers, Rev. Louis Moreau, Edmund, Jacques, Henry and Armand Moreau, all of Canada.

PELLETIER—Mrs. Laura Pelletier died yesterday at the Lowell Corporation hospital. She is survived by her husband, Emile Pelletier. The body was taken to her home, 19 Caroline Street, by Undertakers Amodeo Archambault & Sons.

GLYNN—John E. Glynn, aged 31 years, died this morning at the home of his sister, Miss Ellen M. Glynn, 429 Worthen Street. The deceased leaves two sisters, Mrs. Anna Whiting and Miss Ellen M. Glynn.

MELLELLAN—Robert Mellellan, aged 21 years, died this morning at St. John's hospital. The body was removed to the funeral parlors of Charles H. Molloy's Sons. The deceased leaves, besides his father and mother, of Prince Edward Island, five brothers, Joseph and Alexander of Framingham; John of Newton, Cyrine of Prince Edward Island; Augustus of Winnipeg, Manitoba.

GOVERNMENT GOODS

Sold Next Thursday, October 9th, at Hanson's Auction Sale, Rock Street, at 10.30 A. M.

Goods consist of dry goods, such as sweaters, stockings, rubber boots, oilskins, slickers, coats and pants. Also a good assortment of small hardware.

FUNERALS

FLEMINGS—The funeral of Mrs. Ella C. Flemings was held from her residence, 122 Parkview Avenue yesterday afternoon. The services were conducted by Rev. Benjamin A. Willmott, pastor of the Walnut Avenue Congregational church of Boston. Appropriate selections were sung by the Schubert male quartet of Boston. The floral offerings were numerous and beautiful. The bearers were James F. Flemings, Herbert L. Trull, Harry B. Flemings and Frederic N. Trull. Burial was in the family lot in the Lowell cemetery. The funeral arrangements were in charge of Harvey B. Greene under the direction of Undertaker George Hayes.

BOIES—The funeral of Mrs. Josephine L. Boies took place at her home in Westlands, Chelmsford Centre, yesterday afternoon. Rev. H. C. West, pastor of the Chelmsford Street Baptist church, officiating. Mrs. F. L. Roberts sang appropriate selections. The bearers were Willis E. Hatch, Geo. L. Hatch, Fred Hazen and Horace Tilden. Burial was in the family lot in Riverside cemetery at North Chelmsford, where the burial service was read by Rev. Mr. West. The funeral was under the direction of Undertaker W. Herbert Blake.

SCOTT—The funeral services of Edwin Scott were held at his home in North Billerica yesterday afternoon. Rev. Mr. Armstrong, pastor of the Baptist church of North Billerica, officiating. The following selections, "Asleep in Jesus" and "Abide With Me," were sung by a quartet composed of Miss Minnie Clifford, Miss Della Chambers, Herbert Ellis and James Ritchie. The bearers were Herbert Ellis, George Chambers, William Butterfield and Harry Tucker. There were many beautiful floral tributes. In attendance at the funeral were relatives from Washington, D. C., Palmer, Mass., Boston and Springfield. The casket was borne from the church to the hearse by the following relatives and friends: Messrs. James Blakely, Patrick McElhinney, Timothy McKinnara and John Shields. Burial took place in the family lot in St. Patrick's cemetery where Rev. James McCarlin, O.M.I., read the funeral prayers at the grave. Undertaker William A. Mack had charge of the funeral.

REQUIEM MASSES

McDONALD—There will be a high mass of requiem Friday morning at 8.45 o'clock at St. Patrick's church in loving memory of Jas. McDonald. CELIA McDONALD.

BROSNAN—There will be an anniversary high mass Wednesday morning at 7 o'clock, at St. Columba's church for William Brosnan and Bridget Brosnan.

QUINN—A solemn anniversary requiem mass will be celebrated at the Sacred Heart church Wednesday morning at 8 a. m. for John P. Quinn.

FAMMELL—There will be a second anniversary high mass of requiem tomorrow morning at 8 o'clock at the Immaculate Conception church for Charles H. Farrell, who died Oct. 5, 1917.

BY HIS WIFE, FATHER and CHILDREN.

IN MEMORIAM

In loving memory of Cornelius Griffin, who died October 20th, 1915. A sadness rests upon his home. They miss his kindly face; Wherever they turn, wherever they go, They seek his vacant place.

MR. and MRS. J. L. ANDERSON.

FUNERAL NOTICES

GLYNN—The funeral of John E. Glynn will take place Thursday morning from the home of his sister, Miss Ellen M. Glynn, 429 Worthen Street, time to be announced later. Burial will be in the family lot in St. Patrick's cemetery under the direction of Chas. H. Molloy's Sons, undertakers.

MELLELLAN—The funeral of Robert Mellellan will take place Wednesday (time to be announced later) from the funeral parlors of Charles H. Molloy's Sons. Burial will take place Saturday morning at Grand River, P.E.I. Services will be held Saturday morning at St. Stephen's church, Grand River, P.E.I. Burial will be in St. Stephen's cemetery. The funeral will be under the direction of Undertakers Charles H. Molloy's Sons.

STEWART—The funeral of John T. Stewart will take place on Wednesday morning at 8 o'clock from his late home, 93 Railroad Street. Funeral high mass of requiem will be sung at St. Peter's church at 9 o'clock. Burial will take place in St. Patrick's cemetery. Undertakers St. H. McDonough Sons in charge.

SUN BREVITIES

EDITOR OF HARPER'S DEAD

NEW YORK, Oct. 7.—Henry Mills Allen, editor of Harper's magazine, since 1869, died at his home here today, after a long illness. He was 82 years old.

Federal Troops in Control

Continued

the mayor, the police and 300 state militiamen stationed at Gary.

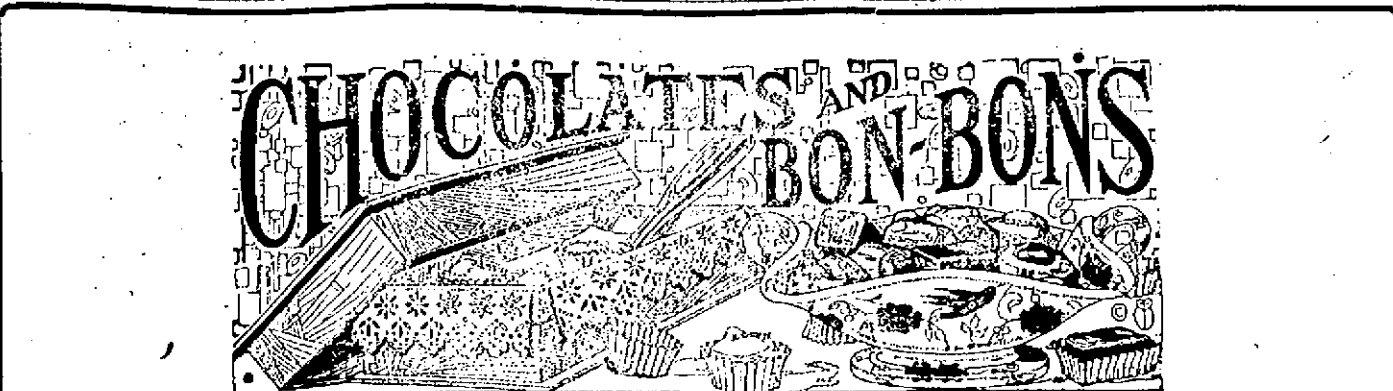

With reports that strikers in increasing numbers were resuming their places in the mills, the attitude of pickets has become threatening and for a time it seemed as if a serious clash would be unavoidable.

The state militia were ordered to Indiana Harbor and East Chicago, Ind., where Gov. Goodrich declared martial law.

Gen. Wood has forbidden public meetings, parades and demonstrations in Gary. Carrying of weapons by persons other than the police, military authorities, troops and members of the city government also is forbidden.

It was made plain that martial law had not been declared in Gary. The federal troops, it is stated by a member of Gen. Wood's staff, will be used to preserve order in conjunction with civil authorities.

One of Gen. Wood's first actions here was to call a conference of city officials and strike leaders. Oscar Anderson, a

APPRECIATION

We wish to extend to our many patrons our sincerest appreciation for their acknowledgment of the opening of our new store this morning. Under such conditions of interest and patronage on your part we have been encouraged to continue our service in such a way that everyone who enters this store will leave with a pleasant feeling of satisfaction and the assurance that we were able to give them just what they desired. We believe in this business that **COURTESY IS AN ASSET**. Therefore we shall make a specialty of giving courteous treatment to all.

To those of you who have not had the opportunity to patronize this store as yet, we extend a most cordial invitation to do so. We **CAN AND WILL PLEASE YOU**. You will find an assortment of candies and bon-bons here that is the very best in the city—fresh, home-made and delightfully delicious.

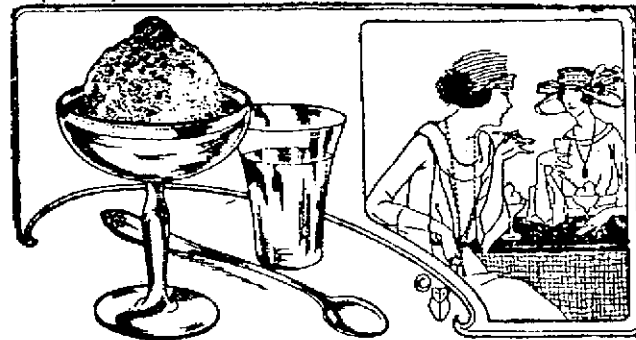

Perhaps after a purchase of candy you will be interested in our large, beautiful soda fountain. Here, too, you will find something in the ice cream line that will just suit your taste.

WE THANK YOU

"At The Old Stand"

A. M. NELSON

68 Merrimack Street, Lowell

strike leader, after the conference said: "The strikers now will get protection and we will win the strike."

Steel Plants Running

PITTSBURGH, Oct. 7.—A number of steel plants in the Pittsburgh district

which were forced to shut down two weeks ago when the strike of steel workers was in progress, were operating today, according to company sources. Some were running full time.

Union leaders declared that the mills reported to have resumed work yes-

terday had few men on the job. Latest figures from union headquarters as of Oct. 6, indicate that 307,500 steel workers are on strike in the United States. This is an increase of \$5,500, compared with the figures issued shortly after the strike started.

Cars Held Up; Shots Fired

BUFFALO, N. Y., Oct. 7.—Several men were slightly hurt and one was reported wounded by a bullet from a revolver today when a crowd of 1000 men held up cars of the Buffalo & Erie Traction Co., between the city line and Lackawanna.

Ties and blocks of concrete piled up on the tracks held up the first car and ultimately blocked six of them carrying workmen to the Lackawanna Steel Co., one of the three local plants closed by the strike.

Fustilades of rocks met the cars as they came to a standstill. The workmen fought back and several of them, according to police information, used a revolver today when a crowd of 1000 men held up cars of the Buffalo & Erie Traction Co., between the city line and Lackawanna.

WALTER E. GUYETTE

OFFICE 53 CENTRAL STREET, LOWELL, MASS.

Auctioneer
TEL. 2113

CENTRALVILLE, LOWELL, MASS.

THE TWO WELL KEPT AND WELL SITUATED COTTAGE HOUSES AT NO. 155 WEST SIXTH STREET, CORNER OF WEST STREET, AND NO. 151 WEST SIXTH STREET, PLEDGED IN TWO SEPARATE PARCELS TO THE HIGHEST BONA FIDE BIDDERS, AT UNRESTRICTED AND ABSOLUTE PUBLIC SALE, ON SATURDAY, THE ELEVENTH DAY OF OCTOBER, 1919, COMMENCING PROMPTLY AT 3.30 O'CLOCK, P. M., WITH THE HOUSE NUMBERED 155 WEST SIXTH STREET, AND FOLLOWING IMMEDIATELY WITH THE DWELLING NEXT ADJOINING AT NO. 151.

COTTAGE NO. 155 WEST SIXTH STREET, CORNER WEST
This house has seven splendid rooms, four on the first floor, and three chambers on the second; also pantry, toilet, gas, city water and sewer connections. The house is supplied with two side entrances, has cemented cellar and is in perfect repair, only recently being entirely gone over. The lot is of good size and dimensions, having a splendid frontage on the two streets, is fenced on all sides. This cottage, with its corner location and being of full size makes it a most attractive home.
Terms: \$200 must be paid to the auctioneer as soon as struck off, other terms at sale.

COTTAGE NO. 151 WEST SIXTH STREET
Has six good rooms, besides large pantry, gas, city water, toilet and sewer connections; the house has three rooms on the first floor and three chambers on the floor above, has side entrance and is in A-1 condition, the building only recently being thoroughly renovated inside and out. The lot is of good area, with a corresponding frontage on West Sixth street, and is fenced on all sides. The premises have been occupied by the one tenant for the 15 years past, which fact in itself speaks of the premises as most attractive. Terms: \$200 must be paid to the auctioneer just as soon as struck off; other terms at sale.

In the offering of the above described cottages at public sale, the opportunity to secure a home in this, an essentially home locality, within easy and comfortable walking distance to Merrimack square, to the various mills and factories, and have a home all by yourself is here given. With the great scarcity of tenements, and with the large number of people of moderate means looking to buy a home, and with the very few parcels suitable for sale, this chance to obtain a home in this splendid location should be acted upon by the many, many numbers of home-seekers.

In all probability a most liberal mortgage can remain at 6 per cent. Make all inquiries at the office of the auctioneer.

Per Order of JOHN C. LEGGATT, Attorney.

Kerr Opposes Ruether

Secretary Lane Is Chosen Permanent Chairman of Industrial Conference

DISAGREEMENT OVER RULES

Caused Adjournment of La-
bor Conference—Lane is
Chairman

To Meet Later in Day—All
Decisions by Unanimous
Vote of Three Groups

Meetings Open to Public and
Press—Rules Attacked by
John Spargo

WASHINGTON, Oct. 7.—Disagree-
ment over rules proposed for govern-
ing the industrial conference called by
President Wilson resulted in the con-
ference adjourning suddenly today af-
ter Franklin K. Lane, secretary of the
interior, had been elected permanent
chairman. It planned to meet again
at 2.30 o'clock this afternoon.

As proposed by committee, the rules
provided that all conclusions and de-
cisions must be arrived at by unan-
imous vote.

CONDUCTORS' HEARING

Case Charging Car Conduc-
tors With "Knocking
Down" Resumed Today

Two more "operators" of the Auditing
and Inspection Co. of Philadelphia,
the company which furnished investi-
gators to the Eastern Massachusetts
Ry. to look into alleged dishonesty
on the part of its employees, were the
witnesses called today in the trial of
Camille Chicoine, J. J. Kelley and J. R.
Wallace, the three Lowell car conduc-
tors charged with larceny from the
company.

The testimony of the witnesses thus
far has been mostly concerned with
the alleged stealing of fares by Chicoine,
which is claimed to have oc-
curred on various trips during Sep-
tember.

Samuel N. Spayde, whose testi-
mony in regard to alleged larcenies
committed by Chicoine took up the
major portion of yesterday's hearing,
was recalled this morning and ex-
amined further by Atty. Tierney,
counsel for the carmen.

Mr. Tierney took up particularly the
matter of the memoranda which
Spayde had testified to jotting down
immediately after making an investi-
gation on the local street cars.

Charles A. Rigler, of Millersburg,
Pa., one of the five special investi-
gators detailed by the company to in-
vestigate alleged fare stealing on the
local lines, then took the stand. His
employers are the Railroad Auditing
and Inspection Co. of Philadelphia,
Pa. He said he made a trip from
Merrimack station on September 15,
at 1.40 p. m., and gave the conductor,
Chicoine, a dollar bill, "paying for
himself and another 'operator' who
accompanied him. Chicoine returned
50 cents in change, but only depos-
ited 10 cents in the fare box.

Later, he said, a woman boarded
the car at the Middlesex street rail-
road station, and gave Chicoine a
quarter. He returned 15 cents in
change.

CHILD FATALLY INJURED

Was Struck by Auto That
Mounted Sidewalk and
Smashed Store Window

Dorothy Lyon, aged 4 years, daugh-
ter of Mr. and Mrs. William Lyon of
West Andover, died at St. John's hos-
pital this afternoon as a result of in-
juries received in an automobile acci-
dent, which occurred in Bridge street,
near Merrimack square, shortly before
1 o'clock. Mrs. Lyon, who was with
the child at the time of the accident,
received a sprained ankle and abra-
sions about the body, but her condi-
tion is not serious.

According to witnesses of the acci-
dent the little girl and her mother
were struck by an automobile
operated by Percy D. Smith of 11
Prospect street, Methuen. Mr. Smith,
who was driving a Packard touring
car had just turned into Bridge
street from Merrimack square and
was proceeding at a fairly low rate
of speed, when a Highland-bound
electric car made its appearance. At
that moment several persons, includ-
ing Mrs. Lyon and her daughter, left
the sidewalk to board the car and
although Mr. Smith applied the
brakes his car was not brought to a
stop until the child was run over and
the mother knocked down. The
operator of the machine then became
confused and the machine took the
sidewalk and ran into the window of
Palmer's market, smashing the large
plate glass. Traffic Officer Edward
Connors rushed to the scene and after
commanding Daniel Miller's auto-
mobile he rushed the unconscious
child to St. John's hospital, where it
was found that her chest was badly
crushed. She passed away shortly
after her arrival at the institution.

In the meantime the ambulance was
called and Mrs. Lyon was taken to St.
John's hospital, where it was stated
later that her injuries were not of a
serious nature. Mr. Smith, the driver
of the car, was later taken to the
police station by Officer Connors. A
charge of manslaughter will be pre-
ferred against him. The child's
father, Mr. William Lyon, is em-
ployed at Palmer's market and was
selling fruit within two minutes' walk
of the accident when his daughter
was fatally injured.

POLICE APPLICANTS

CITY OF BOSTON
POLICE FORCE
NOTICE

The Civil Service Requirements
have been changed. The Exam-
ining Board will sit daily at
Kingsley Hall, Ford Building,
Ashburton Place, Boston, from
October 6 to October 11, inclu-
sive, from 9.00 A. M. to 5 P. M.

Applicants must be between
the ages of 22 and 35 years, not
less than 5 feet 7 inches in
height and 135 pounds in weight.

All citizens of Massachusetts
are eligible, but Veterans must
be given preference under the
law.

Pay \$1400 for the first year.
First uniform furnished free.
Liberal pension system.

TO EXTRADITE COUNT BISMARCK

Lille Authorities Demand
Germany Give up Grand-
son of Famous Chancellor

Accused of Having 14 In-
habitants of Vicoigne Shot
as Example

PARIS, Oct. 7.—The extradition of
Count Otto Bismarck, grandson of the
famous German chancellor, has been
demanded of the German government
at the instance of consular authori-
ties at Lille, according to the corre-
spondent of the Excelsior. Eight other
Germans are also to be extradited, the
writer states.

Count Bismarck is accused of having
had fourteen inhabitants of the vil-
lage of Vicoigne shot as an example,
and of burning houses there. Similar
charges are preferred against the oth-
ers.

The newspapers announced that the
lists of German officials and other
persons to be delivered to the allies
for trial are now practically ready for
submission to Germany. The papers
point out that the lists do not contain
the name of the former emperor of
Germany, who is to be dealt with sepa-
rately.

Omission of the name of the former
German monarch has no significance,
since the peace treaty makes a clear
distinction between "William II. of Ho-
henzollern, formerly German emperor,"
whose indictment for "a supreme of-
fense against international morality
and the sanctity of treaties" is con-
tained in one article, of the treaty and
persons accused of having committed
acts in violation of the laws and cus-
toms of war whose surrender and trial
are provided for in another article.
In the final protocol signed at the
same time as the treaty, it was provid-
ed that the lists of individuals whom
Germany must surrender for trial, should
be sent to Germany within a month
after the treaty came into force by
ratification of three great powers.

The surrender of the former em-
peror is, according to the treaty, to
be demanded from the government of
The Netherlands, not Germany, and
his trial is to take place before a
special international tribunal, not a
court martial.

REMOVE 50,000 MINES

Work of Removing Great
North Sea Mine Barrage
Completed, Says Daniels

WASHINGTON, Oct. 7.—Removal of
the great North sea mine barrage,
laid by the American navy during the
war, has been completed. This was
disclosed today when Secretary Dan-
iels made public a cablegram of con-
gratulation sent to Rear Admiral
Joseph Strauss, who commanded the
force which since last October had
been engaged in the hazardous task
of sweeping the 50,000 mines from the
sea.

Only one serious accident attended
the work, one of the sweepers being
blown up with the loss of several
lives.

PRES. WILSON CONTINUES TO IMPROVE

WASHINGTON, Oct. 7.—President
Wilson continues to improve and he is
eating and sleeping well, according to
a bulletin issued at 11.25 a. m. today
by Rear Admiral Grayson, Rear Ad-
miral Stitt and Dr. Sterling Ruffin.

The bulletin follows:
"The president's improvement has
continued. His appetite is decidedly
better and he is sleeping well."

Rear Admiral Grayson will keep
the president in bed for a time yet,
despite his desire to attend to official
duties.

Messages of sympathy continued to
reach the White House today.
The bulletin was issued after the
usual morning consultation between
the president and the physicians.
The president's condition was a favor-
able one. He added that the president
was restless and desired to attend to
public matters. However, the doctors
insisted that their orders for complete
rest be strictly carried out and the
president will be kept in bed for the
present.

In the view of Dr. Grayson, the pres-
ident, despite the improvement shown
during the past few days, is not yet
out of danger and the physicians fear
that any undue excitement now might
offset the gains he has made.

There is no intention now to send
the president away from Washington.

King's Sympathy
LONDON, Oct. 7.—King George to-
day sent his private secretary, Col.
Olive Wigram, to the American em-
bassy to seek the latest news regard-
ing President Wilson's condition. Col.
Wigram was instructed to express the
king's sincere sympathy with Pres-
ident and Mrs. Wilson.

Cincinnati Reds Need But One More Victory to Win the World's Championship

REDLAND FIELD, Cincinnati, Oct. 7.
—Perfect baseball weather, with the
sun shining and a cloudless sky greet-
ed fans for the sixth game of the world
series today. The thermometer seemed
likely to reach 80 degrees.

Set \$50,000 on Game
Seven Cincinnati business men today
bet \$50,000 on the Reds winning to-
day's contest. They had wagered \$15,-
000 at odds on the first game. They
doubled on the second and third games,
losing on the third game, they dropped
their betting to \$15,000, won and then
bet the \$25,000 on the fifth game. They
then bet the \$50,000 on the sixth game.
The crowds began to gather at the

ITALY RATIFIES PEACE TREATY

King Signs Royal Decrees
Ratifying German and
Austrian Treaties

Ratification Virtually Com-
pletes Steps to Put Treaty
Into Effect

ROME, Oct. 7.—A royal decree
has been issued ratifying the
peace treaties.

Ratification of the German treaty
by decree of the king of Italy
virtually completes the steps neces-
sary for putting it into effect. The
British parliament has ratified it
and it awaits ratification by the last
of Great Britain's dominions to act
upon it, the Australian common-
wealth, before becoming binding upon
Great Britain. Approval was given by
the French chamber of deputies last
week and the senate is expected to
take similar action on Friday or
Saturday. Italy is the first power
to ratify the treaty with Austria.

French Senate Acts
PARIS, Oct. 7.—The senate meets
this afternoon to begin consideration
of the German treaty.

Leon Bourgeois, chairman of the
peace commission of the senate, de-
livered the report of the commission
on the treaty to the senators this
morning. The report called for im-
mediate and unanimous ratification.

The National Union of General
Workers, which is the A. F. of L. of
England, reports a membership of
554,375, including 30,592 added in the
last three months.

ticket offices at daybreak. Only un-
reserved seats and standing room were
for sale. It appeared that the largest
crowd that had witnessed any game in
Cincinnati would be at the ball park
this afternoon.

Moran stated that he had no reason
to believe anything would interfere
with his pitching Ruether today and
that he was convinced that it would
all be over tonight.

Gleason said he would work Kerr
and that his only hope was that the
Sox would show their true form and
bat and play the kind of baseball that
won the American league pennant for
them.

"If they do this," he said, "we have
an outside chance of winning four
straight and don't be too much sur-
prised if we do it."

The betting today ranged from 7 to
3 to 5 with the Reds as the fa-
vorites.

"Hot Time in Old Town Tonight"
Kerr took part in the Sox batting
practice, while Schalk was in his us-
ual place.
The band played "There'll be a Hot
Time in the Old Town Tonight."

Kerr Vs. Ruether
Ruether took part in batting prac-
tice. When the White Sox appeared
on the field the hands struck up
"Please go away and let me sleep."
The ground rules will prevail today
of the series.

Batteries for today's game are: Kerr
and Schalk for Chicago; for Cincin-
nati, Ruether and Morán.

The victories of Moran's men at
Chicago only added to the enthusiasm
that was displayed here during last
week and today's attendance was ex-
pected to be greater than ever, if possi-
ble.

Indications were for fair weather.

CITY FINANCES IN SPOT LIGHT

Auditor Says Council Must
Restrict Appropriations to
\$30,000 Limit

Murphy's \$56,000 Street Or-
der Fails to Pass When
Reduced to \$30,000

City finances were given a thorough
airing at the meeting of the munic-
ipal council this morning as a sort
of preamble to the resurrection of
Commissioner Murphy's order to appropri-
ate \$56,000 for street maintenance and
after Mayor Thompson had courageously
read a voluminous report of Joseph
Hennessey from City Auditor J. Joseph
Hennessey it was found that \$30,000 by
necessity would have to be Commis-
sioner Murphy's limit and the council
was not inclined to make him a present
of that, at least not at the present
time.

Mr. Hennessey's communication was
offered in reply to a vote taken on
Sept. 30 by the council, that the auditor
be instructed in connection with the
proposed \$56,000 order, to bring before
the council information of what mon-
ey may be available for such a pur-
pose.

The information contained in the
communication, boiled down to a skele-
ton, was this: That it would not be ad-
visable for the present at least to ap-
propriate any sums in excess of \$30,000
from the general treasury fund for any
municipal purpose and that there is an
actual book deficit of \$12,351.02 caused
by such an expenditure by the water
works department in 1916 in excess of
the amount appropriated.

In spite of the acceptance of Mr.
Hennessey's appropriation and subse-
quent questioning of the auditor by
Commissioners Murphy and Marchand,
Commissioner Murphy again brought
up his \$56,000 order for consideration,
asked that it be changed to read \$30,-
000 and that he be given that amount.
Continued on Page Two

although the torrid days of last week
hardly could be expected.

Another pitchers' battle was ex-
pected. All the pitching has been
good with the exception of the initial
contest when the Reds connected freely
with the curves of Eddie Cicotte.
The hotels last night were jammed
and 12 special trains, including those
upon which the Reds and the White
Sox traveled, rolled into town this
morning.

The proceeds yesterday were the
last in which the players share. If the
Sox win today the teams will battle
here tomorrow and should the Sox
again win they will go back to Chic-
ago on Thursday for the eighth game.
The lineup:

CHICAGO	CINCINNATI
J. Collins, rf	2b, Rath
Ed. Collins, 2b	1b, Daubert
Weaver, 3b	3b, Groh
Jackson, lf	cf, Roush
Felsch, cf	1b, Duncan
Gandil, 1b	ss, Kopf
Risberg, ss	rf, Neale
Schalk, c	c, Ruether
Kerr, p	p, Morán

First Inning
First ball: John Collins opened hos-
tilities by popping a high fly in back
of second base that Rath captured. Ed
Collins up. Roush came in fast and
got Ed Collins' low fly. Weaver nailed
the first ball and drove it to left, but
it hit a few feet foul. Weaver singled
through Kopf into centre field.

The Cincinnati shortstop could not
quite get to it. Jackson sent an easy
pop up to Groh. No runs, one hit, no
errors.
Second half: Rath hesitated to Bis-
berg on the third ball pitched. It
was an easy out. Daubert batted
the first ball pitched to Kerr, who
tossed him out at first. Groh doubled
to right center. It was a liner that
landed between Felsch and John Col-
lins and was retrieved quickly by the
latter. Roush singled to Risberg,
but Groh was caught by overrunning
third. Risberg to Weaver. Roush's hit
was over toward the second sack. No
runs, two hits, no errors.

Second Inning
Felsch sent a long fly almost to the
bleachers, but Neale got under it and
captured it. Gandil put a Texas
leaguer out towards right but it fell
a few inches foul. Kopf took Gandil's
bounce and tossed to Daubert for the
putout. Risberg hoisted a high one
to Neale. No runs, no hits, no errors.

Second half: The crowd gave Dun-
can an ovation as he stepped up to
the plate. Duncan was safe when
Risberg fumbled his easy grounder.
Kerr became undecided and walked.
Kopf. Neale forced Duncan at third.
Kerr to Weaver. Neale attempted to
sacrifice but Kopf made a "quick
throw" to third. Rariden forced Neale.
F. Collins to Risberg. Kopf taking
third. Risberg captured that Neale
interfered with him but the claim was
not allowed. Ruether batted one to
Kerr, who threw to first for the put-
out. No runs, no hits, one error.

DIED AS RESULT OF GAS POISONING

Private Arthur Allen of Camp Doves, who was found unconscious in a room in Hurd street Sunday afternoon as a result of gas poisoning, died at St. John's hospital late yesterday afternoon and later after Medical Examiner T. B. Smith had viewed the body and reviewed the circumstances surrounding the case, he stated that in his judgment, death was accidental.

Allen, who was on a brief furlough in this city, called at 19 Hurd street Saturday evening and hired a room for the night, informing the keeper of the house that he did not wish to be disturbed in the morning as he was desirous of a rest. Sunday afternoon at about 3 o'clock Allen was found in an unconscious condition in his room. The windows of his room were open and gas was coming from the jet in the chandelier. The police plumber was put in action and later the young man was removed to the hospital. The body was removed to the funeral parlors of Undertakers M. H. McDonough Sons.

READING MAN PLEADS GUILTY OF BIGAMY

Charged with bigamy, Floyd P. Richardson, formerly of Reading, but who for some time has been living on Third street, this city, pleaded guilty in police court today and was held in \$500 bond for disposition until Saturday. According to the police Richardson

was married in Reading in October, 1912, and afterwards deserted his wife and came to Lowell. He is said to have married Dorland R. Birchenough in Lowell in August, 1918. His first wife's maiden name is given as Alice M. Heslton.

City Finances in Spot Light

Continued

He didn't get it, but did succeed in having it put over until Thursday morning when the council will meet to approve bills. Commissioner Murphy then introduced another order, to borrow the sum of \$20,000, to be payable in 10 years, for block and other permanent paving and gave the work at the Pawtucket bridge and Thorndike street as his reason. While Mayor Thompson declared himself unalterably opposed and wished to have it settled today once and for all, the other commissioners voted to also lay that order over until Thursday. Just previous to the introduction of that order, the city auditor had informed Commissioner Murphy that the city was \$36,624.45 away from the limit of its borrowing capacity.

Meeting In Detail

The council convened at 10.45 with Commissioner Marchand absent. He came in shortly afterward.

A hearing was granted. McNabb Bros. on their petition for the erection of a garage and the keeping of gasoline at 161 Perry street. There were no presenters and the matter

ABOUT RHEUMATISM

What Thousands Have Found Gives Relief From This Painful Trouble.

Rheumatism is a constitutional disease, manifesting itself in local aches and pains, inflamed joints and stiff muscles. It cannot be cured by local or external applications. It must have constitutional treatment. Take a course of the great blood-purifying and tonic medicine, Hood's Sarsaparilla, which corrects the acid condition of the blood on which rheumatism depends, and gives permanent relief. This medicine combines, with excellent alteratives and tonics, what is generally conceded to be the most effective agent in the treatment of this disease.

If a cathartic or laxative is needed take Hood's Pills. Purely vegetable.

was referred to the proper commissioner.

The petition of Bernhardt and Miller for garage and gasoline license at 545-550 Moody street was set for a hearing on October 25.

A petition for concrete sidewalk and edgewise in front of the premises at 25 West Forest street was referred to the commissioner of streets and highways.

A claim against the city in the sum of \$200 for alleged damage to his automobile from Thomas Kiston, 40 Valley street, Lawrence, was referred to the law department.

Hein Connolly was appointed a licensed weigher for Columbia Fuel Co.

Hearings were set for October 15 on the petitions of the Lowell Electric Light Corp. for the erection of four poles in East Merrimack street and two poles in Pawtucket street.

A hearing was set for October 21 on the petition of the Lowell Electric Light Corp. for the erection of one pole in Varnoy street.

The Lowell Electric Light Corp. was granted permission to erect and maintain two poles in Riverby street and to lay and maintain underground conduits in Jackson street.

The council voted to release the Eastern Massachusetts Street Railway Co. from all obligations in connection with damage done to a city ambulance by an electric car, the amount of money involved in the bill presented being at hand.

Auditor's Communication

Mayor Thompson read the communication from City Auditor Hennessy and then Commissioner Marchand asked that the former be asked to appear before the council as there were two of three questions he wished to ask.

In a resume of the communication, Mr. Hennessy said:

"The city auditor after a careful study of all conditions would advise for the present at least that no sums in excess of \$30,000 be appropriated from the general treasury fund for any municipal purposes.

"The estimated revenues of 1919 are in a sound state. The \$30,000 suggested as the limit amount to be appropriated in any cause represents the approximate total of excess unappropriated, unestimated revenues paid and to be paid into the general treasury fund of the city.

"There is a book deficit of \$13,937.02 caused by the expenditure of such an amount by the water department for 1918, in excess of the amount appropriated for the department. This amount already has been paid from the cash of the city. However, it is not

CEDAR CHESTS

We have just received a shipment of a car load of Cedar Chests. These are now on sale.

Since the factories manufacturing good Cedar Chests have oversold, way beyond their power of production, this will probably be the last opportunity, this year, to obtain a really genuine Cedar Chest at 25 per cent. below the market value.

Do You Know the Difference Between Gold Label and Green Label Brer Rabbit Molasses

FREE

Every mother should read the fascinating travels of Brer Rabbit to her children. Write for new book, beautifully illustrated. Penick & Ford, Ltd., New Orleans

Every Housewife knows the name "PENICK & FORD" on a food means Always the Best of Its Kind. 22 years of quality.

TO get the "ole-time" real New Orleans molasses of highest quality—the kind that makes pancakes taste so delicious—the kind old folks ate on sliced bread when they were children—ask for GOLD LABEL BRER RABBIT—the genuine, pure New Orleans Molasses. Your grocer sells it.

Your grocer also sells Green Label BRER RABBIT. This is a specially selected molasses for cooking and baking.

Remember—the Gold Label for table use and high grade baking—the Green Label especially for baking. It costs less.

Brer Rabbit NEW ORLEANS Molasses

possible to make good this deficit by 1919 revenues.

"There can be only meagre expenditures of unappropriated, unestimated revenues of the city by the municipal council until the water department can pay back to the general treasury this sum of \$13,937.02."

Commissioner Marchand asked Mr. Hennessy if it would have made any difference if the money at the first of the year had been borrowed all in one lump sum.

"That is simply a matter of financial expediency," replied the auditor. "A long term note may be more efficacious and might save a little in the long run, both in money and time and other." The auditor also said that up to the present time sum of \$2,000,000 worth of loans has been discounted against \$1,200,000 last year and that the city this year prior to July 1 borrowed \$450,000, six months interest on which must be paid this year.

Mr. Murphy asked if it would be permissible for the council to authorize the public auditorium commission to pay their own interest on the loan of \$10,000 out of money obtained by selling property in East Merrimack street.

"You are confronted by the law of 1896," said the auditor, "which says that all moneys, no matter from what source they come, shall be turned into the city treasury. In my opinion the council acted contrary to this law when it authorized the auditorium commission to retain all revenues." The mayor reminded the city auditor that the council acted on that matter at the advice of the city solicitor and Mr. Hennessy replied that it was his personal opinion against that of another man.

Asked Reconsideration

Commissioner Murphy then asked the council to reconsider his order for the appropriation of \$56,000 for street maintenance, saying again that it was vitally necessary for his department to have this money to exist.

"I would like to ask the commissioner," said the mayor, "where he expects to get \$56,000 when the city auditor has just told us that the limit appropriation must by necessity be limited to \$30,000."

"I realize that I cannot get blood from a stone," replied the commissioner, "and I regret very much that there is only \$30,000 left. I have every respect for the auditor's statement, but it is impossible for me to do the work necessary this year with the amount of moneys I have had at my disposal. It is not a question of politics or giving work to men when there is no need. The work is there to be done and the money is lacking, that's the whole situation. I would move that the order before you be changed to read \$30,000 instead of \$56,000."

"I cannot bring myself to believe," said the mayor, "that any one department should be given the whole of what may be left. In all fairness to the other commissioners and myself, other needs are just as urgent as yours, Mr. Murphy, and if this \$30,000 is to be appropriated it should be evenly divided among us. Mr. Morse says he must either buy horses for the fire department or a new piece of motor apparatus. The floor at the police station must be fixed, school boilers have had to be repaired and the department of dependent mothers, which comes under my jurisdiction, may call for more money. All these things

must be considered before any one commissioner gets it all. There is the school board. Its request for additional money must be considered and I cannot vote to give all that remains to any one man."

Mr. Morse Peered

"There is a serious condition in all departments," said Mr. Murphy. "I had a lot of left-over bills to pay this year."

"Well, you had nothing on me," said Commissioner Morse. "I had a deficit of about \$57,000 to make up. I don't like you to criticize me, Mr. Murphy."

"I am not criticizing you, Mr. Morse."

"Yes you are and you have been right along. I am not going to stand for it. The water department has got to get along on its own resources, but I can show you that I have done more work and saved more money this year than any other man has ever done with that department. Much more in comparison to what you have accomplished."

"I will make a statement of my stewardship at the end of the year and not before," replied Mr. Murphy. "All right, I'll make mine now," said Mr. Morse.

Commissioner Murphy then asked that the order be laid over until Thursday when the council meets to approve bills.

Would Borrow \$20,000

Just as Mayor Thompson asked for an adjournment motion, Mr. Murphy announced that he had another interesting order to submit.

It was an order to borrow the principal sum of \$20,000 for block and other permanent paving and he gave as his reason that he wished to complete the Pawtucket bridge job and do some work in Thorndike street.

Mayor Thompson said that if those were the only reasons he could give, he, the mayor, was unalterably opposed to a consideration of the order as its passage meant the city would be only \$16,000 from the borrowing limit, which in his mind was altogether too close for comfort.

Commissioner Donnelly moved that the order be laid over until Thursday

day when the council meets to approve bills.

Thompson expressed a wish to settle it now. "I will not be any more ready to sanction such an order on Thursday than I am today," he said "and I believe the matter should be settled now."

It was put to a roll call vote, however, and the four commissioners voted to hold it over, the mayor voting in the negative.

The meeting adjourned at 12 o'clock to Thursday morning at 9 a. m.

American University union in Europe is to have a permanent home in Paris donated by the French government.

LOWELL'S FASTEST GROWING STORE CENTRAL STREET

WOMEN'S CLUB OPENS WINTER SEASON

The Middlesex Women's club commenced its season yesterday afternoon in a manner which forecasts a year of mutual profit and splendid sociability. The new club president, Mrs. Walter C. Perham, presented her opening address which was enthusiastically received by the members. Colonial hall was attractively decorated in autumn colorings and foliage made an appropriate background for the receiving party. An interesting report of the state federation meeting was made by Mrs. C. P. Harris.

At the reception and luncheon which followed the meeting, the following women received with Mrs. Perham: Miss Olive S. Parsons, Mrs. C. F. Harris, Miss Bessie Hadley, Miss Jutta Pevey, Miss Bertha M. Abbott, Mrs. Moses Marks, Mrs. Boyden Pillsbury and Miss Esther Elliott.

Mrs. Perham's address contained a prophecy of a year of great activity and included the following outline of the season's program:

"October 20, Hon. Maurice Francis Egan will lecture on the subject, 'Embarassing Moments in the Life of a Diplomat.' Dr. Egan served as minister to Denmark under Presidents Roosevelt, Taft and Wilson. (1907-1918). He was finally obliged to retire on account of ill health. With Denmark the whispering gallery of Europe."

ropes; he was able to know more international intrigues than most diplomats. He is also known as poet, critic and novelist. His recently published book, 'Ten Years Near the German Frontier' is being widely read.

"October 24, we are to have the honor of entertaining the presidents' conference. The meeting will begin at 1.45. Each club in the Federation is entitled to be represented by its president, one member of its executive board and one club member. The plans of work, laid out by the chairmen of the various departments, will be presented. As this will be the first conference with Mrs. George Minot Baker as president, an informal reception has been arranged, in order that all may have an opportunity to meet the president of the federation. The members of the Hostess club will have the privilege of attending this conference after provision has been made for the

CATARRHAL DEAFNESS MAY BE OVERCOME

If you have Catarrhal Deafness or head and ear noises or are growing hard of hearing go to your druggist and get 1 ounce of Parlmin (double strength), and add to it 1/4 pint of hot water and a little granulated sugar. Take 1 tablespoonful four times a day. This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucus stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Anyone who has Catarrhal Deafness or head noises should give this prescription a trial.—Adv.

visiting delegates. All members of the council, chairmen of departments and members of committees are especially urged to be present.

"The Educational Department, Mrs. Charles H. Hobson, chairman, is planning for a course of lectures on Citizenship. The first lecture will be on October 27, by Mrs. Herbert J. Gurney, on 'Women and Government—Preparation'.

"November 1, Christopher Morley of the editorial staff of the Philadelphia Public Ledger will speak on the 'Domestic Muse.' Mr. Morley is the author of 'The Haunted Bookshop,' 'Parnassus on Wheels,' 'Shandygoff,' and was a Rhodes scholar at Oxford. Incidentally Mr. Philip Gibbs in his article 'Some People I Met in America' in the September Harper's undoubtedly refers to Mr. Morley when he says: 'One young man, once a Rhodes scholar at Oxford, boarded the train at New York, bought me a drawing room for private conversation and by the time we reached Philadelphia made it entirely futile for me to give a lecture, because he had all in his memory, and wrote the entire history of everything I had seen and thought through years of war, in the next day's paper.'

"On Nov. 10 the novelist, Hugh Walpole of London, author of 'The Secret City,' 'The Dark Forest,' 'The Duchess of Wrexley' will lecture on 'Modern Novelists and the Present School of English Fiction.'

"Nov. 17, there will be a concert of chamber music by the American

string quartet, called the Flonzaleys among women artists.

"Nov. 23, occurs the centenary of the birth of George Eliot. The literature department, Miss Esther Elliott, chairman, is planning to observe this event by a resume of her life and works. Interesting papers will be prepared, also a review of some of her most noted books. Also under this department, Rev. Alfred Hodman Hussey is

Sciatic Pains Quickly Relieved

Keep Sloan's, the World's Liniment, Handy to Alay Aches.

Thousands of men and women, when the least little rheumatic "crick" assails them, have Sloan's Liniment handy to knock it out. Popular a third of a century ago—far more popular today.

That's because it is so wonderfully helpful in relieving all external aches and pains—sciatica, lumbago, neuralgia, overstrained muscles, stiff joints, weather exposure results. A little is all that is necessary, for it soon penetrates without rubbing to the sore spot. Leaves no marks, stained skin, clogged pores. A bottle today is a wise precaution. Keep it handy.

All druggists—5c, 10c, \$1.40.

Sloan's Liniment
Keep it handy

to give us a lecture on 'The Drama.'

"Dec. 6, second lecture on Citizenship, by Mrs. Herbert J. Gurney.

"Dec. 13, Jane Manner of New York will give dramatic reading of three one-act plays, viz.: 'The Will,' by James Barrie; 'Tellers Wife,' by Cosmas Hamilton; and 'Kitty O'Brien,' by Frankfort Moore.

"Dec. 23, Charles Theodore Carruth will give an illustrated lecture on 'Fra Angelico.'

"January 5, Mid-year reception.

"Jan. 19, John Livingston Lowes, professor of English in Harvard university, will lecture on 'The Fine French and the Quiet Eye—a Study in Poetic Inspiration.'

"March 15, Percival Chubb, educator, author, critic and leader of the Ethical society of St. Louis, will lecture on 'The Drama and the Theatre in Relation to the Community.'

"John Finley, formerly of the College City of New York and now head of the commission of education, state of New York has agreed to lecture some time during the season, as has also Dr. William Norman Guthrie, poet, essayist, university lecturer and rector of St. Michael's church in the Bowery, New York.

There is also promised a demonstration in cooking by Miss Alice Bradley, principal of Miss Farmer's school in Boston.

"We hope to have more Lenten organ recitals and one club talent musical, besides two concerts in the late winter and early spring."

LOWELL POST OF THE AMERICAN LEGION

Great preparations are being made for the special meeting of the Lowell Post, American Legion, to be held in the state armory on Thursday evening of this week for the express purpose of electing delegates to the state convention. At a meeting of the post last night at the Community Service club several important matters of business were taken up, but the most important by far was the preparation for Thursday's meeting.

A motion was passed which will regulate the manner of voting for a choice of delegates. Nominations will be made from the floor and ballots with spaces for 20 names will be distributed. The votes will be counted by a committee of 15 appointed by the chair. The nominee with the largest number of votes will be the first delegate, the nominee with the second largest number the second delegate and so on to the 11th in size of vote, who shall be the first alternate. The remaining nine will rank as alternates according to their position in the list. The local post is allowed one delegate and one alternate for every 100 members.

The meeting voted to pay the expenses of delegates to the Worcester convention at a rate of not exceeding \$5 a day, exclusive of railroad fares. Whether Lowell Post will send 20 men, or just the 10 delegates will be decided at Thursday night's meeting.

The entertainment committee reported on its attempt to secure Associate

hall for a ball on the evening of Armistice day, Nov. 11 and recommended that the date be changed to Nov. 10, the evening before. The question of parading in the South End celebration also will be considered Thursday evening.

In Chicago a certain saloon displayed for years a large sign reading "Free beer tomorrow." Those who read the sign Monday and asked for a free drink Tuesday were requested to read the sign again.

ALL VICTIMS OF ECZEMA'S ITCH NEED POSLAM

It is Poslam's mission to relieve itching, eczema's cruel distress and to restore disordered skin of sightliness and health. Comfort comes as soon as it is applied to the sore places. Sold everywhere. For free sample write to Emergency Laboratories, 314 West 47th St., New York City.

Urge Your skin to become freer, clearer, better, by the daily use of Poslam Soap, medicated with Poslam.—Adv.

TO WITHDRAW U. S. WARSHIPS

Naval Forces at Spalato, Dalmatia, to be Withdrawn on Order From Washington

Have Been in Adriatic in Charge of Admiral Andrews Since Last December

ROME, Oct. 7.—American warships which have been at Spalato, Dalmatia, since early last December, are to be withdrawn by Rear Admiral Philip Andrews on orders from the United States, according to advices reaching this city.

It is reported that he has declared the United States wishes to avoid complications in the Adriatic and has notified Italian authorities that any aggression on the part of Italian troops against the Spalato-Traù zone will be considered as directed against the United States.

Advices state that American food supplies are to be removed from Spalato to the city has been one of the centers from which relief work in Jugo-Slavia has been directed.

American warships went to the Adriatic soon after the armistice with the central powers had been negotiated. They took over a section of the coast which has since been known as the American zone. On Sept. 13, irregular Italian troops attempted to capture Traù from a small Serbian garrison. Italian authorities notified Captain Boyd, the American naval officer in charge of operations that the attack was unwarranted and asked that the

DANGER AHEAD! LOOK OUT!

Colds and Grippe frequently will leave you with weak kidneys, and aching back. The kidneys get overworked fighting off a cold or a contagious disease. When they slow up, and don't perform their duties, look out, there is trouble brewing.

Kidney and bladder troubles are dangerous, and should not be neglected; if you are compelled to arise from your slumber once or twice during the night, it proves that your kidneys are affected and bladder irritated, and if you will take from 10 to 25 drops of SEVEN BARKS in a little water after meals, you will correct the alkalinity of your secretions, thus giving you undisturbed sleep and peaceful rest, preparing you for your next day's duties. If you feel dull, irritable and nervous, have headaches, sore or enlarged joints, irregular kidney actions, you should give the kidneys quick relief by taking SEVEN BARKS, which will not only relieve the kidney trouble, but keep your stomach in good condition and your liver active.

Don't neglect your kidney trouble with first symptoms. You will be sorry if you do—it's too serious a matter. Get SEVEN BARKS of your druggist. Price, 50 cents.—Adv.

raiders be turned back. Captain Boyd sent a destroyer and two submarine chasers to Traù and with an Italian naval officer, went to the scene of the trouble himself. Admiral Andrews followed on his flagship. They found the raiders had withdrawn, leaving an officer and three privates in the hands of the Serbians.

Not Ordered to Withdraw
WASHINGTON, Oct. 7.—Rear Admiral Andrews, commanding American naval forces in the Adriatic sea, had not been instructed to withdraw his patrol from the Dalmatian coast, Secretary Daniels said today. If the ships had been withdrawn, Mr. Daniels said, Admiral Andrews acted on his own initiative, as he did in landing blue-jackets at Traù.

CARMEN STRIKE AT WORCESTER

WORCESTER, Oct. 7.—Service of the Worcester Consolidated Street Railway company's line between Worcester, Leominster, Fitchburg and Hudson was tied up today by a strike of 75 electric car men.

The men quit work because Edward J. Reagan, one of the clerks on the system, had been discharged. The strikers say they will stay out until Reagan is reinstated.

DEMOCRATIC RALLY HERE FRIDAY NIGHT

Richard H. Long, democratic candidate for governor, will be the principal speaker at an open air rally to be held at City Hall Friday evening at 8 p. m. under the auspices of the democratic city committee and the first congressional district league of Massachusetts.

Several other candidates on the state democratic ticket will also appear at the rally. Atty. Joseph P. Donahue will preside and T. J. Fitzgerald, secretary of the Massachusetts league, will call to order.

PRINTERS STRIKE

Publication of All Lima Papers Suspended

LIMA, Peru, Monday, Oct. 6.—Publication was suspended by all Lima newspapers today as a result of a strike of printers.

LITTLE DAMAGE TO STEAMER

NEW YORK, Oct. 7.—Five days' repair work on the Colonial line steamer Lexington which was rammed by a submarine in Hell Gate, last night will make her fit for resumption of service on the New York-Providence route, it was announced today. Virtually all damage was above the waterline.

The Albanians claim to be the most ancient race of Europe.

STEAMER RAMMED BY SUB—300 SAFE

NEW YORK, Oct. 7.—Quick action by the crew in closing the watertight "collision bulkhead" of the steamer Lexington last night prevented a possible loss of life when the craft was rammed by the United States submarine O-7 in the treacherous waters of Hell Gate Channel, in the Upper East river.

The Lexington, a Colonial Line steamer, was bound for Providence with 300 passengers, when, according to passengers, the submarine, which had been maneuvering on the surface, suddenly headed across her bow.

There was a crash, the steamer quivered, and there was a sensation of "sliding backward." Many of the passengers were thrown off their feet. Women screamed and men cried for help.

There was a general rush for life preservers as the submarine backed away. The crew were standing by the lifeboats, but Capt. Gray and his officers, after a quick inspection of the jagged semi-circular hole of 15-foot radius, said three of her plates above the water line had been stove in.

FR. VERDIER NAMED Elected Superior of the Order of Lazarites

ROME, Oct. 7.—(Havas) Father Francois Verdier has been elected superior general of the Congregation of the Priests of the Mission, or Lazarites as they are popularly known. He has been vicar general of the order.

The Order of Lazarites was founded by St. Vincent de Paul in 1625. The last superior general, Fr. Emile Villotte, died November 7, 1916, and the election of his successor was postponed until the conclusion of peace.

AMUSEMENT NOTES.

KEITH'S THEATRE

With a stage setting of more or less elegance, in fact, much too pretentious for an ordinary shoe shop, Bayonne Whipple and Walter Huston present "Shoes" as the top-line offering at Keith's Theatre this week. We are sure to say that such a scintillating shoe store should rightly be termed a hootery, the latter being symbolic of the ultra-fashionable. The act itself is most disconcerting, inasmuch as it commences with but one object, apparently and then turns about and travels along an entirely different path. At the outset it looks like comedy, especially when Mr. Huston has the stage to himself and a stuttering clerk, but later in comes Miss Whipple, not hard on the eyes and she completely changes the complexion of things. Lowell people will remember Huston, he smokes a cigar. Not that that is his only distinguishing adjunct. He will be remembered as the singer of "I Haven't Got the Do, Re, Mi" and again on this visit he sings a similar tune about "I've Got a Good Job Now." His voice trails off into thin air at the end of each line. This new job he sings of is selling women's shoes, meaning, fitting and so forth. Together, Mr. Huston and Miss Whipple

switch the theme of the vehicle over through every day life, and are conversed by folks wearing the shoes of wealth, success, happiness and sorrow. It is all to one end, entertainment.

No more versatile act has been seen in the city for some time than that of Meyokas, three Japanese children and their father, who introduce them and arrange the properties. The girls, there are two of them, are splendid acrobats, doing all of their stunts on their heads. They move in perfect unison and really accomplish several things far removed from the usual run. From acrobatics they turn to singing music, are joined by their brother, a plump lad, who has acquired a delightful lisp in his struggle with the English language. Also, they sing and dance peculiarly well, the girls appearing at least 95 per cent. American.

Kelra Brennan and Bert Hule, popular music lovers and song writers, sing some of their own tunes in their own way and it is a way which hardly may be improved upon. If they wrote the songs themselves, then they ought to sing them well, you say. Granted, but they go even a step beyond and sing them very well, particularly the one which tells of a trip down the Mississippi from its source to New Orleans. They will be heartily received during their week's visit.

Music from all sorts of oddities is furnished by Charlie Semon. He plays a hat rack, a calabash pipe, swinging ukuleles and a guitar. He is a funny looking bird and gives forth wheezes and coughs much similar to a disgusted motor. Charles is slender and tall and sings with a voice to accentuate his cat-like appearance. He has been with us before and probably will be again.

Countess Verona starts the program in music. It's a corker, too, much better than the usual shove given by those picked to first bask in the spotlight's rays. The countess, who carries a graceful look and a fine figure, is a good singer. The instrument at first glance might well be something else, but she has named it, cymbalophone, and so it stands. It is a kind of a xylophone and produces pleasant, even though quaint harmony.

Two Johnsons and a Baker scale hats about the stage and a judge of Indian clubs with rare skill. The "hoop" of the act turns out to be the star performer as is often the case. They are extremely clever. Maude and Marion Dunn sing and dance and one portrays stage celebrities, past and present. They were handicapped somewhat yesterday by the absence of stage costumes due to the tardy arrival of trunks, but were cordially received nevertheless.

A Bruce Scenic picture is shown as well as Keith's News Weekly showing current happenings. The Topics of Day, as usual, reprint a lot of the best clippings from prominent periodicals.

THE STRAND THEATRE

Patrons of the Strand theatre who attended yesterday's performance were delighted with the two film productions, which head the bill at this popular house for the first three days of the week. They are "The Wolf," featuring Parle Williams in the title role, and "The Splendid Sin," with Madeline Travers in the leading part. In addition to the two splendid plays there is a first class comedy as well as a very interesting and instructive series of scenes of current events. All in all, the bill is most enjoyable and reflects great credit upon the management.

"The Wolf" is a story of the Canadian northwest depicting Jules Beau-bien, a man peculiar in his manner, but a man who is a clean and vigorous and superb in his environment. When he learns that the half-breed girl, fiancée of his friend Baptiste, has sought death as a relief from the fanged love of the Wolf, he sets himself on a quest of vengeance and follows the Wolf to a lonely spot in the mountains and in the black of night engages in a life and death struggle. "The Splendid Sin" deals with the story based on Lord and Lady Chatham's desire for a child and in finding an heir by Lady Chatham, in the illegitimate baby of Lord Chatham's sister, who is taken by Lady Chatham as her own after the death of the child's mother. This action on the part of Lady Chatham is mostly to protect the name of the mother of the baby and shield the child of a stigma. The scheme is so well worked out that even the absent husband, Lord Chatham, is deceived when he returns to his home. The story is very interesting.

An announcement of great interest was made yesterday when it was stated that Wednesday, Thursday and Friday a "Fur Revue" will be given by Miss Rose G. Caisse, local furrier. This promises to be a real novelty. The fur will be furnished by Miss Caisse, while the Gaiety company will furnish the suits. Miss Susan Thorpe will look after the millinery. A real treat is in store for the women folks of this city.

SOUTH END NIGHT AT LOWELL OPERA HOUSE

With a brief address by His Honor, Mayor Henry D. Thompson, in which he outlined the program of the forthcoming South End celebration in honor of his lighting sons, remarks by Daniel Cosgrove, chairman of the committee on arrangements, three entertainment numbers by Lowell boys who donned khaki or blue when Uncle Sam called; and a splendid presentation of William Vaughn Moody's great drama of the west, "The Great Divide," by the popular Lowell players, "South End Night at the Opera House" proved a most enjoyable event for the large audience who filled this spacious playhouse to capacity last evening. Incidentally it helped in a large measure to swell the fund for the coming celebration, as the management turned over one half of the gross receipts of the day's business to the committee at the close of the evening performance.

"The Great Divide," in which Henry Miller appeared in this city several years ago, needs no introduction to local theatrical-goers. Thrilling with emotion, pregnant with dramatic moments, and with an absorbing love story winding through it, this great play, set in the mountains and on the far away Rockies is one which, once seen, can never be forgotten.

It would be detract from the pleasure of witnessing the play to attempt to rehearse the story here. Suffice it to say it is a thrilling picture of life in the far west, where blood runs hot, and men count no cost too

Your Children Need Laxative!

The children need your closest attention, especially after "stuffing" themselves with sweets, etc., at a party or the like!

They are liable to get up in the morning complaining of cramps, bad tasting mouth; liable to have puffed eyes from restless slumber; feel tired and cranky; disengaged and whimpering. Act promptly. Give them a dose of Dr. True's Elixir, the Family Laxative and Worm Expeller, which mothers and fathers are given by their parents, and who themselves are administering today to their little ones.

Only the purest of herbs are used—no harmful drugs—will relieve pleases only the ordinary cases of children's illness, constipation—worms, etc.

Symptoms of Worms: Constipation, deranged stomach, swollen upper lips, sore throat, mouth, breath, hard and full belly, with occasional gripes and pains about the navel, pale face of leaden tint, eyes heavy and dull, twitching eyelids, itching of the nose, itching of the rectum, short dry cough, and cranky, disengaged and whimpering sticking out on the tongue, starting during sleep, slow fever.

Mrs. Wm. G. Bonin of Caddo, Oklahoma, writes to Dr. True's Elixir: "We have used it for our children for the last 13 years, and certainly know the value of it."

Three doses. AT YOUR DEALERS.

Too Ill to Work

Scores of Women

in homes, stores, offices and factories are not fit to be at work. They toil on day after day and year after year suffering with distressing weaknesses and derangements, hoping against hope that they will soon feel better, but how can they hope to do good work or escape permanent invalidism?

Such women are in danger of derangement of women's functions. They owe it to themselves to try that good old fashioned root and herb remedy Lydia E. Pinkham's Vegetable Compound, which for more than forty years has been restoring American Women to health and strength.

Here is a Notable Example

Joplin, Missouri.—"I took Lydia E. Pinkham's Vegetable Compound to see if it really would do as it was advertised and it sure did, and more. I was weak and could not do much work, had bearing down pains and had to go to bed. I learned about the Vegetable Compound from my mother and my husband told me to get it. After taking one bottle I was able to be on my feet most of the time and do my work again. I have a baby eleven months old and I have done all my own work, even the washing and ironing since she was three weeks old. I certainly recommend your great medicine to everyone who complains of female trouble and I am more than willing for you to use my testimonial."

—Mrs. TIMOTHY GRANEY,
426 Connor Ave., Joplin, Mo.

And Another

Chicago, Illinois.—"I suffered for four years with pains in my sides, hips and legs and a terrible backache. I could not do any work at all. I was treated by many physicians but they did not help me. I read in one of your books where other women have been helped by Lydia E. Pinkham's Vegetable Compound, so I tried it and it helped me very much so that now I can do everything in the house. I have told my friends about Vegetable Compound and you have my permission to use this letter."

—Mrs. I. OVENSTEIN, 902 S. Marshfield Avenue, Chicago, Ill.

Thousands of such Letters Prove the Curative Value of

Lydia E. Pinkham's Vegetable Compound

LYDIA E. PINKHAM MEDICINE CO., LYNN, MASS.

Great to pay for things which they desire.

John Meehan, who plays the leading role in Stephen Ghess, young, impetuous, and imbued with the fiery spirit of the old west, showed excellent talent, and gave a finished and impressive portrayal of the character. He signed him, Miss Marguerite Fields, who co-stars with Mr. Meehan in the leading characterization, plays well the part of Ruth Jordan, who marries Ghess to save herself from a fate worse than death. Miss Priscilla Knowles, as Ruth's mother, also gave a splendid portrayal of the role assigned her, and all other members of the company were well received.

Others who appear in this week's performance are Miss Helen Scott, Hal Gray, William Melville, Jack Bennett, Byron Randall, Martin Mack, Arthur Mack, Albert Cody and Director J. Francis Kirk.

It would be unjust to stop without saying a word about the local entertainers who did their bit between the acts, and who added not a little to the enjoyment of the evening. First came Billy Carr, who chased Huns with the First Division for several months, and Billy staged a whistling act to swell the act which brought down the house.

Anthony Schwartz, who was one of the many boys in blue who "took them over and brought them back" on the fast sailing transports, offered "That Wonderful Mother of Mine" and was encored to the limit.

The final number on the entertainment program was given by John O'Grady and Jack McCardle, both of whom appeared in amateur theatricals "over there." Dances, songs and jokes were their stock in trade, and to say that they made a hit is to put it mildly.

All in all, "South End Night" was a huge success.

The happy eagle of Brazil feeds exclusively on monkeys.

GEN. PERSHING ON HUNTING TRIP

UTICA, N. Y., Oct. 7.—General Pershing passed through Utica today on his way to the Adirondacks to rest and hunt. With him were Brig. General Fox Connor and Colonel G. C. Mar.

Lines on the hands and feet of twins are similar.

Trade Union for English Clergymen

LONDON, Sept. 17.—(Correspondence of the Associated Press)—A trade union for English clergymen, to enforce a minimum salary for the benefit of underpaid pastors is being advocated by a Dorsetshire minister. More than half the clergymen in the church of England receive less than \$1000 a year.

Old-time remedy

You may experiment with many so-called wonderful new discoveries for the cure of Dyspepsia, Liver trouble, or Constipation,—you may spend many hard earned dollars for the widely advertised pills, powders or tablets, and after trying them all you may find yourself practically no better than when you commenced. There is one safe, speedy, reliable, house-hold remedy, which has been prepared and sold in Maine for more than sixty years, and which has given relief to thousands of sick and suffering persons,—the true and original "L. F." Atwood's Medicine.

The dose is small and easily taken, the action is prompt and sure. Doubtless your Mother or Grandmother kept it always in the house, ready for use in time of trouble, and you will be glad to get back to it, after a series of disappointments. Get a bottle today and be prepared to ward off sickness. Fifty cents at your dealer's.

The "L. F." Medicine Co., Portland, Maine.

1 & 2 DORSER

Lowell, Tuesday, October 7, 1919

THE STORE FOR THRIFTY PEOPLE

The Great Underpriced Basement Offers for Today's Selling

Outing Flannel

At 25c Yard

Four cases, or 8000 yards of 32-inch wide Outing Flannel in remnants, extra heavy quality; suitable for undershirts, night gowns, pajamas and many other family uses. The patterns consist of a varied assortment of neat stripes. As this is the regular 35c quality, it is a real value at this sale price.

Twilled Domet Flannel at 25c Yd.

30 pieces of extra heavy Twilled Domet Flannel, bleached, and this particular kind has a nice soft finish. Special value at this price.

Wool Finished Blankets

AT \$5.00

These could not be put on sale at a more opportune moment, as every one must be thinking of getting out the warmer bed coverings by this time. We're placing on sale 150 pairs of heavy wool finished blankets in a wonderful assortment of plaids, both light and dark combinations, made to fit any full size bed; usually sell at \$6.00 pair.

SPEEDY ACTION URGED AT OPENING SESSION

WASHINGTON, Oct. 7.—Representatives of the public evinced a spirited desire for action, rather than oratory, at the opening session yesterday of the industrial conference called by President Wilson.

Apparently with the determination of differentiating this conference from many similar gatherings held at Washington, the public delegates demanded that sessions be held night and day, if necessary, to establish a basis for harmonious relations between capital and labor during the present abnormal economic conditions. Bernard M. Baruch, of New York, one of the delegates, was active in directing the affairs of the conference, which was considered significant in view of his close friendship with President Wilson and his frequent visits to the White House.

After the appointment of committees on nominations and rules, the conference adjourned to meet this morning. Gavin McNab, of San Francisco, a representative of the public, was mentioned prominently for permanent chairman, but members of both committees declined to indicate what their recommendations would be.

A motion to adjourn by W. D. Mahon, one of the delegates of the American Federation of Labor, brought the first indication that the men named to represent the public were prepared to force results. Thomas L. Chadbourne, New York, who sat with Mr. Baruch, took the floor immediately.

"All the men on both sides and in the middle of this hall," he said, referring to the seating arrangements whereby the delegates of capital and labor were on either hand of the public representatives' seats, "are here to work as rapidly as possible and to adjourn as little as possible and I know that the men in the middle of this situation want to carry on these conferences day and night, if necessary, to get through. I would like very much to see the motion changed so we can meet again this afternoon or evening."

Mr. Mahon explained that a meeting of the executive council of the federation had been called some time previously which it was impossible to

postpone and Mr. Chadbourne withdrew his suggestion. Later on, however, Mr. McNab took the floor with the same thought as that expressed by Mr. Chadbourne.

"In view of the fact that this conference is in the interest of harmony," said Mr. McNab, "suppose we set the example of working harmoniously and not making the principal and first feature of it a desire to adjourn." He declared that the conference should show the people of the country how to work, but he did not press the point and the motion to adjourn was carried.

Virtually every delegate was in his seat when Secretary Wilson called the meeting to order in the Pan-American Union building's beautiful Hall of the Americas. John Barrett, director general of the union, in welcoming the delegates to the use of the building erected through the generosity of the late Andrew Carnegie, called attention to the fact that this conference endeavoring to stabilize the industrial peace was meeting in a structure devoted to maintaining the peace of the western hemisphere. The very decorations of the hall, he pointed out, bore the word, "Peace."

"May I emphasize," Mr. Barrett said, "that the Pan-American union is a great, practical, working league of nations in the world that has long been and is a going concern. Its governing board, its staff, its equipment and this building form also an actual industrial plant that manufactures and distributes products of good will and information that make for permanent peace and welfare of the western hemisphere and hence of all the world."

"During the last 13 years the supreme council, composed of Latin-American diplomatic representatives in Washington and the secretary of state of the United States, which gathers every month, has prevented through its moral influence six wars between American governments and the peoples."

Secretary Wilson told the delegates that they had been given opportunity for splendid achievement, and wished them goodspeed on behalf of the president.

The only discordant element affecting the conference was the absence of John L. Lewis of the United Mine Workers, who is engaged in wage negotiations that threaten a strike, and Frank Duffy of the carpenters, who was said to have declined to attend the conference. Officials of the American Federation of Labor, however, said that, as representation in the conference was not on the basis of trades, both miners and carpenters might be said to have spoken in the other labor delegates. All the railroad unions sent delegates.

The following statement was issued by Magnus W. Alexander, managing director of the national industrial conference board at the conclusion of the session.

"Secretary of Labor Wilson voiced the sentiments of the employers when he declared in his opening address that the more productive we are the sooner we will replace the wastage of war, return to normal price levels and abolish the opportunity for undue profiteering and in his further declara-

tion that the conference has before it the opportunity for promoting the welfare of the country and of all mankind."

"The spirit in which the conference begins justifies the expectation that real progress may be made in settling several great questions."

"The employers are gratified that the four railway brotherhoods decided to participate, feeling that this makes for the harmonious unity which must be the keynote of constructive accomplishment."

SENT BOMB TO MRS. WANAMAKER

NEW YORK, Oct. 7.—Charged with having sent a bomb to the home of Mrs. Rodman Wanamaker at Tuxedo Park, N. J., Sept. 27, Albert G. Kurth, a butler, was committed to Bellevue hospital for observation yesterday. The prisoner, the police say, asserted he sent the bomb, which was loaded with black powder and red pepper, to frighten Mary O'Brien, a maid, who he believed would open the package. The package was opened by Mrs. Wanamaker, but the bomb did not explode.

Kurth made his confession while awaiting trial for grand larceny, for which he was held in \$5000 bail last Friday.

Kurth told the detectives, they said, that Miss O'Brien was instrumental in obtaining his discharge from the Wanamaker home where he had been employed two years. At the time of his arrest he was superintendent of an apartment house.

Mrs. Wanamaker's suspicions were aroused by the unusual weight of the package and the manner in which it was wrapped. She cautiously unwrapped it and, in lifting up the corner of the lavender perfume box in which the bomb was placed, she noticed the powder. She sent the box to police headquarters where examination showed that sandpaper had been pasted on the inside and a fuse made of four matches so arranged that if the lid was forcibly pulled off they would ignite on the sandpaper and set fire to the powder.

It was theft of whiskey and wine that Kurth was technically charged with when arrested. Detectives said they found \$200 worth of it in his cellar.

The police said that the man, although he has lived in this country 30 years, is a native of Germany. He is 53 years old.

O. M. I. CADETS MAY FORM AN ALUMNI

Plans for fall and winter activities will be discussed by the O.M.I. Cadets at a special meeting to be held this evening in the organization's armory at 7.30 o'clock. The creation of an alumni body, to include all former members has been under informal consideration for some time and will come up for serious discussion tonight.

The cadets will observe their 17th anniversary next month and the members are anticipating the event with great deal of interest. No plans for the occasion have been advanced as yet but it is believed that a start will be

Victrola Records for October

Reflect the greatness of Victor exclusive artists. A choice collection, too, of popular songs, and six dance numbers that are most alluring. Come to our Victrola Department—Fourth Floor—where the environment is in keeping with the quality of the instrument. We are always glad to play your favorite records.

SOLD AT TWO DRUG STORES

Every step a hammer blow

EVERY step you take with hard leather heels on modern, hard pavements acts as a hammer blow to your nervous system.

The average person, even though his work is indoors, takes 8,000 steps a day—gives his system 8,000 daily jolts and jars. The constant repetition of these shocks exhausts your energies, contributes largely to the state of over-fatigue.

You can eliminate this great cause of fatigue. You cannot change the hard pavements, but you can change your heels. O'Sullivan's Heels absorb the shocks that tire you out. They relieve the jolts and jars that make a burden of walking.

To secure the great resiliency and durability of O'Sullivan's

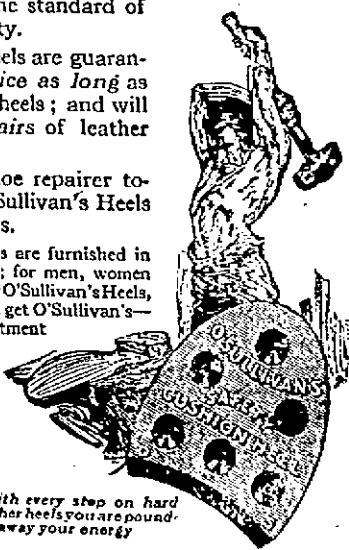

Heels, the highest grades of rubber are "compounded" with the best toughening agents known. The "compound" is then "cured" or baked under high pressure.

It is this special process that has, since the making of the first rubber heel, established O'Sullivan's Heels as the standard of rubber heel quality.

O'Sullivan's Heels are guaranteed to wear twice as long as ordinary rubber heels; and will outlast three pairs of leather heels.

Go to your shoe repairer today and have O'Sullivan's Heels put on your shoes.

O'Sullivan's Heels are furnished in black, white or tan; for men, women and children. Specify O'Sullivan's Heels, and be sure that you get O'Sullivan's—avoid the disappointment of substitutes.

O'Sullivan's Heels

Absorb the shocks that tire you out

With every step on hard leather heels you are pounding away your energy

made this evening and at least a tentative program adopted. The annual officers' ball will come in December and as in former years will be the leading social event of the season in cadet circles.

Athletics have not been overlooked and the football season will be officially ushered in tonight when Manager Gargan announces the schedule of games. As all of last year's players are again available, a strong eleven seems assured.

TALK ON "THRIFT IN COLONIAL TIMES"

At the meeting of the Lowell Historical society tomorrow evening in Memorial hall, Hon. Albert P. Langtry, secretary of the commonwealth of Massachusetts, will deliver an address on "Thrift in Colonial Times." As Mr. Langtry in his official capacity is the custodian of the state archives and records, he has full access to all matters relating to his interesting subject from the earliest days of the Pilgrims and Puritans in this colony. He is an eloquent speaker, and his address on a subject which is beginning to occupy so much of public attention will be extremely interesting not only in its historical aspect but as a study of our times. The society has in its collections some old account books covering the periods following the war the American Revolution, the war of 1812 and the Civil war, which fur-

nish information and possibly some consolation in these days of high prices. The Lowell Historical society is fortunate in securing Mr. Langtry to address the citizens of Lowell at this time. The meeting is open to all without charge, and everyone is cordially invited to attend.

WOULD EXTEND WAR TIME BAN ON PASSPORTS

WASHINGTON, Oct. 7.—Extra sponsor for a year of the war time restrictions on the issuance of passports will be urged before the house foreign affairs committee by Representative Johnson of Washington, chairman of the immigration committee. Secretary Lansing will present the state department's attitude in the matter.

Representative Johnson who has introduced a bill to continue the control, contends his measure would stop any influx of undesirable aliens such as Russian radicals awaiting opportunity to come to America.

"Certain European countries are trying to unload these undesirable on us," he said. "Unless we can check the incoming of these revolutionists, the United States will become, instead of the peaceful melting pot it has been, a veritable hell's cauldron."

PROHIBITION HAS NOT INCREASED CONSUMPTION OF ICE CREAM— RAISES COSTS

CHICAGO, Oct. 7.—Delegates attending the meeting of the National Association of Ice Cream Manufacturers, denied today that prohibition had caused an increase in the consumption of ice cream. Instead, it was asserted, consumption had decreased.

The dealers predicted early increases in ice cream prices as a result of the sugar shortage and higher labor costs.

Salary and expense allowance of President-Elect of Germany has been cut from 140,000 marks to 144,000 marks.

MINER BECOMES EARL

Leaves for Europe to Claim Heritage, Wearing Hobnailed Boots

DAWSON, Y. T., Oct. 7.—Robert Leeson, a Yukon miner, recently received a letter stating he had become heir to the title and estate of the Earl of Milford. Today, carrying his baggage and wearing a dinner shirt and hobnailed boots, he started for Ireland to claim his heritage.

LARGE ATTENDANCE AT EVENING SCHOOLS

Increased attendance over other years marked the opening of the city's evening high school, was particularly noted tonight. The large registration gave convincing evidence of a realization of the splendid opportunities offered in the many courses to these young people who have to spend their days in manual labor and have only the evening hours for study and further advancement of their chosen vocations.

Registration for Americanization classes also was held at several of the elementary schools. The exact numbers, however, will not be available until later in the week.

Henry H. Harris, principal of the evening high school, was particularly gratified with the enrollment there and looks forward to the most profitable and busiest year in the history of the school.

WHAT OF THE STRIKE?

After the United States senate shall have ended the investigation of the great steel strike, what will it do about the matter? That is what arouses the curiosity of the nation today.

It seems that both sides in the strike have given their version of the situation to the senate committee. Some of the testimony is highly illuminating.

Judge Gary as head of the steel corporation left no doubt as to his position in standing for the open shop and against the possibility of unionization that would enable outside leaders at any time to close down the steel plants by ordering the men on strike. On this ground he stands with great firmness, refusing to yield an iota toward the now popular method of collective bargaining. He asserts that if the employees of the steel plants were unionized the closed shop would follow as a natural consequence and in this he is probably correct.

The side of the strikers has been well represented by President Fitzpatrick and Samuel Gompers. They presented the conservative demands for recognition of the unions and collective bargaining. Their claims in this respect seem to have met very general approval, although diametrically opposed to the stand taken by Judge Gary.

The one man, however, who has injured the cause of the strikers is W. Z. Foster, syndicalist and erstwhile revolutionist. When confronted with statements made in a book written by him some years ago, he said he had changed his opinions, but he would not dare to state what his present views are in regard to government or the rights of labor and capital. He would probably assert that capital has no rights as the policy he has been preaching through his book and otherwise is, that labor organizations shall keep harassing capital and moving closer and closer upon its institutions until they finally are taken over by labor, from which, in the opinion of Mr. Foster, all capital was originally wrong by dishonest means.

Foster is still a syndicalist and perhaps also an anarchist. If he were not, he would not hesitate to state his views of government openly before the investigating committee of the senate. He offered to do this if the reporters were withdrawn, giving as an excuse for this proposition that he had been grossly misrepresented in the newspapers.

With such a statement made in the presence of Mr. Gompers, it was not surprising that the latter jumped to his feet and told Foster that the papers had already made statements as bad as they could about him so that he might not dread anything of the kind in the future.

Foster gave every evidence of unwillingness to express his views. His charge against the newspapers was a mere subterfuge. When he made that charge he knew he lied. The papers have not painted him as black as he is. His exhibition before the senate committee practically justifies everything said about him. He is not a fit man to lead the labor forces and nothing is more damaging to the cause of the strikers than the fact that the movement has been planned and directed by such a man as Foster, who is using the American Federation of Labor as a cloak for advancing his revolutionary aims.

The senate hearing will prove a mere farce unless some action is taken to hasten the end of the struggle and provide against such troubles in the future.

RATIFICATION PROSPECTS

There is little doubt that the League of Nations will be ratified without amendments but with reservations which may cause objections to any wrong application of it to the United States. The senators are now planning to finish the treaty fight about Nov. 1. There is great need of something in the nature of the ideal conveyed by the covenant of the League of Nations. It is needed not only among the powers but among the states of our own and other countries. We all need some influence not now operative to enforce peace and good will among men.

"What now?" some will say. "You cannot change the passions or ambitions of men, for the greed and jealousy of nation." Perhaps not, but we can restrain them within

proper bounds. Oh! the Holy Alliance and the Hague tribunal are thrown in your face as proofs from history; but failures in the past do not prove that the things attempted cannot be accomplished by more enlightened means. How many thousand inventors have failed in trying to evolve some of the great inventions now perfected and in use today? So it is with questions of international restraint. It is entirely possible to hold nations in check when otherwise they would enshroud the world in war, if only the proper methods be adopted and the proper legal machinery provided. Here in the United States we have examples of what has been accomplished in harmonizing widely different elements. Something similar may be accomplished in bringing all the world powers into a real peace pact that will not affect their individual sovereignty but from which all will derive real benefits and greater security. Unless some such plan be adopted, the great powers must continue to train military machines in readiness for immediate action. That would necessitate universal military training and a continuation of the world wars, just as soon as one combination of powers thinks it can overcome a rival combination.

PARTY PLATFORMS

So far as Massachusetts is concerned, the political parties have taken their stand on the great issues of the hour and although in the past, it has been said that platforms are adopted only for campaign purposes, yet it would seem that certain parts of the declarations made on Saturday were designed to bring about party defeat rather than victory.

The republicans paid little attention to anything except the peace treaty and the Boston police strike. On the treaty, their platform repudiates Senator Lodge's opposition and demands ratification without amendment. That stand was favored by ex-Senator Crane who in the councils of the party is still more of a power than Senator Lodge, the recognized leader. It was certainly a bitter pill for Mr. Lodge who said he would accept the platform, but could not reverse the position he had taken with such vehemence.

Had Lodge strayed into the democratic convention instead of the republican, he would have found himself among friends who would have given him a platform endorsement of the most radical action against the League of Nations. Such are the tergiversations of political parties on the questions of the hour. It does not seem that the police strike in Boston is to be an issue in this campaign as both parties condemn the strike, and none condones the action of the police in joining a labor union.

All parties must uphold the supremacy of law or be relegated to the rear.

SHALL AND WILL

If the president, who used to be president of a college cannot learn to use "shall" and "will" in the "shall" what can you expect of the tired business man? I got yesterday in the same mail two instances, showing how utterly misunderstood these auxiliaries are. One was an enclosed postal card which I was invited to fill out in order to show whether or not I should attend a certain function about to be held. It invited me to check either "I will be present" or "I will be present." "Shall" of course, was meant. Then I opened a letter from the administrative office of a prominent New England college, in which gentleman, suggested possession of an A.B. at the very least, informed me that "When you are ready to go into the matter in more detail I will be glad" etc. If the rightness shall hardly be saved, what will be ungodly come to?—Courier-Citizen, Chicago.

And if this writer of the Courier-Citizen cannot learn the proper use of these auxiliary verbs as taught by the highest grammatical authorities, he should not undertake to instruct others in the intricacies of their usage. Whoever heard anyone use the word "shall" in talking of the future? In the other case, "I will be glad," "shall" should be used as expressing simple futurity. In this, apparently by chance, our neighbor struck it right. This is the writer who has been writing President Wilson up as one of these two worlds, calling him in this case calling right wrong and wrong right.

RACE RIOTS

Race riots and lynchings are still prevalent in some of the western states. It is unfortunate that racial hatreds are being incited from one cause or another. The negroes complain that the newspapers of the country give undue prominence to any crime committed by a negro, taking particular care to say that the criminal is a negro. They also claim that when a white person commits some crime it receives less prominence in the press and there is no intimation as to the race to which the criminal belongs.

The plea is a very just one, and it would be well if the newspapers would change their policy in this respect and no longer stigmatize a member of the colored race through hatred or prejudice. The press can do much in restraining the race feeling whether on one side or the other by appealing for fair play and respect for the law which in the race conflict is lacking to a greater extent among the whites than among the negroes.

OUR EVENING SCHOOLS

In the evening schools, now open, there are offered many opportunities for self improvement along educational lines. Many young people who work in mills during the day will doubtless take advantage of these classes and thereby acquire the means of attaining greater success in their chosen occupations. The Vocational schools together with the classes conducted at the Textile school offer a wide variety of subjects and must, therefore, benefit a great number of those employed in our varied industries.

We know men prominent in business today as employers or foremen in factory and workshop who did not have educational opportunities in their early days equal to those now offered in our evening schools without cost to all who wish to avail of them. Those who have any ambition to improve their condition in life and who can benefit by attending the evening schools, will make a serious mistake by remaining absent.

THE PRESIDENT

The job of being president of the United States even in normal times is the most terrific job in the world. And the times have not been normal. President Wilson is the kind of man who will not and cannot spare himself. Guarding his responsibility with an almost religious zeal, he has shouldered a load in excess of his physical strength.

Typical of his attitude toward gigantic tasks was his going to Europe personally to conduct peace negotiations. All major state papers have been from his pen. He has patiently added each new problem to his burden. The effect of such overwork on his highly organized mind and body was inevitable.

His tour in behalf of the League of Nations, topping a long series of crises and responsibilities, brought on a nervous collapse. The country appreciates that the overwork was in its behalf. It sympathizes with the president and prays for his early and complete recovery.

POLICE AT THEATRES

The people of Lowell will appreciate the action of Mayor Thompson in deciding to assign a police officer to the afternoon performance at each of the local theatres. Judging from current reports, privately circulated, there is good reason for this action. It appears that some of the hoodlums become unruly at the motion picture shows when the lights are turned down. Some of them make it an occasion for insulting women, who happen to sit near them and who have no means of reporting them until the performance is over, without making a scene. These offenders knowing the danger of being complained of usually make a hasty exit after the show. With an officer at call, things will be different and the managers are determined to keep close watch for such offenders so that ladies may sit wherever they please in any theatre in the city, without danger of annoyance.

SEEN AND HEARD

A Pittsfield little boy was given a penny to give the Lord at church. He returned home to report that not seeing the Lord, he gave his penny to a man with a plate.

Family Devotion

We have a neighbor who we knew to be greatly devoted to her own family, but until we had our first family, we did not know that she was entirely lacking in a proper sense of humor. I heard her calling in the midst of the storm, and opened my window. "Mr. Hunter at home?" she said. "I had a dreadful shock when I took down the telephone re-

ceiver and I want him to come over and put it back on the hook."

"Isn't Mr. Roberts at home?" I suggested.

"O, yes. He is in the garage with the boys, but you know I think it is very dangerous to handle the thing, so I don't want to call them."—Youth's Companion.

He Was Not the Same Jones First—Very glad to meet you, Mr. Jones. Funny we never met before up here. You're the Jones that sang on the Glee club, I presume.

Second—No, I'm not gifted musically; don't like it, in fact.

First—Let's see; there are so many Joneses; maybe I can place you. Hockey?

Second—No; I'm not an athlete. First—Debating?

Second—No. First—Were you the Jones on the honor roll?

Second—Not on your life. First—Say, do you do anything at all?

Second—Nothing. First—Marvelous. Let's room together next year.—Yale Record.

Using Soap Internally One morning a woman walked into a village grocery store with a majestic stride. It was easy to see by the sternness of her expression that she was somewhat disturbed.

"This," she sarcastically explained, throwing a package on the counter, "is the washing itself. It's the soap that makes washing a pleasure. It's the soap."

"That isn't soap, madam," interrupted the grocerman, examining the package. "Your little girl was in here yesterday for a half pound of cheese and a half pound of soap. This is the cheese."

"U-m, that accounts for it," said the woman, as the light of understanding began to glow. "I wondered all night what made the Welsh rabbit we had for supper taste so queer."—San Francisco Argonaut.

Then the Fun Started Two negro soldiers of the 92d (Buffalo Division) were discussing life in the United States before the war as they waited for the mess bugle.

"Now, when I was a lion tamer in a circus," began one.

"A lion tamer?" demanded the other incredulously.

"What is a lion tamer? I never heard of that trade before."

"A lion tamer is a guy who goes into a lion's cage. He locks the door after him and puts the key in his pocket. Then he goes over to the lion and opens his mouth. Then he takes hold of the lion's tongue and wags it. Then he goes to the door of the cage, unlocks it and walks out."

"Well, man," ejaculated the other. "You never was a lion tamer, youse just a lyin' fool, dat's what you is."—Los Angeles Times.

Friendship Copyright, 1919, N.E.A. I had a flower, I set it in the mold And left it there alone. I neither watered it, nor tended, Nor guarded it from cold.

The little flower, as the offended Withdrew its fresh perfume And blighted all its bloom. Almost I thought I heard it moan "You prize me not, so I take back my own."

(Flowers know themselves appreciated. Only as they are cultivated.)

I had a friend, I held him in my heart, But never told him so. I seldom saw and seldom sought him; Our pathways led apart. Till, one day, I had quite forgot him, He held himself aloof. He shunned my road and roof. Or, if we met, it was as though We were two strangers, neither cared to know.

(Friendship and flowers alike are fastidious. Except as they are cultivated.)

—EDMUND TANCE COOKE.

MY MASTER'S HOUSE

"My Master's House" is the title of a most delightful and instructive address by David S. Lawlor of the Julius Mathews advertising agency of Boston, before the "Oral club," an organization of salesmen in that city. So effective was this address that by request it is now printed in pamphlet form for sale and distribution.

It deals with the "inner man," so to speak, the mind, the heart and the soul, discussing their attributes with an insight worthy of a learned psychologist, yet showing in plain and simple language how readily bad habits may grow and how they may be overcome by mental discipline, firmness and power of will. But the will must itself be trained, drilled and disciplined in order that it may become an effective directing force in following the lights of conscience and intelligence.

The mind may be drilled in much the same way as the body, but there must be the will to do it; and that will must come from within, an internal influence must stir it into life. We must keep it awakened by constant exercise by which it attains health and vigor.

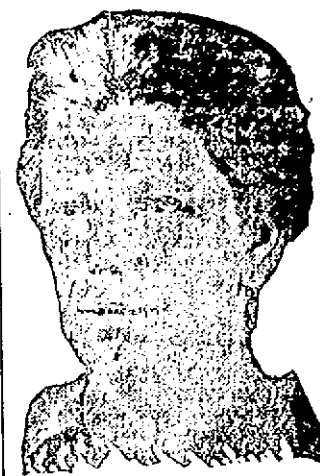

When we have done this, says Mr. Lawlor, we shall recognize a new force within us capable of achieving much. From this the speaker turned to the formation of character which he holds to be influenced more by environment than by heredity. Here he shows that will power is effective in enabling us to select only the influences that are clean, inspiring and healthful and to resist those of a different kind. Thus by drill and vigilance in the matter of self-control, an approach to perfection may be made and character built up.

In the spiritual domain, the value of periodical stock-taking and introspection is forcibly shown, and rules are laid down for striving self-mastery together with force of character and gathering the fragrant flowers of virtue, happiness and good will with the inner temple of the soul.

The address is one that will well repay reading and study. It shows deep thought and an intimate knowledge of those faculties that rule the lives of men. Truly the author says: The garden of life is the earth well, And it will repay our care. But the blossom must always and ever be.

Like the seed we've planted there.

BETTER THAN TWO DOCTORS

MRS. ROSE LAMARCHE

Two years ago I became acquainted with RED PILLS for pale and weak women. I started to take them as directed, and I owe my good health of today to their beneficial qualities. I have had eight children and four premature confinements. After the first years of married life, I became so weakened and in such poor health than I was unable to do my own work, as I had always done in the past. I went to see two doctors, followed their advice, but without results, my health was always the same. I then stopped taking their medicine and put myself solely under the influence of RED PILLS for pale and weak women; fifteen boxes did the work and restored me to good health, which is saying that I owe them more than I can ever repay. My little girl now takes RED PILLS and whenever needed, I will be sure to take them again also.

Mrs. ROSE LAMARCHE,
5 Laval Place,
Lowell, Mass.

RED PILLS are for women only. They are always sold in boxes of fifty pills, 50 cents a box, 6 boxes for \$2.50. See that the name of the "Franco American Chemical Company Limited" is on every box.

THRIFT IN THE PUBLIC SCHOOLS

It will probably be news to a good many people that the theory and practice of personal thrift as a subject of formal instruction, has been given a place, during the past year, in the curriculum of the public schools in a hundred or more American cities, also in the work of several hundreds of business colleges, private academies, Y.M.C.A. organizations, etc. Practical teachers of thrift generally recognize the following content of the subject:

1. The teaching of simple but systematic records of all money receipts and expenditures.
2. A detailed study of the every-day personal money affairs of individuals, and the application of the record-keeping system to these affairs.
3. Budget systems adapted both to the individual and to the home.
4. The safe disposal of reserves or savings in the form of thrift stamps, bank deposits, stocks, bonds, building and loan investments, and so on.
5. The immediate and practical application of the foregoing instruction to the learner's own money affairs, no matter how small his allowance or pocket money or earnings may be.

The foregoing outline, of course, is mainly for the affairs of individuals who are not directly concerned in the economics of the home. Home thrift is usually offered as a separate course, and most often to classes in domestic science.

In most schools, the Thrift course is given in classes that meet weekly and, usually, in connection with arithmetic, bookkeeping, penmanship, or the

MAN'S BEST AGE

OBSERVED THEIR GOLDEN WEDDING

Mr. and Mrs. Frank Coburn of 571 School street observed their golden wedding yesterday, the observance being in the form of a family dinner at the home of the couple at noon and a reception in the afternoon and evening. During the day and evening numerous friends called to congratulate the venerable couple, and shower them with best wishes and appropriate gifts.

Mr. and Mrs. Coburn were married at Nahant, October 6, 1869, she being a daughter of the late Albert Whitney and an adopted daughter of the late Washington H. Johnson, both of that town. Mr. Coburn was a son of George W. Coburn, for many years a foremost citizen of Lowell, and in his later years a resident of Pawtucketville. They settled at first in Nashua, N. H., removing to this city in 1872, where Mr. Coburn has since been in business.

Among those who attended the reception were the following:

Dr. and Mrs. Leonard Huntress, Mr. and Mrs. Frank W. Ward, Charles P. Conant, Abbie B. Whipple, A. Madeline Small, Mrs. C. W. Sweet, Mrs. R. W. Hollingsworth, Adelaide Ward, Mrs. Emma J. Richardson, Mrs. C. W. Hoyt, Helen M. Thompson, Edward M. Tucke, Jennie H. McEvoy, George E. King, Marcus T. Pierce, Isabel Metcalf, Mrs. C. W. Burbank, Joseph Peabody, Mrs. Mary MacDrayne, Florence D. Marshall, Josephine L. Fisk, Meta F. Cameron, Don Cameron, S. Foster Whipple, Mr. and Mrs. Frank B. Wright, Louise J. Smith, Florence L. Smith, Mr. and Mrs. George B.

Washburn, Dr. and Mrs. Charles L. Sweetser, Mr. and Mrs. Francis M. Qua, Mrs. Ella A. Brown, Mr. and Mrs. George Wright, C. H. Harlow, C. M. Bixby, Mr. and Mrs. Albert A. Davis, Franklin S. Povey, Mr. and Mrs. Albert S. Gilmore, George E. Bryant, Mrs. John A. Simpson, Catherine Barrows Washburn, Helen Stevens Whipple, Herbert F. Whipple, Rev. and Mrs. W. F. English, Jr., Mr. and Mrs. W. H. Robbins, Mrs. C. H. Holland, Mr. and Mrs. Stanley E. Qua, Hortense Tabor, Julia Burke Mahoney, Marian Simpson, Mr. and Mrs. A. K. Whitcomb, Mary S. Lamson, Mr. and Mrs. Charles W. Churchill, Mabel Hall, Mrs. L. W. Hall, Sidney R. Fleet, Dr. H. W. Coburn, Mrs. E. F. Lamson, Edith Richardson Dupee, Mr. and Mrs. John T. Lewis, C. A. Abbott, Stella J. Allen, Mrs. Arthur A. Wright.

NO CHANGE HERE IN PRICE OF MILK

At a meeting of the Lowell Milk Dealers' association held in Odd Fellows hall, Bridge street, last evening and at which was present Mr. Davis, a representative of the New England Milk Producers' association, it was decided that for the present at least the price of milk in Lowell would not be increased, but will remain at 16 cents a quart.

The meeting was called for the purpose of discussing the advisability of increasing the price of milk a half cent a quart in order to make Boston and Lowell prices standard, but most of the milk dealers present were opposed to the project. Some of them went so far as to declare that if the producers insisted on an increase, they would suffer the loss rather than to ask the public for an increase. It was finally decided not to make any change in the price of milk at present.

FINE BOXING CARD FOR KID GLEASON OF WHITE
OPENING SHOW SOX "SICK AT HEART"

The card announced for the opening show under the new management at the Crescent A.A. on next Thursday night is a very attractive one and should furnish abundant action. Kid Gleason, one of the leading men of his weight in this section, and well and favorably known in this city where he knocked out George Bisset a few months ago, will appear in the main bout against Paul Dixon of Brooklyn, who is said to be a top-notch fighter. Both men are training carefully for the match as the winner has been promised several attractive advantages. They are scheduled to go at it twice in the semi-final, between Kid Gleason and Young Leonard of Chelsea. The pair met here at the South End benefit show and put up a whole of a bout. It was called a draw. Young Demas, of the Hellenic club and Kid Dimond, of the B. & M. club, will meet in one preliminary while Dinky Welch and Young Pined will perform in the other six round number. Matty Carney will act as third man in the ring.

WILL RESUME
SERIES SATURDAY

According to present plans the Knights of Columbus and Bellevues will play the second game of their series at Snelling park next Saturday afternoon. The uncertainty of the weather kept down the crowd last week, but a large turn-out is expected at the coming game. If the Knights win the series will be over, but if the Bellevues turn the tables, a third game will be necessary, probably to be played on the Saturday following.

JOE EAGAN WINS

FRAMINGHAM, Oct. 7.—Joe Eagan of Boston won the decision over Johnny Alecks of Philadelphia in the main bout at the Framingham Athletic club last night before a crowd of more than 1000 persons. It was a 12-round affair. Eagan led in six of the rounds and two were even.

In the semi-final, Bert Jones of Revere was awarded the decision over Battling O'Neill of Lynn in eight rounds. In the preliminaries Young Pine of Milford won over Tony Foyers of Milis in the fifth round, and Young Dryson of Waltham defeated Johnny Dundee of Milford in six rounds.

Walvis, on the coast of southwest Africa, is said to be the sandiest place in the world.

CHICAGO, Oct. 7.—Manager Gleason of the White Sox, before leaving for Cincinnati, said he was "sick at heart" about the Sox. "I don't know what the matter," he said, "but I do know that something is wrong with my team. The team I had fighting in August for the pennant would have trimmed the Reds without a struggle. The lunch I have now couldn't beat a high school team. We hit something over 250 for the season in the American league pennant race. Now that's the best hitting any ball club ever did in the history of the game. The way those 250 hits were made, I certainly have been disappointed in it in this series. It hasn't played baseball in a single game. There is only a bare chance they can win now."

"You know it doesn't seem possible that this team that worked to great for me all summer could fall down like this. I tell you I am absolutely sick at heart. I thought all of them were my boys. I felt like a school teacher might feel toward his pupils. I loved those boys for the way they fought for me this summer."

JACKSON K. O.'S
EDDIE MORGAN

PHILADELPHIA, Oct. 6.—A whirlwind attack to the face and body sent Eddie Morgan, the English featherweight, down and out in the fourth round at the Olympic A. C. last night. While Jackson of New York dropped Morgan with a terrific right to the jaw in the third round.

He came up for the fourth round weak, that he succumbed to a combination of head and stomach blows. The referee stopped the bout between Young Sisco of Boston and Louisiana in the sixth round. The two boxers came into collision in the fifth, head on, and a gash was opened over Sisco's left eye. It bled so profusely the referee stopped the contest. Louisiana had the better of the bout.

BOXING

Paul Reed vs. Paul Dixon and three other high class bouts.

STRIKES THREATEN

Big Doings for Bowlers Who Can "Spare" The Time

That there will be a great number of strikes in the United States and Canada within the next few months is a certainty, judging by the way the employers in the industrial concerns are warning up for their first big international telegraphic bowling tournament. Employees of concerns combining the recreational with the business end of it also are too busy getting in shape for the big meet to give a thought to labor troubles, and as a consequence are having their "strikes" on the good old maple way in friendly competition.

That no little amount of interest is being shown in the tournament recently suggested is proven by the way entries are pouring in from all parts of the country. Over one hundred teams have already signified their intention of entering, and the following week should easily see the number of entrants pass the 200 mark. One of the provisions in the rules makes it compulsory that every player competing must have been an employee of the concern which he is to represent at least two months prior to the date of entry. This ruling will prevent the sudden strengthening of teams for the tournament. The five securing the largest total in the three games rolled will not only become winners of the trophy donated, but will be hailed as the international champions of the industrial bowling world, as this is the first tournament ever held open to all industrial concerns.

Further particulars regarding the big event may be secured by communicating with W. V. Thompson, 623 South Wabash avenue, Chicago.

WORLD SERIES

Winners Will Receive Over \$5000 Each

CHICAGO, Oct. 7.—Yesterday's game was the last in which players on the Americans shared receipts, and, according to unofficial figures based on a total player's share of \$200,340.66, the winning team will divide among its members \$117,157.35. The losing team will take down \$78,193.90 to be shared by its members.

Based on a division of the team shares among 23 members, the winners of the championship each will receive \$5093.79 and the members of the defeated club each will get \$3395.86.

STEAMER WHICH ASKED
FOR HELP ARRIVES

BOSTON, Oct. 7.—The steamer Lake Gravett which sent out a call for assistance last Saturday because of coal shortage, reached St. John's, N. F., last night, according to a despatch received here today by her agents, J. S. Emery & Co. The Lake Gravett is bound from Povey, England, for Portland. She was about 900 miles east of Cape Sable when she sent out for aid. The message received by her owners today said that the heavy sea that followed the recent mid-ocean storm has moderated so that she had been able to make port with her limited coal supply.

STRUGGLE BETWEEN N. B.
MILLS AND EMPLOYEES

NEW BEDFORD, Oct. 7.—With the textile council of New Bedford endorsing the strike of the loomfixers at the Beacon mill of this city, and the Cotton Manufacturers' Association pledging its moral and financial support to the firm on the claim that the strike was called without cause, the issue is revolving itself into a struggle between the mill men and the employees. Last week the loomfixers left their positions, and when the mill sought to fill the vacancies this week, weavers to the number of 300 walked out in sympathy with the striking fixers.

The various unions of the city will hold meetings this week to decide how far they will support the loomfixers in their demands. In the meantime a committee has been appointed by the textile council to seek a conference with the manufacturers association. The situation at the mill today was reported to be unchanged from yesterday.

The weavers have expressed their determination to remain away from work until the mill reinstates the striking loomfixers and will not return until the grievances have been adjusted.

HEAD OF "FERNCROFT
INN" FINED \$500

BOSTON, Oct. 7.—George Faulkner, president of the Middleton Automobile club, formerly Ferncroft Inn, pleaded guilty in the federal court today to a charge of violating the war-time prohibition act. Federal officers who raided the club last Sunday found liquor being served to members. Faulkner was fined \$500 and notified that any continued violation of the law would expose officials of the club to jail sentences.

MINES CLOSED BY
ONE DAY STRIKE

BRIDGEPORT, Ohio, Oct. 7.—The mines of the Wheeling & Lake Erie, Virginia, Hill and Oeco Coal companies at Banneck, Lafferty and Black Oak were closed yesterday by a one-day strike of several hundred miners in protest against imprisonment of Thos. J. Mooney.

ASSAILED

Senator Hitchcock Scouts Action of Mass. Democratic Convention

(Special to The Sun)
WASHINGTON, D. C., Oct. 7.—The democratic party of Massachusetts has on so few occasions been of any service to the national democratic party that I am not much interested in their attitude," shouted Senator Hitchcock today as he sprang to his feet to refute the statement of Senator Borah that the action of the state committee showed the sentiment of many of that political party a favor amendments and self-determination. Peppery debate followed in which the democratic and republican platforms of Massachusetts came in for side-swipes. During the cross fire Senator Walsh smiled broadly, but refused to be talked out of his silence. Walsh has announced that he will address the senate on the league late this week.

BILLERICA MAN
DIES ON CAR

WOBURN, Oct. 7.—Fred R. Gray, who for a number of years was engaged in the manufacture of door and window screens in Boston died from heart failure about 5.30 yesterday afternoon on an electric car near Woburn Centre. He was 51 years of age and lived in the Riverdale section of Billerica. The body was viewed by Dr. Charles F. McCarthy, assistant medical examiner. He is survived by his wife and three sons.

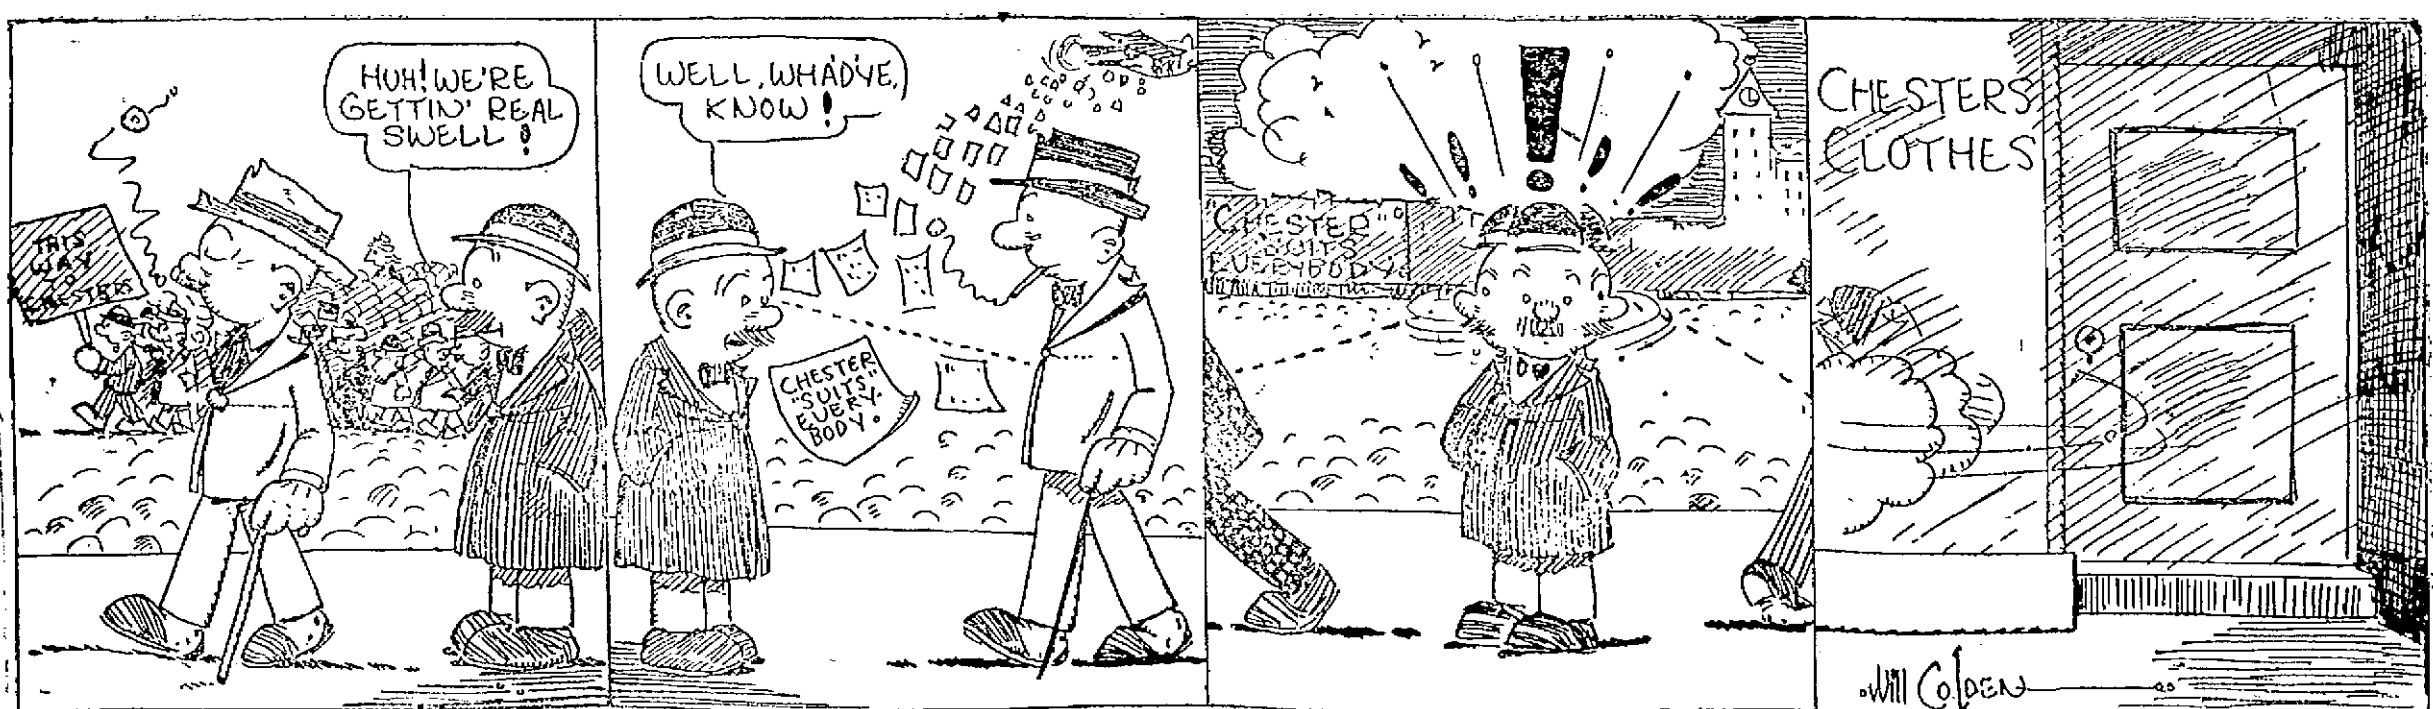

LOWELL TEXTILE SCHOOL

The evening classes of the Lowell Textile school commenced their fall term last night with a registration which will tax the instruction force and machinery to the limit. All textile departments will be operated four evenings a week to capacity and also more students than usual have registered in the free hand and mechanical drawing courses. A number of students from Lawrence and nearby towns are among the registrants.

Handkerchiefs were unknown before the early part of the 16th century.

WARNING BY HOOVER

Nation Faces Dangerous
Radicalism Unless Teach-
ers Get Better Pay

SAN FRANCISCO, Oct. 7.—Warning that unless better pay is forthcoming for teachers in American colleges, the nation will face dangerous radicalism from centers of higher education was voiced by Herbert Hoover in an address before the Harvard club of California last night.

"Out of the war and misery of the war has arisen a silhouette of class distinction and class hatred that is not to be obliterated with a few words," he said. "The development of radicalism in Europe during the last 12 months, is beyond anything in history. America is a fertile field and responds quickly to any wind that may blow. This European wind of radicalism is sweeping our way and it is affecting us."

"In our great universities the instructing and faculty staffs are hard hit by the present economic situation which in the face of enormous prosperity returns something like \$7 a day to the educator, while the craftsman who repairs his kitchen sink makes more in fewer hours of work."

"America cannot permit this growing sense of injustice to remain with the nation's educators. There is a menace to the nation's safety in discontent in the background of the university faculty work and every right thinking citizen must see it."

Mr. Hoover declared other independent universities of the nation should follow Harvard's example in seeking to raise an endowment for increasing teachers' salaries 50 to 100 per cent, and that legislatures should take like steps for state institutions.

LEARNING WHAT THE
WORLD IS MADE OF

Early in October a scientific expedition will arrive in Seattle from Alaska, which will bring back information tending to throw additional light on the dark spot of modern science—what composes the inside of the earth.

Announcement is made by the National Geographical society from its headquarters at Washington, that the sixth Mt. Katmai expedition of the society is preparing to sail from Kodiak island after many months spent in fruitful scientific study of the unique and spectacular natural phenomenon known as "The Valley of Ten Thousand Smokes," at the foot of the gigantic Mt. Katmai volcano.

Not only has the expedition, headed by Dr. Robert F. Griggs, accumulated an amount of scientific data beyond happiest anticipation, but according to a telegraphic report to the society, a fine harbor, not previously known, has been found which affords a feasible route to this region of the innumerable vents of various kind, which spout steam and vapors of almost unbelievable temperatures.

The discovery of this harbor is considered of marked interest because President Wilson has proclaimed the region of "Ten Thousand Smokes" a national monument, and it will not be long before this new federal reservation will be visited by tourists who wish to view a spectacle no less awe-inspiring than the spouting geysers and other natural wonders of our own national parks.

Hidden Secrets of the World

"But the primary interest of this region to the civilized world will be the unequalled opportunity it affords for penetrating some of the hidden

secrets beneath the surface of the globe on which we dwell," says a bulletin from the National Geographical society.

"We laugh at the child who says the moon is made of green cheese, but the child might smile at us if he would only ask, 'What is the earth made of?'"

"Though science has penetrated to the infinitesimal secrets of the invisible atom, and it has reached to other solar systems so far out in the universe that we know about stars from which it takes the light 5000 years to travel to this earth, its penetration of the inner earth is no deeper, comparatively, than a pin scratch on the cover of a mammoth book."

"The ancients thought the way to learn the mysteries of what lies under our feet was to dig deeper, and even

deeper, but we know now that even modern engineering, which can pierce the mountains and burrows under rivers, cannot penetrate deeply enough to tell much of Mother Earth."

"In such phenomena as volcanic eruptions, earthquakes and geysers lie the key to the hitherto hidden secrets of the globe. It has been established that the hissing, steaming, exploding acres that seem like a multi-magnified depot yard of Mogul engines, is a modern example of what the geysers of Yellowstone National Park once were."

Terror Heat Inside

"The vastness and intensity of the molten mass which spits the vapors of this terrifying valley is indicated by the discovery of new high temperatures among the fumaroles. Early parties were not equipped to measure

the unexpected heat of some of the fumaroles. Dr. Griggs wires that the hottest ones have just been found, where the highest temperature was 1191.2 Fahrenheit, and that many of the escaping vapors kindle wood into a blaze as readily as a match burns when struck."

"Besides chemists, petrographers, zoologists and botanists, the expedition this summer marked a departure in scientific explorations of this kind by having along motion-picture photographers. Ten thousand filmed feet of the spectacle, which words cannot picture, are being brought back, to be shown to members of the society."

"Another finding of popular interest was the discovery of a region north of the National Monument reservation which not only is one of great natural beauty, but abounds in fish and game."

"The study of the economic side of this hitherto unknown region was not neglected. Dr. Griggs is shipping to Washington botanical and zoological material as well as specimens of plants and animals found about Mt. Katmai."

MATRIMONIAL

Mr. Robert H. Dawson and Miss Rose B. Rogers were married yesterday afternoon at 3 o'clock at the parochial residence of St. Michael's church by the pastor, Rev. John J. Shaw. The groom's father, John J. Dawson, was best man and the bride was attended by her sister, Miss Marie Rogers. The ceremony was followed by a reception at the Richardson hotel and the bridal party left later for New York. They will return by way of the Mohawk trail. A rather unusual coincidence in connection with the marriage was contained in the fact that it was Father Shaw who married the groom's father, who was best man yesterday.

McCarthy-Gookin

Mr. Dennis J. McCarthy of Cambridge and Miss Ellen J. Gookin of this city were married yesterday at the Sacred Heart rectory, the ceremony being performed by Rev. T. Franklin Wood, O.M.I. Miss Lena Gookin, a sister of the bride, acted as bridesmaid, while the best man was Mr. William L. Lynch of Cambridge. At the close of the ceremony a reception was held at

TURKISH THRONE IS THREATENED

**Crisis in Asia Minor Similar
to That Caused by Seizure
of Fiume**

**Turkish Nationalist Troops
Capture Great R. R. Cen-
ter—Allies Helpless**

PARIS, Oct. 7.—Turkish Nationalist troops said to number upwards of 300,000 men and commanded by Mustafa Kemal seem to have precipitated in Asia Minor on a major scale, a crisis similar to that which arose in Dalmatia when Captain Gabriele d'Annunzio seized the city of Fiume.

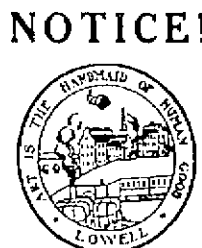

There is a feeling that the situation in Asia Minor has gone beyond the control of the Turkish government and that the allied powers are helpless, at present, to bring military pressure to bear and afford any appreciable relief.

General Ali Riza Pasha, the new grand vizier, has opened negotiations with Mustafa Kemal, according to a Constantinople despatch.

Konieh, a railroad center, is in the hands of the Turkish Nationalist troops. This city, which in the days of Roman power was known as Iconium and was the capital of the province of Lycaonia, stands in a position which virtually dominates southern Asia Minor. Its capture appears to indicate that Mustafa Kemal is in control of a vast region stretching from Konieh, on the southwest, to Erzerum, the principal city of Turkish Armenia, a distance of about 425 miles. It is said the fall of the Turkish cabinet was caused by the capture of Konieh, and there seems to be some apprehension in some quarters that the Turkish throne may be in danger.

On the other hand, French circles point out that Djemal Pasha, the newly appointed Turkish minister of war, is a political ally of Mustafa Kemal. The task of working out the future of Turkey has not progressed far in the peace conference so far as shown by actual results. Turkish delegates were invited to come to Paris in an advisory capacity some time ago, but they have since returned to Constantinople at the request of the conference. It has been reported.

"It is the news, the truth and fit to print." This is the standard The Sun follows in printing city, state and national news.

On and after Wednesday, October 8, 1919, the bridge on Broadway over Pawtucket Canal, will be closed to through passage until such time as the necessary repairs upon bridge are completed. There will be a path for pedestrians maintained while the work is being done.

Per order
DENNIS A. MURPHY,
Commissioner Streets and Highways.

Conductors' Hearing (Continued)

change, but did not deposit any fare in the box. Chicoline also held out fares in another instance on this trip, he said.

He also rode on Chicoline's car, leaving the square at 8 p. m. that evening, and said that he gave Chicoline 50 cents, paying for two. Only one fare was deposited, he said. A woman and man boarded the car later, he said, and Chicoline deposited but one fare.

Cross-Examination

He said, when cross-examined by Mr. Tierney, that he had conferred with his chief, Mr. Lahan, shortly after his arrival in Lowell early in September. The conference had been held at the Harrison hotel, and Mr. Lahan had given him the number of a conductor to investigate. The number given him to investigate was called No. 2991.

"Did you discuss conductor No. 2991 with Mr. Lahan on any day before you commenced to investigate on Sept. 15?" asked Mr. Tierney.

"No," replied witness. He afterwards said that he couldn't recall whether he had discussed conductor 2991 before Sept. 15 or not.

Mr. Tierney asked him to tell him without referring to his notes what the weather conditions were on the trips he made on Sept. 15, also where the cars were bound, how many passengers were on, etc.

Witness was unable to recall the answers without referring to his notes. "How far were you from the conductor when you took your seat in the car?"

"I can't recollect."

"Where did you sit?"

"I can't recollect."

"Do you recollect what observations you made on that trip at 4.40 on Sept. 15?"

"No," replied witness.

LEGAL NOTICES

Commonwealth of Massachusetts.
Middlesex ss. Probate Court.
To the heirs-at-law, next of kin and all other persons interested in the estate of Charles M. Young, late of Lowell, in said County, deceased.

Whereas, a certain instrument purporting to be the last will and testament of said deceased has been presented to said Court, for Probate, by William T. Sheppard, who prays that letters testamentary may be issued to him, the executor therein named, without giving a surety on his official bond.

You are hereby cited to appear at a Probate Court, to be held at Cambridge, in said County of Middlesex, on the fourteenth day of October, A. D. 1919, at nine o'clock in the forenoon, to show cause, if any you have, why the same should not be granted.

And said petitioner is hereby directed to give public notice thereof, by publishing this citation once in each week, for three successive weeks, in The Lowell Sun, a newspaper published in Lowell, the last publication to be on or after the day before said Court, and by mailing postpaid, or delivering a copy of this citation to all known persons interested in the estate, seven days at least before said Court.

Witness, Charles J. McIntire, Esquire, First Judge of said Court, this twenty-sixth day of September, in the year one thousand nine hundred and nineteen.

S27-0-7 F. M. ESTY, Register.

MILINERY TRIMMER

SOUTH END WELCOME HOME CELEBRATION

Beginning tonight and continuing every night this week until Friday the general committee in charge of the South End welcome-home celebration will meet to pick up odds and ends of preparations now hanging in the well of uncertainty. There is much left to do, but the members are sure that Friday morning will dawn upon a stage all set for the most pretentious event the city ever has planned.

As is generally known the celebration continues over four days, Friday, Saturday, Sunday and Monday, the 10th, 11th, 12th and 13th and the programs for each day contain features beyond number. Every form of amusement, to appeal to old and young alike, will be on tap, all culminating in the huge parade of military, civil, fraternal and semi-military organizations on the holiday.

The committee is on the last lap and desires to swing into the home stretch considerable in advance of the plans that is, everything must be cleaned up and in readiness for Friday's opening. Co-operation still is needed, merchants may donate more to the general fund if they wish and all suggestions will reach receptive minds. It is only by pulling together that the committee will feel sure of complete success.

A substantial check was forwarded to the treasurer of the committee to help defray the expenses of the celebration by the executive committee of the 101st Ladies' auxiliary, who held a meeting at the board of trade rooms last evening. Final reports were made of the recent whist party and entertainment in the K. of C. hall. Chairman Mrs. William H. Merritt presided.

DEATHS

ELIAS—Mrs. Shaly Ossad Elias, wife of George Elias, died Saturday at the Chelmsford Street hospital, aged 29 years. The funeral took place Sunday afternoon from the rooms of the undertaker Joseph Albert in Allen street. A liberal was sung at St. Patrick's church and burial was in St. Patrick's cemetery.

LEDoux—Mrs. Rose Ledoux died yesterday at her home, 39 Clark street, aged 30 years. She leaves her husband, Maurice Ledoux; two daughters, Marie Rose and Alice; two sons, Donat and Vital Ledoux; her father, Zephyr Moreau of Canada and five brothers, Rev. Louis Moreau, Edmund, Lucien, Henry and Armand Moreau, all of Canada.

PELLETIER—Mrs. Laura Pelletier died yesterday at the Lowell Corporation hospital. She is survived by her husband, Emile Pelletier. The body was taken to her home, 19 Carmine street, by Undertakers Amodeo Archambault & Sons.

GLYNN—John P. Glynn, aged 31 years, died this morning at the home of his sister, Miss Ellen M. Glynn, 429 Worthen street. The deceased leaves two sisters, Mrs. Anna Whitting and Miss Ellen M. Glynn.

McLELLAN—Robert McLellan, aged 24 years, died this morning at St. John's hospital. The body was removed to the funeral parlors of Charles H. Molloy's Sons. The deceased leaves, besides his father and mother, of Prince Edward Island, five brothers, Joseph and Alexander of Framingham; John of Newton, Cyrille of Prince Edward Island; Augustin of Winnipeg, Manitoba.

Here's a Practical Way for Women to Cut the High Cost of Wearing Apparel

Make your own clothes this season. Pit your own ability and ingenuity against that of your tailor or apparel shop.

Sewing is Easy With an Electric Machine

It is quick—it is simple. The new portable electric machines can be carried about as easily as a valise. They may be placed on any table or flat surface to operate. No labor required. You simply guide the sewing. No tiresome foot treading.

Get your Electric Machine—or a motor for your old machine now—and start to save money by making your clothes this easy way.

The Lowell Electric Light Corporation

29-31 MARKET ST. Tel. 821

GOVERNMENT GOODS

Sold Next Thursday, October 9th, at Hanson's Auction Sale, Rock Street, at 10.30 A. M.

Goods consist of dry goods, such as sweaters, stockings, rubber boots, elkskins, slickers, coats and pants. Also a good assortment of small hardware.

FUNERALS

FLEMINGS—The funeral of Mrs. Rita C. Flemings was held from her residence, 122 Parkview avenue yesterday afternoon. The services were conducted by Rev. Benjamin A. Whitcomb, pastor of the Walnut Avenue Congregational church of Boston. Appropriate selections were sung by the Schubert male quartet of Boston. The floral offerings were numerous and beautiful. The bearers were James P. Flemings, Herbert L. Trull, Harry B. Flemings and Frederic N. Trull. Burial was in the family lot in the Lowell cemetery. The funeral arrangements were in charge of Harvey H. Greene, under the direction of Undertaker Geo. W. Healey.

BOHLEN—The funeral of Mrs. Josephine L. Bohlen took place at her home in Westlands, Chelmsford Centre, yesterday afternoon. Rev. E. C. West, pastor of the Chelmsford Street Baptist church, officiating. Mrs. F. L. Roberts sang appropriate selections. The bearers were Willis E. Hatch, Geo. L. Hatch, Fred Hazen and Horace Tilden. Burial was in the family lot in Riverside cemetery at North Chelmsford, where the burial service was read by Rev. Mr. West. The funeral was under the direction of Undertaker W. Herbert Blake.

WYOMER—The funeral services of Edward Stott were held at his home in North Billerica yesterday afternoon. Rev. Mr. Armstrong, pastor of the Baptist church of North Billerica, officiating. The following selections were sung in Jesus' and "Abide With Me" were sung by a quartet composed of Miss Minnie Clifford, Miss Bella Chambers, Herbert Ellis and James Hatch. The Rev. Mr. Armstrong read the burial service. The funeral arrangements were in charge of Undertaker Herbert A. Simmons.

BLACK—The funeral of Mr. John Black took place this morning from the chapel of William A. Mack, 16 Gorman street, at 8.15 o'clock and was largely attended by relatives and friends. At the immaculate Conception church a funeral high mass of requiem was celebrated at 9 o'clock by Rev. James McCardin, O.M.I. The choir sang the Gregorian mass, the solos being sustained by Mr. Charles Smith and Mrs. Walker. The organists were Mr. Walker. There were many beautiful floral tributes. In attendance at the funeral were relatives from Washington, D. C., Palmer, Mass., Boston and Springfield. The casket was borne from the church to the home by the following relatives and friends: Messrs. James Blakely, Patrick McElhinney, Timothy McKamara and John Shields. Burial took place in the family lot in St. Patrick's cemetery where Rev. James McCardin, O.M.I., read the committal prayers at the grave. Undertaker William A. Mack had charge of the funeral.

REQUIEM MASSES

McDONALD—There will be a high mass of requiem Friday morning at 8.45 o'clock at St. Patrick's church in loving memory of JAS. McDONALD.

CELIA McDONALD.

BROSNAN—There will be an anniversary high mass Wednesday morning at 7 o'clock, at St. Columba's church for William Brosnan and Bridget Brosnan.

QUINN—A solemn anniversary requiem mass will be celebrated at the Sacred Heart church Wednesday morning at 8 a. m. for John P. Quinn.

PARRELL—There will be a second anniversary high mass of requiem tomorrow morning at 8 o'clock at the immaculate Conception church for Charles H. Parrell, who died Oct. 5, 1917.

BY HIS WIFE, FATHER and CHILDREN.

IN MEMORIAM
In loving memory of Cornelius Griffin, who died October 9th, 1915.
A sadness rests upon his home, they miss his kindly face;
Where'er they turn, wherever they go, They see his vacant place.
Just as it was.

M.R. and MRS. J. L. ANDERSON.

FUNERAL NOTICES

GLYNN—The funeral of John P. Glynn will take place Thursday morning from the home of his sister, Miss Ellen M. Glynn, 429 Worthen street, time to be announced later. Burial will be in the family lot in St. Patrick's cemetery under the direction of Chas. H. Molloy's Sons, undertakers.

McLELLAN—The funeral of Robert McLellan will take place Wednesday (time to be announced later), from the funeral parlors of Charles H. Molloy's Sons. Burial will take place Saturday morning at Grand River, P.E.I., lot 14. Services will be held Saturday morning at St. Stephen's church, Grand River, P.E.I. The funeral will be under the direction of Undertakers Charles H. Molloy's Sons.

STEWART—The funeral of John T. Stewart will take place on Wednesday morning at 8 o'clock from his late home, 32 Railroad street. Funeral high mass of requiem will be sung at St. Peter's church at 9 o'clock. Burial will take place in St. Patrick's cemetery. Undertakers M. H. McDonough Sons in charge.

SUN BREVITIES

Best printing, Tobin's, Associate Bldg. J. P. Donohoe, 228 Hildreth Bldg., real estate and insurance. Telephone. Miss Helena Dellise, of 12 Dodge street has resumed her vocal studies at the New England Conservatory of Music at Boston.

Examination for commissions as officers in the high school regiment, open to junior boys, will be held on Friday, Oct. 17 after school hours. The tests will be written.

The executive committee of the Lowell board of trade yesterday listened to the reading of a communication from the National Association of Fire Underwriters touching upon the campaign for strict adherence to fire prevention methods. The committee voted to co-operate in every possible way.

IN MEMORIAM

In loving memory of Gerard T. Mansfield, who died Oct. 6, 1918. Gone but not forgotten by his friends.
JOSEPHINE, JULIA and HELEN CRANE.

EDITOR OF HARPER'S DEAD
NEW YORK, Oct. 7.—Henry Mills Allen, editor of Harper's magazine since 1869, died at his home here today, after a long illness. He was 82 years old.

Federal Troops in Control

Continued

the mayor, the police and 300 state militiamen stationed at Gary.

With reports that strikers in increasing numbers were resuming their places in the mills, the attitude of pickets has become threatening and for a time it seemed as if a serious clash would be unavoidable.

The state militia were ordered to Indiana Harbor and East Chicago, Ind., where Gov. Goodrich declared martial law.

Gen. Wood has forbidden public meetings, parades and demonstrations in Gary. Carrying of weapons by persons other than the police, military authorities, troops and members of the city government also is forbidden.

It was made plain that martial law had not been declared in Gary. The federal troops, it is stated by a member of Gen. Wood's staff, will be used to preserve order in conjunction with civil authorities.

One of Gen. Wood's first actions here was to call a conference of city officials and strike leaders. Oscar Anderson, a

strike leader, after the conference said: "The strikers now will get protection and we will win the strike."

Steel Plants Resuming

PITTSBURGH, Oct. 7.—A number of steel plants in the Pittsburgh district

which were forced to shut down two weeks ago when the strike of steel workers was initiated, were operating today, according to company sources. Some were running full time. Union leaders declared that the mills reported to have resumed work yesterday had few men on the job. Latest figures from union headquarters as of Oct. 6, indicate that 307,500 steel workers are on strike in the United States. This is an increase of \$5,000, compared with the figures issued shortly after the strike started.

Cars Held Up; Shots Fired

BUFFALO, N. Y., Oct. 7.—Several men were slightly hurt and one was reported wounded by a bullet from a revolver today when a crowd of 1000 men held up cars of the Buffalo & Lake Erie Traction Co., between the city line and Lackawanna.

Ties and blocks of concrete piled up on the tracks held up the first car and ultimately blocked six of them carrying workmen to the Lackawanna Steel Co., one of the three local plants closed by the strike.

Fusillades of rocks met the cars as they came to a standstill. The workmen fought back and several of them, according to police information, used revolvers. A detail of police put the rioters to flight.

Auctioneer
TEL. 2415

CENTRALVILLE, LOWELL, MASS.

THE TWO WELL KEPT AND WELL SITUATED COTTAGE HOUSES AT NO. 153 WEST SIXTH STREET, CORNER OF WEST STREET, AND NO. 151 WEST SIXTH STREET, PLEDGED IN TWO SEPARATE PARCELS TO THE HIGHEST BONA FIDE BIDDERS, AT UNRESTRICTED AND ABSOLUTE PUBLIC SALE, ON SATURDAY, THE ELEVENTH DAY OF OCTOBER, 1919, COMMENCING PROMPTLY AT 3.30 O'CLOCK, P. M., WITH THE HOUSE NUMBERED 155 WEST SIXTH STREET, AND FOLLOWING IMMEDIATELY WITH THE DWELLING NEXT ADJOINING AT NO. 151:

COTTAGE NO. 155 WEST SIXTH STREET, CORNER WEST
This house has seven splendid rooms, four on the first floor, and three chambers on the second; also pantry, toilet, gas, city water and sewer connections. The house is supplied with two side entrances, has cemented cellar and is in perfect repair, only recently being entirely gone over. The lot is of good size and dimensions, having a splendid frontage on the two streets, is fenced on all sides. This cottage, with its corner location and being of full size makes it a most attractive home.

Terms: \$200 must be paid to the auctioneer as soon as struck off, other terms at sale.

COTTAGE NO. 151 WEST SIXTH STREET
Has six good rooms, besides large pantry, gas, city water, toilet and sewer connections; the house has three rooms on the first floor and three chambers on the floor above, has side entrance and is in A-1 condition, the building only recently being thoroughly renovated inside and out. The lot is of good area, with a corresponding frontage on West Sixth street, and is fenced on all sides. The premises have been occupied by the one tenant for the 15 years past, which fact in itself speaks of the premises as most attractive. Terms: \$200 must be paid to the auctioneer just as soon as struck off; other terms at sale.

In the offering of the above described cottages at public sale, the opportunity to secure a home in this, an essentially home locality, within easy and comfortable walking distance to Merrimack square, to the various mills and factories, and have a home all by yourself is here given. With the great scarcity of tenements, and with the large number of people of moderate means looking to buy a home, and with the very few parcels suitable for sale, this chance to obtain a home in this splendid location should be acted upon by the many, many numbers of home-seekers.

In all probability a most liberal mortgage can remain at 5 per cent. Make all inquiries at the office of the auctioneer.

Per Order of JOHN C. LEGGATT, Attorney.

DISAGREEMENT
OVER RULESCaused Adjournment of La-
bor Conference—Lane is
ChairmanWASHINGTON, Oct. 7.—Disagree-
ment over rules proposed for govern-
ing the industrial conference called by
President Wilson resulted in the con-
ference adjourning suddenly today at-
ter Franklin K. Lane, secretary of the
interior, had been elected permanent
chairman. It planned to meet again
at 2:30 o'clock this afternoon.As proposed by committee, the rules
provided that all conclusions and de-
cisions must be arrived at by unanim-
ous vote.

CONDUCTORS' HEARING

Case Charging Car Conduc-
tors With "Knocking
Down" Resumed TodayTwo more "operators" of the Audin-
g and Inspection Co. of Philadelphia,
the company which furnished investi-
gators to the Eastern Massachusetts
state, to look into alleged dishonesty
on the part of its employees, were
witnesses called today in the trial of
Camillo Chicoline, J. J. Kelley and J. E.
Wallace, the three Lowell car conduc-
tors charged with larceny from the
company.The testimony of the witnesses thus
far has been mostly concerned with
the alleged stealing of fares by Chi-
coline, which is claimed to have oc-
curred on various trips during Sep-
tember.Samuel S. Spayde, whose testi-
mony in regard to alleged larcenies
committed by Chicoline took up the
major portion of yesterday's hearing,
was recalled this morning and ex-
amined further by Atty. General
Thorne.Mr. Thorne took up particularly the
matter of the memoranda which
Spayde had testified to jotting down
immediately after making an investi-
gation on the local street cars.Charles A. Rigler, of Millersburg,
Pa., one of the five special investi-
gators detailed by the company to in-
vestigate alleged fare stealing on the
local lines, then took the stand. His
employers are the Railroad Auditing
and Inspection Co. of Philadelphia.
He said he made a trip from
Merrimack square on September 15,
at 1:40 p. m., and gave the conductor,
Chicoline, a dollar bill, paying for
himself and another "operator" who
accompanied him. Chicoline returned
50 cents in change, but only depos-
ited 10 cents in the fare box.Later, he said, a woman boarded
the car at the Middlesex street rail-
road station, and gave Chicoline a
quarter. He returned 15 cents in
change.

REMOVE 50,000 MINES

WASHINGTON, Oct. 7.—Removal of
the great North sea mine barrage,
laid by the American navy during the
war, has been completed. This was
disclosed today when Secretary Bana-
man made public a cablegram of con-
gratulation sent to Rear Admiral
Joseph Strauss, who commanded the
force which since last October had
been engaged in the hazardous task
of sweeping the 50,000 mines from the
sea.Only one serious accident attended
the work, one of the sweepers being
blown up with the loss of several
lives.City Institution

CHILD FATALY INJURED

Was Struck by Auto That
Mounted Sidewalk and
Smashed Store WindowDorothy Lyon, aged 4 years, daugh-
ter of Mr. and Mrs. William Lyon of
West Andover, died at St. John's hos-
pital this afternoon as a result of in-
juries received in an automobile ac-
cident, which occurred in Bridge street,
near Merrimack square, shortly before
1 o'clock. Mrs. Lyon, who was with
the child at the time of the accident,
received a sprained ankle and abra-
sions about the body, but her condi-
tion is not serious.According to witnesses of the ac-
cident the little girl and her mother
were struck by an automobile
operated by Percy D. Smith, of 41
Prospect street, Methuen. Mr. Smith,
who was driving a Packard touring
car, had just turned into Bridge
street from Merrimack square and
was proceeding at a fairly low rate
of speed, when a Highland-bound
electric car made its appearance. At
that moment several persons, includ-
ing Mrs. Lyon and her daughter, left
the sidewalk to board the car and
although Mr. Smith applied the
brakes his car was not brought to a
stop until the child was run over and
the mother knocked down. The
operator of the machine then became
confused and the machine took the
sidewalk and ran into the window of
Fairbairn's market, smashing the large
plate glass. Traffic Officer Edward
Connors rushed to the scene and after
commandeering Daniel Miller's auto-
mobile he rushed the unconscious
child to St. John's hospital, where it
was found that her chest was badly
crushed. She passed away shortly
after her arrival at the institution.In the meantime the ambulance was
called and Mrs. Lyon was taken to St.
John's hospital, where it was stated
later that her injuries were not of a
serious nature. Mr. Smith, the driver
of the car, was later taken to the
police station by Officer Connors. A
charge of manslaughter will be pre-
ferred against him. The child's
father, Mr. William Lyon, is em-
ployed at Fairbairn's market and was
sitting fruit within two minutes' walk
of the accident when his daughter
was fatally injured.FEDERAL TROOPS
CONTROL GARYGARY, Ind., Oct. 7.—Gary, site of one
of the United States Steel Corp.'s great-
est plants, today was under control of
1100 federal soldiers, commanded by
Maj. Gen. Leonard Wood. Five hun-
dred more troops fresh from riot duty
at Omaha, Neb., were on their way.

Governor Appeals for Troops

The call for federal troops was made
by Gov. Goodrich of Indiana, when
thousands of strikers paraded and held
unauthorized meetings, although forbidden by
court order.

Liberal pension system.LADIES' NIGHT
TONIGHT
AT THE
Y. M. C. I.TO EXTRADITE
COUNT BISMARCKPARIS, Oct. 7.—The extradition of
Count Otto Bismarck, grandson of the
famous German chancellor, has been
demanded of the German government
at the instance of court martial authori-
ties at Lille, according to the corre-
spondent of the Excelsior. Eight other
Germans are also to be extradited, the
writer states.Count Bismarck is accused of having
had fourteen inhabitants of the vil-
lage of Vieucigne shot as an example,
and of burning houses there. Similar
charges are preferred against the oth-
ers.The newspapers announce that the
lists of German officials and other
persons to be delivered to the allies
for trial are now practically ready for
submission to Germany. The papers
point out that the lists do not contain
the name of the former emperor of
Germany, who is to be dealt with sepa-
rately.Omission of the name of the former
German monarch has no significance
since the peace treaty makes a clear
distinction between "William II. of Ho-
henzollern, formerly German emperor,"
whose indictment for "a supreme of-
fense against international morality
and the sanctity of treaties" is con-
tained in one article, of the treaty and
persons accused of having committed
acts in violation of the laws and cus-
toms of war where surrender and trial
are provided for in another article.
In the final protocol signed at the
same time as the treaty, it was provid-
ed that the lists of individuals whom
Germany must surrender for trial, should
be sent to Germany within a month
after the treaty came into force by
ratification of three great powers.The surrender of the former em-
peror is, according to the treaty, to
be demanded from the government of
The Netherlands, not Germany, and
his trial is to take place before a
special international tribunal, not a
court martial.ITALY RATIFIES
PEACE TREATYROME, Oct. 7.—A royal decree
has been issued ratifying the
peace treaties.Ratification of the German treaty
by decree of the king of Italy
virtually completes the steps neces-
sary for putting it into effect. The
British parliament has ratified it
and it awaits ratification by the last
of Great Britain's dominions to ac-
cept it, the Australian common-
wealth, before becoming binding upon
Great Britain. Approval was given by
the French chamber of deputies last
week and the senate is expected to
take similar action on Friday or
Saturday. Italy is the first power
to ratify the treaty with Austria.

French Senate Acts

PARIS, Oct. 7.—The senate meets
this afternoon to begin consideration
of the German treaty.Leon Bourgeois, chairman of the
peace commission of the senate, de-
livered the report of the commission
on the treaty to the senators this
morning. The report called for im-
mediate and unanimous ratification.

In the View of Dr. Grayson, the president,

despite the improvement shown
during the past few days, is not yet
out of danger and the physicians fear
that any undue excitement now might
offset the gains he has made.There is no intention now to send
the president away from Washington.

King's Sympathy

LONDON, Oct. 7.—King George to-
day sent his private secretary, Col.
Olive Wigram, to the American em-
bassy to seek the latest news regard-
ing President Wilson's condition. Col.
Wigram was instructed to express the
king's sincere sympathy with Presi-
dent and Mrs. Wilson.The National Union of General
Workers, which is the A. F. of L. of
England, reports a membership of
454,575, including 30,562 added in the
last three months.DRINK

IN SPOT LIGHTAuditor Says Council Must
Restrict Appropriations to
\$30,000 LimitMurphy's \$56,000 Street Or-
der Fails to Pass When
Reduced to \$30,000City finances were given a thorough
airing at the meeting of the munici-
pal council this morning as a sort of
preamble to the resurrection of Com-
missioner Murphy's order to appropri-
ate \$56,000 for street maintenance and
after Mayor Thompson had courageously
read a voluminous report of great
length from City Auditor J. Joseph
Hennessy it was found that \$30,000 by
necessity would have to be Commis-
sioner Murphy's limit and the council
was not inclined to make him a present
of that, at least not at the present
time.Mr. Hennessy's communication was
offered in reply to a vote taken on
Sept. 29 by the council, that the auditor
be instructed in connection with the
proposed \$56,000 order, to bring before
the council information of what mon-
ies may be available for such a pur-
pose.The information contained in the
communication, boiled down to a skele-
ton, was this: That it would not be ad-
visable for the present at least to ap-
propriate any sum in excess of \$30,000
from the general treasury fund for any
municipal purpose and that there is an
actual book deficit of \$13,937.02 caused
by such an expenditure by the water
works department in 1916 in excess of
the amount appropriated.In spite of the acceptance of Mr.
Hennessy's appropriation and subse-
quent questioning of the auditor by
Commissioners Murphy and Marchand,
Commissioner Murphy again brought
up his \$56,000 order for consideration,
asked that it be changed to read \$30,
000 and that he be given that amount.
Continued to Page Two.PRES. WILSON CONTINUES
TO IMPROVEWASHINGTON, Oct. 7.—President
Wilson continues to improve and he is
eating and sleeping well, according to
a bulletin issued at 11:25 a. m. today
by Rear Admiral Grayson. Rear Ad-
miral Stitt and Dr. Sterling Ruffin.
The bulletin follows:"The president's improvement has
continued. His appetite is decidedly
better and he is sleeping well."Rear Admiral Grayson will keep
the president in bed for a time yet,
despite his desire to attend to official
duties.Messages of sympathy continued to
reach the White House today.The bulletin was issued after the
usual morning consultation between the
physicians. Supplementing the
bulletin, Dr. Grayson said the presi-
dent's good appetite was a favorable
sign. He added that the president was
restless and desired to attend to pub-
lic matters. However, the doctors in-
sisted that their orders for complete
rest be strictly carried out and the

REDLAND FIELD, Cincinnati, Oct. 7.
—Perfect baseball weather, with the
sun shining and a cloudless sky greet-
ed fans for the sixth game of the world
series today. The thermometer seemed
likely to reach 80 degrees.

RED \$50,000 on Game

Seven Cincinnati business men today
bet \$50,000 on the Reds winning to-
day's contest. They had wagered \$15,
000 at odds on the first game. They
doubled on the second and third games.
Losing on the third game, they dropped
their betting to \$15,000, won and then
bet the \$30,000 on the fifth game. They
then bet the \$50,000 on the sixth game.
The crowds began to gather at the
ticket offices at daybreak. Only un-
reserved seats and standing room were
for sale. It appeared that the largest
crowd that had witnessed any game in
Cincinnati would be at the ball park
this afternoon.Moran stated that he had no reason
to believe anything would interfere
with his pitching Ruether today and
that he was convinced that it would
all be over tonight.Gleason said he would work Kerr
and that his only hope was that the
 Sox would show their true form and
not play the kind of baseball that
won the American league pennant for
them."If they do this," he said, "I have
an outside chance of winning four
straight and don't be too much sur-
prised if we do it."The betting today ranged from 7 to
5 to 5 to 5 with the Reds as the fa-
vorites.

"Hot Time in Old Town Tonight"

Kerr took part in the Sox batting
practice, while Schalk was in his us-
ual place.The band played "There'll be a Hot
Time in the Old Town Tonight."

Kerr Vs. Ruether

Ruether took part in batting prac-
tice. When the White Sox appeared
on the field the bands struck up
"Please go away and let me sleep."The ground rules will prevail today
as they prevailed the first two days
of the series.Batteries for today's game are: Kerr
and Schalk for Chicago; for Cincin-
nati, Ruether and Rariden.

First Inning

First half: John Collins opened hos-
tilities by popping a high fly in back
of second base that Rath caught. Ed
Collins up. Roush came in fast and
got Ed Collins' low fly. Weaver nailed
the first ball and drove it to left, but
it hit a few feet foul. Weaver sin-
gled through Kopf into center field.The Cincinnati shortstop could not
quite get to it. Jackson sent an easy
pop up to Groh. No runs, one hit, no
errors.Second half: Rath hoisted to Ris-
berg on the third ball pitched. It
was an easy out. Daubert bunted
the first ball pitched to Kerr, who
tossed him out at first. Groh doubled
to right center. It was a liner that
landed between Felsch and John Col-
lins and was retrieved quickly by the
latter. Roush singled to Risberg,
but Groh was caught by overrunning
third, Risberg to Weaver. Roush's hit
was over toward the second sack. No
runs, two hits, no errors.

Second Inning

Felsch sent a long fly almost to the
bleachers, but Neale got under it and
captured it. Granditi put a Texas
leaguer out towards right but it fell
a few inches foul. Kopf took Gandil's
bounce and tossed to Daubert for the
putout. Risberg hoisted a high one
to Neale. No runs, no hits, no errors.Second half: The crowd gave Dun-
can an ovation as he stepped up to
the plate. Duncan was safe when

As the Twig is Bent

enough for Ruether and Ring relieved

him on the pitching mound. Ring was

very slow and deliberate. Gandil hoist-

ed to Daubert, who got the ball in back

of first base, Felsch holding second.

Kopf took Risberg's grounder and

threw to Daubert, putting him out.

Felsch took third. Schalk singled be-

tween short and third, scoring Felsch

and tying the score. Schalk stole sec-

ond. Groh grabbed Kerr's grounder

and retired the side by throwing him

out at first. Groh made a great stop

and a beautiful throw. Three runs,

four hits, no errors. The Sox hit Ru-

ether hard and their drives off Ring

were also of the wallop character.

Second half: Neale singled through

the pitcher's box. The ball bounded a

little too high for Kerr. J. Collins

took Rariden's line drive. Neale hold-

ing first. The crowd began to hand-
clap in unison. Ring struck out, tak-ing a healthy swing at the third strike.
Neale was out stealing, Schalk to Ris-

berg. No runs, one hit, no errors.

Seventh Inning

First half: Liebold batted for J.

Collins and will play right field for
Chicago. Kopf came over fast and tookLiebold's grounder, throwing him out
at first. E. Collins hoisted a high onethat Roush got under and caught.
Weaver batted left handed and Rathtook his grounder and threw him out
at first. No runs, no hits, no errors.Second half: Rath hoisted one into
short left for a Texas league single.
Jackson made a gallant attempt andturned a somersault trying to get it.
But he missed. Daubert attempted
to sacrifice the first ball but it rolledfoul. He held the next one down nicely
for a sacrifice. Kerr to Gandil. Rathgoing to second. Groh walked after
failing off several. Roush forced Groh
at second. Risberg to Ed Collins, whocompleted a double play by throwing
to Gandil and getting Roush. No runs,
one hit, no errors.

Eighth Inning

First half: The outfielders played
deep for Jackson. Jackson walked.Felsch sent a high fly to Neale and
Jackson held first. Ring also walkedand appeared very unsteady.
Jackson on second. Roush came infast, got Risberg's line drive and then
ran toward second and tossed the ballto Rath, retiring Jackson for a double
play. It was a wonderful catch andlooked safe, so much so that Jackson
had rounded third. No runs, no hits,
no errors.Second half: Gandil ran almost to
the right field side seats and took Dun-
can's foul. Kopf changed his bat.Kopf lined out to Kerr. Kerr appar-
ently hurt his hand in catching Kopf'sline. Neale singled to left on the first
pitch. Rariden singled, the ball bounc-ing out of Kerr's hands. Neale going
to second. Risberg grabbed Ring's
grass cutter and tossing to Ed Collinsforced Rariden for the third out. No
runs, two hits, no errors.

Ninth Inning

First half: Schalk fanned, the final
strike being called on him.Kerr drove to Ring, who tossed to
Daubert, getting him. Liebold walked.Ring was having trouble finding
the plate. Liebold stole second, beatingthe throw easily, after getting a big
lead. E. Collins lifted a high fly toRoush. No runs, no hits, no errors.
Weaver threw out Rath at first.Daubert singled to center. It was a
clean line drive.

Risberg took Groh's grounder and

tossing to E. Collins forced Daubert
at second. Groh safe at first.Groh out stealing, Schalk to E. Col-
lins. No runs, one hit, no errors.

Tenth Inning

DIED AS RESULT OF
GAS POISONING

Private Arthur Allen of Camp Devens, who was found unconscious in a room in Third street Sunday afternoon as a result of gas poisoning, died at St. John's hospital late yesterday afternoon and later after Medical Examiner T. R. Smith had viewed the body and reviewed the circumstances surrounding the case, he stated that in his judgment, death was accidental. Allen, who was on a brief furlough in this city, called at 15 Third street Saturday evening and hired a room for the night, informing the keeper of the house that he did not wish to be disturbed in the morning as he was desirous of a rest. Sunday afternoon at about 2 o'clock Allen was found in an unconscious condition in his room. The windows of his room were open and gas was coming from the gas in the chandelier. The police pumpster was put in action and later the young man was removed to the hospital. The body was removed to the funeral parlors of Undertakers M. H. McDonough Sons.

READING MAN PLEADS
GUILTY OF BIGAMY

Charged with bigamy, Floyd P. Richardson, formerly of Reading, but who for some time has been living on Third street, this city, pleaded guilty in police court today and was held in \$500 for disposition until Saturday. According to the police Richardson

was married in Reading in October, 1912, and afterwards deserted his wife and came to Lowell. He is said to have married Dorinda R. Birchenaugh in Lowell in August, 1919. His first wife's maiden name is given as Alice M. Hession.

City Finances in Spot Light
Continued

He didn't get it, but did succeed in having it put over until Thursday morning when the council will meet to approve bills. Commissioner Murphy then introduced another order, to borrow the sum of \$20,000, to be payable in 10 years for block and other permanent paving and gave the work at the Pawtucket bridge and Thorndike street as his reason. While Mayor Thompson declared himself unalterably opposed and wished to have it settled today once and for all, the other commissioners voted to also lay that order over until Thursday. Just previous to the introduction of that order, the city auditor had informed Commissioner Murphy that the city was \$35,024.43 away from the limit of its borrowing capacity.

Meeting In Detail

The council convened at 10.45 with Commissioner Marchand absent. He came in shortly afterward. A hearing was granted McNabb Bros. on their petition for the erection of a garage and the keeping of gasoline at 164 Perry street. There were no remonstrants and the matter

ABOUT RHEUMATISM

What Thousands Have Found Gives Relief From This Painful Trouble.

Rheumatism is a constitutional disease, manifesting itself in local aches and pains, inflamed joints and stiff muscles. It cannot be cured by local or external applications. It must have constitutional treatment. Take a course of the great blood-purifying and tonic medicine, Hood's Sarsaparilla, which corrects the acid condition of the blood, on which Rheumatism depends, and gives permanent relief. This medicine combines, with excellent alteratives and tonics, what is generally conceded to be the most effective agent in the treatment of this disease. If a cathartic or laxative is needed take Hood's Pills. Purely vegetable.

was referred to the proper commissioner.

The petition of Bernhardt and Miller for garage and gasoline license at 545-550 Moody street was set for a hearing on October 28.

A petition for concrete sidewalk and edgelines in front of the premises at 25 West Forest street was referred to the commissioner of streets and highways.

A claim against the city in the sum of \$200 for alleged damage to his automobile from Thomas Riston, 40 Valley street, Lawrence, was referred to the law department.

Heen Connelly was appointed a licensed weigher for Columbia Fuel Co.

Hearings were set for October 14 on the petitions of the Lowell Electric Light Corp. for the erection of four poles in East Merrimack street and two poles in Pawtucket street.

A hearing was set for October 21 on the petition of the Lowell Electric Light Corp. for the erection of one pole in Varney street.

The Lowell Electric Light Corp. was granted permission to erect and maintain two poles in Riverby street and to lay and maintain underground conduits in Jackson street.

The council voted to release the Eastern Massachusetts Street Railway Co. from all obligations in connection with damage done to a city automobile by an electric car, the amount of money involved in the bill presented being at hand.

Auditor's Communication

Mayor Thompson read the communication from City Auditor Hennessy and then Commissioner Marchand asked that the former be asked to appear before the council as there were two or three questions he wished to ask.

In a resume of the communication, Mr. Hennessy said:

"The city auditor after a careful study of all conditions would advise for the present at least that no sums in excess of \$30,000 be appropriated from the general treasury fund for any municipal purposes.

"The estimated revenues of 1919 are in a sound state. The \$30,000 suggested as the limit amount to be appropriated in any cause represents the approximate total of excess unappropriated, unestimated revenues paid and to be paid into the general treasury fund of the city.

"There is a bank deficit of \$43,937.02 caused by the expenditure of such an amount by the water department for 1918, in excess of the amount appropriated for the department. This amount already has been paid from the cash of the city. However, it is not

CEDAR CHESTS

We have just received a shipment of a car load of Cedar Chests. These are now on sale.

Since the factories manufacturing good Cedar Chests have oversold, way beyond their power of production, this will probably be the last opportunity, this year, to obtain a really genuine Cedar Chest at 25 per cent. below the market value.

possible to make good this deficit by 1919 revenues.

"There can be only meagre expenditures of unappropriated, unestimated revenues of the city by the municipal council until the water department can pay back to the general treasury this sum of \$43,937.02."

Commissioner Marchand asked Mr. Hennessy if it would have made any difference if the money at the first of the year had been borrowed all in one lump sum.

"That is simply a matter of financial expediency," replied the auditor. A long term note may be more efficacious and might save a little in the long run, both in money and time and other. The auditor also said that up to the present time this year \$2,000,000 worth of loans has been discounted against \$1,200,000 last year and that the city this year prior to July 1 borrowed \$450,000, six months interest on which must be paid this year.

Mr. Murphy asked if it would be permissible for the council to authorize the public auditorium commission to pay their own interest on the loan of \$100,000 out of money obtained by selling property in East Merrimack street.

"You are confronted by the law of 1906," said the auditor, "which says that all moneys, no matter from what source they come, shall be turned into the city treasury. In my opinion the council acted contrary to this law when it authorized the auditorium commission to retain all revenues."

The mayor reminded the city auditor that the council acted on that matter at the advice of the city solicitor and Mr. Hennessy replied that it was his personal opinion against that of another man.

Asked Reconsideration
Commissioner Murphy then asked the council to reconsider his order for the appropriation of \$30,000 for street maintenance, saying again that it was vitally necessary for his department to have this money to exist.

"I would like to ask the commissioner," said the mayor, "where he expects to get \$30,000 when the city auditor has just told us that the limit appropriation must by necessity be limited to \$30,000."

"I realize that I cannot get blood from a stone," replied the commissioner, "and I regret very much that there is only \$30,000 left. I have every respect for the auditor's statement, but it is impossible for me to do the work necessary this year with the amount of moneys I have had at my disposal. It is not a question of politics or giving work to men when there is no need. The work is there to be done and the money is lacking, that's the whole situation. I would move that the order before you be changed to read \$30,000 instead of \$50,000."

"I cannot bring myself to believe," said the mayor, "that any one department should be given the whole of what may be left. In all fairness to the other commissioners and myself, other needs are just as urgent as yours, Mr. Murphy, and if this \$30,000 is to be appropriated it should be evenly divided among us. Mr. Morse says he must either buy horses for the fire department or a new piece of motor apparatus. The floor at the police station must be fixed, school boilers have had to be repaired and the department of dependent mothers, which comes under my jurisdiction, may call for more money. All these things

day when the council meets to approve bills.

Would Borrow \$20,000

Just as Mayor Thompson asked for an adjournment motion, Mr. Murphy announced that he had another interesting order to submit.

It was an order to borrow the principal sum of \$20,000 for block and other permanent paving and he gave as his reason that he wished to complete the Pawtucket bridge job and do some work in Thorndike street.

Mayor Thompson said that if those were the only reasons he could give, he, the mayor, was unalterably opposed to a consideration of the order as its passage meant the city would be only \$15,000 from the borrowing limit, which in his mind was altogether too close for comfort.

Commissioner Donnelly moved that the order be laid over until Thursday

to be considered then, but Mayor bills. Thompson expressed a wish to settle it now. "I will not be any more ready to sanction such an order on Thursday than I am today," he said "and I believe the matter should be settled now."

It was put to a roll call vote, however, and the four commissioners voted to hold it over, the mayor voting in the negative.

The meeting adjourned at 12 o'clock to Thursday morning at 9 a. m.

WOMEN'S CLUB OPENS WINTER SEASON

The Middlesex Women's club commenced its season yesterday afternoon in a manner which forecasts a year of mutual profit and splendid sociability. The new club president, Mrs. Walter C. Perham, presented her opening address which was enthusiastically received by the members. Colonial hall was attractively decorated in autumn colorings and foliage made an appropriate background for the receiving party. An interesting report of the state federation meeting was made by Mrs. C. F. Harris.

At the reception and luncheon which followed the meeting, the following women received with Mrs. Perham: Miss Olive S. Parsons, Mrs. C. F. Harris, Miss Bessie Hadley, Miss Julia Pevey, Miss Bertha M. Abbott, Mrs. Moses Marks, Mrs. Boyden Pillsbury and Miss Esther Elliott.

Mrs. Perham's address contained a prophecy of a year of great activity and included the following outline of the season's program:

"October 20, Hon. Maurice Francis Egan will lecture on the subject, 'Embarrassing Moments in the Life of a Diplomat.' Dr. Egan served as minister to Denmark under President Roosevelt, Taft and Wilson, (1907-1918). He was finally obliged to retire on account of ill health. With Denmark the whispering gallery of Europe," he was able to know more international intrigues than most diplomats. He is also known as poet, critic and novelist. His recently published book, 'Ten Years Near the German Frontier' is being widely read.

"October 24, we are to have the honor of entertaining the presidents' conference. The meeting will begin at 1.45. Each club in the Federation is entitled to be represented by its president, one member of its executive board and one club member. The plans of work, laid out by the chairmen of the various departments, will be presented. As this will be the first conference with Mrs. George Minot Baker as president, an informal reception has been arranged, in order that all may have an opportunity to meet the president of the federation. The members of the Hostess club will have the privilege of attending this conference after provision has been made for the

CATARRHAL DEAFNESS MAY BE OVERCOME

If you have Catarrhal Deafness or head and ear noises or are growing hard of hearing go to your druggist and get 1 ounce of Parinaud (double strength), and add to it 1/4 pint of hot water and a little granulated sugar. Take 1 tablespoonful four times a day. This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucus stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Anyone who has Catarrhal Deafness or head noises should give this prescription a trial.—Adv.

visiting delegates. All members of the council, chairmen of departments and members of committees are especially urged to be present.

"The Educational Department, Mrs. Charles H. Hobson, chairman, is planning for a course of lectures on Citizenship. The first lecture will be on October 27, by Mrs. Herbert J. Gurney, on 'Women and Government—Preparation.'

"November 3, Christopher Morley of the editorial staff of the Philadelphia Public Ledger will speak on the 'Domestic Muse.' Mr. Morley is the author of 'The Haunted Bookshop,' 'Paranassus on Wheels,' 'Shandygoff,' and was a Rhodes scholar at Oxford. Incidentally Mr. Philip Gibbs in his article 'Some People I Met in America' in the September Harper's undoubtedly refers to Mr. Morley when he says: 'One young man, once a Rhodes scholar at Oxford, boarded the train at New York, bought me a drawing room for private conversation and by the time we reached Philadelphia made it entirely futile for me to give a lecture, because he had all in his memory, and wrote the entire history of everything I had seen and thought through years of war, in the next day's paper.'

"On Nov. 10 the novelist, Hugh Walpole of London, author of 'The Secret City,' 'The Dark Forest,' 'The Duchess of Wrex,' will lecture on 'Modern Novelists and the Present School of English Fiction.'

"Nov. 17, there will be a concert of chamber music by the American

string quartet, called the Flonzaleys among women artists.

"Nov. 23, occurs the centenary of the birth of George Eliot. The literature department, Miss Esther Elliott chairman, is planning to observe this event by a resume of her life and works. Interesting papers will be prepared also a review of some of her most noted books. Also under this department, Rev. Alfred Rodman Hussey is

Sciatic Pains Quickly Relieved

Keep Sloan's the World's Liniment Handy to Alleviate Aches.

Thousands of men and women, when the least little rheumatic "crick" assails them, have Sloan's Liniment handy to knock it out. Popular a third of a century ago—far more popular today.

That's because it is so wonderfully helpful in relieving all external aches and pains—sciatica, lumbago, neuralgia, overstrained muscles, stiff joints, weather exposure results. A little is all that is necessary, for it soon penetrates without rubbing to the sore spot. Leaves no marks, stained skin, clogged pores. A bottle today is a wise precaution. Keep it handy. All druggists—3c, 10c, 15c.

to give us a lecture on 'The Drama.'

"Dec. 3, second lecture on Citizenship, by Mrs. Herbert J. Gurney.

"Dec. 15, Jane Manner of New York will give dramatic reading of three one-act plays, viz.: 'The Will' by James Barrie; 'Tollers Wife' by Cosmes Hamilton; and 'Kitty Clive' by F. Frankfort Moore.

"Dec. 22, Charles Theodore Carruth will give an illustrated lecture on 'Fra Angelico.'

"January 5, Mid-year reception.

"Jan. 19, John Livingston Lowes, professor of English in Harvard university, will lecture on 'The Fine French and the Quiet Eye—a Study in Poetic Inspiration.'

"March 15, Percival Chubb, educator, author, critic and leader of the Ethical society of St. Louis, will lecture on 'The Drama and the Theatre in Relation to the Community.'

"John Finley, formerly of the College City of New York and now head of the commission of education, state of New York has agreed to lecture some time during the season, as has also Dr. William Norman Guthrie, poet, essayist, university lecturer and rector of St. Michael's church in the Bowery, New York.

"There is also promised a demonstration in cooking by Miss Alice Bradley, principal of Miss Farmer's school in Boston.

LOWELL POST OF THE AMERICAN LEGION

Great preparations are being made for the special meeting of the Lowell Post, American Legion, to be held in the state armory on Thursday evening of this week for the express purpose of electing delegates to the state convention. At a meeting of the post last night at the Community Service club several important matters of business were taken up, but the most important by far was the preparation for Thursday's meeting.

A motion was passed which will regulate the manner of voting for a choice of delegates. Nominations will be read from the floor and ballots with spaces for 20 names will be distributed. The voter will be counted by a committee of 15, appointed by the chair. The nominee with the largest number of votes will be the first delegate, the nominee with the second largest number the second delegate and so on to the 11th in size of vote, who shall be the first alternate. The remaining nine will rank as alternates according to their position in the list. The local post is allowed one delegate and one alternate for every 100 members.

The meeting voted to pay the expenses of delegates to the Worcester convention at a rate of not exceeding \$5 a day, exclusive of railroad fares. Whether Lowell Post will send 20 men, or just the 10 delegates will be decided at Thursday night's meeting.

The entertainment committee reported on its attempt to secure Associate

hall for a ball on the evening of Armistice day, Nov. 11 and recommended that the date be changed to Nov. 10, the evening before. The question of parading in the South End celebration also will be considered Thursday evening.

In Chicago a certain saloon displayed for years a large sign reading "Free beer tomorrow." Those who read the sign Monday and asked for a free drink Tuesday were requested to read the sign again.

ALL VICTIMS OF ECZEMA'S ITCH NEED POSLAM

It is Poslam's mission to relieve itching eczema's cruel distress and to restore disordered skin of sightless and health. Comfort comes as soon as it is applied to the sore places. Its concentrated healing power quickly shows. Each day should mark distinct improvement. So effective is Poslam for eczema, rash, pimples, scabs—scale that just a little of it goes far, does much and lasts long. Its quality that counts. Sold everywhere. For free sample write to Emergency Laboratories, 214 West 47th St., New York City. Urge your skin to become fresher, clearer, better, by the daily use of Poslam Soap, medicated with Poslam.—Adv.

TO WITHDRAW U. S. WARSHIPS

Naval Forces at Spalato, Dalmatia, to be Withdrawn on Order From Washington

Have Been in Adriatic in Charge of Admiral Andrews Since Last December

ROME, Oct. 7.—American warships which have been at Spalato, Dalmatia, since early last December, are to be withdrawn by Rear Admiral Philip Andrews on orders from the United States, according to advices reaching this city.

It is reported that he has declared the United States wishes to avoid complications in the Adriatic and has notified Italian authorities that any aggression on the part of Italian troops against the Spalato-Traù zone will be considered as directed against the United States.

Advices state that American food supplies are to be removed from Spalato to the city has been one of the centers from which relief work in Jugo-Slavia has been directed.

American warships went to the Adriatic soon after the armistice with the central powers had been negotiated. They took over a section of the coast which has since been known as the American zone. On Sept. 23, irregular Italian troops attempted to capture Traù from a small Serbian garrison. Italian authorities notified Captain Boyd, the American naval officer in charge of operations that the attack was unwarranted and asked that the

DANGER AHEAD! LOOK OUT!

Colds and Grippe frequently will leave you with weak kidneys, and aching back. The kidneys get overworked fighting off a cold or a contagious disease. When they slow up, and don't perform their duties, look out, there is trouble brewing.

Kidney and bladder troubles are dangerous, and should not be neglected; if you are compelled to arise from your slumber once or twice during the night, it proves that your kidneys are affected and bladder irritated, and if you will take from 10 to 20 drops of SEVEN BARKS in a little water after meals, you will correct the alkalinity of your secretions, thus giving you undisturbed sleep and peaceful rest, preparing you for your next day's duties. If you feel dull, irritable and nervous, have headaches, sore or enlarged joints, irregular kidney actions, you should give the kidneys quick relief by taking SEVEN BARKS, which will not only relieve the kidney trouble, but keep your stomach in good condition and your liver active.

Don't neglect your kidney trouble with first symptoms. You will be sorry if you do—It's too serious a matter. Get SEVEN BARKS of your druggist. Price, 50 cents.—Adv.

raiders he turned back. Captain Boyd sent a destroyer and two submarine chasers to Traù and with an Italian naval officer, went to the scene of the trouble himself. Admiral Andrews followed on his flagship. They found the raiders had withdrawn, leaving an officer and three privates in the hands of the Serbians.

Reports have stated that inter-racial feeling is bitter along the Dalmatian coast, and American marines and blue-jackets are said to have been forced to intervene between Italians and Jugo-Slavs at Spalato.

Not Ordered to Withdraw
WASHINGTON, Oct. 7.—Rear Admiral Andrews, commanding American naval forces in the Adriatic sea, had not been instructed to withdraw his patrol from the Dalmatian coast, Secretary Daniels said today. If the ships had been withdrawn, Mr. Daniels said, Admiral Andrews acted on his own initiative, as he did in landing blue-jackets at Traù.

CARMEN STRIKE AT WORCESTER

WORCESTER, Oct. 7.—Service of the Worcester Consolidated Street Railway company's line between Worcester, Leominster, Fitchburg and Hudson was tied up today by a strike of 75 electric car men.

The men quit work because Edward J. Reagan, one of the clerks on the system, had been discharged. The strikers say they will stay out until Reagan is reinstated.

DEMOCRATIC RALLY HERE FRIDAY NIGHT

Richard H. Long, democratic candidate for governor, will be the principal speaker at an open air rally to be held at City Hall Friday evening at 8 p. m. under the auspices of the democratic city committee and the first congressional district league of Massachusetts.

Several other candidates on the state democratic ticket will also appear at the rally. Atty. Joseph P. Donahue will preside and T. J. Fitzgerald, secretary of the Massachusetts league, will call to order.

PRINTERS STRIKE

Publication of All Lima Papers Suspended

LIMA, Peru, Monday, Oct. 6.—Publication was suspended by all Lima newspapers today as a result of a strike of printers.

LITTLE DAMAGE TO STEAMER
NEW YORK, Oct. 7.—Five days' repair work on the Colonial line steamer Lexington which was rammed by a submarine in Hell Gate, last night, will make her fit for resumption of service on the New York-Providence route, it was announced today. Virtually all damage was above the waterline.

The Albanians claim to be the most ancient race of Europe.

STEAMER RAMMED BY SUB—300 SAFE

NEW YORK, Oct. 7.—Quick action by the crew in closing the watertight "collision bulkhead" of the steamer Lexington last night prevented a possible loss of life when the craft was rammed by the United States submarine O-7 in the treacherous waters of Hell Gate Channel, in the Upper East river.

The Lexington, a Colonial Line steamer, was bound for Providence with 300 passengers, when, according to passengers, the submarine, which had been maneuvering on the surface, suddenly heaved across her bow.

There was a crash, the steamer quivered, and there was a sensation of "sliding backward." Many of the passengers were thrown off their feet. Women screamed and men cried for help.

There was a general rush for life preservers as the submarine backed away. The crew were standing by the lifeboats, but Capt. Gray and his officers, after a quick inspection of the jagged semi-circular hole of 15-foot radius, said three of her plates above the water line had been stove in.

FR. VERDIER NAMED

Elected Superior of the Order of Lazarites

ROME, Oct. 7.—(Havas) Father Francois Verdier has been elected superior general of the Congregation of the Priests of the Mission, or Lazarites as they are popularly known. He has been vicar general of the order.

The Order of Lazarites was founded by St. Vincent de Paul in 1625. The last superior general, Fr. Emile Villotte, died November 7, 1916, and the election of his successor was postponed until the conclusion of peace.

AMUSEMENT NOTES.

KEITH'S THEATRE

With a stage setting of more or less elegance, in fact, much too pretentious for an ordinary shoe shop, Bayonne Whipple and Walter Huston present "Shoes" as the top-line offering at Keith's Theatre this week. We venture to say that such a stunning shoe store should rightly be termed a mockery, the latter being symbolic of the ultra-fashionable. The act itself is most disconcerting, inasmuch as it commences with but one object, apparently and then turns about and travels along an entirely different path. At the outset it looks like comedy, especially when Mr. Huston has the stage to himself and a sturtevant clerk, but later in comes Miss Whipple, not hard on the eyes and she completely changes the complexion of things. Lowell people will remember Huston, he smoked a cigar. Not that that in his only distinguishing adjunct. He will be remembered as the singer of "I Haven't Got the Do, Re, Mi" and again on the stage he sings a similar tune about "I've Got a Good Job Now," letting his voice trail off into this air at the end of each line. This new job, he sings of is selling women's shoes, measuring, fitting, and so forth. Together, Mr. Huston and Miss Whipple

switch the theme of the vehicle over to another track, and which runs through every day life and is traversed by folks wearing the shoes of wealth, success, happiness and sorrow. It is all to one end, entertainment.

No more versatile act has been seen in the city for some time than that of the Four Nevozas. Three Japanese children and their father, who simply introduces them and arranges the properties. The girls, there are two of them, are splendid acrobats, doing all of their stunts on their hands. They move in perfect unison and really accomplish several things far removed from the usual acrobatic carobatics they turn to singing music and are joined by their brother, a plump lad who acquired a delightful lisp in his struggle with the English language. Also, they sing and dance particularly well, the girls appearing at least 100 per cent. American.

J. Keith, Brecken and Bert Rule, familiar to music lovers as popular song writers sing some of their own tunes in their own way and it is a way which hardly may be improved upon. If they wrote the songs themselves, then they ought to sing them well, you say. Granted, but they go even a step beyond and sing them very well, particularly the one which tells of a trip down the Mississippi from its source to New Orleans. They will be heartily received during their week's visit.

Music from all sorts of oddities is furnished by Charlie Semon. He plays a hot race, a cakewalk, a ragtime, a ukelele and a bazo. The last named is a funny looking bird and gives forth wheezes and coughs much similar to a duck. Semon is a slender and tall and adds a mak-up to accentuate his duck-like appearance. He has been with us before and probably will be again.

Countess Verona starts the program in motion. It's a good start, too, much better than the usual shove given by those picked first back in the spotlight's rays. The countess, who carries a gypsyish look, plays a cymbal. "The instrument at first glance might well be something else, but has named it cymbal and so it stands. It is played with strikers as a xylophone and produces pleasant, even though quaint harmonies.

Two Johnsons and a Baker scale bats about the stage and juggle Indian clubs with rare skill. The "boob" of the act turns out to be the star performer as is often the case. They are extremely clever, Maude and Marion Dunn sing and dance and one portrays stage celebrities, past and present. They were handicapped somewhat yesterday by the absence of stage costumes, due to tardy arrival of trunks, but were cordially received nevertheless.

A Bruce Scenito picture is shown as well as Keith's News Weekly showing current happenings. The Topics of Day, as usual, report a lot of the best clippings from prominent periodicals.

TRE STRAND THEATRE

Patrons of the strand theatre who attended yesterday's performances were elated with the two film productions, which head the bill at the popular house for the first three days of the week. They are "The Wolf" featuring Earle Williams in the title role, and "The Splendid Sin" with Madeline Travers in the leading part. In addition to these two splendid plays there is a first class comedy as well as a very interesting and instructive series of scenes of current events. All in all the bill is most enjoyable and reflects great credit upon the management.

"The Wolf" is a story of the Canadian northwest depicting Jules Reaubien, a man peculiar in his manners, but a man who is a clean and vigorous in his superb in his environment. When he learns that the half-breed girl, fiancée of his friend Baptiste, has sought death as a relief from the fabled love of the Wolf, he sets himself on the trail of vengeance and follows the Wolf to a lonely spot in the mountains and in the black of night engages in a life and death struggle.

"The Splendid Sin" deals with the story based on Lord and Lady Chatham's desire for a child and in finding an heir to the title of the child's mother. This action on the part of Lady Chatham is mostly to protect the name of the mother of the baby and shield the child of a stigma. The scheme is so well worked out that even the absent husband, Lord Chatham, is deceived when he returns to his home. The story is very interesting.

An announcement of great interest was made yesterday when it was stated that Wednesday, Thursday and Friday, "The Splendid Sin" will be given by Miss Rose G. Calise, local furrier. This promises to be a real novelty. The fur will be furnished by Miss Calise, who the General company will furnish the suits. Miss Susie Thorne will look after the millinery. A real treat is in store for the women folks of this city.

SOUTH END NIGHT AT LOWELL OPERA HOUSE

With a brief address by His Honor, Mayor Perry D. Thompson, in which he outlined the program of the forthcoming South End celebration in honor of his birthday, the program was given by Daniel Cosgrove, chairman of the committee on arrangements; three entertainment numbers by Lowell boys who donned khaki or blue who Uncle Sam called; and a splendid presentation of William Vaughn Moody's great drama of the west, "The Great Divide," by the popular Lowell players. "South End" Night at the Opera House proved a most enjoyable event for the large audience who filled this spacious playhouse to capacity last evening. Incidentally it helped in a large measure to swell the fund for the coming celebration, as the management turned over one half of the gross receipts of the day's business to the committee at the close of the evening performance.

"The Great Divide," in which Henry Miller appeared in his first city years ago, needs no introduction to local theatre-goers. Thrilling with emotion, pregnant with dramatic moments, and with an absorbing love story winding through it, the great play of the mountains and valleys of the far away Rockies is one which, once seen, never to be forgotten.

It would be detract from the pleasure of witnessing it if one should attempt to rehearse the story here. Suffice it to say it is a thrilling picture of life in the far west, where blood runs hot, and men count no cost too

Your Children Need Laxative!

The children need your closest attention, especially after "stuffing" themselves with sweets, etc., at a party or the like.

They are liable to get up in the morning complaining of cramps, bad tasting mouth, liable to have puffed eyes from restless slumber, feel tired and cranky; distended and whimpering. Act promptly. Give them a dose of Dr. Trust's Elixir Family Laxative and Worm Expeller, which mixture of mothers were given by their parents, and who themselves are administering today, to their little ones.

Only the purest of herbs are used. No harmful drugs—will relieve pleasantly the ordinary cases of children's illness, constipation—worms, etc.

Symptoms of Worms: Constipation, deranged stomach, swollen upper lip, sour stomach, offensive breath, hard and full belly, with occasional gripings and pains about the navel, pale face of leaden tint, eyes heavy and dull, twitching eyelids, itching of the face, itching of the rectum, short dry cough, grinding of the teeth, little red points sticking out on the tongue, starting during the night, and so forth.

Mrs. Wm. G. Bonin of Caddo, Oklahoma, wrote regarding Dr. Trust's Elixir: "We have used it for our children for the last 12 years, and certainly know the value of it."

Three shacs. AT YOUR DEALERS.—Adv.

Too Ill to Work

Scores of Women

in homes, stores, offices and factories are not fit to be at work. They toil on day after day and year after year suffering with distressing weaknesses and derangements, hoping against hope that they will soon feel better, but how can they hope to do good work or escape permanent invalidism?

Such women are in danger of derangement of women's functions. They owe it to themselves to try that good old fashioned root and herb remedy Lydia E. Pinkham's Vegetable Compound, which for more than forty years has been restoring American Women to health and strength.

Here is a Notable Example

Joplin, Missouri.—"I took Lydia E. Pinkham's Vegetable Compound to see if it really would do as it was advertised and it sure did, and more. I was weak and could not do much work, had bearing down pains and had to go to bed. I learned about the Vegetable Compound from my mother and my husband told me to get it. After taking one bottle I was able to be on my feet most of the time and do my work again. I have a baby eleven months old and I have done all my own work, even the washing and ironing since she was three weeks old. I certainly recommend your great medicine to everyone who complains of female trouble and I am more than willing for you to use my testimonial."

—Mrs. TIMOTHY GRANEY,
426 Connor Ave., Joplin, Mo.

And Another

Chicago, Illinois.—"I suffered for four years with pains in my sides, hips and legs and a terrible backache. I could not do any work at all. I was treated by many physicians but they did not help me. I read in one of your books where other women have been helped by Lydia E. Pinkham's Vegetable Compound, so I tried it and it helped me very much so that now I can do everything in the house. I have told my friends about Vegetable Compound and you have my permission to use this letter."

—Mrs. I. OVENSTEIN, 902
S. Marshfield Avenue, Chicago, Ill.

LYDIA E. PINKHAM MEDICINE CO., LYNN, MASS.

Great to pay for things which they desire.

John Neehan, who plays the leading role of Stephen Ghent, young, impetuous, and imbued with the fiery spirit of the old west, showed excellent talent in his leading part. He gave a splendid portrayal of the character assigned him. Miss Marguerite Fields, who co-stars with Mr. Neehan in the leading part of "The Splendid Sin," gave a splendid portrayal of the role assigned her, and all other members of the company were well received.

Other who appeared in the week's performances are Miss Helen Scott, Jack Crane, William McVie, Jack Bennett, Byron Randall, Martin Miller, Arthur Mack, Albert Cody and Director J. Francis Kirk.

It would be unjust to stop without saying a word about the local entertainers who did their bit between the acts, and who added not a little to the enjoyment of the evening. First came Billy Carr, who chased Huns with the First Division for several months, and Billy staged a whistling and "imitations" act which brought down the house.

Anthony Schwartz who was one of the many boys in blue who "took them over and brought them back" on the fast sailing transports, offered "That Wonderful Mother of Mine" and was encored to the limit.

The final number on the entertainment program was given by John O'Grady and Jack McVie, both of whom appeared in amateur theatricals "over there." Dances, songs and jokes are their stock in trade, and to say that they made a hit is to put it mildly.

All in all, South End Night" was a huge success.

The happy eagle of Brazil feeds exclusively on monkeys.

GEN. PERSHING ON HUNTING TRIP

UTICA, N. Y., Oct. 7.—General Pershing passed through Utica today on his way to the Adirondacks to rest and hunt. With him were Brig. General Fox Connor and Colonel G. C. Mar-

shall. They arrived in Utica by motor from Cape Cod and left on a train. A small crowd gathered at the hotel to applaud the general as he emerged from the dining room.

"I did not expect to be discovered," he said.

Linen on the hands and feet of twins are similar.

Trade Union for English Clergymen

LONDON, Sept. 17.—(Correspondence of the Associated Press).—A trade union for English clergymen, to enforce a minimum salary for the benefit of underpaid pastors is being advocated by a Dorsetshire minister. More than half the clergymen in the church of England receive less than \$1000 a year.

Old-time remedy

You may experiment with many so-called wonderful new discoveries for the cure of Dyspepsia, Liver trouble, or Constipation,—you may spend many hard earned dollars for the widely advertised pills, powders or tablets, and after trying them all you may find yourself practically no better than when you commenced. There is one safe, speedy, reliable, household remedy, which has been prepared and sold in Maine for more than sixty years, and which has given relief to thousands of sick and suffering persons,—the true and original "L. F." Atwood's Medicine. The dose is small and easily taken, the action is prompt and sure. Doubtless your Mother or Grandmother kept it in the house ready for use in time of trouble, and you will be glad to get back to it after a series of disappointments. Get a bottle today and be prepared to ward off sickness. Fifty cents at your druggist's.

The "L. F." Medicine Co., Portland, Maine.

We're placing on sale 150 pairs of heavy wool finished blankets in a wonderful assortment of plaids, both light and dark combinations, made to fit any full size bed; usually sell at \$6.00 pair.

SPEEDY ACTION URGED AT OPENING SESSION

WASHINGTON, Oct. 7.—Representatives of the public evinced a spirited desire for action, rather than oratory, at the opening session yesterday of the industrial conference called by President Wilson.

Apparently with the determination of differentiating this conference from many similar gatherings held at Washington, the public delegates demanded that sessions be held night and day, if necessary, to establish a basis for harmonious relations between capital and labor during the present abnormal economic conditions. Bernard M. Baruch, of New York, one of the delegates, was active in directing the affairs of the conference, which was considered significant in view of his close friendship with President Wilson and his frequent visits to the White House.

After the appointment of committees on nominations and rules, the conference adjourned to meet this morning. Gavir, McNab of San Francisco a representative of the public, was mentioned prominently for permanent chairman, but members of both committees declined to indicate what their recommendations would be.

A motion to adjourn by W. D. Mahon, one of the delegates of the American Federation of Labor, brought the first indication that the men named to represent the public were prepared to force results. Thomas L. Chadbourn, New York, who sat with Mr. Baruch, took the floor immediately.

"All the men, on both sides and in the middle of this hall," he said, referring to the seating arrangements whereby the delegates of capital and labor were on either hand of the public representatives' seats, "are here to work as rapidly as possible and to adjourn as little as possible and I know that the men in the middle of this situation want to carry on these conferences day and night, if necessary, to get through. I would like very much to see the motion changed so we can meet again this afternoon or evening."

Mr. Mahon explained that a meeting of the executive council of the federation had been called some time previously which it was impossible to

postpone and Mr. Chadbourn withdrew his suggestion. Later on, however, Mr. McNab took the floor with the same thought as that expressed by Mr. Chadbourn.

"In view of the fact that this conference is in the interest of harmony," said Mr. McNab, "suppose we set the example of working harmoniously and not making the principal and first feature of it a desire to adjourn." He declared that the conference should show the people of the country how to work, but he did not press the point and the motion to adjourn was carried.

Virtually every delegate was in his seat when Secretary Wilson called the meeting to order in the Pan-American Union building's beautiful hall of the Americas. John Barrett, director general of the union, in welcoming the delegates to the use of the building erected through the generosity of the late Andrew Carnegie, called attention to the fact that this conference endeavoring to stabilize the industrial peace was meeting in a structure devoted to maintaining the peace of the western hemisphere. The very decorations of the hall, he pointed out, bore the word, "Peace."

"May I emphasize," Mr. Barrett said, "that the Pan-American union is a great, practical, working league of nations in the world that has long been and is a going concern. Its governing board, its staff, its equipment and this building form also an actual industrial plant that manufactures and distributes products of good will and information that make for permanent peace and welfare of the western hemisphere and hence of all the world."

"During the last 13 years the supreme council, composed of Latin-American diplomatic representatives in Washington and the secretary of state of the United States, which gathers every month, has prevented through its moral influence six wars between American governments and the peoples."

Secretary Wilson told the delegates that they had been given opportunity for splendid achievement, and wished them godspeed on behalf of the president.

The only discordant element affecting the conference was the absence of John L. Lewis of the United Mine Workers, who is engaged in wage negotiations that threaten a strike, and Frank Duffy of the carpenters, who was said to have declined to attend the conference. Officials of the American Federation of Labor, however, said that, as representation in the conference was not on the basis of trades, both miners and carpenters might be said to have spokesmen in the other labor delegates. All the railroad unions sent delegates.

The following statement was issued by Magnus W. Alexander, managing director of the national industrial conference board at the conclusion of the session.

"Secretary of Labor Wilson voiced the sentiments of the employers when he declared in his opening address that the more productive we are the sooner we will replace the wastage of war, return to normal price levels and abolish the opportunity for undue profiteering and in his further declara-

tion that the conference has before it the opportunity for promoting the welfare of the country and of all mankind."

"The spirit in which the conference begins justifies the expectation that real progress may be made in settling several great questions."

"The employers are gratified that the four railway brotherhoods decided to participate, feeling that this makes for the harmonious unity which must be the keynote of constructive accomplishment."

SENT BOMB TO MRS. WANAMAKER

NEW YORK, Oct. 7.—Charged with having sent a bomb to the home of Mrs. Rodman Wanamaker at Tuxedo Park, N. J., Sept. 27, Albert G. Kurth, a butler, was committed to Bellevue hospital for observation yesterday. The prisoner, the police say, asserted he sent the bomb, which was loaded with black powder and red pepper, to frighten Mary O'Brien, a maid, who he believed would open the package. The package was opened by Mrs. Wanamaker, but the bomb did not explode.

Kurth made his confession while awaiting trial for grand larceny, for which he was held in \$5000 bail last Friday.

Kurth told the detectives, they said, that Miss O'Brien was instrumental in obtaining his discharge from the Wanamaker home where he had been employed two years. At the time of his arrest he was superintendent of an apartment house.

Mrs. Wanamaker's suspicions were aroused by the unusual weight of the package and the manner in which it was wrapped. She cautiously unwrapped it and, in lifting up the corner of the lavender perfume box in which the bomb was placed, she noticed the powder. She sent the box to police headquarters where examination showed that sandpaper had been pasted on the inside and a fuse made of four matches so arranged that if the lid was forcibly pulled off they would ignite on the sandpaper and set fire to the powder.

It was theft of whiskey and wine that Kurth was technically charged with when arrested. Detectives said they found \$200 worth of it in his cellar.

The police said that the man, although he has lived in this country 20 years, is a native of Germany. He is 52 years old.

O. M. I. CADETS MAY FORM AN ALUMNI

Plans for fall and winter activities will be discussed by the O. M. I. Cadets at a special meeting to be held this evening in the organization's armory at 7.30 o'clock. The creation of an alumni body, to include all former members has been under informal consideration for some time and will come up for serious discussion tonight.

The cadets will observe their 17th anniversary next month and the members are anticipating the event with a great deal of interest. No plans for the occasion have been advanced as yet but it is believed that a start will be

Every step a hammer blow

EVERY step you take with hard leather heels on modern, hard pavements acts as a hammer blow to your nervous system.

The average person, even though his work is indoors, takes 8,000 steps a day—gives his system 8,000 daily jolts and jars. The constant repetition of these shocks exhausts your energies, contributes largely to the state of over-fatigue.

You can eliminate this great cause of fatigue. You cannot change the hard pavements, but you can change your heels. O'Sullivan's Heels absorb the shocks that tire you out. They relieve the jolts and jars that make a burden of walking.

To secure the great resiliency and durability of O'Sullivan's

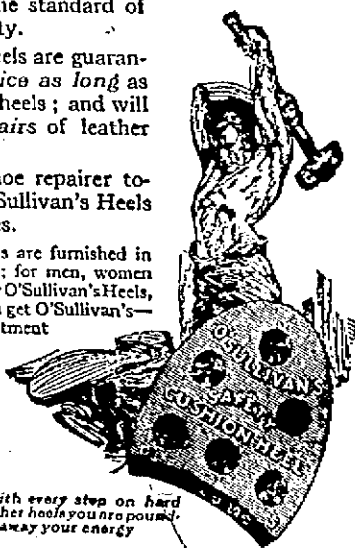

Heels, the highest grades of rubber are "compounded" with the best toughening agents known. The "compound" is then "cured" or baked under high pressure.

It is this special process that has, since the making of the first rubber heel, established O'Sullivan's Heels as the standard of rubber heel quality.

O'Sullivan's Heels are guaranteed to wear twice as long as ordinary rubber heels; and will outlast three pairs of leather heels.

Go to your shoe repairer today and have O'Sullivan's Heels put on your shoes.

O'Sullivan's Heels are furnished in black, white or tan; for men, women and children. Specify O'Sullivan's Heels, and be sure that you get O'Sullivan's—avoid the disappointment of substitutes.

O'Sullivan's Heels

Absorb the shocks that tire you out

With every step on hard leather heels your energy is sapped away

made this evening and at least a tentative program adopted. The annual officers' ball will come in December and as in former years will be the leading social event of the season in cadet circles.

Athletics have not been overlooked and the football season will be officially ushered in tonight when Manager Gargan announces the schedule of games. As all of last year's players are again available, a strong eleven seems assured.

TALK ON "THRIFT IN COLONIAL TIMES"

At the meeting of the Lowell Historical society tomorrow evening in Memorial hall, Hon. Albert P. Langtry, secretary of the commonwealth of Massachusetts, will deliver an address on "Thrift in Colonial Times." As Mr. Langtry in his official capacity is the custodian of the state archives and records, he has full access to all matters relating to his interesting subject from the earliest days of the Pilgrims and Puritans in this colony. He is an eloquent speaker, and his address on a subject which is beginning to occupy so much of public attention will be extremely interesting not only in its historical aspect but as a study of our times. The society has in its collections some old account books covering the periods following the war the American Revolution, the war of 1812 and the Civil war, which fur-

nish information and possibly some consolation in these days of high prices. The Lowell Historical society is fortunate in securing Mr. Langtry to address the citizens of Lowell at this time. The meeting is open to all without charge, and everyone is cordially invited to attend.

WOULD EXTEND WAR TIME BAN ON PASSPORTS

WASHINGTON, Oct. 7.—Extension for a year of the war time restrictions on the issuance of passports will be urged before the house foreign affairs committee by Representative Johnson of Washington, chairman of the immigration committee. Secretary Lansing will present the state department's attitude in the matter.

Representative Johnson who has introduced a bill to continue the control, contends his measure would stop any influx of undesirable aliens such as Russian radicals awaiting opportunity to come to America.

"Certain European countries are trying to unload these undesirable on us," he said. "Unless we can check the incoming of these revolutionists, the United States will become, instead of the peaceful melting pot it has been, a veritable hell's cauldron."

PROHIBITION HAS NOT INCREASED CONSUMPTION OF ICE CREAM—

RAISE COMING
CHICAGO, Oct. 7.—Delegates attending the meeting of the National Association of Ice Cream Manufacturers, decided today that prohibition had caused an increase in the consumption of ice cream. Instead, it was asserted, consumption had decreased.

The dealers predicted early increases in ice cream prices as a result of the sugar shortage and higher labor costs.

MINER BECOMES EARL

Leaves for Europe to Claim Heritage, Wearing Hobnailed Boots

DAWSON, Y. T., Oct. 7.—Robert Leeson, a Yukon miner, recently received a letter stating he had become heir to the title and estate of the Earl of Milltown. Today, carrying his baggage and wearing a flannel shirt and hobnailed boots, he started for Ireland to claim his heritage.

LARGE ATTENDANCE AT EVENING SCHOOLS

Increased attendance over other years marked the opening of the city's evening high and elementary schools last night. The large registration gave convincing evidence of a realization of the splendid opportunities offered in the many courses to those young people who have to spend their days in manual labor and have only the evening hours for study and further advancement of their chosen vocations.

Registration for Americanization classes also was held at several of the elementary schools. The exact numbers, however, will not be available until later in the week.

Henry H. Harris, principal of the evening high school, was particularly gratified with the enrollment there and looks forward to the most profitable and busiest year in the history of the school.

WHAT OF THE STRIKE?

After the United States senate shall have ended the investigation of the great steel strike, what will it do about the matter? That is what arouses the curiosity of the nation today.

It seems that both sides in the strike have given their version of the situation to the senate committee. Some of the testimony is highly illuminating.

Judge Gary as head of the steel corporation left no doubt as to his position in standing for the open shop and against the possibility of unionization that would enable outside leaders at any time to close down the steel plants by ordering the men on strike. On this ground he stands with great firmness, refusing to yield an iota toward the now popular method of collective bargaining. He asserts that if the employees of the steel plants were unionized the closed shop would follow as a natural consequence and in this he is probably correct.

The side of the strikers has been well represented by President Fitzpatrick and Samuel Gompers. They presented the conservative demands for recognition of the unions and collective bargaining. Their claims in this respect seem to have met very general approval, although diametrically opposed to the stand taken by Judge Gary.

The one man, however, who has injured the cause of the strikers is W. Z. Foster, syndicalist and erstwhile revolutionist. When confronted with statements made in a book written by him some years ago, he said he had changed his opinions, but he would not dare to state what his present views are in regard to government or the rights of labor and capital. He would probably assert that capital has no rights as the policy he has been preaching through his book and otherwise is, that labor organizations shall keep harassing capital and moving closer and closer upon its institutions until they finally are taken over by labor, from which, in the opinion of Mr. Foster, all capital was originally wrong by dishonest means.

Foster is still a syndicalist and perhaps also an anarchist. If he were not, he would not hesitate to state his views of government openly before the investigating committee of the senate. He offered to do this if the reporters were withdrawn, giving as an excuse for this proposition that he had been grossly misrepresented in the newspapers.

With such a statement made in the presence of Mr. Gompers, it was not surprising that the latter jumped to his feet and told Foster that the papers had already made statements as bad as they could about him so that he might not dread anything of the kind in the future.

Foster gave every evidence of unwillingness to express his views. His charge against the newspapers was a mere subterfuge. When he made that charge he knew he lied. The papers have not painted him as black as he is. His exhibition before the senate committee practically justifies everything said about him. He is not a fit man to lead the labor forces and nothing is more damaging to the cause of the strikers than the fact that the movement has been planned and directed by such a man as Foster, who is using the American Federation of Labor as a cloak for advancing his revolutionary aims.

The senate hearing will prove a mere farce unless some action is taken to hasten the end of the struggle and provide against such troubles in the future.

RATIFICATION PROSPECTS

There is little doubt that the League of Nations will be ratified without amendments but with reservations which convey our objections to any wrong application of it to the United States. The senators are now planning to finish the treaty fight about Nov. 1. There is great need of something in the nature of the plan conveyed by the consent of the League of Nations. It is not only among the powers but among the states of our own and other countries. We all need some influence not now operative to enforce peace and good will among men.

"What purposes?" some will say. "You cannot change the passions or ambitions of men, for the greed and jealousy of nations." Perhaps not, but we can restrain them within

proper bounds. Oh! the Holy Alliance and the Hague tribunal are thrown in your face as proofs from history; but failures in the past do not prove that the things attempted cannot be accomplished by more enlightened means. How many thousand inventors have failed in trying to evolve some of the great inventions now perfected and in use today! So it is with questions of international restraint. It is entirely possible to hold nations in check when otherwise they would engulf the world in war, if only the proper methods be adopted and the proper legal machinery provided. Here in the United States we have examples of what has been accomplished in harmonizing widely different elements. Something similar may be accomplished in bringing all the world powers into a real peace pact that will not affect their individual sovereignty but from which all will derive real benefits and greater security. Unless some such plan be adopted, the great powers must continue to train military machines in readiness for immediate action. That would necessitate universal military training and a continuation of the world wars, just as soon as one combination of powers thinks it can overcome a rival combination.

PARTY PLATFORMS

So far as Massachusetts is concerned, the political parties have taken their stand on the great issues of the hour and although in the past, it has been said that platforms are adopted only for campaign purposes, yet it would seem that certain parts of the declarations made on Saturday were designed to bring about party defeat rather than victory.

The republicans paid little attention to anything except the peace treaty and the Boston police strike. On the treaty, their platform repudiates Senator Lodge's opposition and demands ratification without amendment. That stand was favored by ex-Senator Crane who in the councils of the party is still more of a power than Senator Lodge, the recognized leader. It was certainly a bitter pill for Mr. Lodge who said he would accept the platform, but could not reverse the position he had taken with such vehemence.

Had Lodge strayed into the democratic convention instead of the republican, he would have found himself among friends who would have given him a platform endorsement of the most radical action against the League of Nations. Such are the tergiversations of political parties on the questions of the hour. It does not seem that the police strike in Boston is to be an issue in this campaign as both parties condemn the strike, and none condones the action of the police in joining a labor union.

All parties must uphold the supremacy of law or be relegated to the rear.

SHALL AND WILL

If the president, who used to be president of a college cannot learn to use "will" and "shall" to use "shall," what can you expect of the fired business man? I got yesterday in the same mail two instances, showing how utterly misunderstood these auxiliaries are. One was an enclosed postal card which I was invited to fill out in order to show whether or not I should attend a certain function about to be held. It invited me to check either "I will be present" or "I will not be present." Then I opened a letter from the administrative offices of a prominent New England college, in which a gentleman, supposedly personal of an A.B. at the very least, informed me that "When you are ready to go into the matter in more detail I will be glad," etc. If the right-words shall hardly be saved, what will be ungently come to—

Courier-Citizen, Carroll.

And if this writer of the Courier-Citizen cannot learn the proper use of these auxiliary verbs as taught by the highest grammatical authorities now planning to finish the treaty fight about Nov. 1. There is great need of something in the nature of the plan conveyed by the consent of the League of Nations. It is not only among the powers but among the states of our own and other countries. We all need some influence not now operative to enforce peace and good will among men.

RACE RIOTS

Race riots and lynchings are still prevalent in some of the westerly states. It is unfortunate that racial hatreds are being incited from one cause or another. The negroes complain that the newspapers of the country give undue prominence to any crime committed by a negro, taking particular care to say that the criminal is a negro. They also claim that when a white person commits some crime it receives less prominence in the press and there is no intimation as to the race to which the criminal belongs.

The plea is a very just one, and it would be well if the newspapers would change their policy in this respect and no longer stigmatize a member of the colored race through hatred or prejudice. The press can do much in restraining the race feeling whether on one side or the other by appealing for fair play and respect for the law which in the race conflict is lacking to a greater extent among the whites than among the negroes.

OUR EVENING SCHOOLS

In the evening schools, now open, there are offered many opportunities for self improvement along educational lines. Many young people who work in mills during the day will doubtless take advantage of these classes and thereby acquire the means of attaining greater success in their chosen occupations. The Vocational schools together with the classes conducted at the Textile school offer a wide variety of subjects and must, therefore, benefit a great number of those employed in our varied industries.

We know men prominent in business today as employers or foremen in factory and workshop who did not have educational opportunities in their early days equal to those now offered in our evening schools without cost to all who wish to avail of them. Those who have any ambition to improve their condition in life and who can benefit by attending the evening schools, will make a serious mistake by remaining absent.

THE PRESIDENT

The job of being president of the United States even in normal times is the most terrific job in the world. And the times have not been normal. President Wilson is the kind of man who will not and cannot spare himself. Guarding his responsibility with an almost religious zeal, he has shouldered a load in excess of his physical strength.

Typical of his attitude toward gigantic tasks was his going to Europe personally to conduct peace negotiations. All major state papers have been from his pen. He has patiently added each new problem to his burden. The effect of such overwork on his highly organized mind and body was inevitable. His tour in behalf of the League of Nations, topping a long series of crises and responsibilities, brought on a nervous collapse. The country appreciates that the overwork was in his behalf. It sympathizes with the president and prays for his early and complete recovery.

POLICE AT THEATRES

The people of Lowell will appreciate the action of Mayor Thompson in deciding to assign a police officer to the afternoon performance at each of the local theatres. Judging from current reports, privately circulated, there is good reason for this action. It appears that some of the hoodlums become unruly at the motion picture shows when the lights are turned down. Some of them make it an occasion for insulting women, who happen to sit near them and who have no means of reporting them until the performance is over, without making a scene. These offenders, knowing the danger of being complained of usually make a hasty exit after the show. With an officer at call, things will be different and the managers are determined to keep close watch for such offenders so that ladies may sit wherever they please in any theatre in the city, without danger of annoyance.

SEEN AND HEARD

A Pittsfield little boy was given a penny to give the Lord at church. He returned home to report that not seeing the Lord, he gave his penny to a man with a plate.

Family Devotion

We have a neighbor whom we knew to be greatly devoted to her own family, but until we had our first Call-thunderstorm, we did not know that she was entirely lacking in a proper sense of humor.

celvor and I want him to come over and put it back on the hook." "Isn't Mr. Roberts at home?" I suggested.

"O, yes. He is in the garage with the boys, but you know I think it is very dangerous to handle the thing, so I don't want to call them."—Youth's Companion.

He Was Not the Same Jones
First—Very glad to meet you, Mr. Jones. Funny we never met before up here. You're the Jones that sang on the Glee club, I presume.
Second—No, I'm not gifted musically; don't like it, in fact.
First—Let's see; there are so many Joneses; maybe I can place you, Hockey?
Second—No; I'm not an athlete.
First—Debating?
Second—No.
First—Were you the Jones on the honor roll?
Second—Not on your life.
First—Say, do you do anything at all?
Second—Nothing.
First—Marvelous. Let's room together next year.—Tale Record.

Using Soap Internally
One morning, a woman walked into a village grocery store with a majestic stride. It was easy to see by the sternness of her expression that she was somewhat disturbed.

"This," she sarcastically explained, throwing a package on the counter, "is the washing itself. It's the soap that makes washing a pleasure. It's the soap—"
"That isn't soap, madam," interrupted the groceryman, examining the package. "Your little girl was in here yesterday for a half pound of cheese and a half pound of soap. This is the cheese."
"U-m, that accounts for it," said the woman, as the light of understanding began to glow. "I wondered all night what made the Welsh rabbit we had for supper taste so queer.—San Francisco Argonaut.

Then the Fun Started
Two negro soldiers of the 92d (Buffalo Division) were discussing life in the United States before the war as they waited for the mess bugle.
"Now, when I was a lion tamer in a circus," began one.
"A lion tamer?" demanded the other incredulously.
"I sure was!"

"What is a lion tamer? I never heard of that trade before."
"A lion tamer is a guy who goes into a lion's cage. He looks the door after him and puts the key in his pocket. Then he goes over to the lion and opens his mouth. Then he takes hold of the lion's tongue and wags it. Then he goes to the door of the cage, unlocks it and walks out."
"Well, man," ejaculated the other. "You never was a lion tamer, you're just a lying lout, date what you is!"—Los Angeles Times.

Friendship
Copyright, 1919, N.E.A.
I had a flower, I set it in the mold
And left it there alone,
I neither watered it, nor tended,
Nor guarded it from cold.
The little flower, as the old folks say,
Withdrew its fresh perfume
And blighted all its bloom.
Almost I thought I heard it moan
"You prize me not, so I take back my own."
(Flowers know themselves appreciated,
Only as they are cultivated.)

I had a friend, I held him in my heart,
But never told him so.
I seem to hear and seldom sought him;
Our pathways led apart.
I'll, deeming I had quite forgot him,
He held himself alone,
I should have my road and roof,
Or, if we met, it was as though
We were two strangers, neither cared to know.

(Friendship and flowers alike are
fated,
Except as they are cultivated.)
—EDMUND VANCE COOKE.

MY MASTER'S HOUSE

"My Master's House" is the title of a most delightful and instructive address by David S. Lawlor of the Julius Mathews advertising agency of Boston, before the "Oval club," an organization of salesmen in that city. So effective was this address that by request it is now printed in pamphlet form for sale and distribution.

It deals with the "inner man," so to speak, the mind, the heart and the soul, discussing their attributes with an insight worthy of a learned psychologist, yet showing in plain and simple language how readily bad habits may grow and how they may be overcome by mental discipline, firmness and power of will. But the will must itself be trained, drilled and disciplined in order that it may become an effective directing force in following the lights of conscience and intelligence.

The mind may be drilled in much the same way as the body, but there must be the will to do it; and that will must come from within, an internal influence must stir it into life. We must keep it awakened by constant exercise by which it attains health and vigor.

When we have done this, says Mr. Lawlor, we shall recognize a new force within us capable of achieving much. From this the speaker turned to the formation of character which he holds to be influenced more by environment than by heredity. Here he shows that will power is effective in enabling us to select only the influences that are clean, inspiring and healthful and to resist those of a different kind. Thus by drill and vigilance in the matter of self-control, an approach to perfection may be made and character built up.

In the spiritual domain, the value of periodical stock-taking and introspection is forcibly shown, and rules are laid down for attaining self-mastery together with force of character and gathering the fragrant flowers of virtue, happiness and good will with which to furnish the Master's House or the inner temple of the soul.

The address is one that will well repay reading and study. It shows deep thought and an intimate knowledge of those faculties that rule the lives of men. Truly the author says: The garden of life is heavenly well. And it will repay our care. But the blossom must always and ever be.

BETTER THAN TWO DOCTORS

MRS. ROSE LAMARCHE

Two years ago I became acquainted with RED PILLS for pale and weak women. I started to take them as directed, and I owe my good health of today to their beneficial qualities. I have had eight children and four premature confinements. After the first years of married life, I became so weakened and in such poor health than I was unable to do my own work, as I had always done in the past. I went to see two doctors, followed their advice, but without results, my health was always the same. I then stopped taking their medicine and put myself solely under the influence of RED PILLS for pale and weak women; fifteen boxes did the work and restored me to good health, which is saying that I owe them more than I can ever repay. My little girl now takes RED PILLS and whenever needed, I will be sure to take them again also.

Mrs. ROSE LAMARCHE,
5 Laval Place,
Lowell, Mass.

RED PILLS are for women only.
They are always sold in boxes of fifty pills, 50 cents a box, 6 boxes for \$2.50. See that the name of the "Franco American Chemical Company Limited" is on every box.

THRIFT IN THE PUBLIC SCHOOLS

It will probably be news to a good many people that the theory and practice of personal thrift as a subject of formal instruction, has been given a place, during the past year, in the curriculum of the public schools in a hundred or more American cities, also in the work of several hundreds of business colleges, private academies, Y.M.C.A. organizations, etc.

Practical teachers of thrift generally recognize the following content of the subject:

1. The teaching of simple but systematic records of all money receipts and expenditures.
2. A detailed study of the every-day personal money affairs of individuals, and the application of the record-keeping system to these affairs.
3. Budget systems adapted both to the individual and to the home.
4. The safe disposal of reserves or savings in the form of thrift stamps, bank deposits, stocks, bonds, building and loan investments, and so on.
5. The immediate and practical application of the foregoing instruction to the learner's own money affairs. No matter how small his allowance or pocket money or earnings may be.

The foregoing outline, of course, is mainly for the affairs of individuals who are not directly concerned in the economies of the home. Home thrift is usually offered as a separate course and most often to classes in domestic science.

In most schools, the Thrift course is given in classes that meet weekly and, usually, in connection with arithmetic, bookkeeping, penmanship, or the

like. In a number of schools the work has been given to the classes in community civics. Under this plan about 20 lessons are given during each school semester.—Carl Marshall in Thrift Magazine.

OBSERVED THEIR GOLDEN WEDDING

Mr. and Mrs. Frank Coburn of 571 School street observed their golden wedding yesterday, the observance being in the form of a family dinner at the home of the couple at noon and a reception in the afternoon and evening. During the day and evening numerous friends called to congratulate the venerable couple, and shower them with best wishes and appropriate gifts.

Mr. and Mrs. Coburn were married at Nahant, October 6, 1859, she being a daughter of the late Albert Whitney and an adopted daughter of the late Washington H. Johnson, both of that town. Mr. Coburn was a son of George W. Coburn, for many years a foremost citizen of Dracut, and in his later years a resident of Westburyville. They settled at first in Nahant, N. H., removing to this city in 1872, where Mr. Coburn has since been in business.

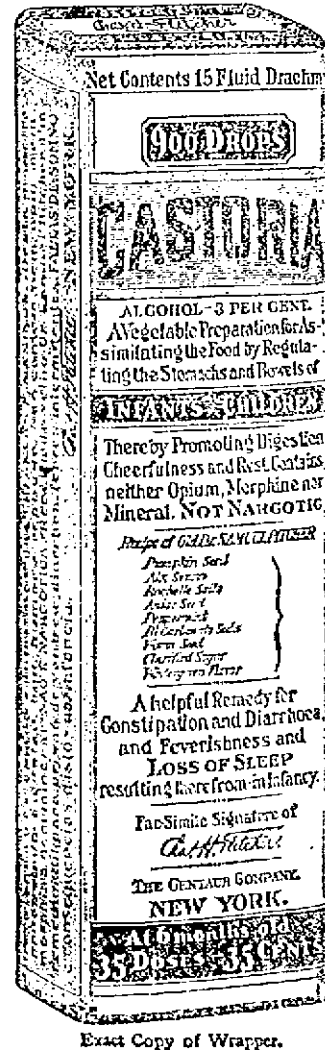

Among those who attended the reception were the following:
Dr. and Mrs. Leonard Huntress, Mr. and Mrs. Frank W. Hunt, Charles P. Conant, Abbie B. Whipple, A. Madeline Small, Mrs. C. W. Sweet, Mrs. W. Hollingsworth, Adelaide Ward, Mrs. Emma J. Richardson, Mrs. C. W. Hunt, Helen M. Thompson, Edward M. Tucke, Joseph H. McEvoy, George E. King, Marcus T. Pierce, Isabel Metcalf, Mrs. C. W. Burbank, Joseph Peabody, Mrs. Mary MacBrayne, Florence D. Marshall, Josephine L. Plisk, Meta F. Cameron, Don Cameron, S. Foster Whipple, Mr. and Mrs. Frank B. Wright, Louise J. Smith, Florence L. Smith, Mr. and Mrs. George B.

Washburn, Dr. and Mrs. Charles L. Sweetser, Mr. and Mrs. Francis M. Qua, Mrs. Ella A. Brown, Mr. and Mrs. George Wright, C. H. Harlow, C. M. Bixby, Mr. and Mrs. Albert A. Davis, Franklin S. Pevey, Mr. and Mrs. Albert S. Gilmore, George E. Bryant, Mrs. John A. Simpson, Catherine Barrows Washburn, Helen Stevens Whipple, Herbert F. Whipple, Rev. and Mrs. W. F. English, Jr., Mr. and Mrs. W. H. Robbins, Mrs. C. H. Holland, Mr. and Mrs. Stanley E. Quah, Hortense Tabor, Julia Burke Mahoney, Marian Simpson, Mr. and Mrs. A. K. Whitecomb, Mary S. Lamson, Mr. and Mrs. Charles W. Churchhill, Mabel Hall, Mrs. L. W. Hall, Sidney R. Fleet, Dr. H. W. Coburn, Mrs. E. F. Lamson, Edith Richardson Dupee, Mr. and Mrs. John T. Lewis, C. A. Abbott, Stella J. Allen, Mrs. Arthur A. Wright.

NO CHANGE HERE IN PRICE OF MILK

At a meeting of the Lowell Milk Dealers' association held in Odd Fellows hall, Bridge street, last evening and at which was present Mr. Davis, a representative of the New England Milk Producers' association, it was decided that for the present at least the price of milk in Lowell would not be increased, but will remain at 16 cents a quart.

The meeting was called for the purpose of discussing the advisability of increasing the price of milk a half cent a quart in order to make Boston and Lowell prices standard, but most of the milk dealers present were opposed to the project. Some of them went so far as to declare that if the producers insisted on an increase, they would suffer the loss rather than to ask the public for an increase. It was finally decided not to make any change in the price of milk at present.

WARNING BY HOOVER

Nation Faces Dangerous
Radicalism Unless Teach-
ers Get Better Pay

SAN FRANCISCO, Oct. 7.—Warning that unless better pay is forthcoming for teachers in American colleges, the nation will face dangerous radicalism from centers of higher education was voiced by Herbert Hoover in an address before the Harvard club of California last night.

"Out of the war and misery of the war has arisen a silhouette of class distinction and class hatred that is not to be obliterated with a few words," he said. "The development of radicalism in Europe during the last 12 months, is beyond anything in history. America is a fertile field and responds quickly to any wind that may blow. This European wind of radicalism is sweeping our way and it is affecting us."

"In our great universities the instructing and faculty staffs are hard hit by the present economic situation which in the face of enormous prosperity returns something like \$7 a day to the educator, while the craftsman who repairs his kitchen sink makes more in fewer hours of work."

"America cannot permit this growing sense of injustice to remain with the nation's educators. There is a menace to the nation's safety in discontent in the background of the university faculty work and every right thinking citizen must see it."

Mr. Hoover declared other independent universities of the nation should follow Harvard's example in seeking to raise an endowment for increasing teachers' salaries 50 to 100 per cent, and that legislatures should take like steps for state institutions.

LEARNING WHAT THE
WORLD IS MADE OF

Early in October a scientific expedition will arrive in Seattle from Alaska, which will bring back information tending to throw additional light on the dark spot of modern science—what composes the inside of the earth.

Announcement is made by the National Geographical society from its headquarters at Washington, that the sixth Mt. Katmai expedition of the society is preparing to sail from Kodiak Island after many months spent in fruitful scientific study of the unique and spectacular natural phenomenon known as "The Valley of Ten Thousand Smokes," at the foot of the gigantic Mt. Katmai volcano.

Not only has the expedition, headed by Dr. Robert F. Griggs, accumulated an amount of scientific data beyond happiest anticipation, but according to a telegraphic report to the society, a fine harbor, not previously known, has been found which affords a feasible route to this region of the innumerable vents of various kind, which spurt steam and vapors of almost unbelievable temperatures.

The discovery of this harbor is considered of marked interest because President Wilson has proclaimed the region of "Ten Thousand Smokes" a national monument, and it will not be long before this new federal reservation will be visited by tourists who wish to view a spectacle no less awe-inspiring than the spouting geysers and other natural wonders of our own national parks.

Hidden Secrets of the World

"But the primary interest of this region to the civilized world will be the unequalled opportunity it affords for penetrating some of the hidden

MAGEE NATIONAL

—with the "Wonder Oven"

THE MOST PERFECT COMBINATION OF CONVENIENCE, EFFICIENCY, AND TIME-SAVING WHICH THE HOUSEWIFE HAS EVER KNOWN

GAS OVEN, COAL OVEN, IN ONE

COAL, wood or gas may be used, or either of the first, combined with gas, to secure any required degree of heat. The oven is always ready; can be heated to the desired temperature at once; food is beautifully done—on time; there are no complicated parts—no guesswork—no trouble. Simply one push of the lever does it all. Truly a miracle of helpfulness to the modern housewife. Send for the new illustrated booklet.

The Magee National is very compact (only 46 inches over all); it is exceptionally handsome, easily kept in order and cleanly to operate. Trimmed throughout in white enamel—Glass or plain iron even does it desired.

secrets beneath the surface of the globe on which we dwell," says a bulletin from the National Geographical society.

"We laugh at the child who says the moon is made of green cheese; but the child might smile at us if he would only ask: 'What is the earth made of?'"

"Though science has penetrated to the infinitesimal secrets of the invisible atom, and it has reached to other solar systems so far out in the universe that no known about stars from which it takes the light 5000 years to travel to this earth, its penetration of the inner earth is no deeper, comparatively, than a pin scratch on the cover of a mammoth balloon."

"The ancients thought the way to learn the mysteries of what lies under our feet was to dig deeper, and even

deeper, but we know now that even modern engineering, which can pierce the mountains and burrows under rivers, cannot penetrate deeply enough to tell much of Mother Earth."

"In such phenomena as volcanic eruptions, earthquakes and geysers lie the key to the hitherto hidden secrets of the globe. It has been established that the hissing, steaming, exploding acres that seem like a multi-magnified depot yard of Mogul engines, is a modern example of what the geysers of Yellowstone National Park once were."

Terrific Heat Inside

"The vastness and intensity of the molten mass which spits the vapors of this terrifying valley is indicated by the discovery of new high temperatures among the fumaroles. Early parties were not equipped to measure

the unexpected heat of some of the fumaroles. Dr. Griggs wires that the hottest ones have just been found, where the highest temperature was 1191.2 Fahrenheit, and that many of the escaping vapors kindle wood into a blaze as readily as a match burns when struck."

"Besides chemists, petrographers, zoologists and botanists, the expedition this summer marked a departure in scientific explorations of this kind by having along motion-picture photographers. Ten thousand filmed feet of the spectacle, which words cannot picture, are being brought back, to be shown to members of the society."

"Another finding of popular interest was the discovery of a region north of the National Monument reservation which not only is one of great natural beauty, but abounds in fish and game. 'The study of the economic side of this hitherto unknown region was not neglected. Dr. Griggs is shipping to Washington botanical and zoological material as well as specimens of plants and animals found about Mt. Katmai.'

MATRIMONIAL

Mr. Robert H. Dawson and Miss Rose B. Rogers were married yesterday afternoon at 3 o'clock at the parochial residence of St. Michael's church by the pastor, Rev. John J. Shaw. The groom's father, John J. Dawson, was best man and the bride was attended by her sister, Miss Marie Rogers. The ceremony was followed by a reception at the Richardson hotel and the bridal party left later for New York. They will return by way of the Mohawk trail. A rather unusual coincidence in connection with the marriage was contained in the fact that it was Father Shaw who married the groom's father, who was best man yesterday.

McCarthy—Gookin
Mr. Dennis J. McCarthy of Cambridge and Miss Ellen J. Gookin of this city were married yesterday at the Sacred Heart rectory. The ceremony being performed by Rev. T. Franklin Wood, O.M.I. Miss Lena Gookin, a sister of the bride, acted as bridesmaid, while the best man was Mr. William L. Lynch of Cambridge. At the close of the ceremony a reception was held at

1000 MATINEE SEATS... 10 CENTS

INDIAN IS VICTIM

OF WEIRD ATTACK

HESEL Mich. Oct. 7.—Joseph Kywondaway, a Chippewa Indian, reported that he had been attacked in his skiff by a giant muskellunge whose mate he had captured. The great fish tore slivers from Kywondaway's boat, heavers, and at last, in its fury, leaped from the water and would have seized him had he not beaten it off with a paddle.

Kywondaway's relatives have asked that he be confined for observation in the state asylum at Newberry.

SOUTH END WELCOME HOME CELEBRATION

Beginning tonight and continuing every night this week until Friday the general committee in charge of the South End welcome-home celebration will meet to pick up odds and ends of preparations now dangling in the well of uncertainty. There is much left to do, but the members are sure that Friday morning will dawn upon a stage all set for the most pretentious event the city ever has planned.

As is generally known the celebration continues over four days. Friday, Saturday, Sunday and Monday, the 10th, 11th, 12th and 13th and the programs for each day contain features beyond number. Every form of amusement, to appeal to old and young alike, will be on tap, all culminating in the huge parade of military, civil, fraternal and semi-military organizations on the holiday.

The committee is on the last lap and desires to swing into the home stretch considerable in advance of the plans that is, everything must be cleaned up and in readiness for Friday's opening. Co-operation still is needed, merchants may donate more to the general fund if they wish and all suggestions will reach receptive minds. It is only by pulling together that the committee will feel sure of complete success.

A substantial check was forwarded to the treasurer of the committee to help defray the expenses of the celebration by the executive committee of the 101st Ladies' auxiliary, who held a meeting at the board of trade rooms last evening. Final reports were made of the recent whist party and entertainment in the K. of C. hall. Chairman Mrs. William H. Merritt presided.

DEATHS

ELIAS—Mrs. Shady Ossad Elias, wife of George Elias, died Saturday at the Chelmsford Street hospital, aged 20 years. The funeral took place Sunday afternoon from the residence of Undertaker Joseph Albert in Allen street. A liberal was sung at St. Patrick's church and burial was in St. Patrick's cemetery.

LEDoux—Mrs. Rose Ledoux died yesterday at her home, 35 Clark street, aged 30 years. She leaves her husband, Maurice Ledoux, two daughters, Marie Rose and Alice; two sons, Donat and Vital Ledoux; her father, Zephyr Moreau of Canada and five brothers, Rev. Louis Moreau, Edmund, Lucien, Henry and Armand Moreau, all of Canada.

PELLETIER—Mrs. Laura Pelletier died yesterday at the Lowell Corporation hospital. She is survived by her husband, Emile Pelletier. The body was taken to her home, 12 Camden street, by Undertakers Amadee Archambault & Sons.

GLYNN—John F. Glynn, aged 31 years, died this morning at the home of his sister, Miss Ellen M. Glynn, 429 Worthen street. The deceased leaves two sisters, Mrs. Anna Whiting and Miss Ellen M. Glynn.

McLELLAN—Robert McLellan, aged 24 years, died this morning at St. John's hospital. The body was removed to the funeral parlors of Charles H. Molloy's Sons. The deceased leaves, besides his father and mother, of France, Edward, five brothers, Joseph and Alexander of Framingham; John of Newton, Cyrille of Prince Edward Island; Augustus of Winnipeg, Manitoba.

GOVERNMENT GOODS

Sold Next Thursday, October 9th, at Hanson's Auction Sale, Rock Street, at 10.30 A. M.

Goods consist of dry goods, such as sweaters, stockings, rubber boots, oilskins, slickers, coats and pants. Also a good assortment of small hardware.

FUNERALS

FLEMINGS—The funeral of Mrs. Etta C. Flemings was held from her residence, 122 Parkview avenue yesterday afternoon. The services were conducted by Rev. Benjamin A. Wilcott, pastor of the Walnut avenue Congregational church of Boston. Appropriate selections were sung by the Schubert male quartet of Boston. The floral offerings were numerous and beautiful. The hearers were James P. Flemings, Herbert L. Trull, Harry B. Flemings and Frederic N. Trull. Burial was in the family lot in the Lowell cemetery. The funeral arrangements were in charge of Harvey H. Greene, under the direction of Undertaker Geo. W. Healey.

HOLES—The funeral of Mrs. Josephine L. Holes took place at her home in Westlands, Chelmsford Centre, yesterday afternoon. Rev. E. C. West, pastor of the Chelmsford Street Baptist church, officiating. Mrs. E. L. Roberts sang appropriate selections. The hearers were Willis E. Hatch, Geo. L. Hatch, Fred Hazen and Horace Tilden. Burial was in the family lot in the Lowell cemetery at North Chelmsford, where the burial service was read by Rev. Mr. West. The funeral was under the direction of Undertaker W. Herbert Blake.

STURGEY—The funeral services of Edwin Sturgey were held at his home in North Billerica yesterday afternoon. Rev. Mr. Armstrong, pastor of the Baptist church of North Billerica, officiating. The hearers were Herbert Ellis, George Chambers, William Butterfield and Harry Tucker. There were many beautiful floral offerings. Burial was in the family lot in the Corner cemetery in North Billerica, where the funeral services were read by Rev. Mr. Armstrong. The funeral arrangements were in charge of Undertaker Herbert A. Simmons.

BLACK—The funeral of Mr. John Black took place this morning from the chapel of William A. Mack, 75 North street, at 8.15 o'clock and was largely attended by relatives and friends. At the Immaculate Conception church a funeral high mass of requiem was celebrated at 9 o'clock by Rev. James McMartin, O.M.I. The choir sang the Gregorian mass, the solos being sustained by Mr. Charles Smith and Mrs. Walker. The organist, was Mrs. Walker. There were many beautiful floral tributes. In attendance at the funeral were relatives from Washington, D. C., Palmer, Mass., Boston and Springfield. The casket was borne by the following relatives and friends: Messrs. James Blakely, Patrick McGuinness, Timothy McNamara and John Shields. Burial took place in the family lot in St. Patrick's cemetery where Rev. James McMartin, O.M.I., read the committal prayers at the grave. Undertaker William A. Mack had charge of the funeral.

REQUIEM MASSES

McDONALD—There will be a high mass of requiem Friday morning at 8.15 o'clock at St. Patrick's church in loving memory of Jas. McDonald.

CELIA McDONALD.
BROSNAH—There will be an anniversary high mass Wednesday morning at 7 o'clock, at St. Columba's church for William Brosnah and Bridget Brosnah.

QUINN—A solemn anniversary requiem mass will be celebrated at the Sacred Heart church Wednesday morning at 8 a. m. for John P. Quinn.

PARRELL—There will be a second anniversary high mass of requiem tomorrow morning at 8 o'clock at the Immaculate Conception church for Charles H. Farrell, who died Oct. 5, 1917.

IN HIS WIFE, FATHER AND CHILDREN.

IN MEMORIAM
In loving memory of Cornelius Griffin, who died October 9th, 1918. A sadness rests upon his home, they miss his kindly face; Wherever they turn, wherever they go, They see his vacant place.
Just friends.

MR. and MRS. J. L. ANDERSON.

FUNERAL NOTICES

GLYNN—The funeral of John F. Glynn will take place Thursday morning from the home of his sister, Miss Ellen M. Glynn, 429 Worthen street. Burial will be in the family lot in St. Patrick's cemetery under the direction of Chas. H. Molloy's Sons, undertakers.

McLELLAN—The funeral of Robert McLellan will take place Wednesday (time to be announced later) from the funeral parlors of Charles H. Molloy's Sons. Burial will take place Saturday morning at Grand River, P.E.I. lot 14. Services will be held Saturday morning at St. Stephen's church, Grand River, P.E.I. Burial will be in St. Stephen's cemetery. The funeral will be under the direction of Undertakers Charles H. Molloy's Sons.

STEWART—The funeral of John T. Stewart will take place on Wednesday morning at 8 o'clock from his late home, 53 Railroad street. Funeral high mass of requiem will be sung at St. Peter's church at 9 o'clock. Burial will take place in St. Patrick's cemetery. Undertakers: S. H. McDonough Sons in charge.

EDITOR OF HARPER'S DEAD
NEW YORK, Oct. 7.—Henry Mills Alden, editor of Harper's magazine since 1869, died at his home here today, after a long illness. He was 82 years old.

Federal Troops in Control

Continued

the mayor, the police and 300 state militiamen stationed at Gary.

With reports that strikers in increasing numbers were resuming their places in the mills, the attitude of pickets has become threatening and for a time it seemed as if a serious clash would be unavoidable.

The state militia were ordered to Indiana Harbor and East Chicago, Ind., where Gov. Goodrich declared martial law.

Gen. Wood has forbidden public meetings, parades and demonstrations in Gary. Carrying of weapons by persons other than the police, military authorities, troops and members of the city government also is forbidden.

It was made plain that martial law had not been declared in Gary. The federal troops, it is stated by a member of Gen. Wood's staff, will be used to preserve order in conjunction with civil authorities.

One of Gen. Wood's first actions here was to call a conference of city officials and strike leaders. Oscar Anderson, a

strike leader, after the conference said: "The strikers now will get protection and we will win the strike."

Steel Plants Running

PITTSBURGH, Oct. 7.—A number of steel plants in the Pittsburgh district

which were forced to shut down two weeks ago when the strike of steel workers was initiated, were operating today, according to company sources. Some were running full time. Union leaders declared that the mills reported to have resumed work yesterday had few men on the job. Latest figures from union headquarters as of Oct. 6, indicate that 307,500 steel workers are on strike in the United States. This is an increase of 85,500, compared with the figures issued shortly after the strike started.

Cars Held Up; Shots Fired

BUFFALO, N. Y., Oct. 7.—Several men were slightly hurt and one was reported wounded by a bullet from a revolver today when a crowd of 1000 men held up cars of the Buffalo and

Lake Erie Traction Co., between the city line and Lackawanna. Ties and blocks of concrete piled up on the tracks held up the first car and ultimately blocked six of them carrying workmen to the Lackawanna Steel Co., one of the three local plants closed by the strike.

Fusillades of rocks met the cars as they came to a standstill. The workmen fought back and several of them, according to police information, used revolvers. A detail of police put the rioters to flight.

TEL. 2115

CENTRALVILLE, LOWELL, MASS.

THE TWO WELL KEPT AND WELL SITUATED COTTAGE HOUSES AT NO. 155 WEST SIXTH STREET, CORNER OF WEST STREET, AND NO. 151 WEST SIXTH STREET, PLEDGED IN TWO SEPARATE PARCELS TO THE HIGHEST bona fide BIDDERS, AT UNRESTRICTED AND ABSOLUTE PUBLIC SALE, ON SATURDAY, THE ELEVENTH DAY OF OCTOBER, 1919, COMMENCING PROMPTLY AT 3.30 O'CLOCK, P. M., WITH THE HOUSE NUMBERED 155 WEST SIXTH STREET, AND FOLLOWING IMMEDIATELY WITH THE DWELLING NEXT ADJOINING AT NO. 151.

COTTAGE NO. 155 WEST SIXTH STREET, CORNER WEST
This house has seven splendid rooms, four on the first floor, and three chambers on the second; also pantry, toilet, gas, city water and sewer connections. The house is supplied with two side entrances, has cemented cellar and is in perfect repair, only recently being entirely gone over. The lot is of good size and dimensions, having a splendid frontage on the two streets, is fenced on all sides. This cottage, with its corner location and being of full size makes it a most attractive home.
Terms: \$200 must be paid to the auctioneer as soon as struck off, other terms at sale.

COTTAGE NO. 151 WEST SIXTH STREET
Has six good rooms, besides large pantry, gas, city water, toilet and sewer connections; the house has three rooms on the first floor and three chambers on the floor above, has side entrance and is in A-1 condition, the building only recently being thoroughly renovated inside and out. The lot is of good area, with a corresponding frontage on West Sixth street, and is fenced on all sides. The premises have been occupied by the one tenant for the 15 years past, which fact in itself speaks of the premises as most attractive. Terms: \$200 must be paid to the auctioneer just as soon as struck off; other terms at sale.

In the offering of the above described cottages at public sale, the opportunity to secure a home in this, an essentially home locality, within easy and comfortable walking distance to Merrimack square, to the various mills and factories, and have a home all by yourself is here given. With the great scarcity of tenements, and with the large number of people of moderate means looking to buy a home, and with the very few parcels suitable for sale, this chance to obtain a home in this splendid location should be acted upon by the many, many numbers of home-seekers.

In all probability a most liberal mortgage can remain at 5 per cent. Make all inquiries at the office of the auctioneer.

Per Order of JOHN C. LEGGATT, Attorney.

DISAGREEMENT
OVER RULES

WASHINGTON, Oct. 7.—Disagreement over rules proposed for governing the industrial conference called by President Wilson resulted in the conference adjourning suddenly today after Franklin K. Lane, secretary of the interior, had been elected permanent chairman. It planned to meet again at 2:30 o'clock this afternoon.

As proposed by committee, the rules provided that all conclusions and decisions must be arrived at by unanimous vote.

Continued to Page 10

CONDUCTORS' HEARING

Two more "operators" of the Auditing and Inspection Co. of Philadelphia, the company which furnished investigators to the Eastern Massachusetts S. R. Co. to look into alleged dishonesty on the part of its employees, were the witnesses called today in the trial of Camille Chicoine, J. J. Kelley and J. E. Wallace, the three Lowell car conductors charged with larceny from the company.

The testimony of the witnesses thus far has been mostly concerned with the alleged stealing of fares by Chicoine, which is claimed to have occurred on various trips during September.

Samuel N. Spayde, whose testimony in regard to alleged larcenies committed by Chicoine took up the major portion of yesterday's hearing, was recalled this morning and re-examined further by Atty. Gen. Council for the carmen.

Mr. Tierney took up particularly the matter of the memoranda which Spayde had testified to jotting down immediately after making an investigation on the local street cars. Spayde said that after making an investigation he took down notes immediately after leaving the car.

Charles A. Rigler, of Milford, Pa., one of the five special investigators detailed by the company to investigate alleged fare stealing on the local lines, then took the stand. His employers are the Railroad Auditing and Inspection Co. of Philadelphia, Pa. He said he made a trip from Merrimack square on September 15, at 1:40 p. m., and gave the conductor, Chicoine, a dollar bill, paying for himself and another "operator" who accompanied him. Chicoine returned \$9 cents in change, but only deposited 19 cents in the fare box.

Later, he said, a woman boarded the car at the Middlesex street railroad station, and gave Chicoine a quarter. He returned 15 cents in change.

REMOVE 50,000 MINES

WASHINGTON, Oct. 7.—Removal of the great North Sea mine barrage, laid by the American navy during the war, has been completed. This was disclosed today when Secretary Daniels made public a cablegram of congratulation sent to Rear Admiral Joseph Strauss, who commanded the force which since last October had been engaged in the hazardous task of sweeping the 50,000 mines from the sea.

Only one serious accident attended the work, one of the sweepers being blown up with the loss of several lives.

CHILD FATALLY INJURED

Dorothy Lyon, aged 4 years, daughter of Mr. and Mrs. William Lyon of West Andover, died at St. John's hospital this afternoon as a result of injuries received in an automobile accident, which occurred in Bridge street, near Merrimack square, shortly before 1 o'clock. Mrs. Lyon, who was with the child at the time of the accident, received a sprained ankle and abrasions about the body, but her condition is not serious.

According to witnesses of the accident the little girl and her mother were struck by an automobile operated by Percy D. Smith of 41 Prospect street, Methuen. Mr. Smith, who was driving a Packard touring car, had just turned into Bridge street from Merrimack square and was proceeding at a fairly low rate of speed, when a Highland-bound electric car made its appearance. At that moment several persons, including Mrs. Lyon and her daughter, left the sidewalk to board the car and although Mr. Smith applied the brakes his car was not brought to a stop until the child was run over and the mother knocked down. The operator of the machine then became confused and the machine took the sidewalk and ran into the window of Fairburn's market, smashing the large plate glass. Traffic Officer Edward Connors rushed to the scene and after commanding Daniel Miller's automobile he rushed the unconscious child to St. John's hospital, where it was found that her chest was badly crushed. She passed away shortly after her arrival at the institution.

In the meantime the ambulance was called and Mrs. Lyon was taken to St. John's hospital, where it was stated later that her injuries were not of a serious nature. Mr. Smith, the driver of the car, was later taken to the police station by Officer Connors. A charge of manslaughter will be preferred against him. The child's father, Mr. William Lyon, is employed at Fairburn's market and was selling fruit within two minutes' walk of the accident when his daughter was fatally injured.

FEDERAL TROOPS
CONTROL GARY

GARY, Ind., Oct. 7.—Gary, site of one of the United States Steel Corp.'s greatest plants, today was under control of federal soldiers, commanded by Maj. Gen. Leonard Wood. Five hundred more troops fresh from riot duty at Omaha, Neb., were on their way. The call for federal troops was made by Gov. Goodrich of Indiana, when thousands of strikers paraded and held mass meetings, although forbidden by law.

TO EXTRADITE
COUNT BISMARCK

PARIS, Oct. 7.—The extradition of Count Otto Bismarck, grandson of the famous German chancellor, has been demanded of the German government at the instance of court martial authorities at Lille, according to the correspondent of the Excelsior. Eight other Germans are also to be extradited, the writer states.

Count Bismarck is accused of having had fourteen inhabitants of the village of Vicoigne shot as an example, and of burning houses there. Similar charges are preferred against the others.

The newspapers announced that the lists of German officials and other persons to be delivered to the allies for trial are now practically ready for submission to Germany. The papers point out that the lists do not contain the name of the former emperor of Germany, who is to be dealt with separately.

Omission of the name of the former German monarch has no significance, since the peace treaty makes a clear distinction between "William II, of Hohenzollern, formerly German emperor," whose indictment for "a supreme offense against international morality and the sanctity of treaties" is contained in an article of the treaty and persons accused of having committed acts in violation of the laws and customs of war whose surrender and trial are provided for in another article.

In the final protocol signed at the same time as the treaty, it was provided that the lists of individuals whom, according to the second article, Germany must surrender for trial, should be sent to Germany within a month after the treaty came into force by ratification of three great powers.

The surrender of the former emperor is according to the treaty, to be demanded from the government of The Netherlands, not Germany, and his trial is to take place before a special international tribunal, not a court martial.

PRES. WILSON CONTINUES
TO IMPROVE

WASHINGTON, Oct. 7.—President Wilson continues to improve and he is eating and sleeping well, according to a bulletin issued at 11:25 a. m. today by Rear Admiral Grayson, Rear Admiral Sitt and Dr. Sterling Ruffin. The bulletin follows:

"The president's improvement has continued. His appetite is decidedly better and he is sleeping well."

Rear Admiral Grayson will keep the president in bed for a time yet, despite his desire to attend to official duties.

Messages of sympathy continued to reach the White House today.

The bulletin was issued after the usual morning consultation between the physicians. Supplementing the bulletin, Dr. Grayson said the president's good appetite was a favorable sign. He added that the president was restless and desired to attend to public matters. However, the doctors insisted that their orders for complete rest be strictly carried out and the president will be kept in bed for the present.

In the view of Dr. Grayson, the president, despite the improvement shown during the past few days, is not yet out of danger and the physicians fear that any undue excitement now might offset the gains he has made.

There is no intention now to send the president away from Washington.

LONDON, Oct. 7.—King George today sent his private secretary, Col. Oliver Wigram, to the American embassy to seek the latest news regarding President Wilson's condition. Col. Wigram was instructed to express the king's sincere sympathy with President Wilson.

As the Twig is Bent

It is the duty of parents to encourage the habit of thrift and establish in the minds of children the value of money. The best way of teaching the lesson is to give a child actual experience. Open a Savings Account in Child's name, bring him along to the bank, explain to him the meaning of saving, and let him see how his savings begin to interest him. This is the best way to teach the lesson of saving.

CITY FINANCES
IN SPOT LIGHT

Auditor Says Council Must Restrict Appropriations to \$30,000 Limit

City finances were given a thorough airing at the meeting of the municipal council this morning as a sort of preamble to the resurrection of Commissioner Murphy's order to appropriate \$50,000 for street maintenance and after Mayor Thompson had courageously read a voluminous report of great length from City Auditor J. Joseph Hennessy it was found that \$30,000 by necessity would have to be Commissioner Murphy's limit and the council was not inclined to make him a present of that, at least not at the present time.

Mr. Hennessy's communication was offered in reply to a vote taken on Sept. 30 by the council, that the auditor be instructed in connection with the proposed \$50,000 order, to bring before the council information of what monies may be available for such a purpose.

The information contained in the communication, boiled down to a skeleton, was this: That it would not be advisable for the present at least to appropriate any sums in excess of \$30,000 from the general treasury fund for any municipal purpose and that there is an actual book deficit of \$13,547.02 caused by such an expenditure by the water works department in 1916 in excess of the amount appropriated.

In spite of the acceptance of Mr. Hennessy's appropriation and subsequent questioning of the auditor by Commissioners Murphy and Marchand, Commissioner Murphy again brought up his \$50,000 order for consideration, asked that it be changed to read \$30,000 and that he be given that amount.

PRES. WILSON CONTINUES
TO IMPROVE

WASHINGTON, Oct. 7.—President Wilson continues to improve and he is eating and sleeping well, according to a bulletin issued at 11:25 a. m. today by Rear Admiral Grayson, Rear Admiral Sitt and Dr. Sterling Ruffin. The bulletin follows:

"The president's improvement has continued. His appetite is decidedly better and he is sleeping well."

Rear Admiral Grayson will keep the president in bed for a time yet, despite his desire to attend to official duties.

Messages of sympathy continued to reach the White House today.

The bulletin was issued after the usual morning consultation between the physicians. Supplementing the bulletin, Dr. Grayson said the president's good appetite was a favorable sign. He added that the president was restless and desired to attend to public matters. However, the doctors insisted that their orders for complete rest be strictly carried out and the president will be kept in bed for the present.

In the view of Dr. Grayson, the president, despite the improvement shown during the past few days, is not yet out of danger and the physicians fear that any undue excitement now might offset the gains he has made.

There is no intention now to send the president away from Washington.

LONDON, Oct. 7.—King George today sent his private secretary, Col. Oliver Wigram, to the American embassy to seek the latest news regarding President Wilson's condition. Col. Wigram was instructed to express the king's sincere sympathy with President Wilson.

As the Twig is Bent

It is the duty of parents to encourage the habit of thrift and establish in the minds of children the value of money. The best way of teaching the lesson is to give a child actual experience. Open a Savings Account in Child's name, bring him along to the bank, explain to him the meaning of saving, and let him see how his savings begin to interest him. This is the best way to teach the lesson of saving.

As the Twig is Bent

REDLAND FIELD, Cincinnati, Oct. 7.—Perfect base-ball weather, with the sun shining and a cloudless sky greeted fans for the sixth game of the world series today. The thermometer seemed likely to reach 80 degrees.

Seven Cincinnati business men today bet \$60,000 on the Reds winning today's contest. They had wagered \$15,000 on odds on the first game. They doubled on the second and third games. Losing on the third game, they dropped their betting to \$15,000, won and then bet the \$30,000 on the fifth game. They then bet the \$60,000 on the sixth game.

The crowds began to gather at the ticket offices at daylight. Only unreserved seats and standing room were for sale. It appeared that the largest crowd that had witnessed any game in Cincinnati would be at the ball park this afternoon.

Moran stated that he had no reason to believe anything would interfere with his pitching further today and that he was convinced that it would all be over tonight.

Gleason said he would work Kerr and that his only hope was that the Sox would show their true form and that he would play the kind of baseball that won the American league pennant for them.

"If they do this," he said, "we have an outside chance of winning four straight and don't be too much surprised if we do it."

The betting today ranged from 7 to 5 to 5 to 5 with the Reds as the favorites.

"Hot Time in Old Town Tonight"

Kerr took part in the Sox batting practice, while Schalk was in his usual place.

The band played "There'll be a Hot Time in the Old Town Tonight."

Kerr vs. Ruether

Ruether took part in batting practice. When the White Sox appeared on the field the bands struck up "Please go away and let me sleep."

The ground rules will prevail today that prevailed the first two days of the series.

Batteries for today's game are: Kerr and Schalk for Chicago; for Cincinnati, Ruether and Hariden.

First inning

First half: John Collins opened hostilities by popping a high fly in back of second base that Rath captured. Ed Collins up. Roush came in fast and got Ed Collins' low fly. Weaver nailed the first ball and drove it to left, but it hit a few feet foul. Weaver singled through Roush into center field. The Cincinnati shortstop could not quite get to it. Jackson sent an easy pop up to Groh. No runs, one hit, no errors.

Second half: Rath hoisted to Ruether on the third ball pitched. It was an easy out. Daubert batted the first ball pitched to Kerr, who tossed him out at first. Groh doubled to right center. It was a liner that landed between Felsch and John Collins and was retrieved quickly by the latter. Roush singled to Ruether, but Groh was caught by overrunning third, Ruether's hit was over toward the second sack. No runs, two hits, no errors.

Second inning

Felsch shot a long fly almost to the bleachers, but Neale got under it and captured it. Grandit put a Texas Leaguer out towards right but it fell a few inches foul. Kopf took Grandit's bounce and tossed to Daubert for the putout. Ruether hoisted a high one to Neale. No runs, no hits, no errors.

Third half: The crowd gave Duncan an ovation as he stepped up to the plate. Duncan was safe when Ruether fumbled his easy grounder. Kopf became uneasy and walked. Kopf, Neale forced Duncan at third. Kerr to Weaver. Neale attempted to sacrifice, but Kerr made a quick throw to third. Ruether forced Neale. E. Collins to Ruether. Kopf taking third. Ruether claimed that Neale interfered with him but the claim was not allowed. Ruether batted one to Kerr, who threw to first for the putout. No runs, no hits, one error.

Fourth inning

First half: Ruether failed to get the ball over the plate and walked. Schalk sacrificed. Groh to Rath. Schalk going to second. It was a well laid out. J. Collins sent a high fly to Roush in short left center. Duncan made a great running catch and captured E. Collins' liner in left center. No runs, no hits, no errors.

Second half: Duncan was cheered to the echo as he walked to the bench. The outfield played in for Rath. Rath proved easy. Ed Collins taking his grounder and tossing it to Grandit. Daubert up. Daubert singled to right. It was a clean drive right over E. Collins' head. Groh struck out. The third strike was called on him. Daubert, before reaching it, but scrambled back before E. Collins could hit him. Roush was hit by one of Kerr's fast ones but he trotted to first. Duncan doubled to right center, beating in Daubert and Roush. It was a mighty wallop. Felsch ran away back and caught Kopf's long fly. Two runs, two hits, no errors.

Fifth inning

First half: Ruether failed to get the ball over the plate and walked. Schalk sacrificed. Groh to Rath. Schalk going to second. It was a well laid out. J. Collins sent a high fly to Roush in short left center. Duncan made a great running catch and captured E. Collins' liner in left center. No runs, no hits, no errors.

Second half: Duncan was cheered to the echo as he walked to the bench. The outfield played in for Rath. Rath proved easy. Ed Collins taking his grounder and tossing it to Grandit. Daubert up. Daubert singled to right. It was a clean drive right over E. Collins' head. Groh struck out. The third strike was called on him. Daubert, before reaching it, but scrambled back before E. Collins could hit him. Roush was hit by one of Kerr's fast ones but he trotted to first. Duncan doubled to right center, beating in Daubert and Roush. It was a mighty wallop. Felsch ran away back and caught Kopf's long fly. Two runs, two hits, no errors.

Sixth inning

First half: Weaver popped up to Felsch. J. Collins after making a good run for it, captured Roush's fly. Felsch went away back and misjudged Duncan's fly, getting his hands on it but dropping it. Duncan reaching third. Ruether threw out Kopf. No runs, no hits, one error.

Seventh inning

First half: Duncan took Weaver's

Two-base hit, Groh, Duncan, Ruether, Weaver, Felsch. Three-base hit, Neale, Stolen bases, Daubert, Rath, Schalk, Liebold. Sacrifice hit, Kerr, Daubert, Sacrifice fly, E. Collins. Double plays, Roush to Groh; Jackson to Schalk; Ruether to E. Collins to Grandit; Roush to Rath; Kopf to Rath. Left on bases, Cincinnati 8; Chicago 5. Base on balls, off Kerr 2 (Kopf, Groh); off Ruether 3 (Schalk 2, Roush); off Ring 3 (Jackson, Grandit, Liebold). Hits, off Ruether 6 in 5 innings, none out in sixth; off Ring, 4 in 5 innings. Hit by pitcher, by Kerr 1 (Roush). Struck out, by Kerr 2 (Groh and Ring); by Ring 2 (Schalk and Felsch). Losing pitcher, Ring. Umpires, Evans at Plate; Quigley at first; Nallin at second; Rigler at third. Time, 2:06.

Line drive that went almost to the left field crowd. Ruether went back almost to the grandstand and nailed Jackson's high foul. Felsch singled through the pitcher's box, the ball rolling to center. Kopf threw out Grandit, stopping in time to get his grounder after starting for second to cover the bag as Felsch went down. No runs, one hit, no errors.

DIED AS RESULT OF
GAS POISONING

Private Arthur Allen of Camp Devens, who was found unconscious in a room in Hurd street Sunday afternoon, as a result of gas poisoning, died at St. John's hospital late yesterday afternoon and later after Medical Examiner T. B. Smith had viewed the body and reviewed the circumstances surrounding the case, he stated that in his judgment, death was accidental.

Allen, who was on a brief furlough in this city, called at 19 Hurd street Saturday evening and hired a room for the night, informing the keeper of the house that he did not wish to be disturbed in the morning as he was desirous of a rest. Sunday afternoon at about 3 o'clock Allen was found in an unconscious condition in his room. The windows of his room were open and gas was coming from the jet in the chandelier. The police pulmonologist put in action and later the young man was removed to the hospital. The body was removed to the funeral parlors of Undertakers M. H. McDonough Sons.

was married in Reading in October, 1912, and afterwards deserted his wife and came to Lowell. He is said to have married Dorinda R. Birchenough in Lowell in August, 1919. His first wife's maiden name is given as Alice M. Heslton.

City Finances in Spot Light
Continued

He didn't get it, but did succeed in having it put over until Thursday morning when the council will meet to approve bills.

Commissioner Murphy then introduced another order, to borrow the sum of \$20,000, to be payable in 10 years, for block and other permanent paving and gave the work at the Pawtucket bridge and Thorneike street as his reason. While Mayor Thompson declared himself unalterably opposed and wished to have it settled today once and for all, the other commissioners voted to also lay that order over until Thursday. Just previous to the introduction of that order, the city auditor had informed Commissioner Murphy that the city was \$35,024.43 away from the limit of its borrowing capacity.

Reading Man Pleads
Guilty of Bigamy

Charged with bigamy, Floyd P. Richardson, formerly of Reading, but who for some time has been living on Third street, this city, pleaded guilty in police court today and was held in \$500 for disposition until Saturday. According to the police Richardson

ABOUT RHEUMATISM

What Thousands Have Found Gives Relief From This Painful Trouble.

Rheumatism is a constitutional disease, manifesting itself in local aches and pains, inflamed joints and stiff muscles. It cannot be cured by local or external applications. It must have constitutional treatment. Take a course of the great blood-purifying and tonic medicine, Hood's Sarsaparilla, which corrects the acid condition of the blood in which rheumatism depends, and gives permanent relief. This medicine combines, with excellent alteratives and tonics, what is generally conceded to be the most effective agent in the treatment of this disease.

If a cathartic or laxative is needed take Hood's Pills. Purely vegetable.

was referred to the proper commissioner.

The petition of Bernhardt and Miller for garage and gasoline license at 548-550 Moody street was set for a hearing on October 28.

A petition for concrete sidewalk and edging in front of the premises at 26 West Forest street was referred to the commissioner of streets and highways.

A claim against the city in the sum of \$200 for alleged damage to his automobile from Thomas Histon, 40 Valley street, Lawrence, was referred to the law department.

Licenses were set for October 14 on the petitions of the Lowell Electric Light Corp. for the erection of four poles in East Merrimack street and two poles in Pawtucket street.

A hearing was set for October 21 on the petition of the Lowell Electric Light Corp. for the erection of one pole in Varney street.

The Lowell Electric Light Corp. was granted permission to erect and maintain two poles in Riverby street and to lay and maintain underground conduits in Jackson street.

The council voted to release the Eastern Massachusetts Street Railway Co. from all obligations in connection with damage done to a city ambulance by an electric car, the amount of money involved in the bill presented being at hand.

Auditor's Communication
Mayor Thompson read the communication from City Auditor Hennessy and then Commissioner Marchand asked that the former be asked to appear before the council as there were two or three questions he wished to ask.

In a resume of the communication, Mr. Hennessy said:

"The city auditor after a careful study of all conditions would advise for the present at least that no sums in excess of \$20,000 be appropriated from the general treasury fund for any municipal purposes.

"The estimated revenues of 1919 are in a sound state. The \$20,000 suggested as the limit amount to be appropriated in any cause represents the approximate total of excess unappropriated, unestimated revenues paid and to be paid into the general treasury fund of the city.

"There is a book deficit of \$43,937.02 caused by the expenditure of such an amount by the water department for 1918, in excess of the amount appropriated for the department. This amount already has been paid from the cash of the city. However, it is not

CEDAR CHESTS

We have just received a shipment of a car load of Cedar Chests. These are now on sale.

Since the factories manufacturing good Cedar Chests have oversold, way beyond their power of production, this will probably be the last opportunity, this year, to obtain a really genuine Cedar Chest at 25 per cent. below the market value.

possible to make good this deficit by 1919 revenues.

"There can be only meagre expenditures of unappropriated, unestimated revenues of the city by the municipal council until the water department can pay back to the general treasury this sum of \$43,937.02."

Commissioner Marchand asked Mr. Hennessy if it would have made any difference if the money at the first of the year had been borrowed all in one lump sum.

"That is simply a matter of financial expediency," replied the auditor. "A long term note may be more efficacious and might save a little in the long run, both in money and time and other." The auditor also said that up to the present time this year \$2,200,000 worth of loans has been discounted against \$1,200,000 last year and that the city this year prior to July 1 borrowed \$150,000, six months interest on which must be paid this year.

Mr. Murphy asked if it would be permissible for the council to authorize the public auditorium commission to pay their own interest on the loan of \$140,000 out of money obtained by selling property in East Merrimack street.

"You are confronted by the law of 1896," said the auditor, "which says that all moneys, no matter from what source they come, shall be turned into the city treasury. In my opinion the council acted contrary to this law when it authorized the auditorium commission to retain all revenues."

The mayor reminded the city auditor that the council acted on that matter at the advice of the city solicitor and Mr. Hennessy replied that it was his personal opinion against that of another man.

Asked Reconsideration
Commissioner Murphy then asked the council to reconsider his order for the appropriation of \$56,000 for street maintenance, saying again that it was vitally necessary for his department to have this money to exist.

"I would like to ask the commissioner," said the mayor, "where he expects to get \$56,000 when the city auditor has just told us that the limit appropriation must by necessity be limited to \$20,000."

"I realize that I cannot get blood from a stone," replied the commissioner, "and I regret very much that there is only \$30,000 left. I have every respect for the auditor's statement, but it is impossible for me to do the work necessary this year with the amount of money I have had at my disposal. It is not a question of politics or giving work to men when there is no need. The work is there to be done and the money is lacking, that's the whole situation. I would move that the order before you be changed to read \$30,000 instead of \$56,000."

"I cannot bring myself to believe," said the mayor, "that any one department should be given the whole of what may be left. In all fairness to the other commissioners and myself, other needs are just as urgent as yours, Mr. Murphy, and if this \$30,000 is to be appropriated it should be evenly divided among us. Mr. Morse says he must either buy horses for the fire department or a new piece of motor apparatus. The floor at the police station must be hard, school boilers have had to be repaired and the department of dependent mothers, which comes under my jurisdiction, may call for more money. All these things

day when the council meets to approve bills.

Would Borrow \$20,000
Just as Mayor Thompson asked for an adjournment motion, Mr. Murphy announced that he had another interesting order to submit.

It was an order to borrow the principal sum of \$20,000 for block and other permanent paving and he gave as his reason that he wished to complete the Pawtucket bridge job and do some work in Thorneike street.

Mayor Thompson said that if those were the only reasons he could give, he, the mayor, was unalterably opposed to a consideration of the order as its passage meant the city would be only \$16,000 from the borrowing limit, which in his mind was altogether too close for comfort.

Commissioner Donnelly moved that the order be laid over until Thursday

to be considered then, but Mayor Thompson expressed a wish to settle it now. "I will not be any more ready to sanction such an order on Thursday than I am today," he said "and I believe the matter should be settled now."

It was put to a roll call vote, however, and the four commissioners voted to hold it over, the mayor voting in the negative.

The meeting adjourned at 12 o'clock to Thursday morning at 9 a. m.

WOMEN'S CLUB OPENS WINTER SEASON

The Middlesex Women's club commenced its season yesterday afternoon in a manner which forecasts a year of mutual profit and splendid sociability. The new club president, Mrs. Walter C. Perham, presented her opening address which was enthusiastically received by the members. Colonial hall was attractively decorated in autumn colorings and foliage made an appropriate background for the receiving party. An interesting report of the state federation meeting was made by Mrs. C. F. Harris.

At the reception and luncheon which followed the meeting, the following women received with Mrs. Perham: Miss Olive S. Parsons, Mrs. C. F. Harris, Miss Bessie Hadley, Miss Julia Jones, Miss Bertha M. Abbott, Mrs. James Marks, Mrs. Boyden Pillsbury and Miss Esther Elliott.

Mr. Perham's address contained a prophecy of a year of great activity and included the following outline of the season's program:

"October 20, Hon. Maurice Francis Egan will lecture on the subject, 'Barraging Moments in the Life of a Senator.' Dr. Egan served as minister to Denmark under President Roosevelt, Taft and Wilson, (1901-1918). He was finally obliged to retire on account of ill health. With Denmark the whispering gallery of Europe; he was able to know more international intrigues than most diplomats. He is also known as poet, critic and novelist. His recently published book, 'Ten Years Near the German Frontier' is being widely read."

"October 24, we are to have the honor of entertaining the presidents' conference. The meeting will begin at 1.15. Each club in the Federation is entitled to be represented by its president, one member of its executive board and one club member. The plans of work, laid out by the chairmen of the various departments, will be presented. As this will be the first conference with Mrs. George Minot Baker as president, an informal reception has been arranged, in order that all may have an opportunity to meet the president of the federation. The members of the Hostess club will have the privilege of attending this conference after provision has been made for the

visiting delegates. All members of the council, chairmen of departments and members of committees are especially urged to be present.

"The Educational Department, Mrs. Charles H. Hobson, chairman, is planning for a course of lectures on Citizenship. The first lecture will be on October 27, by Mrs. Herbert J. Gurney, on 'Women and Government'—Preparation."

"November 1, Christopher Morley of the editorial staff of the Philadelphia Public Ledger will speak on the 'Domestic Muse.' Mr. Morley is the author of 'The Hound Dog,' 'Parasol on Wheels,' 'Shandygoff,' and was a Rhodes scholar at Oxford. Incidentally Mr. Philip Gibbs in his article 'Some People I Met in America' in the September Harper's undoubtedly refers to Mr. Morley when he says: 'One young man, once a Rhodes scholar at Oxford, boarded the train at New York, bought me a drawing room for private conversation and by the time we reached Philadelphia made it entirely futile for me to give a lecture, because he had all in his memory, and wrote the entire history of everything I had seen and thought through years of war, in the next day's paper.'"

"On Nov. 10 the novelist, Hugh Walpole of London, author of 'The Secret City,' 'The Dark Forest,' 'The Duchess of Wrexham' will lecture on 'Modern Novelists and the Present School of English Fiction.'"

"Nov. 17, there will be a concert of chamber music by the American

string quartet, called the Flonzaleys' among women artists."

"Nov. 23, occurs the centenary of the birth of George Eliot. The literature department, Miss Esther Elliott chairman, is planning to observe this event by a resume of her life and works. Interesting papers will be prepared, also a review of some of her most noted books. Also under this department, Rev. Alfred Rodman Hussey is

to give us a lecture on 'The Drama.'"

"Dec. 5, second lecture on Citizenship, by Mrs. Herbert J. Gurney."

"Dec. 15, Jane Manner of New York will give dramatic reading of three one-act plays, viz: 'The Will,' by James Barrie; 'Tollers Wife,' by Cosmo Hamilton; and 'Kitty Clive,' by F. Frankfort Moore."

"Dec. 20, Charles Theodore Carruth will give an illustrated lecture on 'Fra Angelico.'"

"January 5, Mid-year reception."

"Jan. 19, John Livingston Lowes, professor of English in Harvard university, will lecture on 'The Fine French and the Quiet Eye—A Study in Poetic Inspiration.'"

"March 15, Percival Chubb, educator, author, critic and leader of the Ethical society of St. Louis, will lecture on 'The Drama and the Theatre in Relation to the Community.'"

"John Finley, formerly of the College City of New York and now head of the commission of education, state of New York has agreed to lecture some time during the season. As has also Dr. William Norman Guthrie, poet, essayist, university lecturer and rector of St. Michael's church in the Bowery, New York."

"There is also promised a demonstration in cooking by Miss Alice Bradley, principal of Miss Farmer's school in Boston."

"We hope to have more Lenten organ recitals and one club talent musical, besides two concerts in the late winter and early spring."

"The entertainment committee reported on its attempt to secure Associate

LOWELL POST OF THE AMERICAN LEGION

Great preparations are being made for the special meeting of the Lowell Post, American Legion, to be held in the state armory on Thursday evening of this week for the express purpose of electing delegates to the state convention. At a meeting of the post last night at the Community Service club several important matters of business were taken up, but the most important by far was the preparation for Thursday's meeting.

A motion was passed which will regulate the manner of voting for a choice of delegates. Nominations will be made from the floor and ballots with spaces for 20 names will be distributed. The vote will be counted by a committee of 15, appointed by the chair. The nominee with the largest number of votes will be the first delegate, the nominee with the second largest number the second delegate and so on to the 15th in size of vote, who shall be the first alternate. The remaining nine will rank as alternates according to their position in the list. The local post is allowed one delegate and one alternate for every 100 members.

The meeting voted to pay the expenses of delegates to the Worcester convention at a rate not exceeding \$5 a day, exclusive of railroad fares. Whether Lowell Post will send 20 men, or just the 10 delegates will be decided at Thursday night's meeting. The entertainment committee reported on its attempt to secure Associate

hall for a ball on the evening of Armistice day, Nov. 11 and recommended that the date be changed to Nov. 10, the evening before. The question of preparing in the South End celebration also will be considered Thursday evening.

In Chicago a certain saloon displayed for years a large sign reading "Free beer tomorrow." Those who read the sign Monday and asked for a free drink Tuesday were requested to read the sign again.

ALL VICTIMS OF ECZEMA'S ITCH NEED POSLAM

It is Poslam's mission to relieve itching, eczema's cruel distress, and to restore disordered skin of sightlines and health. Comfort comes as soon as it is applied to the more places. Its concentrated healing power quickly shows. Each day should mark distinct improvement. So effective in Poslam for eczema, rashes, pimples, scalp-itch that just a little of it goes far; does much and lasts long. It's quality that counts. Sold everywhere. For free sample write to Emergency Laboratories, 143 West 47th St., New York City. Urge your skin to become fresh, clearer, better, by the daily use of Poslam Soap, medicated with Poslam. —Ad.

Sciatic Pains Quickly Relieved

Keep Sloan's, the World's Liniment, Handy to Alleviate Aches.

Thousands of men and women, when the least little rheumatic "crick" assails them, have Sloan's Liniment handy to knock it out. Popular a third of a century ago—far more popular today.

That's because it is so wonderfully helpful in relieving all external aches and pains—sciatica, lumbago, neuralgia, overstrained muscles, stiff joints, all that is necessary for it soon penetrates without rubbing to the sore spot. Leaves no muss, stained skin, clogged pores. A bottle today is a wise precaution. Keep it handy.

All druggists—35c, 70c, \$1.40.

TO WITHDRAW U. S. WARSHIPS

Naval Forces at Spalato, Dalmatia, to be Withdrawn on Order From Washington

Have Been in Adriatic in Charge of Admiral Andrews Since Last December

ROME, Oct. 7.—American warships which have been at Spalato, Dalmatia, since early last December, are to be withdrawn by Rear Admiral Philip Andrews on orders from the United States, according to advices reaching this city.

It is reported that he has declared the United States wishes to avoid complications in the Adriatic and has notified Italian authorities that any aggression on the part of Italian troops against the Spalato-Trans zone will be considered as directed against the United States.

Advices state that American food supplies are to be removed from Spalato to the city has been one of the centers from which relief work in Jugoslavia has been directed.

American warships went to the Adriatic soon after the armistice with the central powers had been negotiated. They took over a section of the coast which has since been known as the American zone. On Sept. 23, irregular Italian troops attempted to capture Trau from a small Serbian garrison. Italian authorities notified Captain Boyd, the American naval officer in charge of operations that the attack was unwarranted and asked that the

DANGER AHEAD! LOOK OUT!

Colds and Grippe frequently will leave you with weak kidneys, and aching back. The kidneys get overworked fighting off a cold or a contagious disease. When they slow up, and don't perform their duties, look out, there is trouble brewing.

Kidney and bladder troubles are dangerous, and should not be neglected; if you are compelled to arise from your slumber once or twice during the night, it proves that your kidneys are affected and bladder irritated, and if you will take from 10 to 20 drops of SEVEN BARKS in a little water after meals, you will correct the alkalinity of your secretions, thus giving you undisturbed sleep and peaceful rest, preparing you for your next day's duties.

Don't neglect your kidney trouble with first symptoms. You will be sorry if you do—it's too serious a matter. Get SEVEN BARKS of your druggist. Price, 50 cents.—Adv.

raiders be turned back. Captain Boyd sent a destroyer and two submarine chasers to Trau and with an Italian naval officer, went to the scene of the trouble himself. Admiral Andrews followed on his flagship. They found the raiders had withdrawn, leaving an officer and three privates in the hands of the Serbians.

Reports have stated that inter-racial feeling is bitter along the Dalmatian coast, and American marines and blue-jackets are said to have been forced to intervene between Italians and Jugoslavs at Spalato.

Not Ordered to Withdraw

WASHINGTON, Oct. 7.—Rear Admiral Andrews, commanding American naval forces in the Adriatic sea, had not been instructed to withdraw his patrol from the Dalmatian coast, Secretary Daniels said today. If the ships had been withdrawn, Mr. Daniels said, Admiral Andrews acted on his own initiative, as he did in landing blue-jackets at Trau.

CARMEN STRIKE AT WORCESTER

WORCESTER, Oct. 7.—Services of the Worcester Consolidated Street Railway company's line between Worcester, Leominster, Fitchburg and Hudson was tied up today by a strike of 75 electric car men.

The men quit work because Edward J. Reagan, one of the clerks on the system, had been discharged. The strikers say they will stay out until Reagan is reinstated.

DEMOCRATIC RALLY HERE FRIDAY NIGHT

Richard H. Long, democratic candidate for governor, will be the principal speaker at an open air rally to be held at City Hall Friday evening at 8 p. m. under the auspices of the democratic city committee and the first congressional district league of Massachusetts.

Several other candidates on the state democratic ticket will also appear at the rally. Atty. Joseph P. Donahue will preside and T. J. Fitzgerald, secretary of the Massachusetts league, will call to order.

PRINTERS STRIKE

Publication of All Lima Papers Suspended

LIMA, Peru, Monday, Oct. 6.—Publication was suspended by all Lima newspapers today as a result of a strike of printers.

LITTLE DAMAGE TO STEAMER

NEW YORK, Oct. 7.—Five days' repair work on the Colonial line steamer Lexington which was rammed by a submarine in Hell Gate, last night, will make her fit for resumption of service on the New York-Providence route, it was announced today. Virtually all damage was above the waterline.

The Albanians claim to be the most ancient race of Europe.

STEAMER RAMMED BY SUB—300 SAFE

NEW YORK, Oct. 7.—Quick action by the crew in closing the watertight "collision bulkhead" of the steamer Lexington last night prevented a possible loss of life when the craft was rammed by the United States submarine O-7 in the treacherous waters of Hell Gate Channel, in the Upper East river.

The Lexington, a Colonial Line steamer, was bound for Providence with 390 passengers, when, according to passengers, the submarine, which had been maneuvering on the surface, suddenly heaved across her bow.

There was a crash, the steamer quivered, and there was a sensation of "sliding backward." Many of the passengers were thrown off their feet. Women screamed and men cried for help.

There was a general rush for life preservers as the submarine backed away. The crew were standing by the lifeboats, but Capt. Gray and his officers, after a quick inspection of the jagged semi-circular hole of 15-foot radius, said three of her plates above the water line had been stove in.

FR. VERDIER NAMED

Elected Superior of the Order of Lazarites

ROME, Oct. 7.—(Havas) Father Francois Verdier has been elected superior general of the Congregation of the Priests of the Mission, or Lazarites as they are popularly known. He has been vicar general of the order.

The Order of Lazarites was founded by St. Vincent de Paul in 1625. The last superior general, Fr. Emilio Vitellio, died November 7, 1916, and the election of his successor was postponed until the conclusion of peace.

AMUSEMENT NOTES.

KITHUR THEATRE

With a stage setting of more or less elegance, in fact, much too pretentious for an ordinary shoe shop, Dayanone, Whipple and Walter Huston present "Shoes" as the top-line offering at Kithur Theatre this week. We venture to say that such a stunning shoe store should rightly be termed a beauty, the latter being symbolic of the ultra-fashionable. The act itself is most disconcerting, inasmuch as it commences with but one object, apparently and then turns about and travels along an entirely different path. At the outset it looks like comedy, especially when Mr. Huston has the stage to himself and a stuttering clerk, but later in comes Miss Whipple, not hard on the eyes and she completely changes the complexion of things. Lowell people will remember Huston, he smoked a cigar. Not that that is his only distinguishing adjunct. He will be remembered as the singer of "I Haven't Got the Do, Re, Mi" and again on this visit he sings a similar tune about "I've Got a Good Job Now," letting his voice trail off into thin air at the end of each line. This new job, he sings of is selling women's shoes, measuring, fitting, and so forth. Together, Mr. Huston and Miss Whipple

switch the theme of the vehicle over to another track, one which runs through every day life and is traversed by folks who are in quest of wealth, success, happiness and sorrow. It is all to one end, entertainment. No more versatile act has been seen in the city for some time than that of the Four Meyokas, three Japanese children and their father, who simply introduce the most interesting and profitable. The girls, there are two of them, are splendid acrobats, doing all of their stunts on their hands. They move in perfect unison and readily accomplish several things far removed from the usual run. From acrobatics they turn to string music and then, by their brother, a plump lad, who has acquired a delightful lisp in his struggle with the English language. Also, they sing and dance particularly well, the girls appearing at least 50 per cent. American. J. Kelvin Brennan and Bert Rule, familiar to music lovers as popular writers, sing some of their own tunes in their own way and it is a way which hardly may be improved upon. If they wrote the songs themselves, then they ought to sing them well, you say. Granted, but they even a step beyond and sing them very well, particularly the one which tells of a trip down the Mississippi from its source to New Orleans. They will be heartily received during their week's visit.

Muscle from all sorts of oddities is furnished by Charlie Samson, who plays a hat rack, a calabash pipe, swinking ukeleles and a bazzo. The last named is a funny looking bird and gives forth a series of whistles and chirps which to a disengaged motorist, Charles is slender and tall and adds a make-up to accentuate his star-like appearance. He has been with us before and probably will be again.

Countess Verona starts the program in motion. It's a good start, too, much better than the usual show given by the act. The countess, who carries a gypsyish look, plays a cymbalom. The instrument at first glimmers might well be something else, but she has named it cymbalom and so it stands. It is played with strikers as a xylophone and produces pleasant, even though, quaint harmony.

Two Johnsons and a Baker scale hats about the stage and juggle Indian clubs with rare skill. The "boob" of the act turns out to be the star performer as is often the case. They are extremely clever. Maude and Marion Dunn sing and dance and one portrays stage celebrities, past and present. They were handicapped somewhat yesterday by the absence of stage costumes, due to tardy arrival of trunks, but were cordially received nevertheless.

A Bruce Seale picture is shown as well as Keith's News Weekly showing current happenings. The Topics, as usual, reprint a lot of the best clippings from prominent periodicals.

THE STRAND THEATRE

Patrons of the strand theatre who attended yesterday's performances were elated with the new film production, which head the bill at this popular house for the first three days of the week. They are "The Wolf," featuring Earle Williams in the title role, and "The Splendid Sin," with Madeline Travers in the leading part. In addition to these two splendid plays there is a first class comedy, as well as a very interesting and instructive series of scenes of current events. All in all the bill is most enjoyable and reflects great credit upon the management.

"The Wolf" is a story of the Canadian northwest depicting Jules Beauchamp, a man peculiar in his manners, but a man who is a clean and vigorous and superb in his environment. When he learns that the half-breed girl, fiancée of his friend Baptiste, has sought death as a relief from the famine of the wolf, he sets himself on the trail of vengeance and follows the Wolf to a lonely spot in the mountains and in the black of night engages in a life and death struggle.

"The Splendid Sin" deals with the story based on Lord and Lady Chatham's desire for a child and in doing so an illegitimate baby of Lord Chatham's sister, who is taken by Lady Chatham as her own after the death of the child's mother. This action on the part of Lady Chatham is mostly to protect the name of the mother of the baby and shield the child of all stigma. The scheme is so well worked out that even the absent husband, Lord Chatham, is deceived when he returns to his home. The story is very interesting.

An announcement of great interest was made yesterday when it was stated that Wednesday, Thursday and Friday a Fur Review will be given by Miss Rose G. Calise, local furrier. This promises to be a real novelty. The fur will be furnished by Miss Calise, while the Gerson company will furnish the furs. Miss Susan Thorpe will look after the millinery. A real treat is in store for the women folks of this city.

SOUTH END NIGHT AT LOWELL OPERA HOUSE

With a brief address by His Honor, Mayor Perry D. Thompson, in which he outlined the program of the forthcoming South End celebration in honor of its lighting, the committee, Daniel C. Gervase, chairman of the committee on arrangements; three entertainment numbers by Lowell boys who donned khaki or blue when Uncle Sam called; and a splendid presentation of William Vaughn Moody's great drama of the west, "The Great Divide," by the popular Lowell players. "South End" Night at the Opera House proved a most enjoyable event for the large audience who filled this spacious playhouse to capacity last evening. Incidentally it helped in a large measure to swell the fund for the coming celebration, as the management turned over one half of the gross receipts of the day's business to the committee at the close of the evening performance. "The Great Divide," in which Henry Miller appeared in this city several years ago, made no introduction to local theatre-goers. Thrilling with emotion, pregnant with dramatic moments, and with an absorbing love story winding through it, the play incidentally helped in a large measure to swell the fund for the coming celebration, as the management turned over one half of the gross receipts of the day's business to the committee at the close of the evening performance. "The Great Divide," in which Henry Miller appeared in this city several years ago, made no introduction to local theatre-goers. Your Children Need Laxative!

The children need your closest attention, especially after "stuffing" themselves with sweets, etc., at a party or the like.

They are liable to get up in the morning complaining of cramps, bad tasting mouth, liable to have puffing eyes from restless slumber; feel tired and cranky; distended and uncomfortable. Act promptly. Give them a dose of Dr. True's Elixir, the Family Laxative and Worm Expeller, which millions of mothers are given by their parents, and who themselves are administering today to their little ones.

Only the purest of herbs are used—no harmful drugs—will relieve pleasurable the ordinary cases of children's illness, constipation—worms, etc. Symptoms of Worms: Constipation, deranged stomach, swollen upper lips, sour breath, restless slumber, head and full belly, with occasional griping and pains about the navel, pale face of leaden tint, eyes heavy and dull, twitching eyelids, itching of the nose, itching of the rectum, short dry cough, and cracks, distended and uncomfortable sticking out on the tongue, starting during sleep, slow fever.

Mrs. Wm. G. Bonin of Caddo, Oklahoma, writes: "Dr. True's Elixir for the last 12 years, and certainly know the value of it."

Three shooks AT FOUR DEALERS.

Too Ill to Work

Scores of Women

in homes, stores, offices and factories are not fit to be at work. They toil on day after day and year after year suffering with distressing weaknesses and derangements, hoping against hope that they will soon feel better, but how can they hope to do good work or escape permanent invalidism?

Such women are in danger of derangement of women's functions. They owe it to themselves to try that good old fashioned root and herb remedy Lydia E. Pinkham's Vegetable Compound, which for more than forty years has been restoring American Women to health and strength.

Here is a Notable Example

Joplin, Missouri.—"I took Lydia E. Pinkham's Vegetable Compound to see if it really would do as it was advertised and it sure did, and more. I was weak and could not do much work, had bearing down pains and had to go to bed. I learned about the Vegetable Compound from my mother and my husband told me to get it. After taking one bottle I was able to be on my feet most of the time and do my work again. I have a baby eleven months old and I have done all my own work, even the washing and ironing since she was three weeks old. I certainly recommend your great medicine to everyone who complains of female trouble and I am more than willing for you to use my testimonial."

—Mrs. TIMOTHY CRANEY, 426 Connor Ave., Joplin, Mo.

And Another

Chicago, Illinois.—"I suffered for four years with pains in my sides, hips and legs and a terrible backache. I could not do any work at all. I was treated by many physicians but they did not help me. I read in one of your books where other women have been helped by Lydia E. Pinkham's Vegetable Compound, so I tried it and it helped me very much so that now I can do everything in the house. I have told my friends about Vegetable Compound and you have my permission to use this letter."

—Mrs. I. OVENSTEIN, 902 S. Marshfield Avenue, Chicago, Ill.

Thousands of such Letters Prove the Curative Value of

Lydia E. Pinkham's Vegetable Compound

Trade Union for English Clergymen

LONDON, Sept. 17.—(Correspondence of the Associated Press)—A trade union for English clergymen, to enforce a minimum salary for the benefit of underpaid pastors is being advocated by a Dorsetshire minister. More than half the clergymen in the church of England receive less than \$1000 a year.

Old-time remedy

You may experiment with many so-called wonderful new discoveries for the cure of Dyspepsia, Liver trouble, or Constipation,—you may spend many hard earned dollars for the widely advertised pills, powders or tablets, and after trying them all you may find yourself practically no better than when you commenced. There is one safe, speedy, reliable, household remedy, which has been prepared and sold in Maine for more than sixty years, and which has given relief to thousands of sick and suffering persons,—the true and original "L. F." Atwood's Medicine. The dose is small and easily taken, the action is prompt and sure. Doubtless your Mother or Grandmother kept it always in the house ready for use in time of trouble, and you will be glad to get back to it, after a series of disappointments. Get a bottle today and be prepared to ward off sickness. Fifty cents at your dealer's.

The "L. F." Medicine Co., Portland, Maine.

These could not be put on sale at a more opportune moment, as every one must be thinking of getting out the warmer bed coverings by this time. We're placing on sale 150 pairs of heavy wool finished blankets in a wonderful assortment of plaids, both light and dark combinations, made to fit any full size bed; usually sell at \$6.00 pair.

SPEEDY ACTION URGED AT OPENING SESSION

WASHINGTON, Oct. 7.—Representatives of the public evinced a spirited desire for action, rather than oratory, at the opening session yesterday of the industrial conference called by President Wilson.

Apparently with the determination of differentiating this conference from many similar gatherings held at Washington, the public delegates demanded that sessions be held night and day, if necessary, to establish a basis for harmonious relations between capital and labor during the present abnormal economic conditions. Bernard M. Baruch, of New York, one of the delegates, was active in directing the affairs of the conference, which was considered significant in view of his close friendship with President Wilson and his frequent visits to the White House.

After the appointment of committees on nominations and rules, the conference adjourned to meet this morning. Gov. McNab of San Francisco, a representative of the public, was mentioned prominently for permanent chairman, but members of both committees declined to indicate what their recommendations would be.

A motion to adjourn by W. D. Mahon, one of the delegates of the American Federation of Labor, brought the first indication that the men named to represent the public were prepared to force results. Thomas L. Chadbourne, New York, who sat with Mr. Baruch, took the floor immediately.

"All the men on both sides and in the middle of this hall," he said, referring to the seating arrangements whereby the delegates of capital and labor were on either hand of the public representatives' seats, "are here to work as rapidly as possible and to adjourn as little as possible and I know that the men in the middle of this situation want to carry on these conferences day and night, if necessary, to get through. I would like very much to see the motion changed so we can meet again this afternoon or evening."

Mr. Mahon explained that a meeting of the executive council of the federation had been called some time previously which it was impossible to

postpone and Mr. Chadbourne withdrew his suggestion. Later on, however, Mr. McNab took the floor with the same thought as that expressed by Mr. Chadbourne.

"In view of the fact that this conference is in the interest of harmony," said Mr. McNab, "suppose we set the example of working harmoniously and not making the principal and first feature of it a desire to adjourn." He declared that the conference should show the people of the country, how to work, but he did not press the point and the motion to adjourn was carried.

Virtually every delegate was in his seat when Secretary Wilson called the meeting to order in the Pan-American Union building's beautiful hall of the Americas. John Barrett, director general of the union, in welcoming the delegates to the use of the building erected through the generosity of the late Andrew Carnegie, called attention to the fact that this conference was meeting in a structure devoted to maintaining the peace of the western hemisphere. The very decorations of the hall, he pointed out, bore the word, "Peace."

"May I emphasize," Mr. Barrett said, "that the Pan-American union is a great, practical, working league of nations in the world that has long been and is a going concern. Its governing board, its staff, its equipment and this building form also an actual industrial plant that manufactures and distributes products of good will and information that make for permanent peace and welfare of the western hemisphere and hence of all the world."

"During the last 12 years the supreme council, composed of Latin-American diplomatic representatives in Washington and the secretary of state of the United States, which gathers every month, has prevented through its moral influence six wars between American governments and the peoples."

Secretary Wilson told the delegates that they had been given opportunity for splendid achievement, and wished them godspeed on behalf of the president.

The only discordant element affecting the conference was the absence of John L. Lewis of the United Mine Workers, who is engaged in wage negotiations that threaten a strike, and Frank Duffy of the carpenters, who was said to have declined to attend the conference. Officials of the American Federation of Labor, however, said that, as representation in the conference was not on the basis of trades, both miners and carpenters might be said to have spokesmen in the other labor delegates. All the railroad unions sent delegates.

The following statement was issued by Magnus W. Alexander, managing director of the national industrial conference board at the conclusion of the session.

"Secretary of Labor Wilson voiced the sentiments of the employers when he declared in his opening address that the more productive we are, the sooner we will replace the wastage of war, return to normal price levels and abolish the opportunity for undue profiteering and in his further declara-

tion that the conference has before it the opportunity for promoting the welfare of the country and of all mankind."

"The spirit in which the conference begins justifies the expectation that real progress may be made in settling several great questions. The employers are gratified that the four railway brotherhoods decided to participate, feeling that this makes for the harmonious unity which must be the keynote of constructive accomplishment."

SENT BOMB TO MRS. WANAMAKER

NEW YORK, Oct. 7.—Charged with having sent a bomb to the home of Mrs. Rodman Wanamaker at Tuxedo Park, N. J., Sept. 27, Albert G. Kurth, a butler, was committed to Bellevue hospital for observation yesterday. The prisoner, the police say, asserted he sent the bomb, which was loaded with black powder and red pepper, to Elizabeth Mary O'Brien, a maid, who he believed would open the package. The package was opened by Mrs. Wanamaker, but the bomb did not explode.

Kurth made his confession while awaiting trial for grand larceny, for which he was held in \$5000 bail last Friday.

Kurth told the detectives, they said, that Miss O'Brien was instrumental in obtaining his discharge from the Wanamaker home where he had been employed two years. At the time of his arrest he was superintendent of an apartment house.

Mrs. Wanamaker's suspicions were aroused by the unusual weight of the package and the manner in which it was wrapped. She cautiously unwrapped it and, in lifting up the corner of the lavender perfume box in which the bomb was placed, she noticed the powder. She sent the box to police headquarters where examination showed that sandpaper had been pasted on the inside and a fuse made of four matches so arranged that if the lid was forcibly pulled off they would ignite on the sandpaper and set fire to the powder.

It was theft of whiskey and wine that Kurth was technically charged with when arrested. Detectives said they found \$200 worth of it in his cellar.

The police said that the man, although he has lived in this country 30 years, is a native of Germany. He is 53 years old.

O. M. I. CADETS MAY FORM AN ALUMNI

Plans for fall and winter activities will be discussed by the O. M. I. Cadets at a meeting to be held this evening. The organization's armory at 710 North Street. The creation of an alumni body, to include all former members has been under informal consideration for some time and will come up for serious discussion tonight.

The cadets will observe their 17th anniversary next month and the members are anticipating the event with a great deal of interest. No plans for the occasion have been advanced as yet, but it is believed that a start will be

Ringworm— Scalp Sores

If you want speedy help try D. D. D. Prescription. So easy to apply, not greasy or messy. It washes into the scalp and the relief is instant. Try it today. We guarantee the first bottle. 35c. 60c. and \$1.00.

D. D. D. DOWS' TWO DRUG STORES

Every step a hammer blow

EVERY step you take with hard leather heels on modern, hard pavements acts as a hammer blow to your nervous system.

The average person, even though his work is indoors, takes 8,000 steps a day—gives his system 8,000 daily jolts and jars. The constant repetition of these shocks exhausts your energies, contributes largely to the state of over-fatigue.

You can eliminate this great cause of fatigue. You cannot change the hard pavements, but you can change your heels. O'Sullivan's Heels absorb the shocks that tire you out. They relieve the jolts and jars that make a burden of walking.

To secure the great resiliency and durability of O'Sullivan's

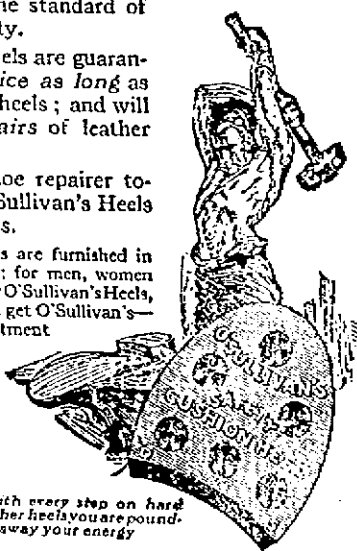

Heels, the highest grades of rubber are "compounded" with the best toughening agents known. The "compound" is then "cured" or baked under high pressure.

It is this special process that has, since the making of the first rubber heel, established O'Sullivan's Heels as the standard of rubber heel quality.

O'Sullivan's Heels are guaranteed to wear twice as long as ordinary rubber heels; and will outlast three pairs of leather heels.

Go to your shoe repairer today and have O'Sullivan's Heels put on your shoes.

O'Sullivan's Heels are furnished in black, white or tan; for men, women and children. Specify O'Sullivan's Heels, and be sure that you get O'Sullivan's—avoid the disappointment of substitutes.

O'Sullivan's Heels

Absorb the shocks that tire you out

With every step on hard leather heels you are pounding away your energy

made this evening and at least a tentative program adopted. The annual officers' ball will come in December and as in former years will be the leading social event of the season in cadet circles.

Athletics have not been overlooked and the football season will be officially ushered in tonight when Manager Gargan announces the schedule of games. As all of last year's players are again available, a strong eleven seems assured.

TALK ON "THRIFT IN COLONIAL TIMES"

At the meeting of the Lowell Historical society tomorrow evening in Memorial hall, Hon. Albert P. Langtry, secretary of the commonwealth of Massachusetts, will deliver an address on "Thrift in Colonial Times." As Mr. Langtry in his official capacity is the custodian of the state archives and he has full access to all matters relating to his interesting subject from the earliest days of the Pilgrims and Puritans in this colony. He is an eloquent speaker, and his address on a subject which is beginning to occupy so much of public attention will be extremely interesting not only in its historical aspect but as a study of our times. The society has in its collections some old account books covering the periods following the war the American Revolution, the war of 1812 and the Civil war, which fur-

nish information and possibly some consolation in these days of high prices. The Lowell Historical society is fortunate in securing Mr. Langtry to address the citizens of Lowell at this time. The meeting is open to all without charge, and everyone is cordially invited to attend.

WOULD EXTEND WAR TIME BAN ON PASSPORTS

WASHINGTON, Oct. 7.—Extension for a year of the war time restrictions on the issuance of passports will be urged before the house foreign affairs committee by Representative Johnson of Washington, chairman of the immigration committee. Secretary Langston will present the state department's attitude in the matter.

Representative Johnson who has introduced a bill to continue the control, contents his measure would stop any influx of undesirable aliens such as Russian radicals awaiting opportunity to come to America.

"Certain European countries are trying to unload these undesirable on us," he said. "Unless we can check the incoming of these revolutionists, the United States will become, instead of the peaceful melting pot it has been, a veritable hell's cauldron."

PROHIBITION HAS NOT INCREASED CONSUMPTION OF ICE CREAM—

RAISE COMING
CHICAGO, Oct. 7.—Delegates attending the meeting of the National Association of Ice Cream Manufacturers, denied today that prohibition had caused an increase in the consumption of ice cream. Instead, it was asserted, consumption had decreased.

The dealers predicted early increases in ice cream prices as a result of the sugar shortage and higher labor costs.

MINER BECOMES EARL

Leaves for Europe to Claim Heritage, Wearing Hobnailed Boots

DAWSON, Y. T., Oct. 7.—Robert Leson, a Yukon miner, recently received a letter stating he had become heir to the title and estate of the Earl of Milltown. Today, carrying his baggage and wearing a flannel shirt and hobnailed boots, he started for Ireland to claim his heritage.

LARGE ATTENDANCE AT EVENING SCHOOLS

Increased attendance over other years marked the opening of the city's evening high and elementary schools last night. The large registration gave convincing evidence of a realization of the splendid opportunities offered in the many courses to those young people who have to spend their days in manual labor and have only the evening hours for study and further advancement of their chosen vocation.

Registration for Americanization classes also was held at several of the elementary schools. The exact numbers, however, will not be available until later in the week.

Henry H. Harris, principal of the evening high school, was particularly gratified with the enrollment there and looks forward to the most profitable and busiest year in the history of the school.

FINE BOXING CARD FOR KID GLEASON OF WHITE
OPENING SHOW SOX "SICK AT HEART"

The card announced for the opening show under the new management at the Crescent A.A. on next Thursday night is a very attractive one and should furnish abundant action. Pat Reed, of Boston, one of the leading men of his weight in this section, and well and favorably known in this city, where he knocked out George Rice a few months ago, will appear in the main bout against Paul Dixon of Brooklyn, who is said to be a top-notch fighter. Both men are training carefully for the match as the winner has been promised several attractive engagements. They are scheduled to fight in the semi-final, between Kid Gleason of Lawrence and Young Leonard of Chelsea. The pair met here at the South End benefit show and put up a whale of a bout. It was called a draw. Young Dennis, of the Hellens club, and Kid Diamond, of the B. & M. club, will meet in one preliminary while Dinky Welch and Young Lando will perform in the other. The number, Marty Carney will act as third man in the ring.

WILL RESUME
SERIES SATURDAY

According to present plans the Knights of Columbus and Believers will play the second game of their series at Spaulding park next Saturday afternoon. The uncertainty of the weather kept down the crowd last week, but a large turnout is expected at the coming game. If the Knights win the series will be over, but if the Believers turn the tables, a third game will be necessary, probably to be played on the Saturday following.

JOE EAGAN WINS

FRAMINGHAM, Oct. 7.—Joe Eagan of Boston won the decision over Johnny Alcock of Philadelphia in the main bout at the Framingham Athletic club last night before a crowd of more than 1000 persons. It was a 12-round affair. Eagan led in six of the rounds and two were even. In the semi-final, Bert Jones of Devere was awarded the decision over Battling O'Neill of Lynn in eight rounds. In the preliminary, Young Finn of Milford won over Tony Powers of Mills in the fifth round, and Young Bryson of Waltham defeated Johnny Dundee of Milford in six rounds.

Walvis, on the coast of southwest Africa, is said to be the sandiest place in the world.

STRIKES THREATEN

Big Doings for Bowlers Who Can "Spare" The Time

That there will be a great number of strikes in the United States and Canada within the next few months is a certainty, judging by the way the pin topplers in the industrial world are warming up for their first big international telegraphic bowling tournament. Employees of concern combining the recreational side of life with the business end of it also are too busy getting in shape for the big meet to give a thought to labor troubles, and as a consequence are having their "battles" on the road old made way in friendly competition.

That no little amount of interest is being shown in the tournament recently suggested is proven by the way entries are pouring in from all parts of the country. Over one hundred teams have already signified their intention of entering, and the following week should easily see the number of entrants pass the 200 mark. One of the provisions in the rules makes it compulsory that every player, competitor, must have been an employee of the concern which he is to represent at least two months prior to the date of receipt of entry. This ruling will prevent the sudden strengthening of teams for the tournament. The five securing the largest total in the three games rolled will not only become winners of the trophy so donated, but will be labeled as the international champions of the industrial bowling world, as this is the first tournament ever held open to all industrial concerns.

Further particulars regarding the big event may be secured by communicating with N. J. Thompson, 223 South Wabash avenue, Chicago.

WORLD SERIES

Winners Will Receive Over \$5000 Each

CHICAGO, Oct. 7.—Yesterday's game was the last in which players on the Americans shared receipts, and, according to unofficial figures based on a total player's share of \$260,549.66, the winning team will divide among its members \$117,157.35. The losing team will take down \$75,104.90 to be shared by its members.

Based on a division of the team shares among 22 members, the winners of the championship each will receive \$5323.79 and the members of the defeated club each will get \$3395.95.

STEAMER WHICH ASKED
FOR HELP ARRIVES

BOSTON, Oct. 7.—The steamer Lake Gravel, which sent out a call for assistance last Saturday because of coal shortages, reached St. John's, N. F., last night, according to a dispatch received here today by her agents, J. S. Emery & Co. The Lake Gravel is bound from Fowey, England, for Portland. She was about 900 miles east of Cape Sable when she sent out for aid. The message received by her owners today said that the heavy sea that followed the recent mid-ocean storm has moderated so that she had been able to make port with her limited coal supply.

STRUGGLE BETWEEN N. B.
MILLS AND EMPLOYEES

NEW BEDFORD, Oct. 7.—With the textile council of New Bedford endorsing the strike of the loomfixers at the Beacon mill of this city, and the Cotton Manufacturers' Association pledging its moral and financial support to the firm on the claim that the strike was called without cause, the issue is resolving itself into a struggle between the mill men and the employees. Last week the loomfixers left their positions, and when the mill sought to fill the vacancies this week, weavers to the number of 300 walked out in sympathy with the striking fixers.

The various unions of the city will hold meetings this week to decide how far they will support the loomfixers in their demands. In the meantime a committee has been appointed by the textile council to seek a conference with the manufacturers association. The situation at the mill today was reported to be unchanged from yesterday.

The weavers have expressed their

HEAD OF "FERNCROFT
INN" FINED \$500

BOSTON, Oct. 7.—George Faulkner, president of the Middleton Automobile club, formerly Ferncroft Inn, pleaded guilty in the federal court today to a charge of violating the war-time prohibition act. Federal officers who raided the club last Sunday found liquor being served to members. Faulkner was fined \$500 and notified that any continued violation of the law would expose officials of the club to jail sentences.

MINES CLOSED BY

Senator Hitchcock Scouts Action of Mass. Democratic Convention

(Special to The Sun)
WASHINGTON, D. C., Oct. 7.—The democratic party of Massachusetts has on so few occasions been of any service to the national democratic party that I am not much interested in their attitude," shouted Senator Hitchcock hotly as he sprang to his feet to refute the statement of Senator Borah that the action of the state committee showed the sentiment of many of that political party in favor of amendments and self-determination. Peppery debate followed in which the democratic and republican platforms of Massachusetts came in for side-swipes. During the cross fire Senator Walsh smiled broadly, but refused to be talked out of his silence. Walsh has announced that he will address the senate on the league late this week.

RICHARDS.

BILLERICA MAN
DIES ON CAR

WOBURN, Oct. 7.—Fred R. Gray, who for a number of years was engaged in the manufacture of door and window screens in Boston died from heart failure about 5:30 yesterday afternoon on an electric car near Woburn Centre. He was 51 years of age and lived in the Riverdale section of Billerica. The body was viewed by Dr. Charles P. McCarthy, assistant medical examiner. He is survived by his wife and three sons.

LOWELL TEXTILE SCHOOL

The evening classes of the Lowell Textile school commenced their fall term last night with a registration which will tax the instruction force and machinery to the limit. All textile departments will be operated four evenings a week to capacity and also more students than usual have registered in the free hand and mechanical drawing courses. A number of students from Lawrence and nearby towns are among the registrants.

Handkerchiefs were unknown before the early part of the 16th century.

WARNING BY HOOVER

Nation Faces Dangerous
Radicalism Unless Teach-
ers Get Better Pay

SAN FRANCISCO, Oct. 7.—Warning that unless better pay is forthcoming for teachers in American colleges, the nation will face dangerous radicalism from centers of higher education was voiced by Herbert Hoover in an address before the Harvard club of California last night.

"Out of the war and misery of the war has arisen a silhouette of class distinction and class hatred that is not to be obliterated with a few words," he said. "The development of radicalism in Europe during the last 12 months, is beyond anything in history. America is a fertile field and responds quickly to any wind that may blow. This European wind of radicalism is sweeping our way and it is affecting us."

"In our great universities the instructing and faculty staffs are hard hit by the present economic situation which in the face of enormous prosperity returns something like \$7 a day to the educator, while the craftsman who repairs his kitchen sink makes more in fewer hours of work."

"America cannot permit this growing sense of injustice to remain with the nation's educators. There is a menace to the nation's safety in discontent in the background of the university faculty work and every right thinking citizen must see it."

Mr. Hoover declared other independent universities of the nation should follow Harvard's example in seeking to raise an endowment for increasing teachers' salaries 50 to 100 per cent, and that legislatures should take like steps for state institutions.

LEARNING WHAT THE
WORLD IS MADE OF

Early in October a scientific expedition will arrive in Seattle from Alaska, which will bring back information tending to throw additional light on the dark spot of modern science—what composes the inside of the earth.

Announcement is made by the National Geographical society from its headquarters at Washington, that the sixth Mt. Katmai expedition of the society is preparing to sail from Kodiak Island after many months spent in fruitful scientific study of the unique and spectacular natural phenomenon known as "The Valley of Ten Thousand Smokes," at the foot of the gigantic Mt. Katmai volcano.

Not only has the expedition, headed by Dr. Robert F. Griggs, accumulated an amount of scientific data beyond happiest anticipation, but according to a telegraphic report to the society, a fine harbor, not previously known, has been found which affords a feasible route to this region of the innumerable vents of various kind, which spurt steam and vapors of almost unbelievable temperatures.

The discovery of this harbor is considered of marked interest because President Wilson has proclaimed the region of "Ten Thousand Smokes" a national monument, and it will not be long before this new federal reservation will be visited by tourists who wish to view a spectacle no less awe-inspiring than the spouting geysers and other natural wonders of our own national parks.

Hidden Secrets of the World

"But the primary interest of this region to the civilized world will be the unequalled opportunity it affords for penetrating some of the hidden

secrets beneath the surface of the globe on which we dwell," says a bulletin from the National Geographical society.

"We laugh at the child who says the moon is made of green cheese, but the child might smile at us if he would only ask, 'What is the earth made of?'"

"Though science has penetrated to the infinitesimal secrets of the invisible atom, and it has reached to other solar systems so far out in the universe that we know about stars from which it takes the light 5000 years to travel to this earth. Its penetration of the inner earth is no deeper, comparatively, than a pin scratch on the cover of a mammoth balloon."

"The ancients thought the way to learn the mysteries of what lies under our feet was to dig deeper, and even

deeper, but we know now that even modern engineering, which can pierce the mountains and burrows under rivers, cannot penetrate deeply enough to tell much of Mother Earth."

"In such phenomena as volcanic eruptions, earthquakes and geysers lie the key to the hitherto hidden secrets of the globe. It has been established that the hissing, steaming, exploding acres that seem like a multi-magnified depot yard of Mogul engines, is a modern example of what the geysers of Yellowstone National Park once were."

Terrible Heat Inside

"The vastness and intensity of the molten mass which spits the vapors of this terrifying valley is indicated by the discovery of new high temperatures among the fumaroles. Early parties were not equipped to measure

the unexpected heat of some of the fumaroles. Dr. Griggs wires that the hottest ones have just been found, where the highest temperature was 1151.2 Fahrenheit, and that many of the escaping vapors kindle wood into a blaze as readily as a match burns when struck."

"Besides chemists, petrographers, zoologists and botanists, the expedition this summer marked a departure in scientific explorations of this kind by having along motion-picture photographers. Ten thousand filmed feet of the spectacle, which words cannot picture, are being brought back, to be shown to members of the society."

"Another finding of popular interest was the discovery of a region north of the National Monument reservation which not only is one of great natural beauty, but abounds in fish and game."

"The study of the economic side of this hitherto unknown region was not neglected. Dr. Griggs is shipping to Washington botanical and zoological material as well as specimens of plants and animals found about Mt. Katmai."

MATRIMONIAL

Mr. Robert H. Dawson and Miss Rose B. Rogers were married yesterday afternoon at 3 o'clock at the parochial residence of St. Michael's church by the pastor, Rev. John J. Shaw. The groom's father, John J. Dawson, was best man and the bride was attended by her sister, Miss Marie Rogers. The ceremony was followed by a reception at the Richardson hotel and the bridal party left later for New York. They will return by way of the Mohawk trail. A rather unusual coincidence in connection with the marriage was contained in the fact that it was Father Shaw who married the groom's father, who was best man yesterday.

McCarthy—Gookin.
Mr. Dennis J. McCarthy of Cambridge and Miss Ellen J. Gookin of this city were married yesterday at the Sacred Heart rectory, the ceremony being performed by Rev. T. Franklin Wood, O.M.I. Miss Lena Gookin, a sister of the bride, acted as bridesmaid, while the best man was Mr. William L. Lynch of Cambridge. At the close of the ceremony a reception was held at

TURKISH THRONE IS THREATENED

Crisis in Asia Minor Similar to That Caused by Seizure of Fiume

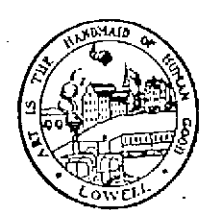

Turkish Nationalist Troops Capture Great R. R. Center—Allies Helpless

PARIS, Oct. 7.—Turkish Nationalist troops said to number upwards of 300,000 men and commanded by Mustafa Kemal seem to have precipitated in Asia Minor on a major scale, a crisis similar to that which arose in Dalmatia when Captain Gabriele d'Annunzio seized the city of Fiume. There is a feeling that the situation in Asia Minor has gone beyond the control of the Turkish government and that the allied powers are helpless, at present, to bring military pressure to bear and afford any appreciable relief. There are some who question whether the powers are sufficiently united or inclined to intervene.

General Ali Riza Pasha, the new grand vizier, has opened negotiations with Mustafa Kemal, according to a Constantinople despatch. Konieh, a railroad center, is in the hands of the Turkish Nationalist troops. This city, which in the days of Roman power was known as Iconium and was the capital of the province of Lycaonia, stands in a position which virtually dominates southern Asia Minor. Its capture appears to indicate that Mustafa Kemal is in control of a vast region stretching from Erzerum, the principal city of Turkish Armenia, a distance of about 425 miles. It is said the fall of the Turkish cabinet was caused by the capture of Konieh, and there seems to be some apprehension in some quarters that the Turkish throne may be in danger. On the other hand, French circles point out that Djemal Pasha, the newly appointed Turkish minister of war, is a political ally of Mustafa Kemal. The task of working out the future of Turkey has not progressed far in the peace conference so far as shown by actual results. Turkish delegates were invited to come to Paris in an advisory capacity some time ago, but they have since returned to Constantinople at the request of the conference. It has been reported.

"It is the news, the truth and fit to print." This is the standard The Sun follows in printing city, state and national news.

NOTICE!

On and after Wednesday, October 8, 1919, the bridge on Broadway over Pawtucket Canal, will be closed through passage until such time as the necessary repairs upon bridge are completed. There will be a path for pedestrians maintained while the work is being done.

DENNIS A. MURPHY, Commissioner Streets and Highways.

change, but did not deposit any fare in the box. Chicoline also held out fares in another instance on this trip, he said.

He also rode on Chicoline's car, leaving the square at 8 p. m. that evening, and said that he gave Chicoline 50 cents, paying for two. Only one fare was deposited, he said. A woman and man boarded the car later, he said, and Chicoline deposited but one fare.

Cross-Examination
He said, when cross-examined by Mr. Tierney, that he had conferred with his chief, Mr. Lahan, shortly after his arrival in Lowell early in September. The conference had been held at the (Harrison) hotel, and Mr. Lahan had given him the number of a conductor to investigate. The number given him to investigate was called No. 2391.

"Did you discuss conductor No. 2391 with Mr. Lahan on any day before you commenced to investigate on Sept. 15?" asked Mr. Tierney.

"No," replied witness.

He afterwards said that he couldn't recall whether he had discussed conductor 2391 before Sept. 15 or not.

Mr. Tierney asked him to tell him without referring to his notes what the weather conditions were on the trip he made on Sept. 15, also where the cars were bound, how many passengers were on, etc.

Witness was unable to recall the answers without referring to his notes.

"How far were you from the conductor when you took your seat in the car?"

"I can't recollect."

"Where did you sit?"

"I can't recollect."

"Do you recollect what observations you made on that trip at 1.40 on Sept. 15?"

"No," replied witness.

He afterwards said that he couldn't recall whether he had discussed conductor 2391 before Sept. 15 or not.

Mr. Tierney asked him to tell him without referring to his notes what the weather conditions were on the trip he made on Sept. 15, also where the cars were bound, how many passengers were on, etc.

Witness was unable to recall the answers without referring to his notes.

"How far were you from the conductor when you took your seat in the car?"

"I can't recollect."

"Where did you sit?"

"I can't recollect."

"Do you recollect what observations you made on that trip at 1.40 on Sept. 15?"

"No," replied witness.

He afterwards said that he couldn't recall whether he had discussed conductor 2391 before Sept. 15 or not.

Mr. Tierney asked him to tell him without referring to his notes what the weather conditions were on the trip he made on Sept. 15, also where the cars were bound, how many passengers were on, etc.

Witness was unable to recall the answers without referring to his notes.

SOUTH END WELCOME HOME CELEBRATION

Beginning tonight and continuing every night this week until Friday the general committee in charge of the South End welcome-home celebration will meet to pick up odds and ends of preparations now dangling in the web of uncertainty. There is much left to do, but the members are sure that Friday morning will dawn upon a stage all set for the most pretentious event the city ever has planned.

As is generally known the celebration continues over four days, Friday, Saturday, Sunday and Monday, the 10th, 11th, 12th and 13th and the program for each day contain features beyond number. Every form of amusement, to appeal to old and young alike will be on tap, all culminating in the huge parade of military, civil, fraternal and semi-military organizations on the holiday.

The committee is on the last lap and desires to swing into the home stretch considerable in advance of the plans that is, everything must be cleaned up and in readiness for Friday's opening. Co-operation still is needed, merchants may donate more to the general fund if they wish and all suggestions will reach receptive minds. It is only by pulling together that the committee will feel sure of complete success.

A substantial check was forwarded to the treasurer of the committee to help defray the expenses of the celebration by the executive committee of the 101st Ladies' auxiliary, who held a meeting at the board of trade rooms last evening. Final reports were made of the recent whilst party and entertainment in the K. of C. hall. Chairman Mrs. William H. Merritt presided.

DEATHS

ELIAS—Mrs. Shaly Ossad Elias, wife of George Elias, died Saturday at the Chelmsford street hospital, aged 70 years. The funeral took place Sunday afternoon from the rooms of Undertaker Joseph Albert in Aiken street. A Libera was sung at St. Patrick's church and burial was in St. Patrick's cemetery.

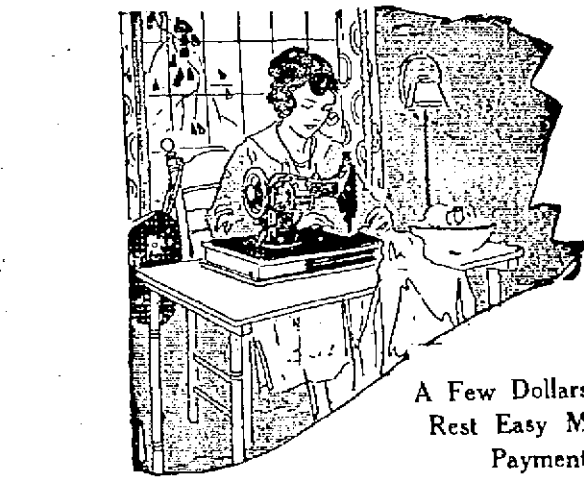

LEDoux—Mrs. Rose Ledoux died yesterday at her home, 32 Clark street, aged 30 years. She leaves her husband, Maurice Ledoux; two daughters, Marie Rose and Alice; two sons, Donat and Vital Ledoux; her father, Zephory Moreau of Canada and five brothers, Rev. Louis Moreau, Edmond, Lucien, Henry and Armand Moreau, all of Canada.

PELLETER—Mrs. Laura J. Pelletier died yesterday at the Lowell Corporation hospital. She is survived by her husband, Emile Pelletier. The body was taken to her home, 19 Carmine street, by Undertakers Amelée Archambault & Sons.

GLYNN—John F. Glynn, aged 31 years, died this morning at the home of his sister, Miss Ellen M. Glynn, 129 Worthen street. The deceased leaves two sisters, Mrs. Anna Whitting and Miss Ellen M. Glynn.

McLELLAN—Robert McLehlan, aged 24 years, died this morning at St. John's hospital. The body was removed to the funeral parlors of Charles H. Malloy's Sons. The deceased leaves, besides his father and mother, of Prince Edward Island, five brothers, Joseph and Alexander of Framingham; John of Newton, Cyrille of Prince Edward Island; Augustin of Winnipeg, Manitoba.

Goods consist of dry goods, such as sweaters, stockings, rubber boots, oilskins, slickers, coats and pants. Also a good assortment of small hardware.

FUNERALS

FLEMINGS—The funeral of Mrs. Ella C. Flemings was held from her residence, 122 Parkview avenue yesterday afternoon. The services were conducted by Rev. Benjamin A. Witcomb, pastor of the Walnut avenue Congregational church of Boston. Appropriate selections were sung by the Schubert male quartet of Boston. The floral offerings were numerous and beautiful. The bearers were James P. Flemings, Herbert L. Trull, Harry L. Flemings and Frederick N. Trull. Burial was in the family lot in the Lowell cemetery. The funeral arrangements were in charge of Harvey H. Fleming, under the direction of Undertaker Geo. V. Bailey.

JOHNS—The funeral of Mrs. Josephine L. Johns took place at her home in Westland, Chelmsford Centre, yesterday afternoon, Oct. 6, 12. West. The Rev. Mr. Armstrong, pastor of the Baptist church, officiating. Mrs. F. M. Johns sang appropriate selections. The bearers were Willis E. Hatch, Geo. L. Hatch, Fred Hazen and Horace Fullen. Burial was in the family lot in Riverside cemetery at North Chelmsford, where the burial service was read by Rev. Mr. West. The funeral was under the direction of Undertaker W. Herbert Blake.

SPOTT—The funeral services of Edw. Spott were held at his home in North Billerica yesterday afternoon, Oct. 6, 12. West. The Rev. Mr. Armstrong, pastor of the Baptist church, officiating. Mrs. F. M. Johns sang appropriate selections. The bearers were Willis E. Hatch, Geo. L. Hatch, Fred Hazen and Horace Fullen. Burial was in the family lot in Riverside cemetery at North Chelmsford, where the burial service was read by Rev. Mr. West. The funeral was under the direction of Undertaker W. Herbert Blake.

BLACK—The funeral of Mr. John Black took place this morning from the chapel of William A. Mack, 76 Gorham street, at 8.15 o'clock and was largely attended by relatives and friends. At the immediate conclusion church a funeral high mass of requiem was celebrated at 9 o'clock by Rev. James McCarroll, O.M.I. The choir sang the Gregorian mass. The soloist was sustained by Mr. Charles Smith and Mrs. Walker. The organist was Mrs. Walker. There were many beautiful floral tributes. In attendance at the funeral were Mrs. M. Palmer, Mass., Boston and Springfield. The casket was borne from the church to the house by the following relatives and friends: Messrs. James McNamara and John Shields. Timothy McNamara and John Shields. Burial took place in the family lot in St. Patrick's cemetery where Rev. James McCarroll, O.M.I., read the committal prayers at the grave. Undertaker William A. Mack had charge of the funeral.

REQUIEM MASSES

McDONALD—There will be a high mass of requiem Friday morning at 8.45 o'clock at St. Patrick's church in loving memory of Jas. McDonald. CELIA McDONALD.

BROSNAN—There will be an anniversary high mass Wednesday morning at 7 o'clock, at St. Columba's church for William Brosnan and Bridget Brosnan.

QUINN—A solemn anniversary requiem mass will be celebrated at the Sacred Heart church Wednesday morning at 8 a. m. for John F. Quinn.

FAHIGAN—There will be a second anniversary high mass of requiem tomorrow morning at 8 o'clock at the Immaculate Conception church for Charles H. Farrell, who died Oct. 6, 1917.

BY HIS WIFE, FATHER and CHILDREN.

IN MEMORIAM
In loving memory of Cornelius Griffin, who died October 9th, 1918. A sadness rests upon his home, they miss his kindly face; Where'er they turn, wherever they go, They feel his vacant place. Just friends,
MR. and MRS. J. L. ANDERSON.

FUNERAL NOTICES

GLYNN—The funeral of John F. Glynn will take place Thursday morning from the home of his sister, Miss Ellen M. Glynn, 129 Worthen street. Time to be announced later. Burial will be in the family lot in St. Patrick's cemetery under the direction of Charles H. Malloy's Sons, undertakers.

STEWART—The funeral of John T. Stewart will take place on Wednesday morning at 8 o'clock from his late home, 30 Railroad street. Funeral high mass of requiem will be in St. Patrick's church at 9 o'clock. Burial will take place in St. Patrick's cemetery. Undertakers M. H. McDonough Sons in charge.

SUN BRIEVITIES

Best printing, Tobler's, Associate bldg. real estate and insurance. Telephone.

Miss Helena Delisle, of 12 Dodge street has resumed her vocal studies at the New England Conservatory of Music at Boston.

Examination for commissions as officers in the high school regiment, open to junior boys, will be held on Friday, Oct. 17 after school hours. The tests will be written.

The executive committee of the Lowell board of trade yesterday listened to the reading of a communication from the National Association of Fire Underwriters touching upon the campaign for strict adherence to fire prevention methods. The committee voted to co-operate in every possible way.

IN MEMORIAM

In loving memory of Gerard T. Mansfield, who died Oct. 6, 1918. Gone but not forgotten by his friends,
JOSEPHINE, JULIA and HELEN CRANE.

EDITOR OF HARPER'S DEAD
NEW YORK, Oct. 7.—Henry Mills Alden, editor of Harper's magazine since 1869, died at his home here today, after a long illness. He was 82 years old.

Federal Troops in Control

Continued
the mayor, the police and 300 state militiamen stationed at Gary.

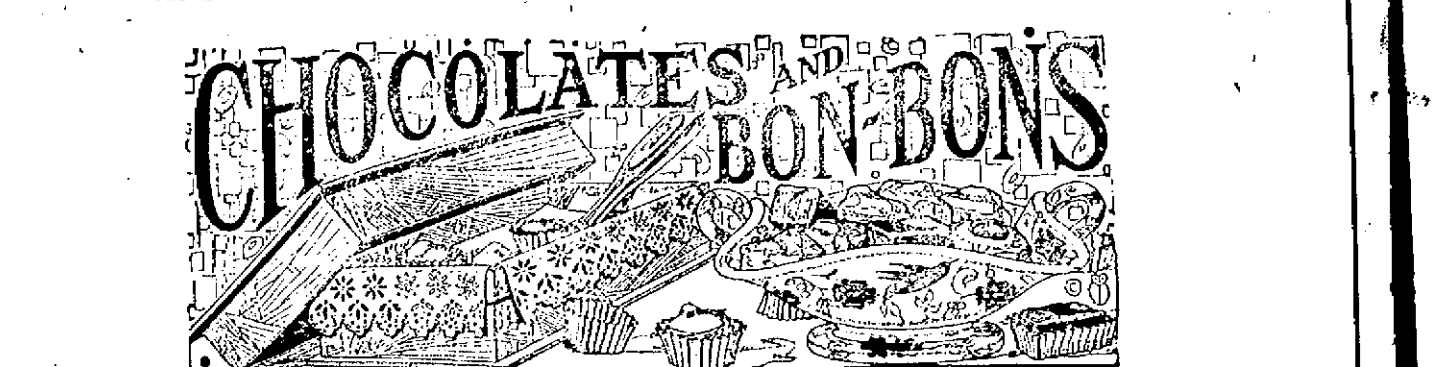

With reports that strikers in increasing numbers were resuming their places in the mills, the attitude of pickets has become threatening and for a time it seemed as if a serious clash would be unavoidable.

The state militia were ordered to Indiana Harbor and East Chicago, Ind., where Gov. Goodrich declared martial law.

Gen. Wood has forbidden public meetings, parades and demonstrations in Gary. Carrying of weapons by persons other than the police, military authorities, troops and members of the city government also is forbidden.

It was made plain that martial law had not been declared in Gary. The federal troops, it is stated by a member of Gen. Wood's staff, will be used to preserve order in conjunction with civic authorities.

One of Gen. Wood's first actions here was to call a conference of city officials and strike leaders. Oscar Anderson, a

APPRECIATION

We wish to extend to our many patrons our sincerest appreciation for their acknowledgment of the opening of our new store this morning. Under such conditions of interest and patronage on your part we have been encouraged to continue our service in such a way that everyone who enters this store will leave with a pleasant feeling of satisfaction and the assurance that we were able to give them just what they desired. We believe in this business that **COURTESY IS AN ASSET**. Therefore we shall make a specialty of giving courteous treatment to all.

To those of you who have not had the opportunity to patronize this store as yet, we extend a most cordial invitation to do so. We **CAN AND WILL PLEASE YOU**. You will find an assortment of candies and bon-bons here that is the very best in the city—fresh, home-made and delightfully delicious.

Perhaps after a purchase of candy you will be interested in our large, beautiful soda fountain. Here, too, you will find something in the ice cream line that will just suit your taste.

WE THANK YOU
"At The Old Stand"
A. M. NELSON
68 Merrimack Street, Lowell

which were forced to shut down two weeks ago when the strike of steel workers was initiated, were operating today, according to company sources. Some were running full time. Union leaders declared that the mills reported to have resumed work yesterday had few men on the job. Latest figures from union headquarters as of Oct. 6, indicate that 307,500 steel workers are on strike in the United States. This is an increase of \$5,000, compared with the figures issued shortly after the strike started.

Cars Held Up; Shots Fired
BUFFALO, N. Y., Oct. 7.—Several men were slightly hurt and one was reported wounded by a bullet from a revolver today when a crowd of 1000 men held up cars of the Buffalo and Lake Erie Traction Co., between the city line and Lackawanna. Ties and blocks of concrete piled up on the tracks held up the first car, and ultimately blocked six of them carrying workmen to the Lackawanna Steel Co., one of the three local plants closed by the strike.

WALTER E. GUYETTE Auctioneer
OFFICE 33 CENTRAL STREET, LOWELL, MASS. TEL. 2445

CENTRALVILLE, LOWELL, MASS.

THE TWO WELL KEPT AND WELL SITUATED COTTAGE HOUSES AT NO. 155 WEST SIXTH STREET, CORNER OF WEST STREET, AND NO. 151 WEST SIXTH STREET, PLEDGED IN TWO SEPARATE PARCELS TO THE HIGHEST BONA FIDE BIDDERS, AT UNRESTRICTED AND ABSOLUTE PUBLIC SALE, ON SATURDAY, THE ELEVENTH DAY OF OCTOBER, 1919, COMMENCING PROMPTLY AT 3.30 O'CLOCK, P. M., WITH THE HOUSE NUMBERED 155 WEST SIXTH STREET, AND FOLLOWING IMMEDIATELY WITH THE DWELLING NEXT ADJOINING AT NO. 151.

COTTAGE NO. 155 WEST SIXTH STREET, CORNER WEST
This house has seven splendid rooms, four on the first floor, and three chambers on the second; also pantry, toilet, gas, city water and sewer connections. The house is supplied with two side entrances, has cemented cellar and is in perfect repair, only recently being entirely gone over. The lot is of good size and dimensions, having a splendid frontage on the two streets, is fenced on all sides. This cottage, with its corner location and being of full size makes it a most attractive home.

Terms: \$200 must be paid to the auctioneer as soon as struck off other terms at sale.

COTTAGE NO. 151 WEST SIXTH STREET
Has six good rooms, besides large pantry, gas, city water, toilet and sewer connections; the house has three rooms on the first floor and three chambers on the floor above, has side entrance and is in A-1 condition; the building only recently being thoroughly renovated inside and out. The lot is of good area, with a corresponding frontage on West Sixth street and is fenced on all sides. The premises have been occupied by the tenant for the 15 years past, which fact in itself speaks of the premises as most attractive. Terms: \$200 must be paid to the auctioneer just as soon as struck off; other terms at sale.

In the offering of the above described cottages at public sale, the opportunity to secure a home in this, an essentially home locality, within easy and comfortable walking distance to Merrimack square, to the various mills and factories, and have a home all by yourself is here given. With the great scarcity of tenements, and with the large number of people of moderate means looking to buy a home, and with the very few parcels suitable for sale, this chance to obtain a home in this splendid location should be acted upon by the many, many numbers of home-seekers.

In all probability a most liberal mortgage can be obtained at 6 per cent. Make all inquiries at the office of the auctioneer.

Per Order of JOHN C. LEGGATT, Attorney.
